**ETHNIC MEETING AT LLGC**

The London Lesbian and Gay Centre called a meeting to discuss 'Racism, the Centre, and Ethnic and Cultural Communities' on May 13th. The meeting originated from users, workers, volunteers and management of the centre who were concerned about the racism that exists there. Invited to the meeting were Black and Minority Ethnic Lesbian and Gay groups and individuals. Circulated at the meeting was a naive 1960/70s style collection of testimonials.

Vernal of the 'People's' group implies that the centre is free of racism. As he says, 'there have been no complaints of this (racism) from black members about the (12%) white members or (all white) centre staff.' Such a large collection of non-racist white people must be unique in Britain. However he argues that more multiculturalism is

needed. (Multi-culch was a popular slogan 30 years ago meaning that if white people eat curries and listen to reggae their prejudices will melt away!) James (Minority Ethnic Management representative) lists ethnic/cultural minority 'representatives' on the management committee. The idea that Black and Minority Ethnic people elected at mixed meetings can represent their communities - while majority white people are free of any tendency to represent only their community - is very out of date. Jennie (Member of LLGC) does admit that 'one member is not representative'. However she appears unaware of the criticisms of 'awareness training' which Black people have been making over several years. Black people have been challenging the idea that the *only* way to combat racism is to try to change the attitudes of individual white people.

Sue points out that the centre's facilities are underused. This is quite true but totally misses the point. It does not ask *why* and implies that it is because the resources 'have not been promoted to their fullest extent'. Presumably, engaging Satchi and Satchi would solve this problem.

In view of the testimonials and built-up frustrations the Black and Minority Ethnic invitees demanded and held a separate forum. Out of this the following demands were made:

1. We welcome the attempts to encourage Black and Minority Ethnic input to the centre but we are angry at the unjustifiable delay in doing this and the failings in the organisation of the May 13th meeting.
2. We are angry at the way the majority white gentile management committee advertised this meeting, which effectively excluded many Black and Minority Ethnic Lesbian and Gay groups and individuals from attending.
3. Co-options to LLGC's management committee must cease until we are able to put forward interested and suitable candidates.
4. We are shocked that it has taken you this long to think about Positive

ART IS THE ANTENNAE OF A NATION

Not sure of who wrote that but hook or by crook we should be "visible" as Blacklesbians and Blackgay men during (Lesbian and Gay) PRIDE '86. If you have an artistic bent or are that way inclined there are several events within which you can participate. Blacklesbians and Blackgay men ("BB's") photographers, artists, playwrights, (typists?) are struggling too. Demanding their share of visibility in the programming of events! (Eds: Are they?) We have been liaising with Blacklesbians and Blackgay men - "BB's" - in the field requesting support and wanting to discover talented people who have hidden their works of art in the past. One of the co-ordinators of this network is photographer Rotimi Fani-Kayode. BB's should phone BLGC on 01-885 3543 to get in touch.

Dear Editors

STATEMENT: As a new member of both the London Black Lesbian Gay Group and the People's Group, and on behalf of various interests including myself, I would like to say that the two groups are in existances to fulfil the requirements of two different sets of needs - GAY being the only common demominator.

A certain amount of friction is evident between the two, borne more out of misunderstandings than any real battle for justified existance. The one is mixed (Eds: race) the other is not. The one needs to be mixed, the other need not. The two are so different, that I personally find it stimulating to attend both, and have done so ever since I joined. For where I see the one as being supportive of me as a member of society, I find the other supportive of me as an individual. Where I find I can speak openly and calmly at one, in terms of living with others more fully, I find that at the other, I can agrue quite heatedly without fear, on issues that are specific to me.

On the one hand we have a group of individuals, on the other, we have a group of groups. They both exist, both are needed, both swap members, and should live and let live.

P.A. (Mr) SE14.

### THE NORMAL HEART

opened at the Albery Theatre, St Martain's Lane, WC2 on May 20th. This "sensational", "wondrous", "magnificent", stage play is the semi-autobiographical work of the struggle Larry Kramer had for his part in setting up Gay Men's Health Crisis (GMHC) in New York, as the number of AIDS victims grew. This brilliant piece of theatre will run for eleven weeks only and is currently starring Tom Hulce (famed for his part as 'Amadeus'; him with the infectious giggle). Bring along tissues as this one is a tear jerker - as well. Pricey tickets; contact the BOX OFFICE 01-836 3878. (Enquire about STANDBY ticket sales concess. etc £5.00 for best seats with appropriate ID.)

**STOPPRESS** - A group of us want to 'gang up' and go and see THE NORMAL HEART 'en masse'. If you would like to join the party (early July) please contact BLGC 01-885 3543 so that we can head-count to make a block booking.

### IS THIS STILL OK WITH YOU?

The project owns a small word-processor. We hold your name and address (together with very many others) on a 'disc'. This helps us by simplifying some of the work involved in a mail-out. The BLGC Management Committee believes that you should be informed of all the information we hold about you (and this appears on the address slip - with your name on it, enclosed with this mailing - if you received this newsheet by post). We are exempt from the Data Protection Act because we comply with the fact that currently... "In order to remain outside the Act the preparation of text must be the only purpose of the automatic operations". You should know that we do not give the list of addresses which we hold to any unauthorised persons. The information we hold we believe is 'with your consent'. The 'BLGNumber' which we give you is only used to check that we have not entered your information twice in the system and does not relate "to another list". We do not 'process' the information we hold for any other purpose that to print text. It is a simple matter to delete your name /address /tel from our word-processing system and should you at any time require us to do so because your address becomes 'unsafe' or for any other reason please contact the office; and let us know if this is *still ok with you!*

### CONVERSE PICTURES

have asked BLGC to advertise their want of "Black Lesbians and Black Gay men interested in working in Video or Photography". Converse Pictures is a film collective that was part of the team that helped to produce the video "Framed Youth" - a product of the Lesbian and Gay Youth Video Project. BLGC was "a little upset" that Converse hijacked the "Black Communities Conference" logo/lettering as designed by our "Stella". Converse subsequently apologised and amended the design after we contacted them. You can contact Nicola or Jeff at Converse Pictures, Bon Marche Building, 444 Brixton Road, London SW9 8EJ.
