

**Lincoln Bishop
University**

**MA Education:
English as an Additional Language (EAL)
(Part-time Blended)**

Programme Specification

This document provides a concise summary of the main features of the course(s) & associated award(s) offered through this Programme Specification, and includes the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if they take full advantage of the learning opportunities provided. More detailed information on the learning outcomes, curriculum content, teaching/learning, assessment methods for each module and on the Programme's relationship to QAA Subject Benchmark Statements may be found in the dedicated student handbook for the Programme. The accuracy of the information in this document is reviewed periodically by the University and may be subject to review by the Quality Assurance Agency for Higher Education or by other national bodies.

Versioning of Programme Specification

This programme specification is valid for the period of approval confirmed at the time of the approval/last review event and relates to provision approved at that point. Programme specifications may be updated during the period of approval to include modifications approved through the University's quality assurance processes.

This version provides a description of the programme as approved for the academic session(s) indicated in section 3 of the following table.

1	Senate approval – date and outcome of last approval	10 July 2025
2	Next Scheduled Review Date: [Month/Year]	July 2030
3	Programme Specification - Effective date: [Day/Month/Year]	1 September 2025
4	Version Number	v1.0

Modifications to Programme Specification

Modifications to the programme specification since approval/ last review, and the cohort(s) of students affected by the change, are listed in Section H (Log of Modifications) at the back of the document.

Cross Referencing of Programme/Module Specifications

Modifications to any elements of Module Specifications attached to this Programme will be updated and then changes made to this document to reflect that. On each Module Spec the Programmes it relates to are clearly indicated for cross referencing.

Programme Specification

The information in this document is organised into the following sections:

Section A – Administrative and Regulatory Information

Section B – Outcomes

Section C – Structure

Section D – Teaching, Learning and Assessment

Section E – Programme Management

Section F – Mapping

Section G – Graduate Attributes

Section H – Log of Modifications

SECTION A – ADMINISTRATIVE AND REGULATORY INFORMATION

1	Programme Specification Title
	MA Education: English as an Additional Language (EAL)
1a	Programme Code
	EDEALB_1.0
2	Brief Summary (for Marketing Purposes)
	<p>The part-time blended MA Education (EAL) is an exciting two-year programme designed for education practitioners working with learners who have English as an Additional Language, and who are wishing to develop an in-depth and advanced knowledge of their field informed by current practice, scholarship, and research. This will include a critical awareness and understanding of theory and practice, which will inform and develop effective EAL practice. The blended design of the course allows learners to enjoy a great deal of flexibility while still have the opportunity to network with their peers and be taught by a team of expert specialists in person during their MA Weekends.</p> <p>This part-time programme consists of five modules aimed at developing your expertise in EAL. During the first year of study in Trimester 1, your module will guide you to explore key challenges within your professional context while reflecting on the influence of policy. This is followed by two specialist modules in Trimesters 2 and 3 in which you will explore how to support EAL learners in the classroom, and best practice in whole-school approaches for EAL support. During the second year of study, you will undertake a module about research skills in preparation for conducting a research project focusing on an area of your choice.</p> <p>The MA is suitable for those working in a wide variety of educational contexts: mainstream education, home-schooling or other educational support services and contexts. On completion of</p>

the MA, you will have developed your critical understanding of education and related issues, theories and concepts, deepened your knowledge in your chosen areas of focus and enhanced career prospects in the workplace. For this reason, the MA Education (EAL) is also perfect for preparing learners wishing to undertake further studies, such as our EdD (Doctor of Education) and PhD (Doctor of Philosophy) programmes.

