SOFT TISSUE AUGMENTATION AROUND IMPLANTS

Giovanni Zucchelli

BOLOGNA
OCTOBER **20-21-22**

An extraordinary new course offered at an exceptional price

osteocom
The dental learning platform

COURSE DESCRIPTION

The cornerstone of exceptional success in implantology is the mastery of soft tissue management: the factor that elevates an implant to a seamless outcome.

By employing innovative techniques and a strategic approach, it becomes possible to shape peri-implant tissues that deliver both aesthetic harmony and optimal functionality while also ensuring the prevention and management of complications.

This is a unique opportunity to participate in the first course entirely focused on soft tissue augmentation around implants, designed and led by the renowned Prof. Giovanni Zucchelli with a complete step-by-step documentation of the most relevant techniques, applicable in every possible clinical implantology scenario.

Join Prof. Giovanni Zucchelli

A comprehensive learning experience on innovative techniques.

WHY TO ENROLL

3 PARTS COURSE

THEORY

Immerse yourself in the forefront of knowledge with live lectures personally conducted by Professor Zucchelli. Gain access to cutting-edge insights, real-world case studies, and in-depth discussions and step-by-step protocols

LIVE SURGERY

Witness live surgical procedures, as Professor Zucchelli shares his expertise and insights during surgery planning and discussions.
