# Why Choose Us?

## Placing an order is easy

Online:  
**[www.inclusive.com](http://www.inclusive.com)**

Email:  
**[sales@inclusive.co.uk](mailto:sales@inclusive.co.uk)**

Telephone:  
**01457 819790**

Mail order to:  
**Inclusive Technology Ltd,  
Riverside Court, Huddersfield  
Road, Delph, Oldham,  
OL3 5FZ, UK.**

## Schools can pay by invoice

If you are buying resources on behalf of a Local Authority backed school or School Academy then simply send your order by email, post or place it online and we will process and despatch your order. If you have registered as a business or charity, you will need to contact us on **01457 819790** or email **[sales@inclusive.co.uk](mailto:sales@inclusive.co.uk)** to set up a credit account.

## VAT Relief

If you have a disability or are buying on behalf of someone with a disability, including Charities, you may be eligible to claim VAT Relief. Call us or check on our website whether the product you are purchasing qualifies for VAT Relief and fill out the form. If you need any advice on VAT Relief view the guide on our website or call one of our experienced team for help.

## Batteries are always included

We are unique in always including batteries in every device or toy we sell (and there are hundreds!).

## We offer a 100 day returns policy

We want you to have a product that works for your learner. That's why we have our industry leading returns policy to give you 100 days to return a product - even if you just don't like the colour.

There are a number of exceptions, and you will need to have met our generous 42 day payment terms and return the product unmarked with the original packaging. See our terms and conditions on our website.

## Friendly Support and Service

Do email or call with any difficulties you have in using any of our products and we will direct your call to our information or technical teams.

The Inclusive Technology Team are ready to help you either by telephone, email or via our online Live Chat service.

Call: **01457 819790**

Email: **[support@inclusive.co.uk](mailto:support@inclusive.co.uk)**

## Sign up to our Newsletters

Go to our website to sign up to receive our Inclusive and HelpKidzLearn newsletters and receive information about new products, product updates, events and special offers!

## More information is available on [www.inclusive.com](http://www.inclusive.com)

We have recently launched a brand new website where you can view our full product range. View expanded product details including useful demonstration videos, technical specifications, accessories, similar products and reviews. As well as the latest product news and useful articles you can learn more about Inclusive Technology and the services, resources and support we provide. Simply set up your account and place your order – you can even complete a VAT exemption form online or request a quotation.

# FREE Virtual Demonstrations

## Book your personal virtual demonstration today!

Inclusive Technology are offering **FREE** virtual demonstrations enabling you to explore our products and ask questions of our team, all without leaving your school or home. (Demonstrations last around 40mins).

## Skyle 2 for iPad Pro

Skyle 2 is the world's first eye tracker for iPad Pro allowing you to control the iPad completely with your eyes, making it the perfect solution for independent access and augmentative & alternative communication (AAC).

By the end of the virtual demo you should have:

- An overview of eye gaze and the benefits of it now being available for iPad.
- What is included in the Skyle 2 package and the accessories available.
- How to set up and use the Skyle 2, and easily adjust the positioning and calibration.
- A detailed overview of the Skyle 2 App including all available options and settings.
- An overview of available Apps for access, communication and environmental control.
- Details of price and availability.

## Skyle for Windows (inc. Inclusive EyeGaze Learning Curve)

Easy and simple, Skyle for Windows is the first choice for eye gaze users in every classroom. Indiscriminate of skill, it is perfect for multi-user settings. It allows anyone to start at any level of ability and build their gaze control skills at their own pace.

By the end of the virtual demo you should have:

- An overview of the Skyle for Windows and the benefits of the using the eye tracker for users of all abilities.
- How to set up and use the Skyle for Windows and easily adjust the positioning and calibration.
- A detailed overview of the Skyle EyeMouse Software including all available options and settings.
- EyeGaze Learning Curve software featuring Attention and Looking, Explore and Playing and Choosing and Learning.
- Details of price and availability.

## Cosmo

Cosmo is made up of two parts: a set of light-up, multi-colour Bluetooth switches, and an iPad App featuring highly-motivating and intuitive activities designed by teachers and occupational, physical and speech & language therapists - By the end of the virtual demo you should have:

- An overview of the Cosmo switch as well the Cosmo Explore and Excel Packages.
- How to set up the Cosmo switches with an iPad and Windows computer for simple switch access.
- How the Cosmo Explore and Excel can be used to support the development of: Joint Attention, Turn Taking, Choice Making, Collaboration, Motor Skills, Language, Sequencing, Waiting, Transitions, Storytelling, Executive Function and Sensory Awareness.
- An in depth overview of the Cosmo Training App that consists of a set of interactive activities that motivate learners to develop motor, cognitive and communication skills through play and music.
- Cosmo's multi-sensory games work towards achieving skill based, functional and national curriculum compatible goals.
- Details of price and availability.

## NEW Request a Demo

Choosing the most suitable equipment can be a confusing, time-consuming process. We recognise that sometimes simply reading about a product isn't enough to make an informed decision. We want our customers to be confident that they're making the correct choice. To ensure that you are making the correct decision we are providing a product request option on our Virtual Demo service. We want you to tell us what product you want to know more about so we can help you further. Would you like to learn more about switch access for iPad? Develop your knowledge of environmental control products and see them in action? Have the ability to ask questions and chat about further options and accessories? This is the service for you. We will provide a live, one-to-one 30-minute demonstration, at a time suitable for you that will aim to answer any of your questions, allow you to see the product in action and decide if it's the right product for you.

# HelpKidzLearn™

## Online Learning for Special Education

The home of multiple online services, enabling children of all abilities to play, develop and achieve. Learn with accessible game-based activities, create personalised choice-making activities, access readymade curriculum activities, or assess and develop early vision and cognition behaviours.

For more information see:

**[www.helpKidzLearn.com](http://www.helpKidzLearn.com)**

## Create Personalised Student Profiles in Seconds

Personalise your learners experience and increase their engagement within HelpKidzLearn Games & Activities, Chooselt Maker, Chooselt Readymades and Inclusive Stories with Student Profiles.

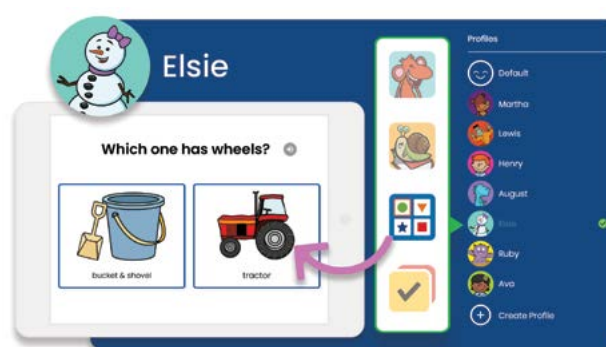

### Personalised Profiles

Creating new profiles is quick and easy. Simply add your learner's name (or identifying word) and choose their favourite avatar and colour. Alternatively, have fun with our 'Random' profile feature.

### Preferred Method of Access

Choose from mouse, one or two switch access, touch, or eye gaze, simply configure their settings (e.g. switch scanning speed). When an activity is launched, your learner's preferred method of access will already be applied.

### Create and Manage Groups

Organise your learners' profiles into groups with a simple management tool. Perfect for organising your profiles and ideal when using HelpKidzLearn with a class or large group.

### ALL Services

Student Profiles will work with all your HelpKidzLearn subscriptions\*, enabling you to launch activities quickly with your learners' preferences already applied.

\*Games & Activities, Chooselt Maker, Chooselt Readymades and Inclusive Stories

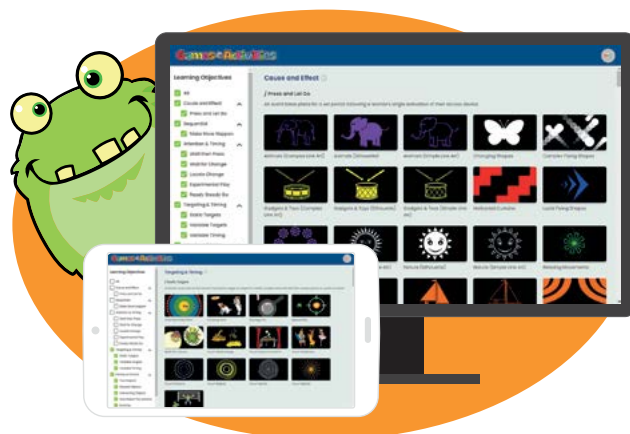

# Games & Activities

Hundreds of accessible game-based learning activities categorised by learning objectives and designed to engage, motivate and teach a progression of skills.

## HelpKidzLearn | Games & Activities

### Learning Objectives

Games & Activities are organised into meaningful learning objectives, beginning at a cause & effect level and early interaction, through the range of skills required to be able to make independent choices.

### Progression

Learning objectives are split into key milestones, representing targets in a series of small, achievable steps that you can set and teach a progression of skills.

### Accessible Activities

Games & Activities can be accessed by a wide variety of access methods including mouse and keyboard, touch screens and interactive classroom displays, one or two switches and eye gaze technology.

## Associated Resources

A preview for each play-based Game displays resources mapped to the applicable key milestones, enabling you to quickly find associated activities that engage and motivate your learners more easily.

## Motivating & Engaging

Games & Activities are language independent and are designed to include captivating animations, simple clear graphics, music and sound effects which will engage your learners and make learning 'fun'.

Graphics are presented in high-contrast colours and many activities are set against a black background. Auditory cues and attention prompts are also used to help learners with a visual impairment and perceptual difficulties enjoy the experience too.

## Recording & Assessment

Games & Activities provide the tools to help assess a learner's baseline, set achievable learning milestones and provide all the help you need to teach important skills in a way which is both meaningful and motivating.

With this information, you can plan routes to success for learners using their device to access learning, leisure and communication.

## Access Anywhere

Games & Activities can be accessed securely online via Windows and Mac PC, or Chromebook. Alternatively, learners can play all touch accessible Games & Activities directly on an iPad using supported browsers.

# Chooselt Maker

Create personalised choice-making activities for use in the classroom and with individuals securely online. You can even download the activities to your iPad!

**HelpKidzLearn | Chooselt Maker**

## New! Enhanced Editor

With its easy to use editor, upload a photo or image and make an activity with your child or class in minutes. They can all join in and then proudly present it to the rest of the school, family and friends.

Chooselt Maker is an important tool for those learners who respond best to familiar materials, such as pictures of themselves, their families, their classmates and places they know well.

## Personalised Learning

With Chooselt Maker turn your photographs, images, symbols, text and sounds into:

- Question and answer activities.
- Cause and effect resources.
- Assessment activities.
- Game based learning.
- Quizzes, communication aids and more...

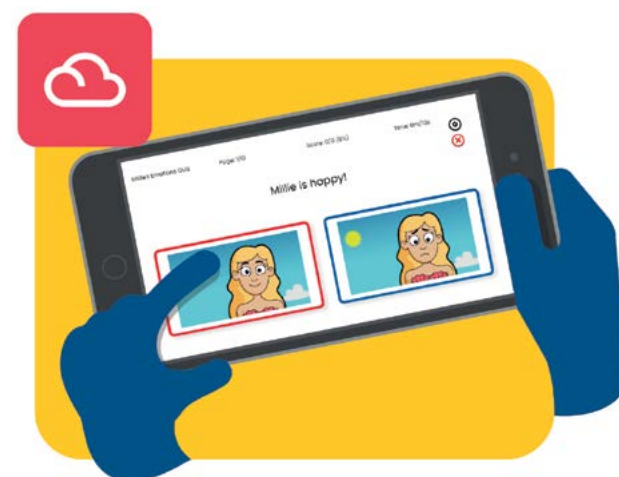

## Accessibility

Each activity created in Chooselt Maker can be accessed using:

- Mouse.
- One or two switches and keyboard.
- Touch screens, iPad and Android tablets.
- Interactive classroom displays.
- Eye gaze.

## Use CM Anywhere

Create, edit and play your personalised activities securely anywhere online via Windows or Mac PC, Chromebook.