3	Awarding institution	Lincoln Bishop University

15	Date and outcome of last PSRB approval/accreditation	N/A
16	Expiry Date of PSRB approval	N/A

SECTION B - OUTCOMES

17	QAA Benchmark Statement(s)
	<p>The QAA does not provide Benchmark Statements for postgraduate level in Education Studies. Therefore, Benchmark Statements have been aligned to the Framework for Higher Education Qualifications (FHEQ) of UK Degree-Awarding Bodies that states:</p> <p>Master's degrees are awarded to learners who have demonstrated:</p> <ol style="list-style-type: none"> 1. a systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of their academic discipline, field of study or area of professional practice 2. a comprehensive understanding of techniques applicable to their own research or advanced scholarship 3. originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline 4. conceptual understanding that enables the student: <ol style="list-style-type: none"> a. to evaluate critically current research and advanced scholarship in the discipline b. to evaluate methodologies and develop critiques of them and, where appropriate, to propose new hypotheses. <p>Typically, holders of the qualification will be able to:</p> <ol style="list-style-type: none"> 1. deal with complex issues both systematically and creatively, make sound judgements in the absence of complete data, and communicate their conclusions clearly to specialist and nonspecialist audiences 2. demonstrate self-direction and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional or equivalent level 3. continue to advance their knowledge and understanding, and to develop new skills to a high level. <p>And holders will have:</p> <ol style="list-style-type: none"> 1. the qualities and transferable skills necessary for employment requiring: <ol style="list-style-type: none"> a. the exercise of initiative and personal responsibility b. decision-making in complex and unpredictable situations c. the independent learning ability required for continuing professional development.

18	Programme Aim
	<p>The MA Education (EAL) is an exciting and engaging programme designed to support and challenge thinking about education and contemporary education-related issues. Informed by current scholarship, research, and practice, it provides an opportunity for learners to develop transferrable skills and gain advanced knowledge and understanding in a specific area of professional interest, as well as other key aspects of EAL.</p> <p>The aim of the MA Education (EAL) is to develop postgraduates who can:</p> <ul style="list-style-type: none"> • Demonstrate a detailed and systematic knowledge and understanding of key contemporary EAL in education issues. • Develop and articulate an in-depth knowledge and understanding of a specialist area in education within the current educational context. • Develop a critical understanding of research and reflection, and the implications for professional practice. • Examine the relationships between theory and practice in education, drawing on relevant literature, published research and professional practice. • Develop a secure conceptual understanding that allows for critical evaluation of a wide range of literature on issues relating to EAL in education. • Evaluate and critique a range of methodologies and methods used in research and understand the relevant ethical issues. • Plan and undertake independent research using appropriate methodologies and methods and be able to communicate the outcomes of this to specialist and non-specialist audiences. • Apply research findings to elicit new insights for a relevant context and their professional impact.
19	Programme Specific Outcomes
	<p><u>Final Award Learning Outcomes</u></p> <p>On successful completion of MA Education (EAL), learners will be able to:</p> <p><u>Knowledge and Understanding</u></p> <p>KU1: Demonstrate a detailed systematic knowledge and understanding of key contemporary issues relating to EAL in education.</p> <p>KU2: Demonstrate a comprehensive and critical understanding of how a range of complex factors inform a wide range of policy and practice, and can impact on EAL.</p> <p>KU3: Demonstrate a systematic knowledge and understanding of methodologies and research design in contemporary EAL research.</p> <p>KU4: Demonstrate originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline</p>

Subject Specific Skills

SPS1: Demonstrate critical awareness of the impact research and reflection have on practice, including current problems and/or new insights, within educational contexts relating to EAL issues.

SPS2: Demonstrate the ability to make links between theory and practice in EAL-related educational contexts.

SPS3: Demonstrate the ability to plan research within an educational context and identify relevant ethical considerations.

SPS4: Apply own knowledge and understanding of educational research to successfully undertake a research project within a specific educational context

Intellectual Skills

IS1: Demonstrate conceptual understanding that allows for critical evaluation of a wide range of EAL literature.

IS2: Demonstrate originality in the articulation of knowledge to deal with complex issues systematically and creatively.

IS3: Demonstrate conceptual understanding that allows for critical evaluation of methodologies and methods in EAL research.

IS4: Evaluate own research critically and synthesise findings with existing knowledge to propose new hypotheses.

Transferable Skills

TS1: Communicate effectively to specialist and non-specialist audiences, both orally and in writing.

TS2: Demonstrate the independent learning ability required for continuing professional development.

TS3: Demonstrate self-direction, autonomy and originality in planning research.

TS4: Make sound judgements and apply the research undertaken to successfully elicit new insights for the relevant context.

20 Exit Award Learning Outcomes

On successful completion of a Postgraduate Certificate in Education (EAL), learners will be able to:

Knowledge and Understanding

KU1: Demonstrate a detailed systematic knowledge and understanding of key contemporary issues relating to EAL in education.

KU2: Demonstrate a comprehensive and critical understanding of how a range of complex factors inform a wide range of policy and practice and can impact on EAL.

Subject Professional Skills

SPS1: Demonstrate critical awareness of the impact research and reflection have on practice, including current problems and/or new insights, within educational contexts relating to EAL issues.

SPS2: Demonstrate the ability to make links between theory and practice in EAL-related educational contexts.

