

## JOB DESCRIPTION

### Highways Construction Engineer

# ATKINS

Member of the SNC-Lavalin Group

**Organisation name:** Atkins

**Job title:** Highways Construction Engineer

**Reports to:** Highways Project Manager

#### Role responsibility

We are a renowned design, engineering and project management consultancy. Through our people, technology and data – we turn predictions into projects to make our world more sustainable.

As part of our Transportation Division, you will deliver the highest technical standards across a variety of local and national projects for both private and public sector clients. From detailed design to delivery support, you will be contributing to a more mobile and accessible future.

#### Role duties

- Assist with technical reviews of highway infrastructure projects.
- Coordinate and support the execution of new installation and construction works.
- Collaborate with other specialists to deliver designs.
- Liaise with our customers to deliver outstanding service.
- Support management with day to day oversight of contractors, reviewing work plans and safety processes.
- Create design resource estimates and construction cost estimates.
- Prepare technical proposal documents and present these to senior managers.
- Analyse processes and impacts to provide recommendations and solutions.
- Ensure compliance with business systems and processes, including risk management.
- Facilitate meetings and training to drive your own development and the development of others.

#### Qualifications and skills

- On track to receive a 2:2 or above in a relevant degree.
- Demonstrates commercial awareness and a willingness to learn about our operations.
- Ability to manage multiple priorities, meet tight deadlines and work under pressure.
- Strong communication and interpersonal skills.
- An effective team member.
- Aptitude to work on your own initiative and be proactive.
- Highly motivated and willing to take on new challenges.