Alternatively you can play your activities on your iPad, Android tablet or mobile phone via supported web browsers.

## 30,000+ Symbols

As well as adding your own images, Chooselt Maker includes a ready made IT Media Library with over 30,000 symbols and pictures.

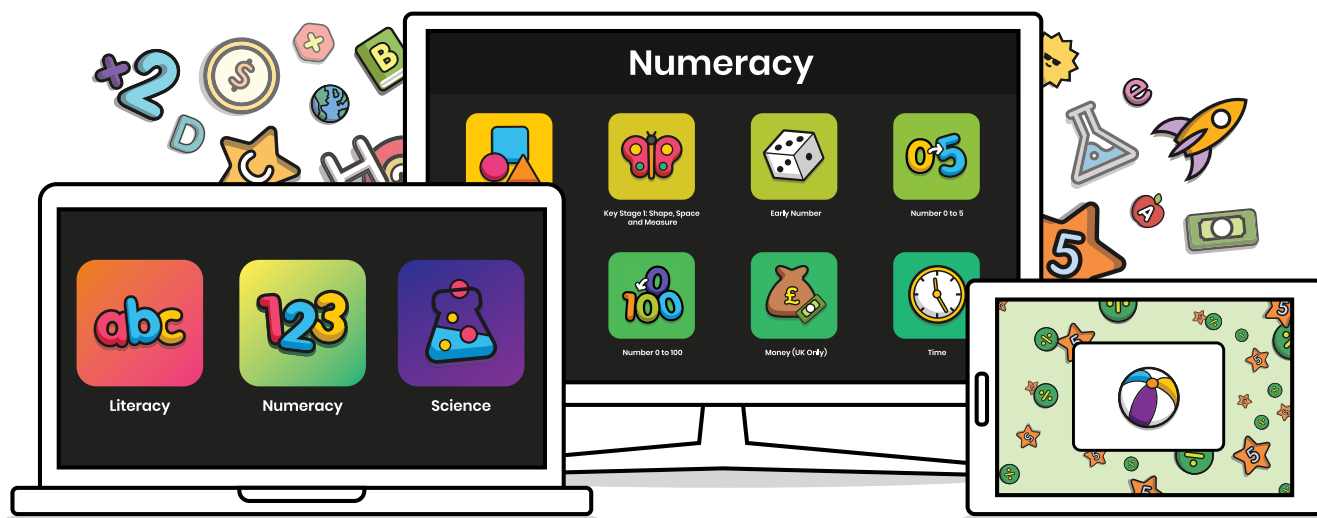

Make activities using Widgit Symbols, SymbolStix Symbols and Inclusive Technology's pictures.

## Progression & Analysis

Every Chooselt Maker activity you create will automatically record the learner's progression and achievements based on the questions they have answered. These results can be saved for your records or shared with the learner's friends and family.

## Readymades

Chooselt! Readymades contains 640 multiple choice, play-based curriculum activities that include over 14,000 questions. Providing a secure foundation for learning and accessible for all students!

HelpKidzLearn | Chooselt Readymades

### Readymade Learning

Activities cover a wide variety of topics including **Numeracy**, **Literacy** and **Science**. Each activity supports the objectives found in curriculum standards making it easy to find the right skills to practice to meet your learning goals! New activities are added on a regular basis.

### Educational Activities

Each Readymade activity has a carefully graded sequence of 20 to 40 multiple-choice questions, structured to provide positive reinforcement. Correct answers result in a short, animated reward with music and spoken reinforcement.

## Reporting & Feedback

After each session, activity reports will help you easily pinpoint skills that students are struggling with, track progress and identify areas for improvement. Intuitive and visual analytics provide relevant data, enabling you to concentrate on what you do best: teach. Reports can also be saved and shared with colleagues and parents.

## Accessible

Each activity includes a variety of accessibility features to ensure that each student can access the content and reach their full potential. All activities can be accessed by mouse, touch screens, eye gaze, interactive whiteboards, switch access and include full auditory support. Ideal for students with physical disabilities, visual impairments and learning difficulties.

## Play on any device

All activities can be played on a variety of devices including iPad, Android tablet, Chromebook, Windows or Mac PC and laptop. Chooselt! Readymades are a secure, cloud-based service accessible through a web browser such as Chrome, Firefox and Internet Explorer. Opening up a world of opportunities for your students. Internet connection required.

## Designed for the Classroom

Activities help students to succeed in the classroom, whilst providing a fun opportunity to practice skills and/or complete an assessment to measure progress as independently as possible. Each activity can be used with almost any teaching strategy, including 1 to 1, group sessions and more; enabling you to create the perfect classroom learning experience. Try it for free today!

Engaging, interactive sensory stories designed to focus on a range of learning intentions, developmental areas, and topics relevant for learners with a wide range of educational needs.

## HelpKidzLearn | Inclusive Stories

### Learning and Development

Inclusive Stories have been carefully collated into 12 meaningful categories and specially written to address functional skills and cross-curricular personal development e.g., SMSC (spiritual, moral, social, and cultural development) and SEMH (social, emotional, and mental health).

### Inclusive Stories

Used widely in a range of educational settings, Inclusive Stories are fundamental for helping with cognitive development, sensory processing, communication skills, switching skills, cause and effect, building confidence, fostering repetition, reducing anxiety, sensory loss, AAC and much more.

## Educational Activities

Inclusive Stories also cover an array of topics including literacy, numeracy, science, computing, arts, humanities, PHSCE, physical education, design and technology and much more.

## Accessible Activities

Inclusive Stories can be accessed by a wide variety of access methods including mouse and keyboard, touch screens and interactive classroom displays, one or two switches and eye gaze technology.

## Associated Resources

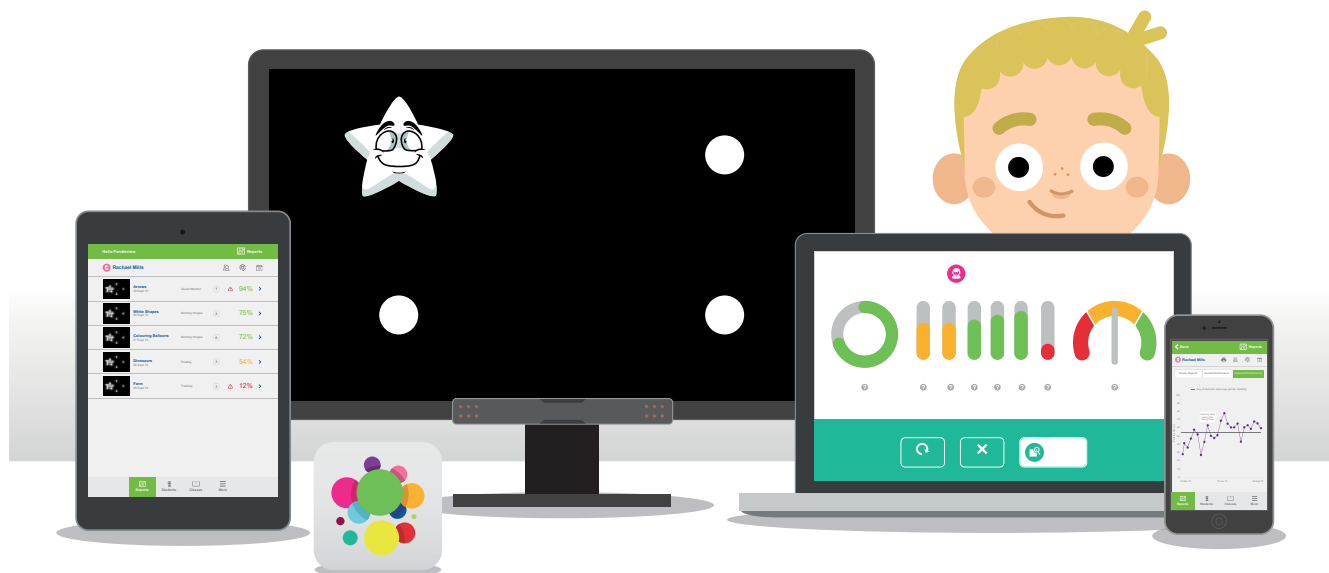

Each Inclusive Story has accompanying resources to ensure maximum use and value for an educational setting. These resources include in depth delivery guidance, assessment and recording sheets, props lists, printables, symbol lists for AAC, cross-curricular ideas, a recipe book and more.

## Access Anywhere

Inclusive Stories can be accessed securely online via Windows and Mac PC, or Chromebook. Alternatively, learners can play all touch accessible Inclusive Stories directly on an iPad using supported browsers.

**More than 80% of ALL learning is through vision!**

Insight uses eye tracking technology to assess and develop an individual's visual learning skills through engaging, game-based assessment activities.

**HelpKidzLearn | Insight**

## VISION FOR LEARNING

### Vision for Learning

Insight has been designed to work with eye tracking technologies so that, with no physical skills needed, we can analyse looking behaviours to gain a unique perspective into students' hidden skills and capabilities.

Insight provides the means to objectively assess specific functional vision performance and early cognitive processing and to give valuable feedback to help guide future practice.

### Core Learning

Insight provides the foundation visual learning skills to aid development of early language, literacy and communication using technology, thus preparing students for further subject specific learning and AAC readiness.

Insight provides detailed and precise scores to reflect true abilities which is not possible using standard observation techniques or gaze viewing software.

## Game Based Assessment

Insight provides a wide variety of content and stimuli to suit individual preferences, small step progressive levels to include all abilities and game-based design to maximise engagement.

With hundreds of activities, you can continually monitor progress whilst your students develop skills at their own level and pace. No eye gaze or calibration skills needed. Just position your eye tracker and have fun!

## Progressive Learning

Insight's eight Learning Goals focus on key milestones in early learning. They follow a developmental progression and can be used flexibly as an assessment tool, or sequentially for progressive learning.

### Vision:

1. Visual Attention.
2. Noticing Images.
3. Fixating.
4. Tracking.

### Cognition:

5. Look for More.
6. Look to Find.
7. Look to Control.
8. Look to Predict.

## Individualised Learning

Activities are arranged in carefully graded steps to enable students to work at their own level and pace, start off easily then follow the intelligent recommendations for optimal learning progression.

A wide variety of stimuli are used to suit all ages and interests, packed into fun game designs to aid long term engagement – essential for consistent assessment and continued development.

## Analysis & Reporting

After each play, Insight provides detailed feedback on performance. These reports transform your student performance data into simple, engaging and intuitive progression reports. Reports can be saved, shared, printed and viewed live on the FREE Insight App.

# HelpKidzLearn™

Over 60 motivational Apps carefully designed to meet a range of special educational needs including switch access for those with physical disabilities.

## HelpKidzLearn | Apps

### Choose It! Readymades App

With a simple and consistent presentation, clear language, switch accessibility and full audio support, this has made them a valuable resource for children with special needs and an educational award-winning resource. Performance reporting is built-in.

### Choose It! Numeracy

230 activities with over 6,000 pages. Including Early Number, Numbers 0 – 5, 5– 10, 0 – 100, Foundation stage and KS1, Shape, Space & Measure, Time and UK Money. Mapped directly to Foundation Stage, P-Scales or National Numeracy Strategy Targets.

### Choose It! Literacy

250 activities with over 5,000 pages. Including Listening Skills, Initial Letters, Initial Blends: Letters, Initial Sounds, Initial Blends: Sounds, Alphabet, Everyday Words and Tricky High Frequency Words.

### Choose It! Science

160 activities and 3,000 pages. Including Foundation Living Things, Materials, Light, Sound and Space, KS1 Living Things, Forces and Electricity. Mapped directly to Foundation Stage Knowledge and Understanding of the World and National Curriculum Key Stages 1 and 2.

## Big Bang Pictures App

High contrast animated images and great sound effects designed to provide visual stimulation and to develop and assess visual preferences. With a choice of three styles of image and eight basic foreground and background colours, including black and white, these activities are ideal for assessment of picture recognition and colour preferences. They are also excellent visual activities for babies who respond well to the black and white options and sounds.