Intellectual Skills

IS1: Demonstrate conceptual understanding that allows for critical evaluation of a wide range of EAL literature.

IS2: Demonstrate originality in the articulation of knowledge to deal with complex issues systematically and creatively.

Transferable Skills

TS1: Communicate effectively to specialist and non-specialist audiences, both orally and in writing.

TS2: Demonstrate the independent learning ability required for continuing professional development.

On successful completion of a Postgraduate Diploma in Education (EAL), learners will be able to:

Knowledge and Understanding

KU1: Demonstrate a detailed systematic knowledge and understanding of key contemporary issues relating to EAL in education.

KU2: Demonstrate a comprehensive and critical understanding of how a range of complex factors inform a wide range of policy and practice and can impact on EAL.

KU3: Demonstrate a systematic knowledge and understanding of methodologies and research design in contemporary EAL research.

Subject Specific Skills

SPS1: Demonstrate critical awareness of the impact research and reflection have on practice, including current problems and/or new insights, within educational contexts relating to EAL issues.

SPS2: Demonstrate the ability to make links between theory and practice in EAL-related educational contexts.

SPS3: Demonstrate the ability to plan research within an educational context and identify relevant ethical considerations.

Intellectual Skills

IS1: Demonstrate conceptual understanding that allows for critical evaluation of a wide range of EAL literature.

IS2: Demonstrate originality in the articulation of knowledge to deal with complex issues systematically and creatively.

IS3: Demonstrate conceptual understanding that allows for critical evaluation of methodologies and methods in EAL research.

Transferable Skills

TS1: Communicate effectively to specialist and non-specialist audiences, both orally and in writing.

TS2: Demonstrate the independent learning ability required for continuing professional development.

TS3: Demonstrate self-direction, autonomy and originality in planning research.

SECTION C – STRUCTURE

21a	Structures, modes of delivery (eg FT/PT etc), levels, credits, awards, curriculum map of all modules (identifying core/option status, credits, pre or co-requisites) potential entry/exit points and progression/award requirements
------------	--

Year 1; Trimester 1	Year 1; Trimester 2	Year 1; Trimester 3
EMC701B_1.0 Vision, Practice and Policy: Shaping the Future 30 credits	EAL701B_1.0 Supporting EAL Learners in the Classroom 30 credits	EAL702B_1.0 Whole-School Approaches for EAL Support 30 credits
Year 2; Trimester 1	Year 2; Trimester 2	Year 2; Trimester 3
EMC702B_1.0 Research Skills 30 credits	EMC703B_1.0 Research Project 60 credits	

This programme is designed to have multiple entry points.

21b	Module Structure
------------	-------------------------

Level 7

Core Modules				
Code	Status	Module Title	Period (number)	No of credits
EMC701B_1.0	Mandatory	Vision, Practice and Policy: Shaping the Future	1	30
EAL701B_1.0	Mandatory	Supporting EAL Learners in the Classroom	2	30
EAL702B_1.0	Mandatory	Whole-School Approaches for EAL Support	3	30
EMC702B_1.0	Mandatory	Research Skills	1	30
EMC703B_1.0	Mandatory	Research Project	2&3	60

SECTION D - TEACHING, LEARNING AND ASSESSMENT

22	Curriculum Design
<p>The curriculum of the MA Education (EAL) programme is aimed at offering learners the opportunity to reflect on EAL classroom practice and wider school support for EAL learners, families and communities, and synthesise their insights with the wider body of research. They will also have the opportunity to develop their expertise in specific areas within EAL which are most pertinent to their own interests and aspirations. The programme is designed to develop learners' in-depth knowledge, understanding and skills in relation to current and changing EAL practice, policy and theory. The modules provide learners with opportunities to investigate different social and educational contexts building and demonstrate acquisition of systematic in-depth and advanced knowledge and understanding of key issues related to EAL.</p> <p>The MA is suitable for practitioners working in a wide range of educational settings and contexts. With the versatile modules and flexibility regarding assignment foci, learners in different professional roles, such as senior leaders or newly qualified practitioners will all be able to take advantage of what the programme can offer. As the programme is designed for practitioners who are working in the education sector, the MA is a part-time and blended course, allowing those who are working full-time to undertake the programme alongside their job. Given the aim of the programme, all the assessments are linked to learners' practice and context.</p> <p>Being a part-time programme, the MA takes two years to complete. In year 1, learners will undertake one 30-credit core module within each trimester. During Trimester 1, learners will take 'Vision, Practice and Policy: Shaping the Future', in Trimester 2, learners will take 'Supporting EAL Learners in the Classroom', and in Trimester 3, learners will take 'Whole-School Approaches for EAL Support'. In year 2, learners will undertake a 30-credit 'Research Skills' module, followed by a 60-credit 'Research Project' module in which they will complete their dissertation. Overall, learners will complete 180 credits.</p> <p><u>The modules</u></p> <p>The suite of modules is specifically designed to cover various aspects of EAL in Education which are relevant to practitioners from a wide range of settings and sectors. More specifically:</p> <p>Vision, Practice and Policy: Shaping the Future</p> <p>This module explores key elements of effective practice, guiding learners to engage with contemporary challenges related to professional contexts while reflecting on the influence of policy. By linking theory and practice, learners will develop strategies to address real-world challenges within a range of settings. The reflective nature of the module makes it highly relevant for professionals across various disciplines.</p> <p>Supporting EAL Learners in the Classroom</p> <p>This module aims to develop learners' confidence in their ability, as teachers, to support EAL learners in the classroom. Content including teaching methodologies, classroom techniques, materials</p>	

