

BISHOP
GROSSETESTE
UNIVERSITY

Initial Teacher Education

MA International Education

Programme Specification

This document provides a concise summary of the main features of the course(s) & associated award(s) offered through this Programme Specification, and includes the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if they take full advantage of the learning opportunities provided. More detailed information on the learning outcomes, curriculum content, teaching/learning, assessment methods for each module and on the Programme's relationship to QAA Subject Benchmark Statements may be found in the dedicated student handbook for the Programme. The accuracy of the information in this document is reviewed periodically by the University and may be subject to review by the Quality Assurance Agency for Higher Education or by other national bodies.

Versioning of Programme Specification

This programme specification is valid for the period of approval confirmed at the time of the approval/last review event and relates to provision approved at that point. Programme specifications may be updated during the period of approval to include modifications approved through the University's quality assurance processes.

This version provides a description of the programme as approved for the academic session(s) indicated in section 3 of the following table.

1	BGU approval – date and outcome of last approval	December 2023
2	Next Scheduled Review Date: [Month/Year]	December 2028
3	Programme Specification - Effective date: [Day/Month/Year]	1 September 2024
4	Version Number	1.0

Modifications to Programme Specification

Modifications to the programme specification since approval/ last review, and the cohort(s) of students affected by the change, are listed in Section H (Log of Modifications) at the back of the document.

Cross Referencing of Programme/Module Specifications

Modifications to any elements of Module Specifications attached to this Programme will be updated and then changes made to this document to reflect that. On each Module Spec the Programmes it relates to are clearly indicated for cross referencing.

Programme Specification

The information in this document is organised into the following sections:

Section A – Administrative and Regulatory Information

Section B – Outcomes

Section C – Structure

Section D – Teaching, Learning and Assessment

Section E – Programme Management

Section F – Mapping

Section G – Graduate Attributes

Section H – Log of Modifications

SECTION A – ADMINISTRATIVE AND REGULATORY INFORMATION

1	Programme Specification Title		
	MA International Education		
1a	Programme Code		
	INTNLED_1.0		
2	Brief Summary (for Marketing Purposes)		
	<p>The MA International Education is an exciting and newly developed distance-learning programme, suitable for educators from a variety of settings around the world, including primary and secondary schools, vocational colleges, universities, privately-owned education providers and the non-profit sector. It is specifically designed for practitioners and leaders who are wanting to develop their practice or seeking an opportunity to further their career. The programme focuses on different aspects of education from an international perspective, allowing students to explore in depth their own context and specialist areas, as well as how they can benefit from adopting a global vision.</p> <p>Whilst the course offers a great deal of flexibility as it is 100% online, the learning has been designed to be interactive throughout, allowing students to learn from peers from other contexts and be supported by a team of expert specialists. This course is specifically aimed at working practitioners and thus can be completed alongside a full-time job. Students typically spend around 10 hours a week outside of their working hours to complete the learning activities set. In addition to facilitating high-quality professional development, the MA International Education is also a great way to prepare students for further doctoral studies.</p>

SECTION B - OUTCOMES

17	QAA Benchmark Statement(s)
	<p>The QAA does not provide Benchmark Statements for postgraduate level in Education Studies. Therefore, Benchmark Statements have been aligned to the Framework for Higher Education Qualifications (FHEQ) of UK Degree-Awarding Bodies that states:</p> <p>Master's degrees are awarded to students who have demonstrated:</p> <ol style="list-style-type: none"> 1. a systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of their academic discipline, field of study or area of professional practice 2. a comprehensive understanding of techniques applicable to their own research or advanced scholarship 3. originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline 4. conceptual understanding that enables the student: <ol style="list-style-type: none"> a. to evaluate critically current research and advanced scholarship in the discipline b. to evaluate methodologies and develop critiques of them and, where appropriate, to propose new hypotheses. <p>Typically, holders of the qualification will be able to:</p> <ol style="list-style-type: none"> 1. deal with complex issues both systematically and creatively, make sound judgements in the absence of complete data, and communicate their conclusions clearly to specialist and non-specialist audiences 2. demonstrate self-direction and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional or equivalent level 3. continue to advance their knowledge and understanding, and to develop new skills to a high level. <p>And holders will have:</p> <ol style="list-style-type: none"> 1. the qualities and transferable skills necessary for employment requiring: <ol style="list-style-type: none"> a. the exercise of initiative and personal responsibility b. decision-making in complex and unpredictable situations c. the independent learning ability required for continuing professional development.
18	Programme Aim
	<p>The MA International Education is an exciting and engaging programme designed to support and challenge educators working in a wide range of settings and contexts in different parts of the world. Informed by current scholarship, international research, and practice, it provides an opportunity for students to develop professionally and gain advanced knowledge and understanding in a specific area of professional interest, as well as other key aspects of education.</p>

The aim of the MA International Education is to develop postgraduates who can:

- Demonstrate a detailed and systematic knowledge and understanding of key contemporary educational issues in international contexts.
- Develop and articulate an in-depth knowledge and understanding of a specialist area in education within the current global educational context.
- Develop a critical understanding of research and reflection, and the implications for professional practice.
- Examine the relationships between theory and practice in education, drawing on relevant literature, published research from various contexts and own professional practice.
- Develop a sound conceptual understanding that allows for critical evaluation of a wide range of educational literature.
- Evaluate and critique a range of methodologies and methods used in educational research and understand the relevant ethical issues.
- Plan and undertake independent research using appropriate methodologies and methods and be able to communicate the outcomes of this to specialist and non-specialist audiences.
- Apply research findings to elicit new insights for a relevant context and their own professional development.

