

BISHOP
GROSSETESTE
UNIVERSITY

Education, Health and Lifelong Learning

BA (Hons) Special Educational Needs, Disability and Inclusion (SENDI) and Early Childhood Studies

Programme Specification

This document provides a concise summary of the main features of the course(s) & associated award(s) offered through this Programme Specification, and includes the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if they take full advantage of the learning opportunities provided. More detailed information on the learning outcomes, curriculum content, teaching/learning, assessment methods for each module and on the Programme's relationship to QAA Subject Benchmark Statements may be found in the dedicated student handbook for the Programme. The accuracy of the information in this document is reviewed periodically by the University and may be subject to review by the Quality Assurance Agency for Higher Education or by other national bodies.

Versioning of Programme Specification

This programme specification is valid for the period of approval confirmed at the time of the approval/last review event and relates to provision approved at that point. Programme specifications may be updated during the period of approval to include modifications approved through the University's quality assurance processes.

This version provides a description of the programme as approved for the academic session(s) indicated in section 3 of the following table.

1	BGU approval – date and outcome of last approval	17 May 2023 Amended October 2023 Amended April 2024 Amended May 2024
2	Next Scheduled Review Date: [Month/Year]	May 2028
3	Programme Specification - Effective date: [Day/Month/Year]	1 September 2023 BA (Hons) Special Educational Needs, Disability and Inclusion (SENDI) and Early Childhood Studies
4	Version Number	1.3

Modifications to Programme Specification

Modifications to the programme specification since approval/ last review, and the cohort(s) of students affected by the change, are listed in Section H (Log of Modifications) at the back of the document.

Cross Referencing of Programme/Module Specifications

Modifications to any elements of Module Specifications attached to this Programme will be updated and then changes made to this document to reflect that. On each Module Spec the Programmes it relates to are clearly indicated for cross referencing.

Programme Specification

The information in this document is organised into the following sections:

Section A – Administrative and Regulatory Information

Section B – Outcomes

Section C – Structure

Section D – Teaching, Learning and Assessment

Section E – Programme Management

Section F – Mapping

Section G – Graduate Attributes

Section H – Log of Modifications

SECTION A – ADMINISTRATIVE AND REGULATORY INFORMATION

1	Programme Specification Title		
	BA (Hons) Special Educational Needs, Disability and Inclusion (SENDI) & Early Childhood Studies		
1a	Programme Code		
	BASNEC01F23		
2	Brief Summary (for Marketing Purposes)		
	<p>BA (Hons) Special Educational Needs, Disability and Inclusion (SENDI) & Early Childhood Studies joint programme strongly supports an understanding of the crucial 0-8 stage of child development through a focus on individual needs and the broader sociocultural context of young children and their families. This is particularly significant in the light of the current government agenda to reduce child inequalities; prioritising prevention and early intervention; and building and strengthening local and cross sector services. The BA (Hons) SENDI and ECS degree will provide opportunities for students to develop an understanding of important concepts such as multiagency working and different categories of need, in addition to offering opportunities for critical, reflective and evidence-based practice in order that graduates might become advocates of change.</p> <p>Graduates will gain the knowledge and skills required to support families and young children in a range of education related settings and through practice with young children and their families they will be encouraged to explore their own personal, professional and ethical values.</p> <p>This new programme supports those who may have aspirations to be Early Help Workers attached to Children's Centres, Early Years Practitioners working with young children and families in specialist and mainstream provision, charity roles (paid or volunteering) such as care support, respite and play workers.</p>

SECTION B2: OUTCOMES

17	QAA Benchmark Statements
	<p>The BA (Hons) BA (Hons) Special Educational Needs, Disability and Inclusion (SENDI) & Early Childhood Studies joint degree is aligned with:</p> <p>QAA level descriptors for Level 6 Undergraduate Degrees (QAA, 2014) https://www.qaa.ac.uk/docs/qaa/quality-code/qualifications-frameworks.pdf</p> <p>QAA Subject Benchmark for Early Childhood Studies (2019) https://www.qaa.ac.uk/quality-code/subject-benchmark-statements/early-childhood-studies</p> <p>There are no subject specific benchmark statements for Special Educational Needs degrees. As such this programme has been written to correspond closely with the:</p> <p>QAA Quality Code (2018): Quality Code (qaa.ac.uk)</p> <p>With specific reference to benchmark statements for:</p> <p>Education Studies (2019): Subject Benchmark Statement: Education Studies (qaa.ac.uk)</p> <p>Sociology (2019): Subject Benchmark Statement: Sociology (qaa.ac.uk)</p> <p>Social Policy (2019): Subject Benchmark Statement: Social Policy (qaa.ac.uk)</p> <p>Health Studies (2019): Subject Benchmark Statement: Health Studies (qaa.ac.uk)</p> <p>SEEC level descriptors have also been used in designing module and programme outcomes (SEEC, 2021) credit level descriptors for Higher Education available at SEEC (uall.ac.uk).</p>
18	Programme Aim
	<p>The SENDI and ECS degree programme provides graduating students with qualities and transferable skills necessary for specific employment or further training in a range of related fields of special education, early childhood, social or health care settings and relevant postgraduate study, for example PGCE, policy administration or support work. This will be characterised by students who have not only attained the subject and module outcomes at the appropriate levels but have also begun to understand the diversity of human needs within a complex society and the importance of challenging existing values, attitudes and prejudices in the wider community. Graduates will be able to contribute to society through advocacy for both them and the needs of others, using informed knowledge and understanding in judgements and actions.</p> <p>In addition to this, the Graduate Attribute framework identifies further outcomes students should acquire. These reflect a collective understanding of the essential skills of a BGU graduate who, through the study of this degree will be equipped with intellectual and transferable skills suitable for a range of professional careers and lifelong learning. These generic outcomes will be demonstrated in any given subject where a student studies a combined or single honours programme. Outcomes relating to knowledge and understanding and practical and/or professional skills are subject-specific. The generic skills indicate a minimum for all Education, Health and Lifelong Learning graduates.</p>

