Learning Intentions & Success Criteria

Learning Intentions

I will:

- develop an understanding of different camera operations, camera handling and use of mobile phones to set up professional looking photographs.
- develop an understanding of photographic terminology and app use to transform photographs into very creative professional looking photographs.
- complete a number of personalised photo shoots.
- develop skills in portrait and landscape photography using both mobile phones.
- be able to download photo shoots and organise folders of personal work into folders on the server.
- develop skills in planning interior/exterior shots.

Success Criteria

I can:

- demonstrate effective selection of photographs using a range of apps.
- research, identify and explain the meanings of various photographic terms, e.g. depth of field, framing and the rule of thirds.
- review a range of photographs of people and compare and contrast styles and approaches.
- select a range of images (indoors and outdoors) taken by contemporary photographers describing the style, viewpoint and technical approaches.
- present my images in print, as a CD (including the original images and the edited version) and as an electronic presentation.
- evaluate and reflect on the aesthetic qualities and technical proficiency.