19	Programme Specific Outcomes
-----------	------------------------------------

Final Award Learning Outcomes

On successful completion of MA International Education, students will be able to:

Knowledge and Understanding

KU1: Demonstrate a systematic knowledge and understanding of key contemporary educational issues in international contexts.

KU2: Demonstrate a systematic knowledge and understanding of a specialist area in education within the current educational context.

KU3: Demonstrate a systematic knowledge and understanding of methodologies and methods frequently used in contemporary educational research.

KU4: Illustrate a comprehensive knowledge and understanding of how to undertake educational research within a specific educational context.

Subject Professional Skills

SPS1: Demonstrate critical awareness of the impact research and reflection have on practice, including current problems and/or new insights, within educational contexts.

SPS2: Demonstrate the ability to make links between theory and practice in various educational contexts.

SPS3: Demonstrate the ability to plan research within an educational context and identify relevant ethical considerations.

SPS4: Apply own knowledge and understanding of educational research to successfully undertake a research project within a specific educational context.

Intellectual Skills

IS1: Demonstrate conceptual understanding that allows for critical evaluation of a wide range of educational literature.

IS2: Demonstrate originality in the articulation of knowledge to deal with complex issues systematically and creatively.

IS3: Demonstrate conceptual understanding that allows for critical evaluation of methodologies and methods in educational research.

IS4: Evaluate own research critically and synthesise findings with existing knowledge to propose new hypotheses.

Transferable Skills

TS1: Communicate effectively to specialist and non-specialist audiences, both orally and in writing.

TS2: Demonstrate the independent learning ability required for continuing professional development.

TS3: Demonstrate self-direction, autonomy and originality in planning educational research.

TS4: Make sound judgements and apply the research undertaken to successfully elicit new insights for the relevant context.

20	Exit Award Learning Outcomes
-----------	-------------------------------------

On successful completion of the International Postgraduate Certificate in Education (iPGCE), students will be able to:

Knowledge and Understanding

KU1: Demonstrate a systematic knowledge and understanding of key contemporary educational issues in international contexts.

KU2: Demonstrate a systematic knowledge and understanding of a specialist area in education within the current educational context.

Subject Professional Skills

SPS1: Demonstrate critical awareness of the impact research and reflection have on practice, including current problems and/or new insights, within educational contexts.

SPS2: Demonstrate the ability to make links between theory and practice in various educational contexts.

Intellectual Skills

IS1: Demonstrate conceptual understanding that allows for critical evaluation of a wide range of educational literature.

IS2: Demonstrate originality in the articulation of knowledge to deal with complex issues systematically and creatively.

Transferable Skills

TS1: Communicate effectively to specialist and non-specialist audiences, both orally and in writing.

TS2: Demonstrate the independent learning ability required for continuing professional development.

On successful completion of a Postgraduate Diploma in International Education, students will be able to:

Knowledge and Understanding

KU1: Demonstrate a systematic knowledge and understanding of key contemporary educational issues in international contexts.

KU2: Demonstrate a systematic knowledge and understanding of a specialist area in education within the current educational context.

KU3: Demonstrate a systematic knowledge and understanding of methodologies and methods frequently used in contemporary educational research.

Subject Professional Skills

SPS1: Demonstrate critical awareness of the impact research and reflection have on practice, including current problems and/or new insights, within educational contexts.

SPS2: Demonstrate the ability to make links between theory and practice in various educational contexts.

SPS3: Demonstrate the ability to plan research within an educational context and identify relevant ethical considerations.

Intellectual Skills

IS1: Demonstrate conceptual understanding that allows for critical evaluation of a wide range of educational literature.

IS2: Demonstrate originality in the articulation of knowledge to deal with complex issues systematically and creatively.

IS3: Demonstrate conceptual understanding that allows for critical evaluation of methodologies and methods in educational research.

Transferable Skills

TS1: Communicate effectively to specialist and non-specialist audiences, both orally and in writing.

TS2: Demonstrate the independent learning ability required for continuing professional development.

TS3: Demonstrate self-direction, autonomy and originality in planning educational research.

SECTION C – STRUCTURE

21a	Structures, modes of delivery
------------	--------------------------------------

Year 1; Trimester 1	Year 1; Trimester 2	Year 1; Trimester 3
IPG70123 Teaching, Learning and Key Challenges in International Contexts 30 credits	IPG70223 Becoming a Reflective and Research-Informed Practitioner 30 credits <u>OR</u>	MIE70124 Reimagining a Global Curriculum 30 credits <u>OR</u>
	IPG70324 Redefining Learning with Contemporary Educational Technology 30 credits	MIE70224 International Educational Leadership 30 credits
Year 2; Trimester 1	Year 2; Trimester 2	Year 2; Trimester 3
MIE70324 Research Skills 30 credits	MIE70424 Research Project 60 credits	

21b	Module Structure
------------	-------------------------

Level 7

Core Modules				
Code	Status	Module Title	Period (number)	No of credits
IPG70123	Mandatory	Teaching, Learning and Key Challenges in International Contexts	1	30
IPG70223	Optional	Becoming a Reflective and Research-Informed Practitioner	2	30
IPG70324	Optional	Redefining Learning with Contemporary Educational Technology	2	30
MIE70124	Optional	Reimagining a Global Curriculum	3	30
MIE70224	Optional	International Educational Leadership	3	30
MIE70324	Mandatory	Research Skills	1	30
MIE70424	Mandatory	Research Project	2&3	60