The aims of the BA (Hons) SENDI and ECS:

- Offer a programme of study that develops an integrated knowledge and understanding of the disciplines of SENDI and ECS;
- Introduce students to the philosophy and theory underpinning SENDI and ECS, and how these apply in real world contexts and the wider challenges of living and working in an increasingly global, informational and interdependent world.
- Enable students to demonstrate systematic breadth and depth of knowledge and understanding of contemporary issues within SENDI and ECS, considering professional and academic challenges of local, national and global perspectives and relevant ethical and values-based issues.
- To provide a research-led curriculum and offer support to students in pursuing their own research interests.
- Enable students to develop a range of transferable skills (cognitive and intellectual, and generic and key skills such as being autonomous, reflexive, critical and analytical) that will equip them to function effectively in contemporary study and work environments, and which will also provide the basis for continuing personal development in line with the BGU Graduate attributes.
- Establish and cultivate a safe, inclusive, diverse, and engaging student-centred and deep learning focused teaching environment.

19 Programme Specific Outcomes

(a) Final Award Learning Outcomes

On successful completion of **BA (Hons) SENDI & ECS**, students will be able to:

Knowledge and Understanding [K&U]

- K&U1 Demonstrate a systematic knowledge and conceptual understanding of the origins, development and limitations principal features and key paradigms of SENDI and ECS, recognising differing social, political, cultural and historical contexts.
- K&U2 Demonstrate a critical and reflective understanding of the wide range of values and principles which inform inclusive policy and practice for babies and young children, families and communities at local, national and global levels.
- K&U3 Show a critical understanding of how a range of competing personal, social and educational systems, values and attitudes determine and shape early childhood, special education and inclusive provision from psychological, sociological, health, welfare, educational, cultural, philosophical, legal, historical, political and economic perspectives, some of which are at, or informed by, the forefront of the discipline.

- K&U4 Demonstrate an in-depth and systematic knowledge of a range of research paradigms, research methods and measurement techniques and show an awareness of their limitations in the field of study.

Subject-Specific and Professional Skills [SPS] SENDI

- SPS1 Apply academic, critical and reflective approaches to meeting a diverse range of individual needs, recognising the complexity of competing social and educational ideologies.
- SPS2 Analyse methods and transfer techniques learned to engage others and support inclusive practice as advocates of change.
- SPS3 Review, consolidate, extend and apply thorough knowledge and understanding of SENDI to a wide range of contexts evidenced through confident presentations in a range of different formats.
- SPS4 Demonstrate the ability to complete work autonomously and to initiate and carry out work to completion, collating and evaluating data, showing an appreciation of theory evidence and relevance to current debates.

Subject-Specific and Professional Skills [SPS] ECS

- SPS1 Show a highly developed critical understanding of the links between ethics, economics, politics, culture and ideology in the lives of babies and young children and their families and communities.
- SPS2 Analyse and evaluate competing positions in relation to the construction of babies and young children and childhood by different subjects, societal agents and time place and culture and be able to make critical judgements and arguments relating to the discipline.
- SPS3 Demonstrate a well-developed ability to plan for, and where appropriate implement, play and the curriculum, assessment, evaluation and improvement of creative learning opportunities, taking account of babies' and young children's health and emotional well-being.
- SPS4 Have a well-developed ability to reflect upon the ethics of studying babies and young children, families and communities and be able to use skills of observation and analysis in relation to aspects of lives of babies and young children.

Intellectual Skills [IS]

- IS1 Articulate critical arguments on specialist and complex subject matters, adopting and defending an evidence-based personal position.
- IS2 Abstract, synthesise and analyse secondary and primary sources, demonstrating confidence in the search, and manipulation of different data.
- IS3 Apply specialist knowledge to solve problems of a predictable, unpredictable and complex nature.
- IS4 Comprehend the contested and pluralistic nature of their specialist areas of study.

