

**What are we looking for?** We are looking for a **Digital Marketer for a 2 year apprenticeship** in our offices in Los Angeles

- Qualification: Bachelor's degree or equivalent experience
- Professional experience: > 6 months

**Who are we? :** YESWECAN enables small- and medium-sized businesses to finance their expansion through a community of private lenders and professionals. With this financing, companies are hiring, innovating and expanding, both within the US and internationally. The team is supported by nearly 100 angel investors and a major bank, who all co-invest in each of our projects through dedicated credit funds.

**What is the position description:**

Ready to join our web team? Here at YESWECAN, the web team is a mix of development, digital marketing and customer service. And as customer service is right in the middle of the office, everybody gets feedback from customers on what they develop or market.

As a digital marketer, you will be in charge of several major projects, which you will be required to successfully implement with the support of the rest of the team. You will be at the heart of the business process, and you will find yourself working on projects that will have a great impact on our customers. To do so, you will be required to master different digital tools, some of which may be new to you.

And of course, you will also need to have an open mind and listen to things that will seem complicated at first but we will accompany you all the way.

**Why join YESWECAN?**

- To support a start-up that is expanding steadily and constantly evolving
- To be part of a young, modern web team

**What kind of profile are we looking for?** Your education and training aren't your most important quality. What's important is your ability to learn new things and implement them quickly.

Do you have a trailblazing spirit? If so, you're bound to have a number of personal projects to present, things you got involved in (even if they didn't necessarily result in anything) that will show us that you're not afraid to take on new challenges.

We're looking for:

- An enthusiastic marketer with some experience in community management and marketing
- A fast learner who loves challenges and finding solutions
- A thorough worker who likes processes
- Someone friendly who'll be able to communicate easily with various teams
