

## Carbon Reduction Plan template

Supplier name:

BRIGHTWAYCAREAGENCY LTD

Publication date:

17/07/2025

### Commitment to achieving net zero

**BRIGHTWAYCAREAGENCY LTD** is committed to achieving net zero emissions by 2050

### Baseline emissions footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

**Baseline year: 2023**

**Additional details relating to the baseline emissions calculations:**

**Baseline year emissions:**

Emissions	Total (tCO <sub>2</sub> e)
Scope 1	4.2
Scope 2	2.8
Scope 3 (included sources)	14.0
<b>Total emissions</b>	<b>21.0</b>

### Current emissions reporting

**Reporting year: 2025**

Emissions	TOTAL (tCO <sub>2</sub> e)
Scope 1	3.6
Scope 2	2.4
Scope 3 (included sources)	11.5
<b>Total emissions</b>	<b>17.5</b>

## Emissions reduction targets

In order to continue our progress to achieving net zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 14.5 tCO<sub>2</sub>e by 2030. This is a reduction of **31%**.

## Carbon reduction projects

### Completed carbon reduction initiatives

The following environmental management measures and projects have been completed or implemented since the 2023 baseline. The carbon emission reduction achieved by these schemes equate to 3.5 tCO<sub>2</sub>e, a 17% reduction against the 2023 baseline and the measures will be in effect when performing the contract.

### Future carbon reduction initiatives

In the future we hope to implement further measures such as: BrightWay supports 2050 Net Zero target by operating paperlessly with secure cloud systems and digital care Nourish and CarePlanner. We minimise emissions by clustering visits locally and assigning staff by postcode, reducing travel distances by **18%** since January 2025. We also encourage walking, cycling, and car sharing, with any remaining emissions offset through Green park.

## Declaration and sign off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>13</sup> and uses the appropriate government emission conversion factors for greenhouse gas company reporting.<sup>14</sup>

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements (where required), and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.<sup>15</sup>

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
