GLOBAL CITIZENSHIP

Lincoln Bishop University

THE HUB

'Global citizenship is the umbrella term for social, political, environmental, and economic actions of globally minded individuals and communities on a worldwide scale. The term can refer to the belief that individuals are members of multiple, diverse, local and non-local networks rather than single actors affecting isolated societies. Promoting global citizenship in sustainable development will allow individuals to embrace their social responsibility to act for the benefit of all societies, not just their own.' United Nations. (2024). Global Citizenship. United Nations. https://www.un.org/en/academic-impact/global-citizenship

Importance

- Global Citizenship: Involves acting responsibly and ethically on a global scale, caring for others and the environment.
- Cultural Understanding: Engaging with diverse cultures broadens skills and experiences.
- Sustainability: Emphasises the wise use of finite resources for long-term ecological, human, and economic health.
- Corporate Social Responsibility (CSR): Prioritised by organisations, integrating ethical practices and digital solutions.