Transferable skills [TS]

- TS1 Develop a range of employability skills appropriate to the subject areas.
- TS2 Demonstrate a wide range of effective oral, written and presentation skills for a number of audiences.
- TS3 Be able to apply a wide range of information and communications technology and other learning and communications resources:
- TS4 Plan and manage their own time effectively in order to achieve objectives, meet deadlines, and construct research, either independently or as part of a team.

20	Exit Award Learning Outcomes
-----------	-------------------------------------

On successful completion of a Level 4 CertHE SENDI and ECS, students will be able to:

Knowledge and Understanding [K&U]

- K&U1 Demonstrate a knowledge and understanding of the origins, development and limitations, principal features and key paradigms of SENDI and ECS, recognising differing social, political, cultural and historical contexts.
- K&U2 Demonstrate understanding of the wide range of values and principles which inform inclusive policy and practice for babies and young children, families and communities at local, national and global levels.

- K&U3 Show understanding of how a range of personal, social and educational systems, values and attitudes determine and shape early childhood, special education and inclusive provision from psychological, sociological, health, welfare, educational, cultural, philosophical, legal, historical, political and economic perspectives, some of which are at, or informed by, the forefront of the discipline.
- K&U4 Demonstrate knowledge of research paradigms, research methods and measurement techniques.

Subject-Specific and Professional Skills [SPS] SENDI

- SPS1 Apply academic approaches to meeting a diverse range of individual needs, recognising competing social and educational ideologies.
- SPS3 Review knowledge and understanding of SENDI to a range of contexts evidenced through presentations in a range of different formats.

Subject-Specific and Professional Skills [SPS] ECS

- SPS1 Show an understanding of the links between ethics, economics, politics, culture and ideology in the lives of babies and young children and their families and communities.
- SPS2 Analyse different positions in relation to the construction of babies and young children and childhood by different subjects, societal agents and time place and culture relating to the discipline.
- SPS3 Demonstrate a developing ability to plan for, and where appropriate implement, play and the curriculum, assessment, evaluation and improvement of creative learning opportunities, taking account of babies' and young children's health and emotional well-being.
- SPS4 Have a developing ability to reflect upon the ethics of studying babies and young children, families and communities and be able to use skills of observation in relation to aspects of lives of babies and young children.

Intellectual Skills [IS]

- IS2: Demonstrate the ability to manage their own learning, and to make use of scholarly reviews and primary sources (for example, refereed research articles and/or original materials appropriate to the discipline).
- IS2 Show the developing ability to analyse secondary and primary sources, demonstrating confidence in the search, and manipulation of different data.

- IS3 Apply specialist knowledge to solve problems of a predictable and unpredictable nature.
- IS4 Demonstrate understanding of the nature of their specialist areas of study.

Transferable skills [TS]

- TS1 Develop a range of employability skills appropriate to the subject areas.
- TS2 Demonstrate a range of effective oral, written and presentation skills for a number of audiences.
- TS3 Be able to use and apply a range of information and communications technology and other learning and communications resources:
- TS4: Plan and manage their own learning in order to achieve objectives and meet deadlines, either independently or as part of a team.

Students awarded the Diploma of Higher Education (Level 5) will be able to:

Knowledge and Understanding [K&U]

- K&U1 Demonstrate a detailed knowledge and understanding of the origins, development and limitations principal features and key paradigms of SENDI and ECS, recognising differing social, political, cultural and historical contexts.
- K&U2 Demonstrate a reflective understanding of the wide range of values and principles which inform inclusive policy and practice for babies and young children, families and communities at local, national and global levels.
- K&U3 Show a detailed understanding of how a range of competing personal, social and educational systems, values and attitudes determine and shape early childhood, special education and inclusive provision from psychological, sociological, health, welfare, educational, cultural, philosophical, legal, historical, political and economic perspectives, some of which are at, or informed by, the forefront of the discipline.
- K&U4 Demonstrate an in-depth knowledge of a range of research paradigms, research methods and measurement techniques and show an awareness of their limitations in the field of study.

Subject-Specific and Professional Skills [SPS] SENDI

- SPS2 Use methods and transfer techniques learned to engage others and support inclusive practice.
- SPS3 Review and apply thorough knowledge and understanding of SENDI to a wide range of contexts evidenced through confident presentations in a range of different formats.

Subject-Specific and Professional Skills [SPS] ECS

- SPS1 Show a highly developed understanding of the links between ethics, economics, politics, culture and ideology in the lives of babies and young children and their families and communities.
- SPS2 Analyse and evaluate different positions in relation to the construction of babies and young children and childhood by different subjects, societal agents and time place and culture and be able to make judgements and arguments relating to the discipline.
- SPS3 Demonstrate an ability to plan for, and where appropriate implement, play and the curriculum, assessment, evaluation and improvement of creative learning opportunities, taking account of babies' and young children's health and emotional well-being.
- SPS4 Have an ability to reflect upon the ethics of studying babies and young children, families and communities and be able to use skills of observation and analysis in relation to aspects of lives of babies and young children.

