

List of EU & EFTA trading partners approved to export poultry, hatching eggs, day-old chicks, specified pathogen-free eggs, meat, minced meat, mechanically separated meat, eggs and egg products to Great Britain

Recent Changes

Country	Description of change	Date of update
EU Member States	Under the Border Target Operating Model (BTOM), the UK recognises highly pathogenic avian influenza (HPAI) regionalisation of EU Member States by cross-referencing EU legislation. Imports of live poultry (BPP, BPR, DOC, DOR, HEP, HER, SRP, SRA, LT20) and fresh poultry meat (POU, RAT, WGM) are prohibited from zones in EU Member States under restriction due to outbreaks of HPAI, from the date of confirmation of disease (closing date) until the date restrictions are lifted (opening date).	26/01/2024

List of trading partners approved to export poultry, hatching eggs, day-old chicks, specified pathogen-free eggs, meat, minced meat, mechanically separated meat, eggs and egg products to Great Britain.

## Specific conditions:

**‘P2’:** Prohibition to import into or transit through Great Britain due to restrictions related to a HPAI outbreak.

**‘P3’:** Prohibition to import into or transit through Great Britain due to restrictions related to a ND outbreak.

**‘N’:** Guarantees have been provided that the legislation on the control of Newcastle disease in the third country or territory is equivalent to that applied in Great Britain. In the case of an outbreak of Newcastle disease, imports may continue to be authorised from the third country or territory with no change in the third country code or territory code. However, imports into Great Britain from any areas which are placed under official restrictions by the competent authority of the third country or territory concerned due to an outbreak of that disease shall be automatically prohibited.

**‘H’:** Guarantees have been provided that meat of farmed ratites for human consumption (RAT) is obtained from ratites coming from a registered closed ratite holding approved by the third country’s competent authority. In the case of a HPAI outbreak on the third country’s territory, imports of such meat may still continue to be authorised, provided that it is obtained from ratites coming from a registered closed ratite holding free of LPAI and HPAI; and where within a radius of 100 km around that holding, including, where applicable, the territory of a neighbouring country, there has been no outbreak of LPAI or HPAI for at least the last 24 months and where there

has been no epidemiological link to a ratite or poultry holding where LPAI or HPAI has been present within at least the last 24 months.

## Avian influenza surveillance programme and avian influenza vaccination plan:

**‘A’** Third country, territory, zone or compartment carries out an avian influenza surveillance programme in accordance with EUR 2008/798.

**‘B’** Third country, territory, zone or compartment carries out vaccination against avian influenza in accordance with EUR 2008/798.