## Big Bang Patterns App

Developed in conjunction with specialist teachers in the field of visual impairment, these activities are an ideal tool to assess preferences and develop visual skills. This App contains four sets of animated patterns, each containing twelve different animations, accompanied with a choice of music or sound effects. These patterns provide a range of visually stimulating activities with a choice of bold colours and movements including tracking, sliding and tunnelling.

## Counting Songs 1 and 2 Apps

Fun and engaging counting songs ideal for early years children at a pre-literacy or early literacy level. The topics and songs can also appeal to older learners who need to work on early number concepts. Counting Songs offer stimulating cause and effect learning activities that engage and encourage early listening and language skills. Students can also learn about numbers from zero to five whilst counting along with the music and voice over.

## Free Apps

HelpKidzLearn offers a selection of free Apps to get you started! Play fun, exploratory and cause and effect activities including Sensory Room and Finger Paint with Sound. Or download our Player Applications such as Chooselt Maker and Insight. We are sure they will engage and motivate your students.

# iPad Accessories

## NEW REHAdapter for iPad

Ready for every AAC task - whenever you need it.

The REHAdapter is a new iPad case that transforms a standard iPad into a fully-fledged AAC device in one single housing. It's ready for every AAC task – whenever you need it and is designed for all-day communication while at home, at school or travelling.

### Ready for every AAC task – whenever you need it.

The REHAdapter seamlessly transforms an iPad into a dedicated AAC device. It has everything you would expect from the top performing AAC devices on the market: clear and loud sound, connections for eye trackers, keyguards, switches, a kickstand for quick positioning, maximum portability, and a built-in universal device connector for REHAdapt mounting systems. And all this comes within one protective enclosure.

Combined with the iPad's range of Apps, the REHAdapter offers endless possibilities for AAC users. It is the only case on the market to offer this level of flexibility, technology and ease of use.

### Accessibility

**Keyguards** optional innovative keyguards made from 5mm thick plexiglass can be clicked into place without the need for any additional holder or Velcro. This unique system can be set to three different levels of pressure to better fit the client's needs: easy toolless, semi-permanent or permanent (requiring tools for removal).

**Please note:** available to purchase separately.

**Two Switch Access** includes integrated 3.5 mm jacks to connect up to two switches for screen scanning.

**Eye Trackers, Head Mice & More** features two attachment points for additional access equipment such as eye trackers or head mice. The attachment points - located at the top and bottom of the device - offer unlimited flexibility for attaching additional equipment.

## Features

The REHAdapter is a protective case designed for extensive daily usage. It has a sturdy design and is made of reinforced plastic, delivering ample protection. The iPad is surrounded by rubber bumpers that absorb impacts from all sides.

The magnetic charging cable ensures not only self-alignment when connecting, but also makes sure the REHAdapter cannot be pulled or dragged by its cable.

All in all it's a trusty companion which meets all the requirements for a medical product and is scratch, shock and drop resistant.

High-quality sound is achieved by one large integrated speaker located on the back of the unit. With its voice-optimised loud and clear sound the REHAdapter is classroom-ready.

The rubberised volume buttons are always accessible and the angle of the speaker has been optimised for maximum performance in all positions: whether the REHAdapter is flat on a table, upright, or held by a REHAdapt mounting system.

The battery lasts twice as long as the iPad. This means you can use it without having to worry about it throughout the day.

Includes an integrated kickstand offering continuous adjustment up to an inclination angle of 45°. When lying flat on the table the wedge shape allows for an ergonomic 10° angle access.

The kickstand and all contact points are rubberized. The kickstand is made of aircraft-grade aluminium and can be removed if not needed.

## Accessories

**Transportation Bag** that includes pockets and compartments for cables, power adapters, keyguards and other accessories. Features heavy duty handles and zippers and an adjustable shoulder strap.

**Simple Protection Sleeve** which features a handle, a shoulder strap and a pocket for its charging cable.

**Adjustable Shoulder Strap** that can be easily attached and detached using the quick-release fasteners.

**A standard Keyguard** made from plexiglass 5mm thick. Milled instead of lasered to make sure the edges are smooth and comfortable for the user.

**Please note:** all accessories are available to purchase separately.

## Specifications

**Standard** version fits the iPad 10.2 (7th, 8th or 9th Gen).

**Pro** version fits the iPad Pro 11 (1st, 2nd and 3rd Gen) and Air (4th and 5th Gen).

Supplied with a Universal Device Socket (UDS) connection for easy REHAdapt mounting.

Includes an international power adapter (UK, EU & US).

7456	For iPad 10.2 (7th, 8th or 9th Gen)	£575

 7988 iPad Charge & Sync Cabinet - 10 Code Lock **£760**  
 28 days return policy

## Table Clamp OneHand Light

The Table Clamp OneHand Light keeps devices "floating" for easy repositioning. The mounted device can be moved 90° vertically and 360° horizontally. Quick Release system with two levers allows for safe device attachment within seconds. With a small footprint on the device, yet great sturdiness. Compatible with REHAdapt UDS system and VESA to REHAdapt mounting plate.

9905 Table Clamp OneHand Light **£525**

## Flexzi 3

Flexible and easy to position, stable and secure. Available with a clamp base, allowing a longer reach and a desktop standing version. The case has a carry handle and is made from thick EVA foam. It can be removed for portability, and other devices can be mounted in its place. iPad not included. Available in black, green or pink. See [www.inclusive.com](http://www.inclusive.com) for details.

n/a Flexzi 3 **From £73**

## iPad Table Mount

A sturdy mounting solution. The special ball joints allow a wide range of easy adjustment of angle and choice of landscape or portrait mode. The base has screw fixing holes to allow it to be firmly mounted if needed. iPad not included.

7210 Table Mount for iPad Air/Air 2 **£79**  
n/a Table Mount for iPad 10.2/10.5/Pro **£85**

## iPad Holder with Clamp

This flexible system, with a wide range of adjustment, makes it easy to position an iPad for optimum touch access. The iPad simply clips in and can be easily removed. Can be fastened on to a round bar or table edge. iPad not included.

7209 Holder with Clamp for iPad Air/Air 2 **£79**  
n/a Holder with Clamp for iPad 10.2/10.5/Pro **£85**

## Inclusive Mounting for iPad

A versatile mounting system that can be customised to meet individual needs and environments. This pre-configured solution can mount a range of iPads. Supplied with Quick Release Joints. See [www.inclusive.com](http://www.inclusive.com)

n/a Single Tube Quick Release **£189**  
n/a Double Tube Quick Release **£249**  
n/a Triple Tube - Quick Release **£410**

## REHAdapt Folding Table Stand for Tablets

A table stand from Inclusive designed for mounting tablets which is small, compact and folds flat. Folds open and wraps around 9.7" tablets for easier transportation. The hard hinged joint allows a multitude of angles.

**Special Offer**

9486 REHAdapt Folding Table Stand for Tablets **£66.50**

## X-Grip for 7" Tablet

Spring loaded holder expands and contracts for a perfect fit. Rubber coated tips firmly hold the device. Single socket allows for multiple adjustment angles. Both the mount and tablet are easily attached and removed, and with no limitation in the positioning or adjustment of the mount. Tablet not included.

7629 X-Grip for 7" Tablet **£135**

## X-Grip for Smartphone

Tough-Claw can be clamped on rails from 16mm to 38mm outer diameter. Spring loaded holder expands and contracts for a perfect fit. Rubber coated tips firmly hold device. Single socket allows for multiple adjustment angles.

7627 X-Grip Smartphone Mounting Arm **£105**

## X-Grip for 10" Tablet

Tough-Claw can be clamped on rails from 16mm to 38mm outer diameter. Spring loaded holder expands and contracts for a perfect fit. Rubber coated tips firmly hold device. Single socket allows for multiple adjustment angles. Device not included.

7630 X-Grip 10" Tablet Mounting Arm

£185

## Inclusive iPad Holder with Gooseneck Mount

The flexible Gooseneck arm is great for positioning the iPad. It comes with a clamp that can fit round bars or a table edge. The new iPad holder can be easily positioned portrait or landscape. iPad not included.

9495 Holder with Gooseneck for iPad

£199

## Inclusive iPad Holder with VFA Mount

The Inclusive iPad Holder with VFA is a popular mounting solution. The VFA arm offers a wide range of adjustments and reach and our Inclusive iPad Holder can be positioned in portrait or landscape. Attach the clamp onto round bars or table edges. iPad not included.

9496 Holder with VFA for iPad

£299

## Inclusive Mounting for Universal Tablet Holder Single Solution

This pre-configured solution contains a Universal Tablet Holder which mounts any tablet from between 7" and 13" with or without a case, 2 x 250mm tubes, a 150mm tube, QR joints and a super clamp.

9494 Universal Tablet Mount Holder - Triple

£429

## Virtual Mounting Service

Our **free of charge** Virtual Mounting Service provides bespoke REHAdapt mounting solutions for iPad or tablet, eye gaze technology, switches or communication devices to the specific requirements of an individual.

Simply provide us with details of your requirements including the environment it will be used in and the device you wish to mount as well as at least 5 pictures to guide us and we will do the rest!

See [www.inclusive.com](http://www.inclusive.com) for full details.

## NEW APPLICator MAX

Allows switch access for up to four switches to switch adapted Apps including HelpKidzLearn Apps and music. Quick and easy switching between devices using either a separate switch or an extended press of one of the functional switches. Great for developing understanding, control and access skills. QuickMedia button takes you straight into controlling your music without changing switch settings. Operating range: 20m. Works with iPad, iPad mini, iPod (3rd generation and later), iPhone (iOS). Also Android 5.0 (Lollipop) and later. Dimensions: 9cm x 6.4cm x 1.8cm.

10076 APPLICator MAX

£219

## NEW Air Switch

The Air Switch is a wireless adapter that allows you to connect one or two switches to any Bluetooth-enabled device such as a computer, mobile or tablet. You can access it using a variety of specific programs that offer the option of access by scanning. Use it with your device's accessibility options and access all your Apps including; Netflix, WhatsApp, YouTube, HelpKidzLearn and more. Dimensions: 7.5cm x 3.5cm x 1.2cm. Range: 10 metres.

9989 Air Switch

£140

## iClick for iPad

Allows the operation of electrical appliances using an iPad and a free iClick App. Simply plug in an appliance and control it as follows:

**Direct** – appliance is powered for as long as the user touches the switch on the iPad screen.

**Latching** - touch once for on and again for off.

**Timed** - one touch turns the device on for a period determined within the App, from 1 second up to 250 minutes.

**Cooperative** - requires two users to work together for the device to turn on and off.

**On/Off** - one switch turns on the device and the other turns it off. Dimensions: 24cm x 16cm x 4cm.

8254 iClick for iPad

£226

## PointIt! Joystick Pro

A compact, easy-to-mount version of the desktop PointIt! joystick with additional features for positioning switches and controlling smart devices. Switch on top acts as left click for easy selection with two x 3.5mm switch inputs for external switches. The mounting ring allows for full control over the positioning of switches. Includes advanced modes to access all mouse button functions using only the joystick. Alternative knobs available for ball knob version. See [www.inclusive.com](http://www.inclusive.com) for full details.

n/a PointIt! Joystick Pro

From £400

## iControl for iPad

Simply plug one or two of your favourite toys or other small, battery-operated appliances into iControl and control them from your iPad. This allows you to turn battery toys and other powered appliances on and off wirelessly using the free of charge iClick App.

- Two 3.5mm sockets to allow up to two toys or other appliances to be connected.
- Seven control modes selected from the iClick App. Four modes provide independent switch operation; three give cooperative control.
- Dimensions: 9cm x 6.4cm x 1.8cm.

8255 iControl for iPad

£144

## APPLICator

Versatile switch access to any Bluetooth enabled device such as iPad/iPhone, Android, Mac, Chromebook and PC. Music, media, still and video photography. Left and right mouse click and double click- allows APPLICator to be used with iOS eye-gaze devices in Assistive Touch to provide switch selection. Timed play settings – plays music for 10 or 30 seconds each switch press. Great for engaging reluctant switch users. Includes 27 pre-programmed functions. Up to four wired switches can be plugged in. Rechargeable battery. Dimensions: 9cm x 6.4cm x 1.8cm.

