

ACADEMIC LITERACIES

Academic Literacies covers the range of academic skills that you will develop through undertaking University-level study. Developing these skills will enhance your academic performance, equip you for the graduate jobs market and support a smooth transition into the professional workplace.

Criticality

- To understand, interpret and respond independently to assignments
- Analyse, critique and form an argument
- Purposefully evaluate the worth of specific ideas and arguments and to draw links and conclusions

Academic Communication

- Employ an objective and formal voice in your academic writing and speaking
- Communicate ideas in a clear and concise manner

Academic Integrity

- Research and incorporate the ideas of others in your work with integrity
- To understand and take responsibility for your own learning goals and to know when to seek assistance

Opportunities for developing Academic Literacies

- Weekly Drop-in Sessions
- Workshops (such as 'Proofreading and Editing', 'Structure and Style' or 'Referencing')
- In-curriculum sessions
- 1-2-1 tutorials with a Learning Development Tutor
- Group Tutorials
- Academic Integrity Guide
- Workshop Series: Live & Learn
Second Year Success
Destination Dissertation
- Blackboard Resources and YouTube videos