Intellectual Skills [IS]

- IS1 Articulate arguments on specialist and complex subject matters, adopting and defending an evidence-based personal position.
- IS2 Analyse secondary and primary sources, demonstrating confidence in the search, and manipulation of different data.
- IS3 Apply specialist knowledge to solve problems of a predictable, unpredictable and complex nature.
- IS4 Demonstrate in-depth understanding of the nature of their specialist areas of study.

Transferable skills [TS]

- TS1 Develop a range of employability skills appropriate to the subject areas.

- TS2 Demonstrate a wide range of effective oral, written and presentation skills for a number of audiences.
- TS3 Be able to apply a wide range of information and communications technology and other learning and communications resources:
- TS4 TS 4: Plan and manage their own learning effectively in order to achieve objectives and meet deadlines, either independently or as part of a team

In order to qualify for an Ordinary Degree (Level 6):

The student must meet the requirements as laid down in *Academic Regulations Governing Taught Qualifications* which is available on the BGU website.

SECTION C2: STRUCTURE

21a	Structures, modes of delivery (eg FT/PT etc), levels, credits, awards, curriculum map of all modules (identifying core/option status, credits, pre or co-requisites) potential entry/exit points and progression/award requirements
-----	---

Level 4 – 120 credits

Level 4	Semester 1	SND40122 From Excluded to Included: A Century of Change 30c	ECS402_1.1 Principles of Child Development 2: Understanding How Children Learn 30c
	Semester 2	SND40222 The Whole Child: Holistic Approaches to Meeting Needs (Placement) 30c	ECS40622 Policy, Provision and Practice 30c

Level 5 – 120 credits

Level 5	Semester 1	SND50722 Interpreting the World: Research & Practice 15c	SND50122 Meeting Different Needs (Placement) 30c	ECS50922 Safeguarding Children 15c	ECS50722 Understanding Childhood 15c
	Semester 2	SND50422 Rhetoric or Reality? Or GA Enhancement module 15c		ECS510_1.0 Promoting Positive Behaviour 15c	ECS50622 The Value of Play 15c Or GA Enhancement Module 15c

Level 6 – 120 credits

Final year project in SENDI

Level 6	Semester 1	SND60122 Hidden Inequalities 30c	SND60522 (SENDI) Capstone Project Proposal 15c	ECS60322 The Young Child in Transitions: Supporting Change and Promoting Resilience 15c	ECS60222 Global and Future Childhoods 15c
	Semester 2		SND60622 (SENDI) Capstone Project 30c		ECS60622 Leading Early Childhood Pedagogy and Practice 15c

Final year project in ECS

Level 6	Semester 1	SND60122 Hidden Inequalities 30c	ECS60722 Researching with Children 15c	ECS6032 The Young Child in Transition: Supporting Change and Promoting Resilience 15c	SND60322 Spectrums and Kaleidoscopes 15c OR SND60222 Leading the Learning Environment 15c
	Semester 2		ECS60422 Sector Based Project: Researching and Reflecting on Early Years Practice 30c		ECS60622 Leading Early Childhood Pedagogy and Practice 15c

21b	Module Structure
------------	-------------------------

Level 4

Core Modules				
Code	Status	Module Title	Period (number)	No of credits
SND40122	Mandatory	From Excluded to Included: A Century of Change	1	30
SND40222	Mandatory + Placement	The Whole Child: Holistic Approaches to Meeting Needs	2	30