SECTION D - TEACHING, LEARNING AND ASSESSMENT

22	Curriculum Design
<p>The curriculum of the MA International Education programme is aimed at offering students an ‘all-round’ and meaningful professional development opportunity, where they will be encouraged to reflect on their practice and synthesise their insights with the wider body of research, in turn becoming a more informed practitioner. They will also have the opportunity to develop their expertise in specific areas within education which are most pertinent to their own role and aspirations. The MA is designed to suit practitioners working in a wide range of educational settings and international contexts, e.g. primary, secondary, Further Education, Higher Education, privately-owned education providers and the non-profit sector. With versatile modules and flexibility regarding assignment focus, students in different professional roles, such as senior leaders or newly qualified practitioners will all be able to take advantage of what the programme can offer. As the programme is designed for practitioners who are working in the education sector across the world, the MA is a part-time distance-learning course, allowing those who are working full-time to undertake the programme alongside their job. Given the aim of the programme, all the assessments are linked to students’ practice and context.</p> <p>Being a part-time programme, the MA takes two years to complete. In year 1, students will undertake one 30-credit core module (IPG70123) and then choose one 30-credit module from each of the two paired options (between IPG70223 and IPG70324, then between MIE70124 and MIE70224) during trimesters 2 and 3. In year 2, students will undertake a 30-credit research skills module (MIE70324), followed by a 60-credit dissertation (MIED70424). Overall, students will complete 180 credits. On entry, students will be provided with a robust induction to distance learning and the way this is delivered by BGU. From the outset, students will also be directed to online resources such as the <i>Handbook for Written Coursework</i> and materials produced by the Centre for Enhancement in Learning and Teaching (CELT). During the induction, students will be given an overview of the programme and how learning will be facilitated. The delivery will conform to the validated distance learning template within the VLE to provide a structured approach to learning and teaching. At the beginning of each module, students will be given a comprehensive guided tour through the learning platform and the relevant learning materials via a ‘module introduction video’. This will then be supplemented with a module handbook, which contains all the key information students need. An ‘assignment webinar’ will be held during the fourth week of each module to explain the assessment in detail and answer any questions students have posed.</p> <p><u>The modules</u></p> <p>The suite of modules is specifically designed to cover various aspects of education which are relevant to practitioners from a wide range of settings and sectors. More specifically:</p> <p>IPG70123 explores key elements of effective teaching and learning which are relevant to education in different international contexts. Students will consider contemporary challenges, such as those relating to planning and assessment, and how policy and curriculum can impact on these. The module will also explore innovative pedagogical approaches that can benefit a range of settings, linking theory and practice.</p>	

IPG70223 guides students to reflect on their own professional practice to draw critical insight and engage with international research to inform their professional development. They will explore their own pedagogical approach through a critical lens and consider how their impact can be maximised through effective teaching, reflective practice and active engagement in research/ professional development activities.

IPG70324 explores a range of educational technologies that are capable of transforming the future of education. Students will consider the associated opportunities and challenges these technologies can bring and how they can be incorporated in practice. By examining relevant literature, practice and research from across the world, students will apply their understanding, drawing up a plan to show how their chosen technology can be utilised within their own setting.

MIE70124 explores the concept of a 'global curriculum' and some of its potential features. Students will consider how such a curriculum and its features can benefit their setting, whilst identifying some of the key challenges and limitations if it was to be adopted. Drawing from relevant theories and international research, students will 'reimagine' a specific curriculum relevant to their practice and propose ways to enhance it by adopting a 'global' approach.

MIE70224 explores the concept of educational leadership and what it looks like in various international contexts. Students will consider a range of key leadership models, before applying their understanding to examine how a specific aspect of their setting can be enhanced. Drawing from relevant theories, international research and their own practice, students will identify implications for leadership and their own role within the proposed enhancement.

MIE70324 explores a range of methodologies and methods frequently used in educational research, examining their potential strengths, limitations and the associated ethical considerations. During the module, students will develop their understanding in research concepts such as reliability, validity and generalisability, and will consider how to plan research using a suitable methodological approach, whilst taking into account the ethical issues they may encounter.

MIE70424 involves students undertaking an independent research project, in which they will apply the knowledge and understanding gained from previous modules, particularly MED706, to plan their research utilising a suitable methodological approach. Once ethical approval is granted for their data collection, students will carry out the research and produce a report in the form of a dissertation. Throughout the module, students will be supported by the module leader and also an individual research supervisor.

Distance-learning by design

The programme has been specifically designed with distance-learning in mind, allowing students to reap the benefits of what such a learning mode has to offer. Firstly, the online and largely asynchronous nature of the course offers students significant flexibility, something that is especially important to those working full-time or in different time zones. Secondly, students undertaking the MA have access to a plethora of multimedia learning materials, covering a wide range of topics. Given the flexible nature of the assessment tasks, students can select a specific area that they want to focus on whilst still able to enrich their learning by exploring all the topics on offer. Thirdly, despite most of the tasks being asynchronous with students typically working independently, multiple interactive and formative assessment opportunities have been incorporated, meaning students are able to work within a community and receive regular tutor support.

Graduate attributes

The MA is designed to help students develop all six areas of BGU's Graduate Attributes:

1. **Academic literacies:** Students are enabled to develop academic literacy through engagement with a range of learning materials and research during the course and in their assignments. Throughout the programme, students will have the opportunity to critically analyse, evaluate and synthesise academic sources/research findings to inform their own work. Additionally, assessments are designed to support learners in developing their academic competency, e.g. tasks that require students to apply their critical thinking.

