

Challow & Childrey CC – Youth Training arrangements

To enable us to meet the ECB and Government Covid-19 requirements for sport and hospitality, please help us by adhering to the protocols below.

As per the ECB Guidelines, 'spectators' are not permitted at matches or training in private sport grounds, however outdoor hospitality is permissible. As per the ECB Guidelines, one parent per participant is permitted to be present at sessions (social distancing must be observed at all times).

To enable us to manage our capacity and ensure the safety of our players, parents, visitors and volunteers we would ask that families only stay at the club during the session in which their children are participating. This will allow all parents to be present without the club breaching its workable capacity.

On arrival / before training

- Any participant reporting symptoms does not attend and is directed to follow NHS and PHE guidance on self-isolation. If you, or anybody in your household, are self isolating you must not attend.
- The car park will not be open for parents or guests, please turn right as you enter and park on the outside of the ground (please park considerately to allow us to maximise the space)
- Players will be registered by their coach on the outfield/nets – the 'Control Point' can advise on where the group will be training. Players should ideally go direct to their group on arrival, taking care to avoid other groups who may also be in action.

During the game

- Players should remain separated from hospitality patrons from their point of arrival until the end of their session
- Players should observe social distancing at all times during their session when not actively involved (ie waiting to bowl in the nets)
- Toilets can be accessed via the changing room doors, please wear a face covering when entering the building and follow the one way system signage
- Please follow the ECB Guidance during the duration of the session (sanitising breaks, etc)

After the match

- Players should move from their training location back to their parents by walking around the outside of the ground, as directed by their Coach
- Parents are kindly asked to wait for their children to come to them, and to then make their way away from the ground to allow space for the next group