adaptation and design, and assessment tools, alongside key theoretical topics in Second Language Acquisition which are relevant to EAL learners and practical classroom and educational contexts. Further aims of the module are to explore professional networks relevant to EAL practice and develop learners' linguistic awareness to provide a greater understanding of the language backgrounds of EAL learners via comparative language analysis.

Whole-School Approaches for EAL Support

This module focuses on education leaders, such as the senior management team, and their role in ensuring schools and education settings develop practices that provide effective support for EAL learners, their families, and the wider communities for the duration of the learners' journey. Broader issues from policy, research, and reports relating to EAL in England will be a further focus, in order for leaders to contextualise their own settings. Overall, the module aims to provide learners with the skills and knowledge to develop strategies to improve the outcomes and experiences of EAL learners in their settings with a detailed awareness of the wider picture in England.

Research Skills

This module explores a range of methodologies and methods frequently used in social science educational research, examining their potential strengths, limitations and the associated ethical considerations. During the module, learners will develop their understanding of research concepts such as reliability, validity, trustworthiness, credibility and generalisability. They will also consider how to plan research using a suitable methodological approach, whilst taking into account the ethical issues they may encounter.

Research Project

The module will facilitate learning and teaching in research skills. The module will lead to competence and confidence in what determines personal and professional standards for postgraduate research requirements. The module develops learners as ethical researchers who are able to undertake a suitable research project, develop realistic plans for disseminating their research findings to the wider academic and/or professional community. In addition, learners will be supported to extend and deepen their understanding of the chosen area of investigation and will be able to design and carry out projects that are useful to their professional development and/or interests, and employability.

Graduate attributes

The MA is designed to help learners develop all six areas of the Graduate Attributes:

1. **Academic literacies:** Learners are enabled to develop academic literacy through engagement with a range of learning materials and research during the course and in their assignments. Throughout the programme, learners will have the opportunity to critically analyse, evaluate and synthesise academic sources/research findings to inform their own work. Additionally, assessments are designed to support learners in developing their academic competency, e.g. tasks that require learners to apply their critical thinking.
2. **Global citizenship:** Through the taught sessions and learning materials, learners will have the opportunity to examine a range of contemporary issues from an international perspective and hold discussions about how these compare with their own experience. Throughout the course, learners will

also consult a range of literature and research from around the world, such as case studies, to inform their module assignments. They will consider how the findings and insights from these sources can be applied in their own context.

3. **Information literacy:** Information literacy will be developed throughout the programme via curriculum design and learners will be required to independently search for academic sources through platforms such as WorldCat and LibGuides. Engagement with the Library services within The Hub will support individuals to develop these skills, and tutors on the programme will help embed the capabilities within each student to create well-written assignments.

4. **Digital fluency:** Assessments are designed to support learners in developing digital fluency through a range of assignment tasks presented in portfolios, including an academic blog. As a blended programme, learners will be required to complete a range of learning activities via the VLE between the taught weekends. The teaching team will also model the use of digital technology through session delivery where appropriate to facilitate communication of ideas and practices.

5. **Employability:** Learners are enabled to develop their professional practice through academic study and work-based learning throughout the programme. For example, they will be required to reflect on their professional experience and consider how they can apply their learning in the workplace, while at the same time, using current academic research to inform their practice. As Graduate Attributes are embedded into all modules, it is also anticipated that learners will further enhance their employability skills.

