

Garden Centre Plants Info Sheet

Lavandula Angustifolia Scent Blue Early

- Deep violet-blue blooms from late spring through to summer.
- Attracts pollinators like bees and butterflies.
- Compact & Low-Maintenance – Roughly 30 – 40 cm tall, making it ideal for pots, borders, and sunny, well-drained spots.

Geranium Maculatum 'Espresso'

- Bronze coloured leaves that provide eye-catching colour all season.
- Soft pinkish-lilac flowers bloom from late spring to summer.
- Versatile, thriving in both sun and partial shade.

Geranium Phaeum 'Joseph Green'

- **Double Flowered Blooms** – Featuring layers of deep dusky-purple petals.
- **Thrives in Shade** and damp areas.
- **Low maintenance** Incredibly resilient in freezing temperatures.

Geranium Sanguineum 'Max Frei'

- Bright pink flowers that bloom all summer long & attract bees.
- Leaves change colour from green in summer to bright red in autumn.

Geranium 'Mrs Kendall Clark'

- Look: Pale, soft violet -blue flowers with distinctive white veining.
- Size: Grows in bushy mounds up to 60-90cm tall.
- Care: Thrives in full sun to partial shade; cut back after blooming to encourage fresh new growth.

Geranium 'Orkney Cherry'

- Look: Vibrant, vivid pink flowers that contrast beautifully against dark, bronze-flushed foliage.
- Size: Low-growing and ground-hugging; ideal for rockeries or cascading out of pots.
- Season: Exceptionally long flowering period from late spring right through to early autumn.

Geranium 'Westray'

- Look: bright pink flowers paired with aromatic, lime-scented green leaves that turn bronze in autumn.
- Size: Low-growing, dwarf perennial that forms a dense, weed-proof carpet.
- Care: Tough and low maintenance; tolerates both dry shade and full sun.

Geranium x Magnificum (Purple Cranesbill)

- Look: Large, intensely rich violet-purple flowers with dark veins.
- Size: Clump-forming, robust perennial with hairy, deeply lobed leaves that turn fiery red orange in autumn.
- Season: Blooms in early summer.

Hosta Mixed

- The Look: Big, beautiful leaves in shades of green, blue, and cream.
- Loves shaded and damp areas.

Buddleia Butterfly Candy Little Pink

- The Look: A mini bush packed with pink flower spikes.
- Best Trait: Pollinators absolutely love it!
- Perfect size for patios and small balconies!

Choisya Sundance:

- The Look: Bright golden-yellow leaves that stay colourful all year.
- White flowers bloom in spring that smell like orange blossoms.

Cistus Creticus

- The Look: Pretty pink flowers that look like crinkled tissue paper.
- Loves hot sun & barely needs any watering.
- Perfect for dry, sunny spots or sandy soil.

Cistus x Corbariensis

- The Look: Green bush covered in pure white flowers with yellow centres.
- A tough, evergreen plant that thrives on neglect.

Escallonia Apple Blossom

- The Look: Shiny green leaves with pink and white flowers.
- Stands up in strong winds and salty sea air.
- Great for a thick flowering hedge.

Hypericum Hidcote

- The Look: Big, bright yellow flowers that look like cups.
- Flowers are non-stop from mid-summer until autumn.
- Grows anywhere (sun or shade).

Potentilla Bella Rose

- The Look: A compact, little & round bush of deep pink flowers.
- Survives winter and freezing temperatures.
- Very low maintenance after you plant.

Potentilla Bellissima

- The Look: Neat green leaves hidden under tons of bright pink blooms.
- Keeps flowering from June right up until the first frost.
- A no fuss plant.

Miscanthus Ferner Osten:

- Produces dark red floral plumes in late summer that fade to silver-white by late autumn and through winter.
- Green leaves turn copper-red in autumn.
- Reaches 1.5-1.8 metres in height.
- Grows best with lots of sunlight and in well-drained soil.

Miscanthus Gracillimus:

- Grows to 1.5 – 2 metres.
- Blooms in autumn – copper red. These turn to silver through winter.
- Grows best with lots of sunlight and in well-drained soil.

Miscanthus Morning Light:

- Grows to 1.2-1.5 metres.
- Blooms red/bronze plumes in mid to late autumn (may not grow in too cool conditions).
- Grows best with lots of sunlight and in well-drained soil.

Herbs:

Chives:

- Edible and great for use in foods or as a garnish – has a mild onion like flavour.
- Perennial.
- Can grow in both shaded areas and areas with lots of sunlight.
- Grows best in well-drained soil.
- Grows to 30-50cm.
- Blooms purple flowers in late spring.

Lavender Platinum Blonde:

- Grows to 40-60 cm tall.
- Mid to late summer blue-violet flowers bloom.
- Classic lavender scent.
- Variegated (yellow and green).

Lemon Balm Variegated:

- Sweet lemon scented with a hint of fresh mint.
- Ideal for use in homemade teas, cocktails, iced waters and salads.
- Extremely hardy and very low maintenance.
- Repels pests and a favourite for pollinators.

Mint Green:

- Ideal for use in cocktails, iced teas, salads, and culinary dishes.
- Low maintenance plant and needs minimal care.
- Thrives in full sunlight or partial shade.
- Perfect for pots.
- Repels pests and a favourite for pollinators.

Parsley Flat Leaf:

- Richer taste than traditional curly parsley.
- Grows fast and all season long.
- Very resilient plant.
- Thrives in full sunlight or partial shade.
- Perfect for pots.
- Perfect for culinary use.
- Packed with vitamins A, C and K.

Rosemary Green Rosi:

- Perfect for seasoning dishes.
- Perfect for pots.
- Thrives in well lit spots and the heat.
- Grows best in well-drained soil (Requires very little watering).
- Blooms blue flowers.
- Repels pests and a favourite for pollinators.

Sage Purple Beauty:

- Reddish-purple leaves.
- Perfect for seasoning dishes.
- Low maintenance (Requires very little watering).
- Thrives in the heat.
- Blooms blue-violet flowers.
- Repels pests and a favourite for pollinators.
