

*„I am the Nature.
...the Heartbeat of Creation.“*

Sri Kaleshwar

Jesus Christ

is amazing,
the most powerful miraculous person
I've ever seen in my soul history.
Such an amazing soul character.
He accepted the nature of the Mother,
he accepted the crucifixion.
And he suffered for the creation.
She's responsible for the whole
creation. There's a big statement:
,He suffered for us.'

Of course she also created us. He doesn't need to suffer for us because already she will take care. So he made kind of a bridge between Her - Her games or Her lilas, illusions - he wants to be like a friction, like a suspension. Whatever the weight She wants to give, to put on you, he's taking the majority of it on himself. So how you can take that same level?

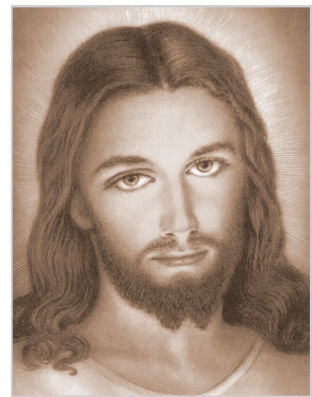

I produced the most short-cut ways. The Guru Parampara will come as a bridge so that no maya will come between you and the Mother. That's why I'm here, that's why I was born in this planet, to cut the maya from any of your next incarnations, next incarnations, next incarnations.

Every saint has been through the maya. They struggled for awhile in the maya. It's a natural law. Once we come as a human being for a period of time we need to go through a harder time. No matter how big of a person you are, how much of a layman you are, even you're sitting under the tree leading a simple life, or you're living in a palace with hundreds of doctors around you, no matter what, for a period of time you need to go through. That is the law.

It's enough what you've been through. It's enough. You want to go through more? Because of this already I'm a maya. I've given you enough hard time. I've given you enough hard time. Instead of Mother giving you illusions in a crazy way, gently I handled you to fix it, pushed it - the time cycle.

The final ultimate (goal) is to come out of the maya and have enough strength and abilities to walk in your mission and keep continuing your journey - create peace and healing around you.

Like a point, the master is a point, just a point, a dot. You can't envision the whole nature. In the nature, you're taking a small seed, your master. From there you're sucking everything. From there you can create everything. From the nature through the master's structure the energy is coming in you. It's important.

I'll be with you no matter what. I'll be with you no matter what. I will be with you no matter what! In any circumstances, any painful time, hard time, happy moments, any moment, the Guru Parampara is with you.

I am the nature, no separation. I know exactly how you feel. I am the Mother. I am the heartbeat of creation. I command on the nature - No - I am the nature, the trees, the wind, the sun - everything.

*Wherever you are, I am there.
Wherever you go, I will be there.
Trust me. I am your shadow.
I know to take care and protect.*

I will protect you forever and ever.