6. **Being enterprising:** This programme puts a strong emphasis on helping learners to address practical issues within their own learning, leading to professional development. This means learners will have the opportunity to develop problem-solving skills through directed independent learning. Throughout the programme, learners will be challenged to put forward proposals and reflect on their own experience, in turn develop their entrepreneurial competency.

23	Learning and Teaching Strategies
	<p>With the blended design, learners undertaking the MA Education (EAL) utilise three distinct learning modes: 'in-person/online', 'asynchronous activities' and 'independent', to help develop their understanding and skills in areas that interest them professionally. Throughout the course, learners progress through each module based on a standard framework, in which they rotate between the three modes [see Appendix A]. In essence, learners attend an MA Weekend in person at the start of each module (eight hours of teaching), where they explore a range of topics and consolidate their skills in academic writing through taught/support sessions. During each MA Weekend, not only will learners get the opportunities to network with each other, but they will also be taught by staff who are experts in their relevant fields, via in-person seminars and lectures focusing on a range of topics – an example of what an MA Weekend looks like has been included as Appendix B. After being introduced to their assignment, learners are set independent tasks to complete in their own time/pace and asked to attend a follow-up tutorial to finalise their chosen focus.</p>

In accordance with the University's Blended Learning VLE template, this blended programme also features asynchronous distance learning. This type of learning is delivered using online topics to complement the in-person MA Weekends. Given the target audience, this approach affords significant flexibility, meeting the needs of those who may have a full-time job or other commitments when studying with us. To provide learners with an engaging and high-quality learning experience when studying the online topics, a variety of activities and resources are used. These include:

- Pre-recorded learning materials - both audio and video
- Visual presentation
- Suggested reading of key sources relevant to the programme
- Specially designed prompt questions and activity sheets
- Extended reading lists covering a diverse range of sources relevant to module topics
- Discussion boards

A range of EdTech platforms, as integrated within the VLE, will be used to support some of the activities above. Where possible, multiple formats of learning materials, such as audio and written, will also be provided to enhance accessibility and inclusivity. Throughout the course, the programme team will work closely with staff with responsibilities in distance learning, such as Digital Learning developers, to ensure consistency of materials in terms of length, visual appearance and content to provide an easy-to-follow, predictable learning experience that promotes confidence for learners. All materials will be checked regularly to ensure that there are no technical issues such as broken links or display issues.

Whilst the programme is designed to offer learners flexibility to work at their own pace, recommended duration for activities and specific formative assessment deadlines will be set to help learners manage their learning effectively and prepare them for their summative tasks. Learners will be informed about the key tasks at the beginning of each module, and this will allow them to plan ahead and work flexibly. During each module, learners will also be required to attend two tutorials, either in-person or online (subject to tutor availability), to discuss their assignment ideas as well as feedback received for their draft submission.

Meanwhile, learners are expected to learn by reflecting on their professional practice as part of their workplace and independent learning throughout the programme. This experiential learning is used to inform the asynchronous activities set as well as module assignment tasks. To meet the intended learning outcomes, learners are required to complete other independent learning activities outside of the taught sessions, such as module reading. Although similar in terms of structure, learners completing their Research Project module will have a slightly varied schedule, this is so that individual supervision sessions with a well-qualified supervisor can be incorporated. However, this will not affect the number of weeks allocated (30 weeks for the 60 credits).

In accordance with the University's Attendance Policy, learners are required to attend all the scheduled taught weekend sessions, as well as two tutorials per 30-credit module. With the MA being a blended programme, learners are required to engage with asynchronous online activities, as all of these form part of the learning hours stated in the module specifications. The programme team will work closely

with the University to identify any attendance and/or engagement-related issues and put in place appropriate interventions to help resolve them.

24 Assessment Strategies

The MA Education (EAL) provides a mixture of assessment methods, offering learners more than one way to demonstrate their skills, knowledge and understanding. Each assignment/portfolio is split into at least two related tasks, allowing learners to demonstrate how they have met the learning outcomes, whilst getting the opportunity to develop a range of skills relating to academic study.

For example, all learners will also be asked to produce a presentation as part of the 'Supporting EAL Learners in the Classroom' module. All presentations are followed by a real-time Q&A and learners are required to make all their module tasks directly relevant to their professional context. In year 2 for 'Research Skills' learners will write an evaluation of the different methodological approaches related to their area of interest. Within Trimester 2 and 3 learners may wish to develop their research skills project idea in the form of a dissertation. All the assignment tasks and descriptions can be found in the assignment briefs provided.