2. **Global citizenship:** Through the taught sessions and learning materials, students will have the opportunity to examine a range of contemporary educational issues from an international perspective and consider how these compare with their own experience. Throughout the course, students will also consult a range of literature and research from around the world, such as case studies, to inform their module assignments. They will consider how the findings and insights from these sources can be applied in their own context.

3. **Information literacy:** Information literacy will be developed throughout the programme via curriculum design and students will be required to independently search for academic sources through platforms such as WorldCat and LibGuides. Engagement with materials provided by the BGU Library and CELT will support individuals to develop these skills, and tutors on the programme will help embed the capabilities within each student to create well-written assignments.

4. **Digital fluency:** All assignment tasks are to be completed and submitted digitally. Students will be guided by the academic team to present their work in portfolios, which will include digital activities such as posting an academic blog on the VLE. All tutorials will also be delivered online, enabling students to further develop their skills with online communication tools. As a distance-learning programme, students will be expected to complete a range of learning activities via the VLE throughout the programme. The teaching team will also model the use of digital technology through written, audio and video instructions where appropriate to facilitate communication of ideas and practices.

5. **Employability:** Students are enabled to develop their professional practice through academic study and work-based learning throughout the programme. For example, they will be required to reflect on their professional experience and carry out relevant activities in the workplace, while at the same time, using current academic research to inform their practice. As Graduate Attributes are embedded into all modules, it is also anticipated that students will further enhance their employability skills.

6. **Being enterprising:** This course puts a strong emphasis on helping students to address practical issues within their own practice, leading to professional development. This means students will have the opportunity to develop problem-solving skills through directed independent learning. Throughout the programme, students will be challenged to put forward proposals and reflect on their own experience, in turn developing their entrepreneurial competency.

23

Learning and Teaching Strategies

As a distance-learning programme aimed at students across the world, the MA International Education is a programme that predominantly utilises asynchronous delivery. This allows students in

any time zone to undertake the course remotely and complete the learning at a time that best suits their individual context and needs.

To provide students with an engaging and high-quality learning experience, a variety of activities and resources are used. These include:

- Pre-recorded learning materials - both audio and video
- Visual presentation slideshows
- Suggested reading of key sources relevant to the programme
- Specially designed prompt questions and activity sheets
- Extended reading lists covering a diverse range of sources relevant to module topics
- Academic blog
- Reflective diary
- Tutorials

A range of EdTech platforms, as integrated within the VLE, will be used to support some of the activities above. Where possible, multiple formats of learning materials, such as audio and written, will also be provided to enhance accessibility and inclusivity.

The approach to learning and teaching for the MA is underpinned by three key principles: model, scaffold and feedback. This means all tasks will be accompanied by good-quality examples and clear instructions to get students started. Learning will then be broken down into shorter activities and aided by prompt questions or activity sheets. All modules have also incorporated multiple formative assessment opportunities where tutors will check students' understanding and provide timely and developmental feedback. For example, to optimise learning, asynchronous discussion boards will be used regularly in addition to the other learning activities to help students to reflect on what they have learnt from the various module topics. After the students have participated, the module leader will then provide the whole cohort with collective formative feedback via email.

As evident in the module overviews [see Appendix A], regular engagement points will exist within each module to structure students' learning. Not only will the expectations be made explicit during the course induction, but these engagement points will also be clearly outlined in the module handbook, and again, reiterated during the 'module introduction video' as well as on the learning platform itself. Student engagement will be regularly recorded and monitored by the module leaders. Throughout the course, the programme team will ensure consistency of materials in terms of length, visual appearance and content to provide an easy-to-follow, predictable learning experience that promotes confidence for students. All materials will be checked regularly to ensure that there are no technical issues such as broken links or display issues.

Whilst the programme is designed to offer students flexibility to work at their own pace, recommended duration for activities and specific formative assessment deadlines will be set to help students manage their learning effectively and prepare them for their summative tasks. Students will be informed about the key tasks at the beginning of each module, and this will allow them to plan ahead and work flexibly.

To ensure students have the best learning experience, VLE functions such as 'forced sequence' and 'time release' will be applied to some of the materials. This is so that students do not miss any important information or get overwhelmed by the amount of materials available. Some activities

which require participation of the whole cohort will also only be made available during a specific timeframe to maximise interactivity.

Peer learning is an important feature of this programme. Thus, opportunities for students to learn from each other have been embedded throughout, e.g. discussion board tasks. The purpose of such an emphasis is to encourage students to share with others their professional experiences, as well as the knowledge and insight gained from their own setting. With the MA being an international-oriented programme, authentic and current professional experiences from other practitioners working across the world is invaluable. In addition to peer learning, all students are guided to reflect on their own professional practice in each module, so that they can identify opportunities to develop as a practitioner and apply what they have learnt from the course to their work setting.

To establish and maintain a positive distance-learning community, the programme team will ensure the following:

1. All students are allocated a personal tutor.
2. Regular engagement points throughout each module to keep students engaged, including:
 - Induction and introduction activity at the beginning of the programme to establish sense of community.
 - One module introduction video and a module handbook made available at the beginning of each module to help students get familiarised with what to expect and to receive initial directions.
 - Two Q&A opportunities per module, with either a follow-up assignment webinar or tutorial.
 - One assignment webinar per module featuring student contributions to explain assignment tasks.
 - One online interactive activity per module involving contributions from the whole cohort.
 - Two draft submission opportunities per module for students to acquire formative feedback, covering all assignment tasks.
 - Two one-hour online tutorials per module to provide students with support and formative feedback.
3. Students are encouraged to engage with professional services at BGU, including CELT and Student Advice.
4. All literature required for the programme is available electronically via the Library's website.
5. Support for Study would be used where appropriate to provide students with additional support.

