

Introducing bow ties and defeating barriers

This pack includes the following:

- Powerpoint slides which can be adapted to suit
- Blank bowtie poster
- Barriers to be printed and cut out (two copies of each required)
- Barrier integrity dashboard
- Barriers information cheat sheet

You will also need small, coloured stickers or coloured pens (green, yellow and red)

Create bowtie (approx. 15min):

There should be two copies of each barrier – some could be placed on both sides.

The barriers are coloured according to People, Plant and Process.

Defeating the barriers (approx. 25min):

Use the dashboard to assign red, amber, green condition to each of the barriers. What does this mean to safe operations?