5978 APPLICator

£153

## Blueline Bluetooth Joystick

A compact desktop Bluetooth joystick allowing direct wireless connection to any computer or tablet that has built-in Bluetooth. Ideal for connection to iPad or iPhone using iOS AssistiveTouch to give precise cursor movement without the need for fine motor skills. The Blueline Bluetooth joystick includes three recessed buttons and two sockets for external switches, all of which can be individually configured according to the user's precise needs. Supports variable cursor speed, swipe left, swipe right, drag, double click and dwell click features. Built-in rechargeable lithium battery. Dimensions 18cm x 10cm x 12cm.

9549 Blueline Bluetooth Joystick £255

## PointIt! Bluetooth Joystick

The joystick has four buttons that each simulate the function of a mouse click - left click (single and double), right click and mouse speed. It has jack sockets for switches for those who have difficulty pressing the buttons. Use a PointIt! to surf the web, catch up on emails, play games, watch YouTube and much more. This portable, wireless version of PointIt! is an advanced computer access solution and can be configured as either a Bluetooth mouse or keyboard. As well as being able to control a PC or Mac it can connect to Android tablets and phones, Smart TVs, iPhones and iPads. Dimensions: 11.5cm x 10.5cm x 3.4cm.

6887 PointIt! Bluetooth Joystick £780

## J-Pad Joystick

A unique joystick interface providing comprehensive access to all iPad functions. Use switch adapted Apps including HelpKidzLearn Apps. iOS 7 and later Switch Control. Access to music, media, photographs and video. Optional touch sensitive buttons to launch and close Apps. Works with iPad 2/3/4, iPad Mini, iPad Air, iPod Touch 3rd and 4th generations, iPhone 3GS, 4 and later. Bluetooth. Charges via USB. Joystick access and up to two switches. Dimensions: 9cm x 14.5cm x 6.5cm.

6302 J-Pad Joystick £197

## NEW Switcher-4

Switcher-4 allows users to access multiple devices using a single switch. Ideal for users with significantly impaired mobility. Specifically designed for wheelchair and lap-tray users needing to access multiple communicators, phones, tablets and iDevices using a single switch. Operates up to 4 devices (communicators, mobile phones, tablet computers, iDevices etc) from a single it-Switch (available to purchase separately). Rechargeable Lithium battery. Dimensions: 9cm x 6.4 x 1.8cm.

7270 Switcher-4 £109

## iSwitch

A new Bluetooth switch which enables switch access to iDevices, Android Tablets and Windows Tablets. Powerful performance in this low profile, small footprint (only 75mm diameter) switch. Switch adapted Apps including HelpKidzLearn Apps. iOS 7 and later Switch Control. Music, media, still and video photography. Includes 24 pre-programmed functions. Works with iPad 2/3/4, iPad Mini, iPad Air, iPod Touch 3rd and 4th generations, iPhone 3GS, 4 and later. Charges via USB (Li-ion rechargeable battery). One built-in switch with the option for two additional wired switches (not included).

n/a iSwitch £150

## Blue2 Switch

Provides access to all switch accessible Apps and also allows full use of the switch access options provided in the iOS 7 and later accessibility options. Connects to an iDevice via Bluetooth and then can be used to give switch access using its built-in switches or using wired switches. Once paired with your device it can give access to switch ready Apps using pre-programmed modes 1, 2 or 3 that cater for all existing switch Apps. Modes 4, 5 and 6 are available to allow you to record custom key sequences. Three pre-defined modes to work with switch ready Apps and three additional modes for user defined switch control. 16.5cm x 7cm x 2cm.

9531 Blue2 Switch (4th Generation) £269

# Alternative Mice and Keyboards

## Computer and iPad Access Made Easy

Browse our extensive range of alternative keyboards and mice, including large key, brightly coloured, compact, wireless and high-visibility keyboards and small mice, rollers, trackballs, head, face and mouth computer, tablet and phone access alternatives. You can now use a mouse or pointing device with your iPad or iPhone using the Accessibility features menu within iPadOS and iOS (see page 30-32).

For more information see:

[www.inclusive.com/hardware/alternative-mice.html](http://www.inclusive.com/hardware/alternative-mice.html)

[www.inclusive.com/hardware/alternative-keyboards.html](http://www.inclusive.com/hardware/alternative-keyboards.html)

## Accessibility Features in iPadOS and iOS

With the introduction of accessibility features for iPad and iPhone, iPadOS and iOS, users of assistive technology can now access new and exciting accessibility features on their device, in addition to the essential Switch Control features that have been present since iOS 7.

### Accessibility Features

The Accessibility features menu is now split into four categories - **Vision**, **Physical and Motor**, **Hearing** and **General** - with helpful icons displayed against each accessibility tool, helping users to distinguish what each feature does. The expanded Voice Control feature allows a user to navigate anywhere on their device through their voice and dictate or edit text. Also included is a mouse support feature which allows a user to use a wired or wireless mouse to control their iPad.

### Mouse support

The most exciting new feature in Accessibility is mouse support. This feature allows the user to control an iPad with the aid of a mouse or assistive mouse, beneficial for users who are unable to use an iPad if they have difficulty touching the screen.

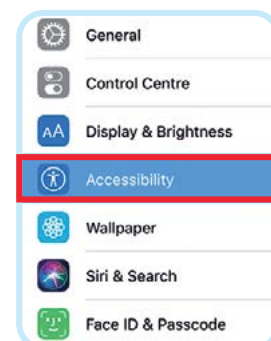

Bluetooth devices such as a mouse, joystick, rollerball or head mouse can be used to control the on-screen mouse cursor. Users can also use a USB connected mouse device with the aid of a USB to iPad/iPhone adapter.

### Can I update my iPad or iPhone to the new operating system?

- Any model of iPad from iPad Air 2 or later can be updated to iPadOS (for iPad Mini, iPad Mini 4 and later can be updated)\*.
- Any model of the iPhone from iPhone 6s and later can be updated to the latest version of iOS\*.

### How do I access the Accessibility menu?

The first change users will notice after the update is how to access the Accessibility menu on their device. Previously users had to tap **Settings – General – Accessibility** to access the menu. Apple have now re-positioned this front and centre in the Settings menu, making it easier for users to access. To access the Accessibility menu now just tap **Settings > Accessibility**.

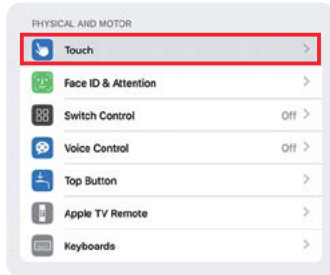

## How to setup mouse support

1

Mouse support can be setup under the **Physical and Motor** category.

Tap **Touch**.

Tap **Assistive Touch**.

Tap the Assistive Touch switch so it displays the green 'on' position to enable it.

If you are using a USB mouse then simply connect a USB adapter to your iPad and connect your mouse. A circular mouse cursor should then appear on the screen.

2

If you are connecting a bluetooth device, under **Pointer Devices**;

Tap **Devices**.

Tap **Bluetooth Devices**.

Make sure your bluetooth mouse is turned on and is discoverable and select it when it appears in the **Bluetooth Devices** list.

4

### Pointer Style

Users with a visual impairment can adjust the appearance of the mouse cursor by clicking **Pointer Style** under **Pointer Devices**.

Within this area, the size and colour of the pointer can be altered and an auto-hide feature is available to configure.

3

### Tracking Speed

If the speed of the mouse cursor needs altering this can be adjusted under **Tracking Speed** by moving the slider left or right to decrease or increase the speed.

5

### Dwell Control

A dwell control feature is also included, meaning a dwell action will be automatically activated when the cursor is held in one position for a specified amount of time. Enable **Dwell Control** to activate this feature.

## Clevy Mouse

A colourful mouse for young children, with two coloured buttons to make it easier to remember left and right click. Fits into small hands and is easy to control. With a right red button and a left blue button it makes it easier to remember left and right click. Dimensions: 10cm x 5.5cm x 3.5cm.

Compatible with iPadOS & iOS

7348 Clevy Mouse

£16

## Single Button Mouse

Often requested by teachers across the country, this mouse is great for both SEN and foundation pupils that have problems distinguishing between a left and right mouse click. Dimensions: 8.6cm x 5.7cm x 3.2cm.

Compatible with iPadOS & iOS

2295 Single Button Mouse USB

£29

## CST MaxTRAC Trackball

A large sturdy and affordable trackball. A full-sized, three button trackball, which is 100% Microsoft mouse compatible. Dimensions: 16.5cm x 8.5cm x 3.6cm.

Compatible with iPadOS & iOS

2353 CST MaxTRAC Trackball

£145

## BIGtrack with Sockets

Has many features that make it ideal for users who don't have the fine motor skills required by a mouse. Doesn't require control with the fingertips – a swipe at the large 3 inch ball and at the buttons works just as well. Includes two 3.5mm switch sockets to allow switch access to the left and right click functions (not included).

Compatible with iPadOS & iOS

0349 BIGtrack with Switch Sockets USB/PS2

£92

## Tiny Mouse

The Tiny Mouse is about half the size of a typical standard mouse and just right for your child's small hands. A scroll wheel and coloured right and left buttons help children learn to click and move the cursor with greater comfort and control. Dimensions: 8.3cm x 5.1cm x 3.2cm.

Compatible with iPadOS & iOS

7547 Tiny Mouse USB

£18

## Educational RYB Mouse

A colourful mouse for young children, two coloured buttons (one red and one blue) to make it easier to remember left and right click. This small mouse fits into small hands and is easy to control. Dimensions: 10cm x 5.8cm x 1.9cm.

Compatible with iPadOS & iOS

2211 Educational RYB Mouse USB

£12

## NEW Accuratus Trackball Mouse

It is ergonomically designed to fit comfortably in the right hand and is designed to reduce muscle stress by using the trackball rather than moving your whole arm and wrist around the desk compared to when using a regular mouse. Dimensions: 16.8cm x 10.5cm x 5.5cm.

Compatible with iPadOS & iOS

3012 Right Hand - Wired

£54

3022 Right Hand - Wireless

£62

## CST KidTRAC Trackball

A large sturdy and affordable trackball, with three full-sized buttons. Just plug into the USB port on your computer and you are ready to go. Colour may vary.

Compatible with iPadOS & iOS

0581 CST KidTRAC Trackball

£145

## Orbitrack

Uses a 50mm control ring to manage cursor movement for precise targeting. Unlike a mouse, trackerball or joystick, no hand or wrist movement is necessary, and unlike a touch pad, the cursor does not have to be driven around the screen by constant finger movement. Dimensions: 22cm x 13cm x 4cm.

Compatible with iPadOS & iOS

2296 Orbitrack USB/PS2

£183

## n-ABLER Rollerball

Large, high mass, free running ball requires only a light touch. Easy navigation with function buttons. The fingertip control and the need for only minimal hand movement reduces wrist and elbow fatigue. Dimensions: 23cm x 13cm x 13cm.

Compatible with iPadOS & iOS

1678 n-ABLER Rollerball USB/PS2

£215

## n-ABLER Pro Rollerball

Four cursor speed settings, drag lock and double-click buttons and many other features allow each user to set up the product according to their individual requirements. Unique Anti-Tremor facility is invaluable for anyone suffering with tremors or involuntary muscle spasms. Dimensions: 23cm x 13cm x 13cm.

Compatible with iPadOS & iOS

6051 n-ABLER Pro Rollerball USB

£240

## Kensington Orbit Optical Trackball

Offers the comfort of a mouse with the benefits of an optical trackball. Control your cursor with a simple touch of the finger! The highly accurate Orbit Optical is as easy to use as a regular mouse, but it stays in one place, saving you valuable desk space.

