

A surreal, painterly scene set in a dark, dense forest. In the foreground, three deer with light brown fur and white spots stand on a bed of ferns. Two deer are on the left, looking towards the center, while a third deer is on the right, looking towards the left. In the background, a large, ornate doorway is framed by dark wood. Several butterflies, including white and yellow ones, are flying around the doorway. To the right of the doorway, a tall, fluted column stands next to a large window. The window has a grid pattern and shows a view of a forest with tall trees. The overall lighting is dim, with a soft glow coming from the window and the doorway, creating a mysterious and ethereal atmosphere.

DISTRICT

Talea is more than just a building, it is
a living entity, where nature is not an
accessory but an integral part of the
architecture.

A man with short dark hair, seen from behind, wearing a white button-down shirt. He is standing on a balcony or terrace, looking out over a vast ocean under a soft, hazy sky. Large palm fronds are visible in the foreground and background, framing the scene. The lighting suggests late afternoon or early morning.

The floors of the tower are an extension of the landscape, where greenery climbs up the facades and the building breathes with the surrounding Forest. The structure seems to grow organically, from the podium on several levels up to the green terraces, blending perfectly with the environment.

Each leaf tells a story
of peace.

TALEA

Every shape, every curve,
every surface is designed to
blend with the landscape.

The organic shapes of the design and the expansive
glass façades create the sensation of living
suspended between sky and earth, in perfect
harmony with the lush greenery.

The background is a blurred forest with sunlight filtering through the trees. The text "Biophilic design extends throughout, bringing plant beauty to every corner, in every space." is overlaid in a serif font.
