

Campress S.r.l. places among its priority objectives, on a par with profitability, the quality of the product and service, safety at work (OSH), environmental protection, and the compatibility of its activities with the territorial context in which it operates, as defined in detail in the Group's Sustainability Report.

The Company Management therefore undertakes to implement its Quality Policy, which focuses on the following main points:

### QUALITY

- acknowledge the explicit and implicit needs of the clients;
- create a reliable and technologically advanced product, aligned with the best competition and in compliance with mandatory requirements;
- meet the Customer's expectations;
- aim for the satisfaction of the organization's staff;
- search and implement actions aimed at continuous improvement, following the "Lean" principles;
- systematically update and apply the defined procedures and prescriptive documents as an aid provided to the organization; extend the QMS to the additional requirements of the automotive industry;
- define the weighted objectives, achievable and consistent with the strategies of the Camozzi Group, identifying and managing related risks and opportunities with a risk-based thinking approach;
- pursue business sustainability through the central role of Top Management and aiming to meet stakeholders' expectations;
- periodically evaluate the performance of the Company Management through the tools of the Quality System, update and redefine the Quality Policy with new objectives related to the results obtained;
- analyze the causes of non-conformities as a starting point for the definition of appropriate corrective and preventive actions to be taken;
- adopt methods that allow you to plan, carry out, control and act to improve the effectiveness and efficiency of the organization.