Compatible with iPadOS & iOS

3333 Kensington Orbit Optical Trackball

£32

## OPTIMAX Wireless Rollerball

A compact wireless rollerball and receiver for users with motor skills difficulties. With an operating range in excess of 10 metres, it's ideal for individual use or with groups in the classroom. Selectable cursor speed, left-handed mode and double-click option. Rechargeable battery. Dimensions 18cm x 10cm x 8cm.

Compatible with iPadOS & iOS

2784 OPTIMAX Wireless Rollerball

£181

## OPTIMA Rollerball

The wired OPTIMA Rollerball uses durable, optical technology for precise tracking and control of the cursor. Light touch ball movement and stability make it ideal for a wide range of computer users. Dimensions: 18cm x 10cm x 8cm.

Compatible with iPadOS & iOS

2294 OPTIMA Rollerball USB/PS2

£125

## it-Roll

A wireless rollerball and receiver for users with motor skills difficulties. With an operating range in excess of 10 metres, it's ideal for individual use or with groups in the classroom. Includes rechargeable lithium battery. Dimensions 18cm x 10cm x 8cm.

Compatible with iPadOS & iOS

4412 it-Roll

£143

4458 it-Roll Starter Pack

£185

## Thumb Mice

These very sensitive micro joysticks allow computer control with minimal movement of the thumb or fingers. Offering comfortable and ergonomic use with one hand, they can be customised to each user's needs and capabilities. Plug and play devices, compatible with Windows, Mac OS and Linux. Two options available.

Compatible with iPadOS & iOS

6219 Thumb Mouse-A

£170

6220 Thumb Mouse-C

£170

## Slimline Joystick

Has both a small footprint and a low profile, allowing it to be used comfortably for extended periods. Four cursor speed settings. Programmable touch sensitive buttons with audible feedback. Dimensions: 14.5cm x 9cm x 8cm.

Compatible with iPadOS & iOS

8765 Slimline Joystick USB

£177

## JoyStick-C

A joystick with a sturdy design and full range of configuration options, allowing the user to customise settings. A plastic keyguard for the buttons is included. Four 3.5mm switch sockets (switches not included). Dimensions: 29cm x 22cm x 16cm.

Compatible with iPadOS & iOS

6217 JoyStick-C USB

£360

## JoyStick-C-Lite

The JoyStick-C-Lite has one big accessible button and four switch inputs. The user can set it up according to their individual needs and capabilities. Especially designed for people with impaired motor skills. Dimensions: 15cm x 21cm x 15cm.

Compatible with iPadOS & iOS

6218 JoyStick-C-Lite USB

£200

## PointIt! Joysticks

A range of joysticks which give accurate control of the mouse pointer. Support standard mouse button functions plus double-click, drag lock and mouse speed. 3.5mm jack sockets for connection of external switches for left/right button control (switches not included). Alternative knobs available. See [www.inclusive.com](http://www.inclusive.com) for all options.

n/a PointIt! Joysticks

From £520

## JAZZ Joystick

Specifically designed to allow users without fine motor skills to easily achieve both cursor control and switch scanning, the JAZZ Joystick responds to gross movements while still achieving fine cursor positioning and accurate switch scanning. Dimensions: 18cm x 10.2cm x 11.2cm.

Compatible with iPadOS & iOS

9768 JAZZ Joystick

£194

## OPTIMA Joystick

Responds to the lightest touch for accurate navigation and precise targeting. Three different handles included. Sockets to operate left/right click buttons from remote switches. Four cursor speed settings. Audible alert for speed setting. Left/right and drag lock buttons. Dimensions: 18cm x 10cm x 12cm.

Compatible with iPadOS & iOS

3170 OPTIMA Joystick USB/PS2

£192

## n-ABLER Joystick

Requires only a light touch which, together with the function buttons, makes for easy navigation, selection and manipulation. It emulates a computer mouse but, with fingertip control and the need for only minimal hand movement, reduces wrist and elbow fatigue. Dimensions: 23cm x 13cm x 13cm.

Compatible with iPadOS & iOS

1679 n-ABLER Joystick USB/PS2

£275

## n-ABLER Pro Joystick

A light-touch joystick, four cursor speed settings, drag lock and double-click buttons and many other features allow each user to set up the product according to their individual requirements. Unique Anti-Tremor facility is invaluable for anyone suffering with tremors or involuntary muscle spasms. Dimensions: 23cm x 13cm x 13cm.

Compatible with iPadOS & iOS

6052 n-ABLER Pro Joystick USB

£296

## AMAneo Mouse Adapter

Compatible with iPadOS & iOS

Electronically filters the trembling of the hand so that the mouse pointer on the display moves smoothly. With tablets, touchscreen control is replaced by a normal mouse or an alternative mouse. Simply plug between the mouse and PC or notebook via USB. It works with any mouse and any operating system without any software installation. Dimensions: 7.7cm x 7.7cm x 2.6cm.

9238 AMAneo Assistive Mouse Adapter

£189

## BJOY Ring Wireless

Compatible with iPadOS & iOS

A USB device that allows you to convert the joystick of your wheelchair into a mouse to control your computer and compatible tablets and smartphones wirelessly. Each transmitter can be paired up to 4 receivers to be used with different devices or in different places. Use the BJOY software to modify the mouse operation features.

8129 BJOY Ring Wireless

£540

## PointIt! Pro Joystick

A compact USB joystick which gives accurate proportional control of the Windows mouse pointer. Supports standard mouse button functions plus DoubleClick, DragLock and MouseSpeed. Includes sockets for connection of external switches for left/right button control. Available with a Ball knob or a Standard Knob that has a switch on top for left button control. See [www.inclusive.com](http://www.inclusive.com) for full details.

n/a PointIt! Pro Joystick

From £400

## Glidepoint Touchpads

Compatible with iPadOS & iOS

Allows you to simply glide your finger over the touchpad surface and gently tap (or click the buttons) to perform all input functions. With three categories of desktop touchpads to choose from, there is a solution to fit your needs.

3873 Easy Cat Glidepoint Touchpad

£35

3874 Smart Cat Glidepoint Touchpad

£48

3875 Smart Cat Pro Glidepoint Touchpad

£68

## Wireless Vertical Mouse

Compatible with iPadOS & iOS

Fits comfortably in your palm in an upright position and keeps the bones in your arm straight, eliminating the twisted position that can be caused by standard mice. Available wired or wireless. 2 x AAA batteries included. Dimensions: 12cm x 7cm x 6.8cm.

9997 Wireless Vertical Mouse - Right Handed

£39

## The LipStick

Compatible with iPadOS & iOS

An alternative mouse whereby all mouse functions can be controlled with the mouth. The screen cursor follows the movement of the mouse and the left and right mouse buttons are operated by lifting one of the lips. Sensitive and robust. Optional table mount.

7049 The LipStick

£999

## Ultra Joystick

Compatible with iPadOS & iOS

A very compact, robust USB joystick which is ideal for mounting, particularly when operated by the user's head or chin. Two 3.5mm sockets allow any type of switch to be used and the function of the switches may be programmed to left click, right click, double click or drag. Dimensions: 5cm x 5cm x 11cm.

9063 Ultra Joystick

£319

## Moozi Joystick

Moozi's flat base is just 2cm high, so the user can hold their hand in a natural and comfortable position. It has a smooth, light sliding action so, with the right choice of handle, even young children soon use it with ease. Using an appropriate adaptor it can also operate other switch operated devices.

n/a Moozi Base with Knob

£150

## Quha Zono 2

Compatible with iPadOS & iOS

A wireless hands free mouse operated with head movements. It detects motion and transforms it into intuitive on-screen cursor movement. Using gyroscopes and tracking, the Quha Zono 2 is accurate and responsive to even small movements. You can simply plug in to your Windows device and be up and running in moments. You can easily tailor it to your needs with Quha Dwell, Grid 3 or Dwell Clicker software and smooth out any vibrations or tremors, snap to targets and more. For a complete solution, the Quha Zono Mouse can be paired up with any of your preferred switches. Dimensions: Length 5.9cm, Width 3.3cm & Height 1.5cm. Weight 23g. Rechargeable Battery: 60 hours approx. Mounting options are available. See [www.inclusive.com](http://www.inclusive.com) for accessories.

9694 Quha Zono 2 £890

## NEW Quha Pufo+

A wireless puff switch for Quha Zono mice – making it even more versatile as a head mouse. A little puff to the Quha Pufo+ mouthpiece will generate a left mouse click and two short puffs a double-click. The dragging can be easily done with a long puff.

7452 Quha Pufo+ with Adjustable Headband £319

## NEW Quha Zono Accessories

We offer a full range of mounting options for Quha including head mount, headband, eyewear, cap, universal and eyeglass clip. Quha Sento puff switch and Quha Dwell 2 software are also available. See [www.inclusive.com](http://www.inclusive.com) for further details.

9440 Quha Zono Adjustable Headband £80  
7455 Quha Dwell 2 Single User Activation Code £115

## NEW Quha Zono Mouse X

A lightweight wireless hands free mouse operated with head movements. It detects motion and transforms it into intuitive on-screen cursor movement. A tiny handsfree Bluetooth mouse for people who can't use desktop mice with their hands. With simple head movements the user can accurately move the cursor on any modern computer or mobile device. Slim and small design makes the usage convenient. Quha Dwell 2 software with circular instant dwell menu improves user experience and speeds up usage.

- Dimensions: Length 4.4cm, Width 2.5cm and Height 1.3cm.
- Weight 12g
- Bluetooth range up to 10m.
- Magnetic charging dock with USB-C.
- Includes magnetic ear clip and eyeglass clip.

7453 Quha Zono Mouse X £890

## Quha Zono Mouse

Compatible with iPadOS & iOS

A wireless gyroscopic pointing device offering a simple alternative to a regular mouse, it offers a flexible, plug and play alternative. It can be attached to the head, wrist, foot or anywhere else that is both comfortable and in front of the device being accessed. Wireless up to 10m. Weight 23g. Dimensions: 5.9cm x 3.3cm x 1.5cm.

8662 Quha Zono Mouse £531

## NEW Quha Sento

With the addition of Quha Sento, the world's first contactless puff switch to your Quha mouse, clicking and cursor movements are precise and intuitive. Supplied with an Adjustable Headband Quha Zono Mouse sold separately.

9693 Quha Sento with Adjustable Headband £299

## Pedagogy Learning Keyboard

0154	Alphabet Keyboard Stickers	£5
------	----------------------------	----

# Eye Gaze Technology

## Control any PC with your eyes

For many people who have difficulty physically using a computer, eye gaze technology can offer an easy to understand and quick way of accessing your favourite software. Inclusive offers a comprehensive range of eye gaze devices, software and accessories to get you started or take you to the next level.

For more information see:

[www.inclusive.com/hardware/eye-gaze-technology.html](http://www.inclusive.com/hardware/eye-gaze-technology.html)

# Skyle 2 Eye Tracker - for iPad Pro

More accurate, more powerful.

The new and improved Skyle 2 enables you to control the iPad Pro with your eyes. Making it the perfect solution for access, learning and communication (AAC).

Designed specifically for people with conditions such as cerebral palsy, ALS, Rett syndrome or spinal cord injury. Skyle 2 provides independent access to the powerful iPad Pro 12.9" through eye control, and the opportunity to communicate using:

- Augmentative and Alternative Communication (AAC) Apps such as Proloquo2Go, GoTalk NOW & Predictable.
- Environmental Control via Environ.
- Email with Outlook, Gmail, Yahoo.
- Socialise through Facebook, Twitter.
- Messaging with WhatsApp, Slack, Teams.
- Video Call using FaceTime, Skype.
- And so much more...

## Simple Setup

Insert the iPad Pro into the new protective case and plug in the eye tracker, download the Skyle 2 App and you're ready to realise the full potential of the iPad Pro with eye-control.

## Power Supply

Powered directly from the iPad Pro, the Skyle 2 eye tracker requires no additional power supply or battery and is ready for immediate use. You can even charge the iPad Pro at the same time.

## Perfect for AAC

- Access the iPad Pro with eye gaze, switch access, touch or pointer devices.
- Download millions of iOS Applications from the App Store.
- 12.9" anti-reflective coating with LED-backlit multi-touch display.
- The full power of iPad Pro's coprocessor for fast communication.
- High quality four speaker audio.
- Protective case with built-in mounting plate for easy mounting and positioning.
- Lightweight and mobile.

