

## MORGAN Servicing and Maintenance

- All Traditional 3 & 4 wheelers
- New Plus 4 & Plus 6 (CX Platform)
- Aero Chassis Platform Morgans
- Experienced factory trained staff
- Genuine Morgan Motor Co Parts
- Morgan valeting & detailing available
- Free Courtesy Car

## Front and Rear SSL Suspension

For improved comfort and road handling, Techniques can supply and install SSL suspension kits to your Morgan. These upgraded Front Springs and Damper units, as well as 5 Link SSL Rear Suspension kits, provide a significant improvement over the standard equipment. Competition Front and Rear Suspension kits also available.

## MORGAN Valeting and Detailing

Ask about our deep cleaning and paint work restoration service. Over time the paint colour often fades, however with machine polishing you will be amazed at the results!

## In our Workshop

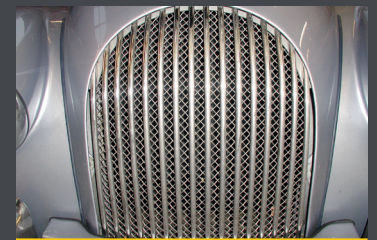

Recently a customer from Germany delivered the remains of his Morgan +8 to us here at Techniques, to be rebuilt to a very high specification.

A new chassis is always a good starting point, especially to accommodate the increase in engine performance from a 5.0 litre JE Developments engine and SSL front and rear 5 link suspension upgrades.

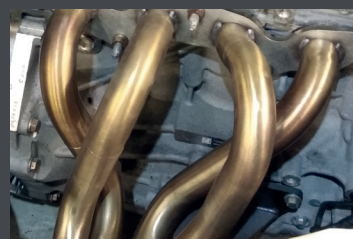

## We supply genuine Morgan Factory Parts
