DHARMA IN EUROPE

Sri Kaleshwar's Statements

Announcing Foundation of Kaleshwar e.V.

Your Swami cooperated with a few students in Germany to start a Foundation there (Swami receives from Tobias the Foundation certification paper.) It's called, Sri Sai Kaleshwar Foundation. It's helping the charities. **It's for everybody's protection and the teachers need to be under that umbrella.** Right now it's Tatyanna and Tobias — they're the Chairpersons. I am too Tobias?

Tobias: Yes.

Swami: If you invite, I'll try. It's okay. I have a lot of organizations, I'm tired. **I recommend all the European students to have a look at that Foundation, go under that umbrella, and do a lot of charitable activities using that name.** Doing it heartfully, not expecting anything from the organization. Totally it's going for charities in your countries. It's good if you can follow that.

Role of Kaleshwar Organization

Message by Sri Kaleshwar to European Teachers

Hi my divine students,

Basically a few points what I want to tell you to make you guys activated in a more powerful way in the mission of Sri Sai Kaleshwar organization in Germany.

- Point one: **establish the charitable activities in Germany** and help the poor and poverty.
- And another point, a major important thing is to **spread the knowledge** of the Indian culture and heritage and to spread the human relationships and to help the society through your divine energy, whatever you are carrying from India, to spread it all over Europe and the globe.
- And I personally recommend to you guys, each individual person: **Whatever future seminars you are giving and everything, try to go under and through the Sri Sai Kaleshwar organization.** It'll be great in the future to be under one umbrella. Under one umbrella we can do amazing service to the globe. So I believed and I saw and I really respect and it's so good to establish unity through one organization. In the future, this organization has to grow and take off in a beautiful way.
- As the senior students who are working with me... and it is really super advisable to you guys to work out with this. **And moreover, it helps to your Swamis mission here in India and it helps to each person individually to receiving the seniority in this organization to be as a great teachers.**
- And at the same time **try to make your students to do some charitable activities and at the same time – whatever the sadhanas (they do) – make it linked with this organization.**

It helps and it really promotes the Guruparampara's belief systems and to grow the sathya, dharma, shanti, prema.

Protecting Sri Kaleshwar's Name & Mission

Email Message

Message by Sri Kaleshwar to European Students

My Dear Divine European Students,

Concerning the misusing of the content of Swami Kaleshwar's name, I am personally and heartfully hiring Tobias and Tatyanna Gonschorek (*now Remppal*) as responsible for Europe. I'm charging them to check anybody who is doing any seminar, workshop, or healing using Swami Kaleshwar's mission and name.

All types of students, before they are giving workshops, seminars, or sending flyers, newsletter, or articles, please consult with my staff Tobias and Tatyanna. I heartfully support you whatever you are doing for the globe and the mission. No matter what I will stay with you, but try to check with me or my staff. It needs to get approved first, then you can take further action.

Don't take it personally, but it's Swami Kaleshwar and Shirdi Sai Global Trust's (India) mission. Heartfully and lovingly I am asking all of the European students for your cooperation and support.

Your loving Swami for ever and ever, all my love and blessings.

Sri Kaleshwar from Penukonda, India

(sent via Email to all of his students and published on kaleshwar.org)

Commitment between Sri Kaleshwar, Tatyanna & Tobias

Tobias and Tatyanna, I like them, I love them, they are my dear good friends.

The point is, in my mission — Tobias and Tatyanna — they are my partners, anything if I did a good work, they are part of it. If I did anything bad work, they are part of it.

Especially Tatyanna she promised — she really promised she will do or die for my mission and stick with me forever and ever no matter what...

I like my big brother Tobias and he is also happy to do lot of works for me and take care of all angles of phenomena and take care of whole entire Europe and certain angles in the globe also solve the problems.

Tobias and Tatyanna they will stand — do or die — for the rest of their life. It's a big contract they are signing to me. It's a legal contract and soul contract and moral contract all angles they don't have any right they can change this contract. They are working for me no matter what. I really respect them and I heartfully thank to their hearts, their fathers and mothers and God bless them and their health and their happiness. All the Europeans have to owe them a lot. They're really doing amazing service.

Sri Kaleshwar about the „Elefant Group“

And the elephants group, especially those who did a lot of hard work for me in my life, supported me in my life, heartfully they did amazing hard work for me. They really sacrificed twelve years of their life to me. Of course, I owe them; and many senior students also did seva, I owe them too. I will fulfill whatever I promised to them.

Very soon I'm giving my mission in their hands. I have strong belief, they'll carry it in a beautiful way, to run this chariot in a beautiful way. I believe and I hope.
