Residential Assistants

Developing a community spirit and making sure that students settle in well to university life is our priority.

So, each year we recruit Residential Assistants (RAs) from the student body in our residences who act as liaisons between residents and management.

Their responsibilities include guiding and mentoring students, as well as helping out with lots of events throughout the year!

Student Life in Our Campus Residences

- » **Community Feel:** Immerse yourself in campus life by living with people in the same situation as you. Our residences are perfect for meeting other students and making friends for life!
- » **Safe & Secure:** We consider the safety and well-being of residents to be of utmost importance. For this reason, we have 24-hour personnel who are more than happy to help!
- » **Programme of Events:** We organise a variety of events for residents during term-time, including yoga classes, cooking demos, soccer tournaments, consent workshops and more!

On-Site Facilities & Services

- » Reception and security
- » Shop/café
- » Self-service launderette
- » Common room
- » All-weather, 5-a-side soccer court (charge applies) and tennis court