SECTION D: TEACHING, LEARNING AND ASSESSMENT

22	Curriculum Design
	<p>The BA (Hons) Special Educational Needs, Disability and Inclusion (SENDI) & Early Childhood Studies will be completed in three years of full-time study in order to achieve the programme aims and learning outcomes. This section outlines the curriculum design for each of the two disciplines which embed their subject specific requirements and provide the student with a breadth of transferable skills and opportunities for cross disciplinary knowledge and application. At BGU, there are some key commonalities which track across programme outcomes relating to intellectual and transferable skills for students studying all subjects. These reflect our collective understanding of the essential skills of a BG graduate who, through the study of one of our degrees, will be equipped with intellectual and transferable skills suitable for a range of professional careers and lifelong learning.</p> <p>As stated in Section 18, the BA (Hons) SENDI and ECS programme aims to produce high-calibre graduates who are autonomous, reflexive, critical and analytical. Throughout the programme, the inclusion of research-informed and research-led module content ensures that the curriculum maintains its currency in the broader landscape of the disciplines. Content is built on at each level of learning and the two half subjects to enhance the interconnections between the disciplines.</p> <p>The modules also reflect the relevant QAA benchmark statements which outline the interdisciplinary nature of the subject, providing a basis for professional education and training for new professional roles, with a view to expanded provision of integrated care and education for children from birth to 8 years (QAA, 2019). Across both subjects at Level 4, students explore the holistic development of the young child and appropriate environments to support different needs. It also provides the foundational knowledge and understanding about links between policy and practice, seeking to explore where exclusion and inclusion is afforded.</p> <p>The focus at level 4 will then provide a sound foundation for level 5 study in which modules are designed to provide a more specific focus on the areas of special education, health and social care. This level of study also encourages students to consider in more depth the changing nature of childhood and construction of the child, as well as exploring more generally child advocacy reflecting QAA benchmark 3.3 (2019). This level of study also builds on the development of the professional through module ECS510_1.0 in which students are encouraged to apply their knowledge of behaviour theories through reflecting on the skills need to promote positive behaviour in settings.. Students also make close links between theory and practice in the SND50122 Meeting Different Needs module and interrogate more closely the reality of life for a young child with special needs, and their families. SND50422 Rhetoric to Reality? explores policy and societal ambitions in relation to policy agendas.</p> <p>Both QAA ECS and ES benchmark statements identify that <i>by the end of the course, students are required to demonstrate facility and familiarity with research and develop critical capabilities in selection and analysis of relevant perspectives</i> At levels 4 and 5 students engage in contested and changing discourses in SENDI and ECS and through research informed teaching are encouraged to use empirical research to underpin academic work (SND50722 Interpreting the world: Research & Practice). At level 6 students can opt for either an SENDI or ECS research project and associated research skills module. SND60122 builds on level 5 modules to examine where inequalities are hidden. ECS60622 discusses early years pedagogy and practice and meeting young children's needs.</p>

23	Learning and Teaching Strategies
	<p>Teaching will be delivered through interactive lectures, workshops, tutorials and seminars to promote engagement and independent learning with opportunities for cross-disciplinary learning aligned with the student's particular interests and aspirations. A core and central tool for supporting teaching and learning will be the use of Blackboard as a Virtual Learning Environment. Students will be invited to use asynchronous web tools, such as blogs, wikis and Padlet, as a strategy for sharing resources and discussions. Students will also be invited to engage with online learning spaces through the VLE to engage in sessions to support the development of academic writing and analytic skills. Experience of the student cohort underpins strategies for learning and teaching since students may enter the course with non-traditional level 3 qualifications and the team recognise that students require more support in the early stages of study to support them in adjusting to the demands of study at a more advanced level. Furthermore, in acknowledgement of the need to ensure that students effectively make the transition from level 3 study to higher level study the team currently embed study skills and pastoral support into level 4 study by way of the personal tutor system.</p> <p>The programme team works in partnership with students and external stakeholders to enhance the student experience and develop innovative learning and teaching strategies.</p> <p>Face to face contact hours identified in the module specifications are timetabled as part of the university timetabling process and to avoid potential clashes between joint subjects. Each module summary describes the indicative pedagogic strategies employed within that module and gives a qualitative account of the texture of learning hours. Students will receive 12hrs of face-to-face contact time per week at level 4, 8 hrs per week at level 5 and 6 hrs per week at level 6 – the gradual reduction in face-to-face learning hours over the three years of study reflects the commitment to encouraging greater independence in student learning over the duration of the course. Flexibility in patterns of delivery is seen where modules are underpinned by placement experience (see section 27), or in the case of the sector-based project, which by its very nature encourages a more independent approach. In these cases, contact time is reduced to reflect the practical nature of the module.</p>
24	Assessment Strategies
	<p>The assessment strategy for BA (Hons) SENDI and ECS supports the overall demonstration of the programme learning outcomes and is designed to engage students in a range of assessments throughout the programme in both subjects. It systematically builds knowledge and understanding to support the skills required. The assessment strategies specific to the two subjects are outlined below.</p> <p>The assessment strategy has been planned to ensure that module outcomes can be met through a mixture of assessments designed to support students' transferable skills as well as enhancing their academic competence. As such assessments will combine coursework with more practical assessments, such as oral presentations, contributions to blogs and wiki's and case studies (see table below).</p> <p>Assessments are designed so that an assessment type will be revisited over the duration of the course but with an increase in complexity, this allows students to develop confidence and build on their skills. For example, a presentation at Level 4 might be by way of a small group which is reduced to paired presentations at Level 5 and then individual at Level 6, allowing students to gain in confidence as they progress through the course. Assessments will also increase in size between levels of study allowing for students to demonstrate a greater depth of understanding and complexity of ideas.</p> <p>Due to the smaller 15-credit modules, assessments will normally be by way of one component for each module, although this may be increased to two components in the case of 30-credit modules depending on the assessment type.</p>

Module Code	Module Description	Credits	Year	Assessment and learning methods		
				Exam/Written	Practical	Coursework
				%	%	%

25

Inclusive Practice and Personal Development Planning

BGU is committed to widening access and participation and adheres to a policy of non-discrimination. Students will be supported throughout their programme through the full access to the range of services offered through the Centre for Enhancement in Learning and Teaching (CELT), Student Advice and Library Services.