With many of the prospective learners likely to be working full-time or have other substantial commitments, this part-time programme offers learners opportunities where their 'work in-progress' for each portfolio can be discussed with their tutor formatively and receive developmental feedback which will enable them to further develop their work (see Section 23 and Appendix A). The deadline for summative assessments will take place at the end of each module, which coincides with the end of each trimester in year 1, and in Trimesters 1 and 3 during year 2.

Module Code	Module Description	Credits	Year	Assessment and learning methods		
				Exam/Written	Practical	Coursework
				%	%	%
EMC701B_1.0	Vision, Practice and Policy: Shaping the Future	30	1	-	-	100
EAL701B_1.0	Supporting EAL Learners in the Classroom	30	1	-	-	100
EAL702B_1.0	Whole-School Approaches for EAL Support	30	1	-	-	100
EMC702B_1.0	Research Skills	30	2	-	-	100
EMC703B_1.0	Research Project	60	2	-	-	100

The indicative submission dates for assessments are deliberately timed to give learners the opportunity to complete assessments during the main holiday periods (January/May/August).

Indicative Assessment Strategy

Module Code	Module Title	Credits	Indicative Assessment Type and weighting	Indicative Submission	Indicative Assessment Date
EMC701B_1.0	Vision, Practice and Policy: Shaping the Future	30	Portfolio 100%	6,000 words	January
EAL701B_1.0	Supporting EAL Learners in the Classroom	30	Portfolio 100%	6,000 words	May
EAL702B_1.0	Whole-School Approaches for EAL Support	30	Portfolio 100%	6,000 words	August
EMC702B_1.0	Research Skills	30	Portfolio 100%	5,000 words	January
EMC703B_1.0	Research Project	60	Dissertation 100%	12,000 words	August

25 Inclusive Practice and Personal Development Planning

The University is committed to widening access and participation and adheres to a strict policy of non-discrimination. Learners will be supported throughout their programme and given full access to a range of services offered by the Hub and the Students' Union. This MA adheres to the University's Equality and Diversity Policy, in order to recognise and benefit from enhanced learning opportunities that emerge from a diverse cohort of learners. Therefore, an inclusive strategy is adopted throughout all stages of the programme. Learners will be signposted to these services during their induction and via personal tutors. The VLE will provide relevant links and introductory videos to ensure learners are aware of these policies.

The curriculum of the MA has been specifically designed to support learners in the enhancement of their career prospects, e.g. through the embedding of Graduate Attributes opportunities throughout the programme. As explained in Section 23, the blended and part-time delivery mode is also inclusive by design, taking into account the needs of our prospective learners. Furthermore, all learners will be assigned a personal tutor when they begin the MA. With support from their personal tutor, all learners will be guided to develop their Personal Development Plan (PDP).

Learners will be encouraged to access the wider services of the Hub for professional career advice and opportunities. Using the VLE, learners can book either in-person or online appointments to receive career advice.

26	Technology Enhanced Learning
<p>Being a blended course that features both in-person teaching and distance learning, this MA will make substantial use of the University's virtual learning environment. For this reason, learners will be expected to have suitable IT and internet access. In accordance with the Blended Learning VLE Template document, the distance learning element of the programme is designed to complement the weekend in-person teaching. All learning materials, including the distance learning content will be accessed through the VLE, hosted on separate pages for each module and then organised into folders. Module content will be well-signposted and structured in a way that is easy for learners to navigate. Informative multimodal resources such as visual presentations, audio clips and videos will be hosted on the VLE, alongside links to other external materials e.g. web-based articles. Module reading lists will also be available via the VLE with direct links to the Library's catalogue. To optimise student experience, an electronic module handbook will be made available on the VLE for every module and will include a 'Frequently Asked Questions' section, so that learners can easily locate key information while further developing their independence during their study.</p> <p>During the course, the programme team will facilitate some asynchronous, but interactive activities, such as discussion boards. The aim of these activities is to drive learning outside of the in-person taught sessions whilst offering learners significant flexibility. The distance learning aspect of the programme will be delivered in line with the validated Distance Learning template. Meanwhile, the Library within The Hub has an extensive range of online resources related to the subject, such as electronic journals and e-books.</p>	
27	Work-related Learning
<p>Learners are expected to hold a professional role (paid or voluntary) within an educational setting for the duration of the course, typically 5 hours a week. In order to link theory and practice, learners will use these 'work-related learning hours', as directed by the set learning tasks, to consider how the topics they study are reflected in their professional experience. During some parts of the programme, learners may also be required to carry out specific activities in their workplace to inform their module work. This learning based on engaging with professional practice will be monitored by module tutors working on the programme. If a learner's workplace or professional setting requires a Disclosure and Barring Service (DBS) check, the learner will be responsible for covering this cost. Whilst not a requirement, learners are likely to undertake research in their own workplace as part of their research project module. If this is the case, learners will still be expected to maintain ethical requirements in terms of gatekeeper access and informed consent.</p> <p>If a student loses access to their work/volunteering setting during a particular module, they may continue with their study, as long as they are still able to complete the summative assessment tasks and meet the intended learning outcomes. If this is not possible, Support for Study or a break in study may be offered to allow the student some flexibility for securing alternative employment or volunteering opportunities.</p>	

