Notes:

Web conformance for this report is generated by evaluating the following group of pages in Oxford English Dictionary website.

- Homepage

- Information
- Fact Sheet
- Meaning and Use
- Advanced Search
- Manage account

Evaluation Methods Used:

Oxford English Dictionary has been evaluated for the Academic division of Oxford University Press for accessibility of its text and features. The evaluation was conducted in accordance with WCAG 2.2 Success Criteria for Level A and Level AA conformance, and the accessibility standards established in Section 508 of the United States Rehabilitation Act and EN 301 549 standards.

A team of experienced accessibility testers has assessed the application and its related material according to following steps:

- Overall validation of the application against the success criteria for users with visual impairments, hearing impairments, motor disabilities and cognitive impairments.
- Manual evaluation of the Oxford English Dictionary website pages using assistive technology (NVDA – Non-Visual Desktop Access, Voiceover, Talkback, Narrator), and assessment tools (CCA- Colour Contrast Analyser, Axe, Text spacing), and keyboard-only approaches to identify issues that would

affect hearing-impaired users, and visually impaired users, and users with mobility impairments.

- For assistive software assessment, actions are performed using a screen reader, keeping the application as an active page, and navigating using the keyboard.
 - For keyboard-only assessment, actions are performed by keyboard keystrokes without the use of a mouse.
- Analysis of color contrast between text and the background color using “Colour Contrast Analyser (CCA)” Tool.
- Evaluation of text content scaling, in which a screen magnifier and browser plugins are used to assess the legibility of content when the text is enlarged/zoomed while using browser and application features.

Assessment has been conducted on the following platforms:

Device	OS Version	Browser Version	Screen Reader	Tools
Desktop	Windows 11	Chrome 130	NVDA	CCA, Axe
MacBook	Sonoma 14.7	Safari 18.0	Voiceover	CCA
iPad	iPad OS 18.2	Safari 18	Voiceover	CCA
Samsung S23	Android 14	Chrome 131	Talkback	CCA
Desktop Edge	Windows 11	Edge 131	Narrator	CCA