The programme will support personal development planning through the use of the BGU Development and Career Plan (DCP) and the personal tutor system. Students will be encouraged to access the wider services of BG Futures for professional career advice and opportunities.

All students develop an e-portfolio, the DCP. This is a detailed record of the development of skills, experience and knowledge which:

- supports reflection on academic and assessed work, and ensures students are able to respond effectively to feedback from tutors and improve their grades;
- allows students to collect evidence of the things that they achieve during their studies that promote their employability; and,
- makes explicit links between students' work experience and professional standards and in both subject areas, supports the development of a close and well-informed relationship with their personal tutor.

We recognise the importance of employability for our students particularly in a climate where graduate employment is becoming increasingly competitive. When our joint honours students graduate, they will find themselves competing with large numbers of graduates and need to distinguish themselves from them in their application and interview. The DCP ties in with the employability award plan and careers services and provides students with a means of gathering evidence of all the things they do that would be of interest to an employer. It enables them to frame their skills, knowledge and work experience in such a way as to make explicit how these are relevant for the posts for which they are applying.

The structure of the modules aligns to the development of BGU Graduate attributes as follows:

The SENDI and ECS joint programme curriculum is also designed such that students can confidently apply for jobs in the sector on graduation, or equally have the knowledge and skills required to access post-graduate study.

Alongside a focus on intellectual and transferable skills the programme structure also aligns to the development of BGU Graduate attributes as follows:

1: Academic Literacies - students are enabled to develop academic literacy through engagement with evaluating and synthesizing original empirical research into their assignments. These skills are developed from the start of study at Level 4 with an increase in complexity in the types of sources used through the course of study. Additionally, assessments are specifically designed to support students in developing their academic competency, with levels of complexity increasing as the students' progress through the programme.

2: Global Citizenship – Students have the opportunity to study from a global perspective in the module ECS60222. Students will also have the opportunity to examine the early childhood curriculum globally in the level 4 module SND40622 and SND40222 and will examine childhood from different perspectives in ECS50722 and SND50122.

3: Information Literacy – Information literacy will be developed throughout the programme as students will be required to independently search for academic sources through for example Worldcat and google scholar throughout their level 5 and 6 modules.

4: Digital Fluency – Assessments are designed to support students in developing digital fluency through a range of assessments including online blogs, narrated PowerPoints and online e-portfolios. In addition, student will be encouraged through their studies to engage in online forums and discussion groups. The teaching team will also model the use of technology through session delivery as appropriate.

5: Employability – Employability is a key focus of the course, and a balance has been sought between creating a vocational course while meeting the demands of degree level study. Modules are focused towards developing skills as a practitioner from a theoretical perspective and are designed to ensure that students have a firm knowledge base which can be built on in a range of workplace settings.

6: Being Enterprising – the practical nature of the course means that students are supported to develop creative problem-solving skills through directed independent learning. Students have the opportunity to work

together on projects such as designing their own curriculum and setting up their own nursery through modules SND40622 and ECS402_1.1.

26	Technology Enhanced Learning
-----------	-------------------------------------

Students will be encouraged to apply the technological and digital skills that they already have and to develop new ones. A central tool for technology enhanced learning is through the use of BGU's Virtual Learning Environment (VLE), which is used to augment the in-person classes by organising access to learning resources, preparatory and follow-up learning activities and tasks as part of the pedagogical approach for the programme. Students will have a range of opportunities for critical discussion and active engagement with VLE materials through a range of synchronous and asynchronous learning spaces including module blogs, wikis and discussion forums.

Learning materials will be sign-posted and accessed through the module areas on the VLE which through digital reading lists will link through to the Library Systems for access to journals and specific subject related learning resources. Students will engage with research for relevant literature through online databases and electronic search engines as part of BGU's library provision.

27	Work-related Learning and/or Placement
-----------	---

Students on BA (Hons) SENDI and ECS will have the opportunity to undertake work-related placements as part of their programme. These are primarily embedded into the SENDI part of the programme, although students opting to undertake the ECS60722 and ECS60422 Sector-based project have the opportunity to attend further placements.

Students undertake varied placements to increase their knowledge and understanding of inclusive practice in a range of settings. Placements embrace educational, health, social care and other settings, selected through discussion with module leaders. Students are encouraged to determine placements which align with their individual areas of research and progression pathway.

Any changes to placement offer are subject to risk assessments. Where placements are not advised, additional/ comparative hours of teaching/ online or face 2 face will be offered. Students will be supported and encouraged to consider alternative access/ dates to placements/ SEND practice with lower related risks.

The Programme team works with the BGU Placement Services Office to determine dates and preferred settings. Students are required to complete a preparatory placement form which helps the Placement Services Office to identify and co-ordinate access to schools or alternative placements.