The programme is underpinned by principles for effective distance-learning set out in the *BGU in-person and online delivery guidance* framework. The intention is to offer students occasional synchronous sessions such as the 'assignment webinar' and tutorials to maximise student engagement and interactivity. It will also provide a good opportunity for tutors to build relationships with their students, which is crucial for maintaining a positive learning community.

Given the potential challenge associated with these types of activities for distance learners, the programme team will work flexibly with students each year to ensure their specific time-zone and any challenges will be taken into account when scheduling these sessions.

In accordance with the University's Engagement Policy, students are required to attend their scheduled tutorials. They will also be required to engage with all of the asynchronous online activities and complete tasks set throughout the programme, e.g. posting on discussion boards, as all of these form part of the learning hours stated in the module specifications. The programme team will work closely with the University to identify any engagement-related issues and put in place appropriate interventions to help resolve them. Where engagement becomes a serious concern, this will be escalated and may result in the suspension of study or withdrawal.

To ensure all students are familiar with the expectations associated with HE study in the UK as well as the specific assessment approaches, they need to be aware of, clear guidance will be provided by the programme team during the induction, module introductions and assignment webinars. They will also be directed to all the key relevant materials offered by CELT to help develop their academic skills. Furthermore, students are expected to learn by reflecting on their professional practice as part of their workplace and independent learning throughout the programme. This experiential learning is used to inform the asynchronous activities set as well as module assignment tasks. To meet the intended learning outcomes, students are also required to complete other independent learning activities outside of the scheduled tasks, such as module reading and assignment preparation.

24	Assessment Strategies
-----------	------------------------------

The MA International Education has been designed to provide a mixture of assessment methods, offering students more than one way to demonstrate their skills, knowledge and understanding. Each assignment is split into at least two related tasks, allowing students to demonstrate how they have met the learning outcomes in multiple ways, whilst getting the opportunity to develop a range of skills relating to academic study. For example, IPG70123 requires students to produce an academic blog and a critical appraisal. In IPG70324, they are asked to produce a SWOT analysis, an academic review as well as a plan for their chosen educational technology.

In year 2, students will be assessed on a range of research skills, both in MIE70424 and their research project (MIE70324). Throughout the MA, students are required to make all their module tasks directly relevant to their professional context. All the assignment tasks and descriptions can be found in the assignment briefs provided.

With many of the prospective students likely to be working full-time or have other substantial commitments, this part-time programme offers students numerous opportunities where their 'work-in-progress' can be assessed by their tutor formatively and receive developmental feedback which will enable them to further develop their work (see Section 23 and Appendix A). The deadline for summative assessments will take place at the end of each module, which coincides with the end of each trimester in year 1, and in trimesters 1 and 3 during year 2.

Module Code	Module Description	Credits	Year	Assessment and learning methods		
				Exam/Written	Practical	Coursework
				%	%	%
IPG70123	Teaching, Learning and Key Challenges in International Contexts	30	1	-	-	100
IPG70223	Becoming a Reflective and Research-Informed Practitioner	30	1	-	-	100
IPG70324	Redefining Learning with Contemporary Educational Technology	30	1	-	-	100
MIE70124	Reimagining a Global Curriculum	30	1	-	-	100
MIE70224	International Educational Leadership	30	1	-	-	100
MIE70324	Research Skills	30	2	-	-	100
MIE70424	Research Project	60	2	-	-	100

The indicative submission dates for assessments are deliberately timed to give students the opportunity to complete assessments during the main holiday periods (January/May/August).

Indicative Assessment Strategy

Module Code	Module Title	Credits	Indicative Assessment Type and weighting	Indicative Submission	Indicative Assessment Date
IPG70123	Teaching, Learning and Key Challenges in International Contexts	30	Portfolio 100%	5,000 words	January
IPG70223	Becoming a Reflective and Research-Informed Practitioner	30	Portfolio 100%	5,000 words	May
IPG70324	Redefining Learning with Contemporary Educational Technology	30	Portfolio 100%	5,000 words	May
MIE70124	Reimagining a Global Curriculum	30	Portfolio 100%	6,000 words	August
MIE70224	International Educational Leadership	30	Portfolio 100%	6,000 words	August
MIE70324	Research Skills	30	Portfolio 100%	6,000 words	January
MIE70424	Research Project	60	Dissertation 100%	12,000 words	August

