

MORGAN Service and Repair Centre

Our qualified factory technicians, with many years experience working on both early Morgan models and late CX platform cars, can undertake all of your Morgan servicing and maintenance requirements.

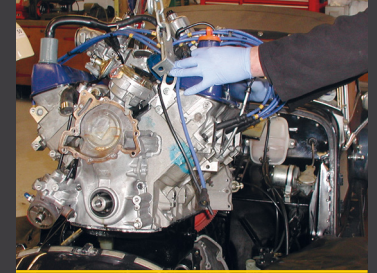

Morgan Service Centre

Exhaust Upgrades

Windscreen Replacements

Engine & Transmission Work

Morgans at Techniques workshop

We regularly have visitors from abroad requiring our services and this summer has been no exception.

Morgan +8 from Switzerland
Replacement engine and
T5 gearbox conversion.

Morgan +8 from France
LHD steering conversion and
suspension/brakes upgrades.

Morgan +8 from Romania
Replacement clutch assembly and
fitting of stainless steel fuel tank.

2022 Techniques Trophy & Cup Winners

Congratulations to Billy Bellinger for winning both the Techniques Cup (first push rod engined Morgan home) and the Techniques Trophy for first 4 cylinder car over the line, ahead of all later twin cam engined Morgans!

Mark Ellis was runner up in both the TT and the TC and so congratulations to Mark in his first ever Techniques Trophy race. Driver of the day award this year went to Jim Mountain for his spirited drive in his twin cam Morgan. For more information please visit our news pages on the Techniques website.

Accident Repair Centre

Our vast knowledge of Morgan cars and individual models will ensure your Morgan is repaired correctly and to the highest standard, using the same skills and genuine factory parts that originally created your Morgan