Placements can be completed in organisations other than those, which are local to BGU. Placements offered might include special education settings, alternative education settings, colleges, and outreach or community provision. The purpose of the placements is to contextualize the university-based theoretical learning. This is seen as central to the course due to the nature of much of the subject content.

Placements are intended to allow students to develop understanding of the world of formal and informal education, in both mainstream, special school settings, early years settings and alternative provision. These experiences are used to allow students to become familiar with the application of theoretical principles to different environments and to begin to examine those environments in a critical manner.

As students' progress through the programme, they undertake placements or projects, which are broadly relevant to a career for which their degree prepares them. Placements allow students to explore expected levels of individual achievement in a range of educational or alternative settings. This enables students to identify barriers to learning across different Labels and acronyms: categories of need, reviewing and evaluating strategies to support needs.

28	Employability
<p>The BA (Hons) Special Educational Needs, Disability and Inclusion (SENDI) & Early Childhood Studies degree offers a firm base for students hoping to enter a variety of career pathways including but not limited to education-related, health, or voluntary sector careers. The ability to critically analyse a problem, formulate a considered response, create an argument and generate new ideas, lend themselves well to careers in the creative industries, the legal sector, government administration and education. Maintaining the focus on real-world application throughout the programme is vital for providing students with a sustained focus on employability and possible career routes.</p> <p>All students on courses within the modular framework will be well placed when they apply for a career in primary teaching, educational support or early year's education whether they are studying a single or combined honours degree.</p> <p>Graduating cohorts of the SENDI and ECS programmes have opportunities to progress onto a diverse range of career pathways. A number of students may elect to go on to initial Teacher Training (both Schools Direct and PGCE), teaching assistant roles, and continue in higher education. In addition to careers in education and special educational needs, graduates in this subject are also well-placed to work in the following areas:</p> <ul style="list-style-type: none"> • local authority provision; • private sector educational providers; • social care settings; • voluntary sector. <p>Employers are also brought into modules and course content as guest speakers or to run specific workshops.</p>	

SECTION E - PROGRAMME MANAGEMENT

29	Programme Specific Admission Requirements
	<p>Students joining this course will normally need 96 -112 UCAS tariff points (from a maximum of four Advanced Level qualifications). There are a range of acceptable qualifications that meet this requirement, such as A/AS Levels, BTEC, Access Courses, International Baccalaureate (IB), Cambridge Pre-U, Extended Project, etc.</p> <p>A satisfactory DBS is required.</p> <p>Experiences, which have given prospective students an insight into the realities of Special Educational Needs and /or Disabilities, are recommended.</p> <p>Candidates with other entry qualifications and experiences are welcome. The Admissions Team advises on their equivalence to the standard entry qualifications.</p> <p>In line with the priority which it gives to promoting opportunities for lifelong learning and widening access to Higher Education, the University welcomes applications from prospective students who are seeking to gain exemption from some parts of an academic programme by gaining accreditation for prior learning. Such claims may be based either on a previous course of study or on experience gained in paid employment or voluntary activities, bridging assignments are also available if required. If a prospective student has recently completed or studied modules as part of a previous qualification, they may apply for Accreditation for Prior Learning in line with the relevant Code of Practice. In addition, bridging assignments are available to enable students seeking direct entry into Levels 5 or 6 to meet programme specific Level 4 and 5 module outcomes. NB Minimum admission points for entry to the University are reviewed on an annual basis. For entry requirements refer to the current University on-line prospectus https://www.bishopg.ac.uk/courses/edus</p> <p>We encourage applications from mature students and recognise that their experience or qualifications are likely to be different. Candidates with other entry qualifications and experience are welcome. The Admissions Team advises on their equivalence to the standard entry qualifications. Formal reference should also be made to the Code of Practice for the Admission of Students.</p>
30	Programme Specific Management Arrangements
	<p>The Programme Leader for both subject areas will each lead and manage their specific half programme. The programme will be taught by module leaders and tutors, who are all research-active subject specialists. The programme is overseen by the Academic Enhancement Committee and institutionally reports to SENATE. Yearly reviews of delivery are conducted (AMRs (Annual Monitoring Reports)) informed by module evaluations, student and staff feedback, External Examiners comments and the BGU Learning and Teaching strategy. Targets for year on development are set and effected to enhance programme delivery.</p> <p>Visiting tutors and speakers will be used as a core enhancement to modules for currency and sector specific content. Expertise will be drawn from within the programme team and across BGU for the teaching of particular research methodologies and competencies, alongside research-informed content.</p> <p>A Programme Leader leads each subject within the joint degree framework. Programme Leaders follow the organisational processes for timetabling and programme planning as determined by the Dean of Faculty, Heads of Programme and CELT. Aside from the formal methods of programme management, Programme Leaders discuss student progression on an 'as needed' basis and consider processes that facilitate engagement and opportunities for development as needed.</p>

The programme team work closely with BGU Placement Services Office to arrange placement opportunities.

