### AI ENGLISH MASTERCLASS & PRACTICE C1.3 WITH TESTS

#### Descripción

Aprende a comunicarte en inglés desde el primer momento con un curso práctico y dinámico. A lo largo de la formación contarás con el acompañamiento de tu tutor/a de inglés y el apoyo de un profesor de IA que, mediante masterclass y actividades interactivas, te ayudarán a reforzar los contenidos y practicar el idioma. Además, realizarás actividades de conversación, escritura y expresión oral para usar el inglés en diferentes situaciones y ganar confianza a medida que avanzas.

#### Objetivos

- » This course for advanced learners presents more challenging aspects of the English language, with content at the C1.3 level of the CEFR. By covering the grammar and vocabulary needed to talk about language and express opinions about art and culture, the course gives learners the opportunity to start using the language straight away. Learners will also see vocabulary related to food, some popular neologisms and idioms, as well as revise talking about adapting to new situations using be and get used to.
- » Each unit starts with one or more Masterclasses, with an AI teacher presenting new grammatical or lexical content. Learners then use this information to participate in role-play and conversation activities, which encourage them to use the language spontaneously and meaningfully.
- » The writing and speaking assignments that follow offer the chance to use the language in a range of situations. The student needs to follow the instructions to create short written and spoken texts, which allow them to reuse the new language independently.
- » The course also includes periodic tests to assess progress, and an AI final test contains a range of exercises to check the student's comprehension of the objectives covered in level C1.3.
