GLUCKMAN

CAPE TOWN & KRUGER SAFARI PARK, SOUTH AFRICA

28 FEBRUARY - 06 MARCH 2027

32ACADEMY

Clinical excellence in Cape Town and once in a lifetime Safari experiences

Join us for

The Immediate Implant Protocols with Partial Extraction Therapies (PET)

*Course led by the world renowned **Prof. Dr. Howard Gluckman**, combined with unforgettable South African Safari experiences in Kruger National Park.*

Only **20 participants** are accepted in this program.

32ACADEMY

EXPERIENCE **OVERVIEW**

Immediate implantology has redefined the way clinicians preserve tissue architecture, manage complex cases, and achieve predictable aesthetic outcomes.

Under the guidance of Prof. Dr. Howard Gluckman, a global authority in immediate implantology and PET techniques, you will discover advanced protocols in an exceptional 7-day educational program held in Cape Town, South Africa.

Beyond the classroom, discover the beauty of South Africa, unwind at the extraordinary 5-star Radisson Hoedspruit Safari resort, and enjoy unforgettable moments in Kruger National Park.

With all logistics included from the moment you land in Cape Town until the last day of departure, **carefully organized by 32 Academy**, all you have to do is enjoy this journey, participate in high level education, and create memories in a Safari experience you will never forget!

32ACADEMY

COURSE **OVERVIEW**

The Immediate Implant Protocols with Partial Extraction Therapies (PET) Course provides you with a comprehensive understanding of modern implant placement techniques designed to preserve hard and soft tissue architecture.

This two-day intensive program integrates current scientific evidence with practical, hands-on training to enhance both surgical and restorative outcomes.

You will explore immediate implant placement strategies, provisionalisation protocols, and the principles of partial extraction therapies, including the Socket Shield technique, under the guidance of Prof. Dr. Howard Gluckman, world renowned dentist and implantologist.

Prof. Gluckman manages a private practice in Cape Town, co-directs the Implant and Aesthetic Academy, he is an Adjunct Assistant Professor at the University of Pennsylvania, specialized in immediate Implant Placement, Soft Tissue Aesthetics and Periodontal Plastic Surgery.

The course highlights treatment planning, risk assessment, and complication management, equipping you with predictable methods to achieve aesthetic and functional success in complex implant cases.

32ACADEMY

LEARNING **OBJECTIVES**

By the end of this course, you will be able to:

- Understand the biological rationale and clinical indications for immediate implant placement;
- Apply prosthodontic and surgical planning concepts for immediate implant protocols;
- Perform step-by-step immediate implant placement and provisionalisation on models;
- Recognise the indications, benefits, and limitations of partial extraction therapies (PET);
- Implement the Socket Shield and related PET techniques to preserve ridge and tissue form;
- Manage potential surgical and prosthodontic complications associated with IIP and PET;
- Integrate immediate implant and PET workflows into everyday clinical practice with confidence.

32ACADEMY

DISCOVER SOUTH AFRICA THROUGH A ***5 STARS SAFARI EXPERIENCE***
