Putting you first - ViCentra’s privacy statement

Your privacy is important to us. We know that’s what all privacy statements say but we mean it. Putting people first is one of our most important principles - we treat others as we want to be treated and look out for each other. That includes protecting and ensuring you have control over your own personal data.

This statement explains (hopefully in a clear and straightforward way) how we collect, transfer, process, use, disclose and look after any personal data you give us (regardless of where you are from or how you provide it). This statement also tells you about our security practices, your privacy rights (including how you can get access to your personal data) and how the law protects you. We’ve also added a definitions section (Glossary) to explain the meaning of some of the terms used.

For ease you can click on the below headings to go straight to a part which interests you or you can download a pdf version of this policy here.

It’s important to add that we might need to update this statement from time to time. When we do update we’ll always let you know what’s changed, or what is new, on this page. As such it’s good to check this page from time to time to read and understand our statement as well as any other privacy or fair processing notice we may give you when we’re collecting or processing your data. It’s equally important that the personal data we hold about you is accurate and up to date. As such we ask that you keep us informed if your personal data changes during your relationship with us.

This privacy statement supplements any other privacy notices we give you and is not intended to override them.

If you wish to get an explanation as to how the processing for the new purpose is compatible with the original purpose, please contact our DPO.

We require all third parties to respect the security of your personal data and to treat it in accordance with the law. We do not allow our third-party service providers to use your personal data for their own purposes and only permit them to process your personal data for specified purposes and in accordance with our instructions based on proper processing agreements, including appropriate confidentiality clauses.

Many of our external third parties are based outside the European Economic Area (EEA) so their processing of your personal data will involve a transfer of data outside the EEA. We ensure your personal data is protected by requiring all our third party partners to follow the same rules when processing your personal data.

Whenever we transfer your personal data out of the EEA, we also ensure a similar degree of protection is afforded to it by ensuring at least one of the following safeguards is implemented:

For further details, see European Commission: [Model contracts for the transfer of personal data to third countries](#).
• Where we use providers based in the US, we will only transfer data to them if they are part of the Privacy Shield which requires them to provide similar protection to personal data shared between the Europe and the US. For further details, see European Commission: EU-US Privacy Shield

Please contact our DPO if you want further information on the specific mechanism used by us when transferring your personal data out of the EU or the EEA.