25	Inclusive Practice and Personal Development Planning
	<p>BGU is committed to widening access and participation, and adheres to a strict policy of non-discrimination. Students will be supported throughout their programme and given access to a range of services offered by CELT, Student Advice, the Students' Union and Library Services. The MA International Education adheres to the BGU Equality and Diversity Policy, in order to recognise and benefit from enhanced opportunities for learning that emerge from a diverse cohort of students. Therefore, an inclusive strategy is adopted throughout all stages of the programme. Students will be signposted to these services via personal tutors and the VLE, where links and introductory videos will be provided to ensure students are aware of these policies.</p> <p>The curriculum of the MA has been specifically designed to support students in the enhancement of their career prospects, e.g. through the embedding of Graduate Attributes opportunities throughout the programme. Furthermore, all students will be assigned a personal tutor when they begin the MA. With support from their personal tutor, all students will be guided to develop their Personal Development Plan (PDP).</p> <p>Students will be encouraged to access the wider services of BG Futures for professional career advice and opportunities, in liaison with the International Office. Where time zones make direct contact with professional tutors impracticable, BGU will work with the student to seek workable solutions, so that they are sufficiently supported.</p>
26	Technology Enhanced Learning
	<p>As a distance learning course, the MA International Education will make extensive use of the University's virtual learning environment and students will be expected to have suitable IT and internet access. All learning materials will be accessed through the VLE, hosted on separate pages for each module and then organised into folders. Module materials will be well-signposted and structured in a way that is easy for students to navigate. A plethora of informative multimodal resources such as narrated presentations, audio clips and videos will be hosted on the VLE, alongside links to other external materials e.g. web-based articles. Module reading lists, hosted by the Library, will also be available via the VLE with direct links to the Library's catalogue. To optimise student experience, an electronic module handbook will be made available on the VLE for every module and will include a 'Frequently Asked Questions' section, so that students can easily locate key information while further developing their independence during their study.</p> <p>During the course, the programme team will facilitate a range of structured, but asynchronous interactive activities, such as blog and diary entry posting. The aim of these activities is to complement the workplace and independent learning that students undertake, whilst offering significant flexibility. All students will be required to attend two online tutorials per module (subject to tutor availability) to receive the support they need to succeed. At the start of the MA, students will be given information relating to the equipment and IT skills required and how they can access further support. The programme will be delivered in line with the BGU Distance Learning template that has been developed by the University.</p>

Throughout the programme, students will be encouraged to apply the existing digital skills they have and also to develop new ones. CELT resources, such as those relating to online collaboration tools, will be available to ensure that students can acquire new knowledge and confidence in using technology. Meanwhile, the Library has an extensive range of online resources related to Education, such as electronic journals and e-books.

27	Work-related Learning and/or Placement
-----------	---

Students are expected to hold a professional role (paid or voluntary) within an educational setting for the duration of the course, typically 10 hours a week. In order to link theory and practice, students will use these 'placement hours', as directed by the set learning tasks, to consider how the topics they study are reflected in their professional experience. During some parts of the programme, students may also be required to carry out specific activities in their workplace to inform their module work. This learning based on engaging with professional practice will be monitored by module tutors working on the MA programme. Whilst not a requirement, as part of MIE70424, students are likely to be undertaking research in their own workplace. If this is the case, students will still be expected to maintain ethical requirements in terms of gatekeeper access and informed consent.

If a student loses access to their work/volunteering setting during a particular module, they may continue with their study, as long as they are still able to complete the summative assessment tasks and meet the intended learning outcomes. If this is not possible, Support for Study or a break in study may be offered to allow the student some flexibility for securing alternative employment or volunteering opportunities.

28	Employability
-----------	----------------------

There has been significant consultation with employers about the curriculum design and programme delivery. In terms of curriculum design, consultation has mostly focused on the topics of optional modules, as employers are keen for students to undertake work that reflects current priorities in education. With this in mind, the suite of modules available on the MA programme offers students the opportunity to develop their knowledge and understanding in contemporary issues pertinent to education: reflective and research-informed practice, the use of educational technology and designing new curricula, all of which have the potential to benefit students' practice and setting. Moreover, employers stated that leadership was an important aspect that they value, so the optional module MIE705 has been included to offer students the opportunity to explore educational leadership in different international contexts and at different levels. Employers conveyed that staff who complete MA-level programmes are often ambitious to move into leadership roles, therefore, offering a module focused on leadership is likely to support these students.

In addition to having access to the support and guidance made available by BG Futures throughout the course, as explained in Section 22, students will also have the opportunity to develop all six areas of BGU's Graduate Attributes, in turn enhancing their employability.

SECTION E - PROGRAMME MANAGEMENT

29	Programme Specific Admission Requirements
	<p>The entry requirement for MA International Education is normally a good first degree or equivalent (2:1 or above) in a relevant discipline. However, it is recognised that many teachers did not study a first degree in Education, but a subject-specific degree followed by a postgraduate teaching qualification.</p> <p>Similarly, many students who did not achieve a 2:1 or above in their first degree may have demonstrated the capacity to successfully work at postgraduate level during teacher training. Therefore, admission to the MA International Education will be made on a case-by-case basis. Due to the distance learning nature of the course, all students must also have regular and reliable internet access.</p> <p>Students are required to be working or volunteering in an educational setting for the duration of the course, typically for a minimum of 10 hours per week or equivalent. This equates to 150 hours per trimester. As part of this requirement, students will also be required to obtain and pay for either a DBS Enhanced Disclosure or the equivalent local regulatory authority clearance (if working outside the UK).</p> <p>English language requirements are IELTS 6.5 with a minimum of 6 in each component.</p> <p>Some students may be eligible to apply for Recognition of Prior Learning (RPL) in accordance with the <i>Code of Practice for Recognition of Prior Learning</i>.</p>
30	Programme Specific Management Arrangements
	<p>The programme is managed through the Faculty, led by the Programme Leader for the MA International Education, reporting to the relevant Head of Programmes and supported by the staff of the Faculty Administration Office. Module leaders are responsible for the planning, delivery and assessment of each module, in partnership with the Programme Leader.</p> <p>The programme will be taught by academic staff from within the faculty who are qualified to master's level and above. Visiting tutors and speakers may also contribute to modules for currency and specialist content. An additional level of oversight and line-management is provided by the Dean of Faculty. The quality of the programme is overseen by the Academic Enhancement Committee, which institutionally reports to the University's Senate.</p> <p>Yearly reviews of programme quality and delivery are conducted by Programme Leaders (Annual Monitoring Reports) which are informed by module evaluations, student and staff feedback, External Examiners' comments and the BGU Learning and Teaching strategy. Targets for year-on-year development are set and effected to enhance programme delivery.</p> <p>The programme team will work closely with the International Office to maintain links between the university and students, and also alongside the CELT team to ensure that the online nature of the programme is successful, and that students can access all materials.</p>