## Skyline 2 App

### Positioning

Position yourself using the guide; ensure you are relaxed and comfortable and the tracker can easily detect your eyes. A flexible or portable mounting system might be required to position the screen at the right angle and height.

### Calibration

Choose from 1, 2, 5 or 9 calibration points to look at on screen. The more points you look at, the more calibration data Skyline 2 has, resulting in more accurate eye tracking. Indicators will display on completion to show calibration quality.

### Tutorials

The free Skyline 2 iPad App includes tutorials, useful advice and training to ensure you experience the full benefit of Skyline 2 for iPad Pro.

## Special Features

- For iPad Pro 12.9" (3rd gen), iPadOS ≥13.2.
- Utilising iPadOS AssistiveTouch Accessibility features including Dwell Control.
- Full eye control access to any Apple iOS App.
- A switch can be plugged directly into the eye tracker providing quick access and input with configurable gestures and actions via the Skyline 2 App.

**Please note:** Only compatible with iPad Pro 12.9" (3rd, 4th, 5th & 6th gen). iPad Pro 12.9" and table mount system displayed are not included.

## What's Included

- Skyline 2 eye tracker. **(1)**
- Free Skyline 2 App for calibration, positioning guide and switch gesture. **(2)**
- A protective case that can be easily mounted to wheelchairs or stands using popular mounting systems such as REHAdapt and Daessy. **(3)**

9988 Skyline 2 Eye Tracker and Case for iPad Pro £2,395  
10000 Inclusive Mounting for Skyline 2 for iPad Pro £410

# Skyle Eye Tracker - for Windows

Eye Gaze Control Made Easy

*MS Surface Tablet not included.*

Easy and simple, Skyle for Windows is the first choice for eye gaze users in every classroom. Indiscriminative of skill, it is perfect for multi-user settings. It allows anyone to start at any level of ability and build their gaze control skills at their own pace. With Skyle for Windows installed on a desktop, laptop or tablet, anyone can use their gaze to explore, play games, learn, participate in classroom activities, communicate and more.

## What's included

### Skyle for Windows Eye Tracker

The Skyle for Windows Eye Tracker, a state-of-the-art access device that tracks where your eyes are looking and turns that into computer access!

- Works with any assistive and mouse driven software.
- Works with most lighting conditions.
- Small and portable - easily transported between computers at home or school.
- Can be used across any Windows devices with 10" - 24" screens.

### Skyle EyeMouse Software

Designed for the needs of 'independent' users as well as 'supported' users and their teachers and parents:

- Intuitive video or guided positioning.
- Individual profile settings for different users and devices – ideal for classroom & assessment.
- Mouse-over-gaze precedence provides control and convenience to teachers.
- Easy on-screen 'Access Button' and 'Gaze-at-Camera' for various levels of independence and abilities.
- Rich calibration and customisation to cater for specific individual needs and interests.
- Mouse and configuration menu are fully gaze accessible.

## From Simple Eye Gaze to Full Computer Access

Skyle for Windows is designed for simplicity and ease of use, suitable for those new to eye gaze and for use with all levels of ability. You no longer need specialist support and training to get started. Launch one application and follow the simple guide to set up in seconds!

### Who is it for?

Skyle for Windows can be used with many children and adults with conditions such as:

- Physical Difficulties.
- Communication Difficulties.
- Intellectual Disabilities.
- ALS and Multiple Sclerosis.
- Cerebral Palsy and Rett Syndrome.
- Autistic Spectrum Disorder.

### What can you do with it?

Skyle for Windows will follow your gaze on the screen and let you move the cursor and issue mouse commands such as:

- Dwell.
- Double Click.
- Right Click.
- Scroll.
- and more.

9874 Skyle Eye Tracker for Windows

£1,095

## Inclusive EyeGaze Education

With Skyle for Windows Eye Tracker

### A complete eye gaze solution for the classroom.

Assess, Include and Engage your students with the Inclusive EyeGaze Education package. Everything you need to introduce eye gaze into the classroom for students with all levels of ability.

9875 Inclusive EyeGaze Education Skyle - 1 user £1,470

# Inclusive EyeGaze Learning Curve Software

From Cause and Effect to Communication and Learning

The first ever collection of 54 fun and engaging interactive activities specially created to teach early eye gaze access and develop choice making skills. This collection takes children on the learning curve from assessment and cause and effect understanding through to using eye gaze for communication, learning and leisure.

## Attention and Looking

These fun and meaningful activities can be used with all children on their first steps with eye gaze. They provide a progression of skills from experiential and cause and effect to targeting, and include customisable activities to cater for specific interests and motivations. Powerful, but simple to use analysis and record keeping tools help you to assess initial skills and keep accurate records of progress. Three different types of activities including; Tracking, Fixating and Locating. Delivered via email.

## Exploring and Playing

18 fun packed games and exploring opportunities to play on your own and with friends. Assess and improve your targeting and access skills and progress from cause and effect to early choice making. You can even make your own music machine! Includes three different types of activities; Take Turns (take turns to interact); Explore (a progression of easy to access targeting activities) and Choose Anything (develop and reinforce multiple target access skills). Delivered via email.

## Choosing and Learning

The Choosing and Learning package is designed to prepare eye gaze users for further communication and learning activities by developing choice making and access skills. Includes 18+ motivating and meaningful activities that are specifically designed to develop; Understanding of early language and learning concepts. Expressive skills – show preferences, give commands and express opinions. Accuracy of targeting, clicking and drag and drop access. Delivered via Email.

9880 Surface Pro EyeGaze Education Skyle (Triple Mounting QR)  
28 days return policy

£2,869

## What's included

### Surface Pro Tablet

Windows 10 Pro, 12.3" high definition tablet, perfect for use with eye gaze! With 8GB RAM and 128GB SSD storage you can run all of your favourite eye gaze programs and Apps.

### Skyle for Windows Eye Tracker & EyeMouse Software

An intuitive and easy to use eye tracker, requiring little or no training! The Skyle for Windows tracks where your learners eyes are looking on screen and turns that into computer access.

### Inclusive Mounting Solutions

A versatile mounting solution that can be customised to meet individual needs and environments and attaches to tables and wheelchairs. Offering a portable and sturdy setup including Quick Release (QR) adjustment, super clamp and an eye gaze mounting bracket.

### Inclusive Learning Curve Software

These popular eye gaze software titles include 54 activities and are supplied pre-installed on the Microsoft Surface Pro. This collection takes users on the learning curve from assessment and cause and effect understanding through to using eye gaze for communication, learning and leisure.

## Tobii PCEye 5

Tobii PCEye 5 is designed for both those just getting started with eye tracking as well as for those with advanced eye gaze skills. For individuals without the ability to use their hands or fingers, eye tracking is the quickest, easiest and most ergonomic way to operate a computer.

The PCEye lets you surf the web, connect with friends online, play games, Skype, turn on the lights or TV and even create documents using only your eyes. Computer Control software is included as standard.

### Customized Computer Access

Experience greater independence by accessing the functions of your Windows computer using your eyes. Pair with Computer Control and your favourite communication software, such as Communicator 5, for the ability to use Accessible Apps like Facebook, Instagram, Spotify and more!

### Access your computer

Replace a traditional keyboard and mouse with your eyes and surf the web, connect on social media, play games, turn on the lights, create

documents and more when you pair your PCEye with our Computer Control software.

If you need augmentative and alternative communication (AAC) software, you can add Communicator 5 or Snap Core First for even more assisted communication options.

### Accuracy and precision

Tobii Dynavox eye trackers allow easy calibration for both advanced and novice eye tracking users. Once the PCEye is calibrated to your eyes, it allows you to hit even the smallest targets on the screen with almost pixel precision thanks to the zoom functionality of Computer Control.

9756 Tobii PCEye 5 with Computer Control £1,495

------	----------------------------------	------

## EyeOn Elite for AAC

EyeOn Elite from EyeTech™ Digital Systems combines next generation eye tracking technology with the power of a portable, lightweight tablet, making it a fast and accurate device for AAC.

With a quick glance of their eyes, users have the opportunity to communicate using simple to complex language and use other eye tracking software to help unlock their potential.

- EyeOn Elite is a simple to use communication aid and is a sleek, fast, 18mm thin, Windows tablet PC with integrated next-generation eye tracking and a flip stand.
- Includes a PowerGrip handle which adds extra battery life, switch ports, Infrared and Radio home automation and creates a natural angle for use when reclined on a table.
- EyeOn Elite can allow people to learn how to use eye gaze, communicate with symbols or text, use social media and control windows and provides support for switch, touch, voice an alternate mice.

- Communication needs and abilities change over time. EyeOn Elite is easy to update and adapt to meet the needs of both adults and children.
- The integrated home automation in the EyeOn Elite allows you to interact with Infrared enabled consumer electronics such as TV and set-top boxes.
- Radio frequency allows control of specialist equipment like sockets and door openers.
- EyeOn elite comes supplied with a BumpGuard - a robust surround that protects the device when it is accidentally bumped into doors or walls.

### Specifications

- Processor: Intel core i5-7Y54.
- Memory: 8GB RAM; 256GB SSD.
- Operating System: Windows 10 Pro.
- Screen: 14".
- Size: 36.2cm (width), 24.8cm (height), 1.8cm (depth).
- Weight: 2kg.
- Stand & Mounting: 100mm VESA; Rehadapt & Daessy compatible mounting plate; integrated flip stand.

Every EyeOn Elite device comes supplied with OnBright software suite, designed to give a voice to non-verbal individuals. It aims to empower communication, control of environment and improve quality of life and is controlled via eye gaze.

9758	EyeOn Elite 28 days return policy	£7,450
------	--------------------------------------	--------

## Grid 3

Grid 3 is a complete communication solution that enables people to have a voice, control their environment and live more independent lives. It's designed for anyone with complex communication or access needs and includes a wide range of resources that you can control with touch, switch, eye gaze and pointing devices. You'll find grid sets for talking with symbols or text, and content for all ages and abilities.

**Symbol communication** - a range of vocabularies are available. Super Core, a research-based core vocabulary, makes it easier for early AAC users to get started and experience success with symbol communication. Popular symbol libraries are included: Widgit, PCS, SymbolStix and Snap Photos.

**Simple editing** - personalising resources is simple, or you can even create your own. Whether you prefer larger text, high contrast colours or larger cells to target.

**Tools for home and school** - computer control gives you full access to Windows using eye gaze, pointing devices, or a switch. Control any application, whether at home, school or at work.

8100 Grid 3 1-49 licences each

£550

## Look to Read

Look to Read enables children with disabilities to experience and enjoy books independently. Suitable for use with eye gaze, switch and touch access. Everyone can enjoy Look to Read as part of their literacy journey – whether they're just starting out or already have some literacy skills. Each book is fully accessible, with exciting content and learning activities to offer support at every stage. It includes; 16 original animated stories, 4 stages of progression, 95 letter sounds and 100 high frequency words, 64 learning activities, symbolised chat grids for every story, a workbook for tracking and recording progress and high contrast mode for users with visual impairment.

9355 Look to Read 1-49 licences each

£180

## NEW Grid for iPad

An AAC App that gives a voice to people without speech. This is a complete AAC platform and includes instant access to resources for both symbol and text

communication. Includes a whole library of resources and more powerful grammar and language tools. From powerful communication tools for text users, to grid sets for communicating with symbols and developing literacy. Easily add and organise your grid sets from Grid Explorer, your home screen within the App. This is where all your grid sets are stored.

### Features

- Wide range of resources for different ages and abilities.
- Research-based approach to symbol and text AAC.
- Fast and intuitive in-app editing.
- Remote editing from any Windows computer.
- Do more with Grid – new resources added every day.
- Available in 32 languages.

