### Science

#### **Explore the world of STEM and become a Young STEM Leader!**

You will enter an innovative idea into the National Big Bang Fair Competition and compete for the UK Young Scientist or Engineer of the Year Award.

### Skills Focus

## Recognition of Achievement

L6 Young STEM Leader Gold CREST Award

# Learning Intentions & Success Criteria

### **Learning Intentions**

I will::

- learn the skills involved for a career in a STEM field
- learn how to take my own initiative through scientific investigations.
- learn to develop problem solving skills by applying knowledge from many different areas to solve a task.

#### **Success Criteria**

I can:

- research STEM career paths.
- plan and carry out scientific investigations by breaking into smaller tasks.
- solve problems by using knowledge from other contexts.
- approach tasks with a positive, proactive attitude.
- identify when it is appropriate to carry out a task without having to be asked.