There has been significant consultation with employers about programme delivery and the curriculum design. Owing the part-time and blended nature of the programme, learners can enjoy a great deal of flexibility, being able to study alongside their work. In terms of curriculum design, consultation has mostly focused on the topics covered in the programme. Employers are keen for learners to undertake work that reflects current priorities in EAL practice, so that the learning has the potential to benefit their work setting. With this in mind, the suite of modules available on the MA programme offers learners the opportunity to develop their knowledge and understanding in contemporary issues pertinent to EAL, such as EAL assessment tools, and strategies to encourage EAL learners to thrive in the classroom and access learning. Moreover, employers stated that leadership was an important aspect that they value, so the module 'Whole-school approaches for EAL support' has been included to offer learners the opportunity to explore leadership in different contexts. Employers conveyed that staff who complete MA-level programmes are often ambitious to move into leadership roles, therefore, offering a module focused on leadership is likely to support these learners.

In addition to having access to the support and guidance made available by the Hub throughout the course, as explained in Section 22, learners will also have the opportunity to develop all six areas of the Graduate Attributes, in turn enhancing their employability.

SECTION E - PROGRAMME MANAGEMENT

29	Programme Specific Admission Requirements
<p>The entry requirement for MA Education (EAL) is normally a second-class degree or equivalent (2:2 or above) in a relevant discipline. However, it is recognised that some practitioners did not study a first degree in Education, and similarly, some who did not achieve a 2:2 or above in their first degree may have demonstrated the capacity to successfully work at postgraduate level since graduating. Therefore, admission to the MA will be made on a case-by-case basis. Due to the blended nature of the course, all learners must also have regular and reliable internet access.</p> <p>Learners are required to be working or volunteering in an educational setting for the duration of the course, typically for a minimum of 5 hours per week or equivalent. This equates to 75 hours per trimester.</p> <p>English language requirements are IELTS 6.5 with a minimum of 6 in each component.</p> <p>Some learners may be eligible to apply for Recognition of Prior Learning (RPL) in accordance with the <i>Code of Practice for Recognition of Prior Learning</i>.</p>	
30	Programme Specific Management Arrangements
<p>This programme is managed through the Faculty, led by its Programme Leader, who reports to the relevant Head of Programmes and is supported by the Faculty Administration Office. Module leaders are responsible for the planning, delivery and assessment of each module, in partnership with the Programme Leader.</p> <p>The programme will be taught by academic staff from within the Faculty who are qualified to master's level and above. Visiting lecturers and speakers may also contribute to modules for currency and specialist content. An additional level of oversight and line-management is provided by the Executive Dean of Faculty.</p> <p>Yearly reviews of programme quality and delivery are conducted by Programme Leaders (Annual Monitoring Reports) which are informed by module evaluations, student and staff feedback, External Examiners' comments and the University's Learning and Teaching strategy. Targets for year-on-year development are set and effected to enhance programme delivery.</p> <p>The programme team will work alongside The Hub to ensure that the online nature of the programme is successful, and that learners can access all materials.</p>	