31	Staff Responsibilities
<p>Programme Leader: leadership of the programme, its management and planning, monitoring and evaluation, and ensuring academic/quality standards.</p> <p>Module leaders: planning, administration, delivery, marking and moderation at module level. Module leaders will act as academic and in some cases, personal tutors to students on the programme.</p> <p>Dissertation supervisors: supervision and marking of individual students' MA dissertations according to expertise.</p>	
32	Programme Specific Academic Student Support
<p>Close engagement with the wider professional services as part of the student experience will be embedded within the programme via a dedicated area on the VLE for CELT, the Library, BG Futures and Student Advice, in line with the validated Distance Learning template. Using the appointment system accessible via the VLE, students from different time zones will be able to book an online appointment with professional services such as Student Advice at a time that suits them (subject to availability). In addition, students will have access to all the online materials shared by these professional services. Meanwhile, students studying the MA International Education can also benefit from the support made available by the Students' Union.</p> <p>All students will be allocated a personal tutor to provide pastoral support shortly after their enrolment. They will also receive a comprehensive induction from the programme team, introducing them to the learning platform, the structure of the programme and how the learning should be completed. A module introduction video as well as a module handbook will be used at the start of each module to help students commence their study and there will be multiple opportunities such as the assignment webinar and tutorials to ensure that they are on track. Students will also have opportunities to receive formative feedback by taking part in interactive activities and submitting drafts to their tutor (see Appendix A to see what the learning journey looks like).</p> <p>The Programme Leader will work regularly with the programme team as well as the Engagement team to provide personalised support where appropriate, e.g. by using a specific Support for Study plan. Moreover, students will have full access to the Library's online catalogue and can also book one-to-one online appointments with the relevant Librarian at a time that suits them (subject to availability). The programme team will ensure that all core sources required for the programme will be available on WorldCat and that links provided on the VLE are in working order.</p> <p>Given the distance-learning nature of the course, it is vitally important to establish and maintain a positive learning community and this has been taken into account during the programme design stage. For more information, please see Sections 22 and 23.</p>	

33	Programme Specific Student Evaluation
-----------	--

The Programme complies with current institutional evaluation policies. Students will undertake module evaluations to provide module-specific feedback to the programme team. Students will elect representatives who will meet with the Programme Leader via the Students' Union Representative Feedback System (RFS) at the end of each trimester to provide wider programme-level feedback. Both module and RFS feedback will be used to enhance the programme, ensuring that student voice is heard. The MA team are committed to ensuring a positive student experience and are aware of the differing needs of distance learning students when compared to their campus-based peers. Student engagement and evaluation is considered on all aspects of the programme both formally through university processes and informally through the module structure.

SECTION F – MAPPING

MAP I

ASSESSMENT /OUTCOMES MAP

Module Name	K&U1	K&U2	K&U3	K&U4	SPS1	SPS2	SPS3	SPS4	IS1	IS2	IS3	IS4	TS1	TS2	TS3	TS4

SECTION G

MAP 2

Graduate Attribute Mapping

Please indicate (with a X) which of the Graduate Attributes that you have considered and where they are considered within the course.

Attribute	Programme Learning Outcomes															
	KU1	KU2	KU3	KU4	SPS1	SPS2	SPS3	SPS4	IS1	IS2	IS3	IS4	TS1	TS2	TS3	TS4
Academic Literacies	X	X	X	X	X	X	X	X	X	X	X	X	X			X
Global Citizenship	X	X			X	X			X							
Information Literacy	X	X	X	X	X	X	X	X	X	X	X	X	X			X
Digital Fluency								X	X				X	X		
Employability	X	X			X	X		X	X	X			X	X	X	X
Being Enterprising		X				X	X	X		X		X		X	X	X

Graduate Attributes

- GA1. [Academic Literacies](#) This covers the range of academic skills that you develop through undertaking university-level study.
- GA2. [Global Citizenship](#) This is about understanding the global context in which you live, study and work
- GA3. [Information Literacy](#) This is about being about to search for, locate, utilise and manage information effectively and ethically
- GA4. [Digital Fluency](#) These are the skills and practices of using digital technology effectively for learning, working and participating in society
- GA5. [Employability](#) This is all about how best to support you in developing the knowledge, skills, behaviours and attitudes which will enable you to be successful in work and life
- GA6. [Being Enterprising](#) This can be defined as a set of behaviours, attitudes and skills which allow both individuals and groups to create positive change through creativity and innovation

NB the above align to the Employability outcomes on the module specifications

SECTION H

MAP 3

Approved Modifications to Programme Specification since Approval/Last Review

The following log provides a cumulative of minor and major modifications made to the Programme Specification since its approval/last review.

