

JOB DESCRIPTION

Digital Designer

Organisation name: Curve
Job title: Digital Designer
Reports to: Product Manager

Role responsibility

We are a rapidly growing start up that has developed a ground-breaking product to simplify finances. Through one simple card, our customers can make quick and efficient choices on how to spend, send, see and save their money. With lots of funding from leading names in tech investment, our user base is growing significantly. Our innovative team will provide you with lots of opportunities to develop products and develop yourself.

As a Digital Designer, you will define how our customers interact with Curve. From inception through to implementation, you'll have accountability for all the different stages of the design process. You will be creating and testing your designs with customers across the globe.

Role duties

- Understand and deliver the vision for Curve.
- Take the initiative on projects and deliver outcomes in a fast-paced working environment.
- Research ideas to support our strategy and be flexible to the changing needs of our customers.
- Design workflows and detailed interactions to see them come to life.
- Work with product managers to run experiments, testing your design ideas.
- Collaborate with engineers to create and launch your designs.
- Validate your designs by completing tests and using customer feedback.
- Review and update our systems and processes, ensuring that we are always delivering a relevant and outstanding service to our customers.

Qualifications and skills

- On track to achieve a 2:1 or above in Computer Science or technology related degree.
- A basic understanding of prototyping software such as Protopie or Framer for example.
- Interest in designing and implementing solutions to solve customer problems.
- Excellent communication skills, both written and spoken.
- An ability to work under pressure and deliver to deadlines.
- A willingness to adapt to new tools and ideas.
- Shares knowledge and works effectively in a team to deliver objectives.

This job description is a case study only. It should not be considered as an accurate description of a live role within the named organisation.
