

Practice with interactive code exercises

In this course, you'll be putting what you learn into practice in an interactive code sandbox on [Replit](#). In order to access the exercises, be sure to:

1. create or connect to your Replit account (it's free!),
2. click the following link to gain access to this course's exercises: [Learn Programming with C#](#),
3. follow links to this course's exercises in "Try it out for yourself!" sections.

You'll also be able to find this course's exercises on Replit later, by going to your teams ("Teams" in your left-hand menu) and clicking on this course's name under "Education".