31 Staff Responsibilities

Staffing expertise within the respective subject teams is a close match to the module content which enhances module delivery and leadership of different modules aligns with individual skills and expertise. Leadership of modules will be designated to those with particular interests and research-informed understandings to support the varied modules. Module Leaders are responsible for co-ordinating the specific delivery including developing and promoting VLE resources for each module. When needed, Hourly Paid Lecturers (HPLs) form part of the delivering team. HPLs complete a BGU induction programme and are tutored in teaching, planning, delivery and assessment in line with the modules they are teaching. Staff on the programme will be allocated to students as personal tutors and, in the third year of the programme, as research supervisors.

The respective programme Leaders: organisational responsibility and QA monitoring, oversight student progression.

Module Leaders: determining and delivering module content and ensuring student engagement and progression.

The Programme Leader in consultation with the subject team reviews programme delivery and sets the timetable and staffing for each year.

32 Programme Specific Academic Student Support

Students will have opportunity to engage with university, programme and module inductions. They will be informed of differing processes for assessment submissions, extensions and extenuating circumstances if needed. Tutorial support will be offered for continuous development and module progression.

Students have an opportunity through the admissions process to declare support needs and to revisit this as they progress through the programme. Student Support responds to these needs and advises the delivering lecturers on adjustments required.

Programme and Module Leaders ensure students have access to appropriate IT support, pastoral care and academic coaching, as appropriate for their personal or academic needs and the level of their programme. This is supported through CELT.

Students are also encouraged to engage in the Graduate Attributes Award offered at BGU.

Close engagement with the wider professional services as part of the student experience will be embedded within each module. Sessions led by the Library Services team and Centre for Enhancement in Learning and Teaching (CELT) staff, specifically from Digital Learning and Learning Development, will support academic literacies and work towards assessments. Each student will be allocated a designated research supervisor in the third year of study who will oversee, with the student, the development of the research design and ethics forms for submission to the Ethics committee, and the collection and analysis of data for the dissertation. Students will also have an allocated tutor, who will act as personal tutor as part of the Development and Career Plan (DCP) process.

33	Programme Specific Student Evaluation
-----------	--

The Programme complies with current institutional evaluation policies. Through the Students' Union Representative Feedback System (RFS), a formal procedure has been established to enable students to contribute to the enhancement of the programme through their elected Student Representative. End of module evaluations are used to inform and improve practice. In addition, the role of student/ course rep provides on-going feedback to make meaningful, timely adjustments to module delivery.

An intrinsic element is that effective teachers, including lecturers in higher education, are reflective practitioners who adjust their pedagogic strategies year-on-year in response to feedback. This feedback comes in the forms of:

- student outcomes (e.g., retention, achievement);
- student comments (in various surveys, through representatives and directly through informal verbal feedback);
- professional judgment of module effectiveness and;
- changes to the external environment (notably professional or other employer needs, or institutional policies and procedures.

We therefore continually review, refine and improve assessment approaches and methods based upon practical experience of working with and assessing students on this programme. We will seek to adopt imaginative and innovative approaches to teaching and assessment, which reflect the creative nature of the subject.

SECTION F – MAPPING

Graduate Attributes

- GA1. **Academic Literacies** This covers the range of academic skills that you develop through undertaking university-level study.
- GA2. **Global Citizenship** This is about understanding the global context in which you live, study and work.
- GA3. **Information Literacy** This is about being able to search for, locate, utilise and manage information effectively and ethically.
- GA4. **Digital Fluency** These are the skills and practices of using digital technology effectively for learning, working and participating in society.
- GA5. **Employability** This is all about how best to support you in developing the knowledge, skills, behaviours and attitudes which will enable you to be successful in work and life.
- GA6. **Being Enterprising** This can be defined as a set of behaviours, attitudes and skills which allow both individuals and groups to create positive change through creativity and innovation.

NB the above align to the Employability outcomes on the module specifications

<http://www.bishopg.ac.uk/student/careers/graduate-attributes/Pages/default.aspx>

Approved Modifications to Programme Specification since Approval/Last Review

The following log provides a cumulative of minor and major modifications made to the Programme Specification since its approval/last review.

QASA Reference	Brief Outline of Light/Minor Modification/ Major Modification <i>(Light/Minor - include level & title of modules & a brief description of modification)</i> <i>(Major - include details of change such as new routes, pathways etc)</i>	Date of QASA Approval (or event)	Approval effective from:	Details of cohort of students who will be affected by the modification. <i>(eg students entering Level 5 from September 2016 onward)</i>
Curriculum Mod	Change of assessment category for SND60222 – academic integrity modification	October 2023	October 2023	
Curriculum Mod	Replacement of ECS50322 with ECS510_1.0	April 2024	Sept 2024	
Curriculum Mod	Amendment to ECS40222 module title and code	May 2024	Sept 2024	

Mapping of PSRB requirements against the Programme

The following should be used as a guide to identify and specify all PSRB requirements that have to be met in order to qualify a learner against the PSRB.
