

# Literacy through Language Bacc Project

## Modern Languages

Explore and investigate languages and culture all the way to Uni!

This project will develop the skills required to move from a guided school environment to the more independent environment that is university. The aim is to highlight the skills you need to develop most (research/evaluation/presentation) and use the project as a way to master these and increase your confidence.

### Skills Focus

### Recognition of Achievement

Language Baccalaureate Interdisciplinary Project (L7)

### Learning Intentions & Success Criteria

#### Learning Intentions

I will:

- develop the skills required at university.
- bridge the gap between school and university.
- develop my language skills further.
- develop the ability to learn independently.

#### Success Criteria

I can:

- use a range of skills to complete an IDL project that will equip me with the necessary skills for university.
- further develop the more obscure skills like research and evaluation that are required beyond our school career.