7464 Grid for iPad App Licence Code

£334

## Eye Can Fly

24 unique and exciting missions. Master control of your aircraft to become a fully fledged pilot whilst learning Geography skills such as compass directions, landmarks and regions across the world as well as enhancing your eye gaze skills. In addition to eye gaze, play can also be controlled with any mouse pointer device, the keyboard, switches and joysticks. Designed for students with some experience of eye gaze control and ability to follow simple verbal instructions, this package is easy to set up and takes the students through carefully graded activities to learn how to use eye gaze with precision and control.

7296 Single user Activation Code

£150

7297 5 user Activation Code

£300

7298 10 user Activation Code

£450

## Look to Learn and Scenes & Sounds Add On

Look to Learn is a package of forty activities designed for those starting out with eye gaze technology. Each activity develops a different skill, ranging from early cause and effect through to accurate eye gaze control. The forty activities are relevant to five key areas of learning and development: Sensory, Explore, Target, Choose and Control. Scenes & Sounds is a collection of twenty six activities designed for children and adults starting out with eye gaze. Available as an expansion pack for Look to Learn, this software focuses on interactive scenes, music and sound as well as eye gaze skills activities. You can add Scenes & Sounds to your existing Look to Learn licence or purchase both software titles together.

7906	Look to Learn 1-49 licences each	£360
7915	Scenes & Sounds Add On 1-49 licences each	£180

## Sensory Eye-FX

A package of thirty software applications designed for the earliest level of eye gaze computer access. Activities are designed to be used without the need for a calibration. Users can develop their screen engagement, tracking, targeting, selecting and creative skills. Five Areas of Learning;

- Level 1: Blank Screen Engagement – explore cause and effect.
- Level 2: Object Displacement – introduce dwell functions and basic targeting.
- Level 3: Zoned Focusing – develop the ability to target specific screen areas.
- Level 4: Active Exploration – encourage learners to engage with the wider screen.
- Level 5: Controlled Targeting – targeting control, accuracy and understanding dwell function.

9170	Sensory Eye-FX single user licence	£650
------	------------------------------------	------

## NEW Look Lab

A comprehensive collection of 38 accessible games and creative activities that will help people get started with, practise and challenge their eye gaze skills as they progress. Developed in consultation with SEN teachers and professionals, Look Lab activities effectively nurture 12 different eye gaze skills. Each activity encourages users to engage with the screen in different ways, including hitting targets, dwelling, tracking objects and moving the cursor around the screen. There are also customisable options for each activity. Easy mode allows users to explore activities at their own pace, free from the fear of losing or running out of time. Standard mode introduces a competitive edge, where activities increase in difficulty and include time constraints and limit attempts to win.

7537	Look Lab - Download Only	£480
------	--------------------------	------

## ii-Music

A musical instrument that you can play with your eyes. With a range of high quality musical instruments, sound effects and the ability to record your performances, ii-Music gives you free reign to express yourself musically, in real-time. ii-Music operates using cursor position and "dwell to click" meaning that you can use it with almost any eye gaze or head tracking system. No need to read music or memorise scales to give this a go - all you need is a love of music. You can also use the software to enhance your performance by changing notes or adding effects on the fly. Control a cursor controlled instrument or use with a Skoog. 10+ physical modelling instruments. Digital effects - fuzz, echo, phasor, reverb.

7637	ii-Music single user licence	£150
------	------------------------------	------

## REHAdapt Pentalock Tele Floor Stand

A telescopic REHAdapt Floor Stand on a five-star base with casters, which can be used to position communication aids and other devices such as the Surface Pro over beds, sofas or wheelchairs. Includes counter weight for safe use. Dimensions: 105-175cm x 64.8cm x 64.8cm

## The Inclusive Interactive Screens are a professional range of screens suitable for use in an educational setting.

- They offer a tough display with a 100,000 hour screen life that will see you through the coming years.
- Supplied as standard on a height adjustable trolley or wall mount. The Tilt and Multi Touch version adjusts for height and angle.
- Our screens can quickly be adjusted to suit tall teachers, toddlers or wheelchair users, and to support individual use or whole class teaching.
- Our popular ClassMate Software Suite including our top 50 award winning titles is supplied free-of-charge!

### Inclusive Interactive Screen

ClassMate  
Software Suite  
supplied free-  
of-charge!

The robust Inclusive Interactive Screen mobile solution is built around a professional range of screens suitable for education. The fully mobile interactive screens come in a Multi Touch option with powered height adjustability. The range of interactive displays can be supplied on a height adjustable trolley or wall mount.

Fitted with braking castors the Inclusive Interactive Screen is easily moved from room to room making it ideal for flexible work spaces and special needs environments. Safety sensors detect any obstacle in the way whilst being raised or lowered and so avoid damage or injury. The sleek steel frame can raise and lower the screen by 68cm and can be halted in any position. Adjustable mounting brackets allow the minimum and maximum screen height to be tailored for specific use.

- Available in 55" and 65" screen sizes.
- Built-in PC option.
- Supplied with height adjustable stand.
- Includes a laptop shelf.
- Integrated additional power socket for laptop.
- Impact resistant front glass panel.
- Multi Touch technology.
- Supplied with MyBoard and the Inclusive ClassMate Software Suite (see **page 55**) which includes our top 50 award winning titles.

# Switch Access Technology

## Enabling learners to access and interact

Inclusive offers the widest range of switch access products in the UK. Our extensive range of switches provides value, choice, quality and innovation; including button, wireless, specialist and proximity switches as well as a variety of connection and mounting options. You are certain to find something to meet the requirements of your learners.

For more information see:

[www.inclusive.com/hardware/switches.html](http://www.inclusive.com/hardware/switches.html)

# | Simply Works Wireless Range

Access Technology anywhere in the classroom

With Simply Works you can have switches, joysticks, rollerballs, communicators, toy control devices and a keyboard, that work together wirelessly. Simply connect the it-Receive to your computer and you are ready to use an it-Roll rollerball, it-Stick joystick or control your switch software using the it-Switch. Each connects wirelessly with a range of 10m (32 feet) and can work from anywhere in the classroom - ideal for including everyone in an interactive lesson. Up to six separate input devices can be used at any one time using a single receiver.

**it-Switch** - a wireless switch with a unique low, slanted profile. Gives good tactile feedback with no protruding base and can be operated with the slightest movement. Fixed switch caps. Please specify size and colour when ordering. 2x AA batteries included. Available in red, yellow, green or blue. You can pair this switch to the following:

**it-Receive** - for computer access. Choose from a full range of options, e.g. spacebar, F7 and F8 keys or left mouse click, quickly and easily with the LED menu on the switch.

**Smooth Talker with Levels** - for two switch message options ([page 100](#)).

**it-Click-On Plus** - for mains device operation ([page 85](#)).

**it-Control** - for battery operated toy control ([page 85](#)).

**SimplyWorks for iPad** - wireless access to Apple devices. iOS 7 and later Switch Control. Wireless access to switch adapted Apps including HelpKidzLearn Apps. Includes 24 pre-programmed functions with it-Switch.

**it-Receive** - a wireless receiver and computer interface. Simply plug the it-Receive into a USB socket and you can use up to six Simply Works devices on one computer.

**it-Send** - plug any switch with a 3.5mm jack into the it-Send and use it with any of the Simply Works receivers (it-Receive, Smooth Talker, Click-On Plus, it-Control) to make your wired switch 'wireless'. 10 metre operating range. 2 x AAA batteries included.

**it-Send Pro** - similar to the it-Send, but you can use up to six of your own wired switches. The it-Send Pro automatically sets up switch functions for you when used with it-Receive using the supplied software. You can also set your own custom settings. 10 metre operating range. 2 x AA batteries included.

**it-Roll** - a wireless rollerball ideal for those with motor skill difficulties. With an operating range in excess of 10 metres, it is ideal for use with groups or in the classroom to ensure that everyone can join in. Rechargeable battery included.

**it-Stick** - 10 metre operating range. Left/right click and drag lock buttons. 9v battery included.

0960	Pillow Switch	£128
------	---------------	------

## Cosmo Switch

The Cosmo Switch is a unique light-up, multi-colour Bluetooth switch interface for tablets, mobile phones and computers. It is highly responsive,

making it very easy to activate regardless of your motor abilities. The switch lights up in a variety of colours, making it very engaging and providing visual feedback with every press.

Cosmo provides access to all switch accessible apps or software on iOS, OS X, Chromebooks, Windows and Android devices. You can use it with your Augmented and Alternative Communication (AAC) software, for switch accessibility, for games or controlling music playback.

Compatible with all Bluetooth LE or newer equipped devices, it's easy to pair with the correct Cosmo Switch when multiple are present in the same room. Cosmo is simple to use with Grid, HelpKidzLearn, SnapCore first, Communicator 5 and almost any AAC software or Switch Accessible Software. The Cosmo Switch includes industry standard threaded holes making the switch ideal for mounting using the Universal Mounting Plate and mounting arms.

### Features

- Smart, sturdy and dynamic switch.
- Lighting up in a variety of colours.
- Visually and sensorily motivating.
- Highly responsive.
- Adjustable activation.
- Fast and steady connection to your device via Bluetooth.
- Rechargeable, with extended battery life.
- Easy to clean and sanitise.
- Easy to set up.

Use the **FREE Cosmo Switch Setup App** for iPhones, iPads and Android devices to set your preferences for your switch (download on the App Store or on Google Play). How responsive it should be, what colour should it take etc. and tap Save. That's it. Your switch is now ready to be used with dozens of applications on Windows, Mac, Android, iOS, Chromebook and even Linux devices. And if you change your mind, you can configure your switch again and again.

9788 Cosmo Switch

£135

## KajoButton Wireless Soft Switch RF

A wireless soft foam-covered switch is a Radio-Frequency (RF) transmitter that can be used as a wireless nurse call or assistant call button or to operate other RF receivers to open doors, operate lights and more. It is ideal to use in bed as it can be attached to a pillow or to other textiles and there are no tangling cables.

9631 KajoButton Wireless Soft Switch RF

£199

# Environmental Control

## Providing innovative independent control

Our range of environmental control technology gives users the means to control their world via specially designed infra-red and wireless devices.

For more information see:

[www.inclusive.com/hardware/environmental-control.html](http://www.inclusive.com/hardware/environmental-control.html)

# EnvirON

The means to control your world

The EnvirON range of products is a great way to introduce and to teach environmental control to your students in the classroom. Whether you want teach your students how to control a TV, radio, lamps or kitchen appliances and access them through their iPad, switches or a scanning remote, EnvirON is a unique versatile range of products which allows simple control of both infra-red (IR) appliances and mains powered appliances of any kind. Setting up an EnvirON system is simple and straightforward with helpful online videos.

**1. EnvirON Hub** is the heart of the EnvirON system. Its principal purpose is to receive information from the EnvirON App, wireless switches or scanning remote and turn them into signals to control a TV, music player or any other IR device. It is able to learn the signals from your existing remote controls simply by pointing the remote at the Hub and pressing the buttons you need. EnvirON Hub also provides a connection between the App and any iClick (**page 27**) mains appliance controllers. Dimensions: 14.5cm x 10cm x 3cm.

**2. EnvirON Scanning Remote** provides the user with a method to control both IR and mains powered appliances from a single remote control. Large, touch sensitive buttons on the unit allow up to eight functions to be programmed. Can also be used for single or two switch scanning. Dimensions: 20.7cm x 9.2cm x 4.7cm. Each touch button 5cm x 1.5cm.

**3. EnvirON Wireless Switches** can be used to control any single function within the EnvirON system, whether it's putting the TV on a particular channel, turning on a lamp or just turning up the volume on your radio. Available in two sizes: 125mm and 75mm diameter and in red, yellow, green and blue.

**4. iClick for iPad** allows you to turn electrical appliances on and off wirelessly using the free of charge iClick App on your iPad. Simply plug your favourite appliances into iClick and control them from your iPad in the following innovative ways:

- **Direct** - appliance/toy is powered for as long as the user touches the switch on the iPad screen
- **Latching** - touch once for on and again for off.
- **Timed** - one touch turns the device on for a period determined within the App, from as little as 1 second up to 250 minutes.
- **Cooperative** - requires two users to work together for the device to turn on and off.
- **On/Off** - one switch turns on the device and the other turns it off.