31	Staff Responsibilities
	<p>Programme Leader: leadership of the programme, its management and planning, monitoring and evaluation, and ensuring academic/quality standards.</p> <p>Module leaders: planning, administration, delivery, marking and moderation at module level. Module leaders will act as academic and in some cases, personal tutors to learners on the programme.</p> <p>Dissertation supervisors: supervision and marking of individual learners' MA dissertations according to expertise.</p>
32	Programme Specific Academic Student Support
	<p>For learners who enrol onto the MA, it may have been a significant period of time since they previously engaged in academic study. For this reason, learners are made aware of the support offered by the Hub from the outset. Close engagement with the wider professional services as part of the student experience will be embedded within the programme via a dedicated area on the VLE for the Hub, in line with the validated Distance Learning template. Using the appointment system accessible via the VLE, learners will be able to book an appointment with professional services such as Student Advice at a time that suits them (subject to availability). In addition, learners will have access to all the online materials shared by these professional services. Meanwhile, learners studying this MA can also benefit from the support made available by the Students' Union.</p> <p>All learners will be allocated a personal tutor to provide pastoral and academic support shortly after their enrolment. All new learners are required to attend an induction event at the beginning of the academic year and provided with information about the VLE platform, academic integrity as well as other important regulations. In addition to the academic tutorials offered during each module, support sessions relating to academic writing or assignment preparation are also made available at every MA Weekend. Learners will have opportunities to receive formative feedback by taking part in interactive activities and submitting the allowed proportion of their assignments, as drafts, to their tutor (see Appendix A to see what the learning journey looks like).</p> <p>The Programme Leader will work regularly with the programme team as well as the Faculty Administration Office to provide personalised support where appropriate, e.g. by using a specific Support for Study plan. Moreover, learners will have full access to the Library's catalogue and can book one-to-one online appointments with the relevant Librarian at a time that suits them (subject to availability). The programme team will ensure that core sources required for the programme will be available at the Library or via WorldCat and that links provided on the VLE for online resources are in working order.</p> <p>Given the blended nature of the course, it is vitally important to establish and maintain a positive learning community and this has been taken into account during the programme design stage. For</p>

more information, please see Sections 22 and 23. Furthermore, learners will be regularly signposted to the guidance and support offered by Digital Learning as well.

33	Programme Specific Student Evaluation
-----------	--

The Programme complies with current institutional evaluation policies.

Programme Specific Evaluation

Learners will be offered the opportunity to undertake module evaluations to provide module-specific feedback to the programme team.

Learners will elect representatives who will meet with the Programme Leader via the Students' Union Representative Feedback System (RFS) at the end of each trimester to provide wider programme-level feedback.

Both module and RFS feedback will be used to enhance the programme and ensure that student voice is heard and used to provide a positive student experience.

SECTION F – OUTCOMES MAPPING

MAP I

Module Name																
	K&U1	K&U2	K&U3	K&U4	SPS1	SPS2	SPS3	SPS4	IS1	IS2	IS3	IS4	TS1	TS2	TS3	TS4

SECTION G

MAP 2

Graduate Attribute Mapping

Please indicate (with a X) which of the Graduate Attributes that you have considered and where they are considered within the course.

Attribute	Programme Learning Outcomes															
	KU1	KU2	KU3	KU4	SPS1	SPS2	SPS3	SPS4	IS1	IS2	IS3	IS4	TS1	TS2	TS3	TS4
Academic Literacies	x	x	x	x	x	x	x	x	x	x	x	x	x			x
Global Citizenship	x	x			x	x			x							
Information Literacy	x	x	x	x	x	x	x	x	x	x	x	x	x			x
Digital Fluency								x	x				x	x		
Employability	x	x			x	x		x	x	x			x	x	x	x
Being Enterprising		x				x	x	x		x		x		x	x	x

Graduate Attributes

- GA1. [Academic Literacies](#) This covers the range of academic skills that you develop through undertaking university-level study.
- GA2. [Global Citizenship](#) This is about understanding the global context in which you live, study and work
- GA3. [Information Literacy](#) This is about being about to search for, locate, utilise and manage information effectively and ethically
- GA4. [Digital Fluency](#) These are the skills and practices of using digital technology effectively for learning, working and participating in society
- GA5. [Employability](#) This is all about how best to support you in developing the knowledge, skills, behaviours and attitudes which will enable you to be successful in work and life
- GA6. [Being Enterprising](#) This can be defined as a set of behaviours, attitudes and skills which allow both individuals and groups to create positive change through creativity and innovation

Appendix B

Example of an MA Weekend

Module: **Whole-School Approaches for EAL Support**

Friday (17:00 – 19:30)

1. Welcome overview and networking (30 mins)
2. **Taking a whole-school perspective of EAL** (2 hrs)

Saturday (9:00 – 16:00)

1. **Effective leadership practice in EAL support** (2 hrs)
2. *Break* (15 mins)
3. Academic workshop/guest speaker (45 mins)
4. *Lunch* (1 hr)
5. **Disseminating research-informed practice** (2 hrs)
6. Assignment bootcamp (1 hr)