QASA Reference	Brief Outline of Light/Minor Modification/ Major Modification <i>(Light/Minor - include level & title of modules & a brief description of modification)</i> <i>(Major - include details of change such as new routes, pathways etc)</i>	Date of QASA Approval (or event)	Approval effective from:	Details of cohort of students who will be affected by the modification <i>(eg students entering Level 5 from September 2016 onward)</i>

SECTION I

MAP 4

Mapping of PSRB requirements against the Programme

The following should be used as a guide to identify and specify all PSRB requirements that have to be met in order to qualify a learner against the PSRB.

	PSRB Name/Standard:					
	PSRB Requirement <i>Please details requirement of PSRB here</i>	PSRB Requirement <i>Please details requirement of PSRB here</i>	PSRB Requirement <i>Please details requirement of PSRB here</i>	PSRB Requirement <i>Please details requirement of PSRB here</i>	PSRB Requirement <i>Please details requirement of PSRB here</i>	PSRB Requirement <i>Please details requirement of PSRB here</i>
Met?						
Modules Identified in:						
Evidence of Requirement met						
Location of PSRB Approval Document						

Appendix A

1. **Synchronous mandatory activities** = learners to complete these activities on or by a specific date/time. Regarding tutorials, students should liaise with their tutor to arrange a date/time that is mutually suitable.
2. **Asynchronous mandatory activities** = learners to complete these activities/engage with materials provided whenever suitable within a specified timeframe, e.g. 1 week.
3. **Formative assessment** = learners are expected to complete these formative tasks in order to receive feedback from tutor.
4. **Hosted events** = events which learners are expected to engage with either synchronously or asynchronously.
5. **Recommended activities** = activities which learners are encouraged to complete.

*Recommended checkpoints are 'recommended' only, learners are free to complete the topics in their own preferred timeframe.

IPG701 – Teaching, Learning and Key Challenges in International Contexts

(Academic Year 2024-2025)

Week	Learning activities/tasks	Assessment	Recommended checkpoints*
Week 1 23/9/24	<ul style="list-style-type: none"> • Course enrolment/induction (2 hrs) • Introduction activity 		
Week 2 30/9/24	<ul style="list-style-type: none"> • IPG701 module introduction (1 hr) 		<i>Begins topic 1 study</i>
Week 3 7/10/24	<ul style="list-style-type: none"> • Reading: assignment brief and module handbook • Q & A submission for webinar 		
Week 4 14/10/24	<ul style="list-style-type: none"> • Assignment webinar (1 hr): host and release 		<i>Begins topic 2 study</i>
Week 5 21/10/24	<ul style="list-style-type: none"> • Reading: chosen source for assessment task 701a 		
Week 6 28/10/24	<ul style="list-style-type: none"> • Create blog draft (task 701a) 		<i>Begins topic 3 study</i>
Week 7 4/11/24	<ul style="list-style-type: none"> • Q & A submission for tutorial 	Submit blog draft (task 701a)	
Week 8 11/11/24	<ul style="list-style-type: none"> • Tutorial (1 hr): discuss blog and chosen theme 		<i>Begins topic 4 study</i>
Week 9 18/11/24	<ul style="list-style-type: none"> • Respond to formative feedback 	Posting own final blog (task 701a)	
Week 10 25/11/24			<i>Begins topic 5 study</i>
Week 11 2/12/2024	<ul style="list-style-type: none"> • Interactive activity (1 hr equivalent): reading peer's blog and compose comment 	Posting comment for peer (task 701a)	
Week 12 9/12/2024		Appraisal draft submission (task 701b)	<i>Begins topic 6 study</i>
Week 13 6/1/2025	<ul style="list-style-type: none"> • Tutorial (1 hr): discuss draft and final submission 		
Week 14 13/1/2025	<ul style="list-style-type: none"> • Respond to formative feedback 		
Week 15 20/1/2025		Final assignment submission	

Appendix A (continued)

IPG702 – Becoming a Reflective and Research-Informed Practitioner

(Academic Year 2024-2025)

Week	Learning activities/tasks	Assessment	Recommended checkpoints*
Week 1 27/1/25	<ul style="list-style-type: none"> IPG702 module introduction (1 hr) 		Begins topic 1 study
Week 2 3/2/25	<ul style="list-style-type: none"> Reading: assignment brief and module handbook 		
Week 3 10/2/25	<ul style="list-style-type: none"> Q & A submission for webinar 		Begins topic 2 study
Week 4 17/2/25	<ul style="list-style-type: none"> Assignment webinar (1 hr): host and release 		
Week 5 24/2/25	<ul style="list-style-type: none"> Create draft proposal outline (task 702a) 		Begins topic 3 study
Week 6 3/3/25	<ul style="list-style-type: none"> Q & A submission for tutorial 	Submit draft proposal outline (task 702a)	
Week 7 10/3/25	<ul style="list-style-type: none"> Tutorial (1 hr): discuss draft proposal 		Begins topic 4 study
Week 8 17/3/25	<ul style="list-style-type: none"> Begin planned CPD activity/action research 		
Week 9 24/3/25	<ul style="list-style-type: none"> Continue planned CPD activity/action research 		Begins topic 5 study
Week 10 31/3/25	<ul style="list-style-type: none"> Interactive activity (1 hr equivalent): reflective 'diary entry' (task 702b) 		
Week 11 21/4/2025	<ul style="list-style-type: none"> Tutorial (1 hr): discuss CPD/action research and 'diary entry' 		Begins topic 6 study
Week 12 28/4/2025		Journal draft submission (task 702b)	
Week 13 5/5/2025	<ul style="list-style-type: none"> Assignment preparation 		
Week 14 12/5/2025	<ul style="list-style-type: none"> Respond to formative feedback 		
Week 15 19/5/2025		Final assignment submission