Dimensions: 24cm x 16cm x 4cm.

**5. EnvirON App** is available free of charge on the Apple App Store, the EnvirON App easily connects to the Hub to control your IR and mains devices. EnvirON App is fully compatible with iOS Switch Control allowing the buttons to be scanned using a Bluetooth device such as APPLICATOR (**page 27**) or iSwitch (**page 28**).

8774	EnvirON Hub	£324
8775	EnvirON Scanning Remote	£293
n/a	EnvirON Switch Large or Small	£93
8254	iClick for iPad	£226

## Control USB

Features a USB type C connection that operates any infra-red controlled device, from TVs to toys, and any mains powered device, directly from a Windows device. You can simply design on-screen grids to: Memorise the functions of any infra-red device from the device's remote handset. Control up to 16 mains powered devices via Enabler Socket+ (see below).

8359 Control USB £220

## Control+

Control infra-red devices and access the App via your usual method. Customise the cells, create as many cells as you need, select the number of cells and their distribution plus create macros to activate a sequence of actions from a single cell. Memorise the functions of any infra-red remote control, plus control any switch adapted toy from the switch output. Pair it with the Enabler Socket+ (see below) to operate mains devices.

8686 Control+ £410

## Control Pro

Control of up to 112 household devices in an accessible and simple manner and you can control any device that works using a remote control. Easy to hang around the neck and attach to a wheelchair. Customize your covers with your favourite images by means of the included program. Possibility of macros: a single button activates a sequence of actions.

9861 Control Pro £325

## Enabler Socket+

A "Plug and Play" device that allows you to turn on/off your household appliances and switch adapted devices using the Control USB or by means of an external standard 3.5mm switch. Use to control electrical appliances like lights, heaters, fans, kitchen appliances, stereos and with the switch output you can also activate switch adapted cameras, toys and any other devices with a switch input.

8363 Enabler Socket+ £120

## it-Control Range

**it-Control** is a single channel toy controller which can be paired with an it-Switch to give wireless operation. **it-Control Pro** is a two channel toy controller and timer which can be controlled by up to three switches per channel, with two cooperative modes.

4417 it-Control £79

## BIGmack

Start your communication journey with a BIGmack speech device. With a press of the large coloured top, an individual can communicate a single message up to two minutes long. New messages are easily and quickly recorded to the BIGmack on the fly throughout the day to provide opportunities to communicate in almost any scenario. This simple communicator has lots of uses! It's easy to record speech, music or any sound into the BIGmack. Record a repeated phrase from a story or song for a child to playback at the right time. Ideal as a simple introduction to sound recording technology. Simply press the BIGmack to hear the sound. Large single button, single message device for quick and easy communication. Two minutes recording time. Volume control and on/off switch. Includes interchangeable tops in red, blue, yellow and green. 1 x 9v battery included. Dimensions: 16cm x 4.5cm x 17cm.

3478 BIGmack

£139

## BIG Step-by-Step

Move into multi-message communication with the BIG Step-by-Step speech device. Activate the large coloured top to play the first message. When done, activate the top again to play another message. Gives an easy and effective way to provide sequential messaging to a user. Record a series of messages onto the BIG Step-by-Step, and you're ready to go. Levels allow you to record up to three different sets of sequential messages that you can use throughout the day. Perfect for telling a story, counting, or telling a joke. Levels are ideal for pre-recording and storing sequential messages. With a total of four minutes of recording time and no limit to the number of messages per level. Includes coloured tops along with a clear snap cap that holds a picture symbol on the device. 1 x 9V battery included. Dimensions: 16cm x 4.5cm x 17cm.

9829 BIG Step-by-Step

£228

## Smooth Talker with Levels

Featuring eight minutes of recording and playback time and five levels with adaptive recording time on each. The built-in rechargeable lithium battery will give many hours of use between charges and it may still be used while recharging. Digital amplifier with twin speakers for superior sound quality. Sequential, Random, Random (no repeats), Choice, Choice Progression, Converse, Auditory Prompt and Question/Answer playback modes. Input socket for attaching a wired switch, or alternatively use a wireless switch such as the it-Switch. Wireless toy activation using SimplyWorks Toy/Mains Appliance Controllers, or using the 3.5mm toy socket. Large (125mm), low profile, switch activation area. Available in red, yellow, green or blue. Dimensions: 21.5cm x 5.5cm x 19cm.

n/a Smooth Talker with Levels

£167

## LITTLEmack

With a press of the coloured top, an individual can communicate a single message up to two minutes long. New messages are easily and quickly recorded on the fly throughout the day to provide opportunities to communicate in almost any scenario. With its angled base and 2½ inch activation surface, it is perfect for mounting and is recommended for people who can access a smaller target. Small single button, single message device for quick and easy communication. Includes interchangeable tops in red, blue, yellow and green. Connect a toy or battery operated appliance for instant positive reinforcement. Includes clear snap cover to attach picture symbols and provide communication context to the user. External switch jack for speciality switch operation. Volume control and on/off switch. 1 x 9v battery included. Dimensions: 11cm x 7cm x 10cm.

3486 LITTLEmack

£139

## iTalk2 with Levels

iTalk2 with Levels is also perfect for asking and answering questions, telling jokes and making comments in social situations. Angled base provides easy access. With four minutes recording time, the possibilities are endless! Includes two Snap Switch Caps. Includes dual toy/appliance jacks - add a toy for immediate positive reinforcement. 64mm diameter activation areas. Built-in symbol storage area. Pre-record different sets of messages for use throughout the day. 25% more battery life. 1 x 9V battery included. Dimensions: 11cm x 9cm x 17cm.

3541 iTalk2 with Levels

£225

## LITTLE Step-by-Step

An easy and effective way to provide sequential messaging to a user. Record a series of messages onto it and you're ready to go. Levels allow you to record up to three different sets of sequential messages. Three recording levels with a total of four minutes recording time. Includes coloured tops along with a clear snap cap that holds a picture symbol on the device. 1 x 9V battery included. Dimensions: 11cm x 7cm x 10cm.

9727 LITTLE Step-by-Step

£228

## Choice

Choice provides an exciting option for easy-tech, quick-ready communication. Press the activation surface quickly to select the appropriate message - no matter where in the sequence of messages it was recorded. This is a great tool for answering multiple choice questions, or communicating desires among a list of options.

- Includes red, yellow, green, and blue coloured tops.
- 1 x 9v battery included.
- Dimensions: 11cm x 7cm x 10cm.

7385 Choice

£175

## iTalk4 with Levels

iTalk4 with Levels has 6-minutes of recording time, includes three separate recording levels, and holds up 12 unique messages at any time.

- Each 2.5 inch coloured cap is permanently connected and includes a clear snap cap so you can attach a picture symbol of your choice.
- Connect one switch (not included) to each message for direct message playback.
- Use the Universal Mounting Plate (not included) to mount iTalk4 with Levels to your favourite mounting arm.
- Includes 4 x AA batteries.
- Dimensions: 33cm x 7.5cm x 7cm.

9469 iTalk4 with Levels

£289

## Big Button Communicator

A powerful communicator with easy-touch activation. Transparent cap, with an opening to quickly slide in overlays.

An overlay storage compartment on the back makes changing an overlay a snap. It's easy to erase or edit messages without affecting the other recordings. Nine levels with 6 seconds recording time, plus one level with 14 seconds recording time. Two modes - steps (sequencing) and levels. 2 x AAA batteries included. Dimensions: 15cm x 15cm x 3.5cm.

5487 Big Button Communicator

£89

## Getting Started with Communicators Bundle

This bundle provides the opportunity to 'get started' using communication aids. Includes iTalk2 with Levels (a two message device with three levels), BIGmack (a single message communicator) and BIG Step by Step (a sequential message communicator).

3483 Getting Started with Communicators Bundle £570

## Go Talk 9+

**NEW** Arcana Strum

A musical instrument designed to be extremely simple to learn

and easy to play. It's the perfect musical solution, providing a full musical experience, with chords, tunes, riffs and scales, so that anyone can enjoy the uplifting rapture of playing music. Arcana Strum is a compact device that can help anyone play guitar regardless of their physical ability. Operation of the device's unique handle design simulates the feeling of strumming a guitar whilst pressing one of the device's keys produces a chord sound. All sound is produced via connection to an external device such as an iPhone or iPad. Arcana Strum is adaptive and easily accessible, offering adjustable keys and handle sensitivity as well as right or left handed playing options. A range of optional accessories are also available, enabling users to play along using assistive switches or using alternative strum stick handles. See [www.inclusive.com](http://www.inclusive.com) for options. Innovative and intuitive, Arcana Strum can also help early users learn and develop their music education whilst igniting their passion for playing and listening to music in a fun and engaging way! Dimensions: 47cm x 16cm x 5.5cm.

7471 Arcana Strum

£1,070

**NEW** CMPSR Complete Music Maker

An inclusive digital music education approach and fully adaptable for students and teachers of all experience levels. CMPSR is built to engage students who are traditionally difficult to reach and who are often excluded from music education. It's an excellent choice for schools looking to offer an inclusive digital curriculum. With its always-in-key feature and built-in chord and scale engines, simply connect to a device and you can play the sound of any instrument! Use the joystick and music pads for a unique composition and access to endless sound possibilities. Paired with Arrownote's use of colour, shape and direction it's designed to allow non-specialist teachers to deliver inclusive, easy-to-follow music activities and lessons. If you can follow and match, then you can play and perform. It's suitable for all children and teachers, making it a complete music-making solution for the whole classroom. Dimensions: 11cm x 18.5cm x 8cm.

2893 CMPSR Complete Music Maker

£378

**AACTivity Communicator & Musical Device**

A highly versatile communicator and musical device with eight buttons, 8 levels and 8 minutes of recording time. The AACTivity also benefits from 64 pre-recorded sounds arranged in 8 categories. Supports single or two-switch scanning and can also be used with SimplyWorks wireless switches. Selecting the Freestyle Music activity allows the unit to be used as a single octave piano, whereas selecting the Music Scanning activity allows the user to play well-known songs by following the scanning lights. Once a song is completed the user is rewarded with the song being played back at normal tempo.

Includes eight legendable buttons for ease of access to multiple messages and eight minutes of recording time across eight levels. Dimensions: 51cm x 28cm x 6cm.

9548 AACTivity Communicator &amp; Musical Device £409

**NEW** Simple Music Player

An easy-to-use and robust MP3 music player. Great for use in the classroom or at home – to operate users simply play music by lifting the clearly indicated

lid, and close the lid to stop. Originally designed for users with Dementia, this great device can also be used in an SEN environment.

- Underneath the lid is one large button that can be used to a skip track if required.
- Volume can be set so it cannot be accidentally changed.
- Robust and excellent quality design.
- Music is uploaded via USB to any Windows, Apple, or Linux PC.
- Storage capacity: 4GB (approximately 1000 songs).
- Includes a standard headphone socket. UK mains powered.
- Available in Red or Green (please specify colour when ordering).
- Optional 'Lift to play music' and 'Close to stop music' stickers included. The lid can easily be clipped back on if accidentally removed.
- Dimensions: 30cm x 19cm x 11cm.

n/a Simple Music Player

# Inclusive CLASSVR

Inclusive ClassVR is a simple, affordable package that gives you the power to play and create your own Virtual Reality experiences for the classroom.

[www.inclusive.com/inclusive-classvr.html](http://www.inclusive.com/inclusive-classvr.html)

## Virtual Reality (VR)

Inclusive ClassVR provides immersive, sensory experiences where students can safely interact and explore virtual worlds and environments without boundaries or the restriction of physical limitations. Virtual Reality provides engaging, multi-sensory stimulation and opportunity for those students with physical disabilities to experience things they may not be able to physically access. The perfect solution for students with learning difficulties, sensory impairments and physical disabilities in SEN classrooms or establishments!

## Augmented Reality (AR)

Inclusive ClassVR headsets also include a front-facing camera and our Augmented Reality Classroom (ARC) App. Enabling you to bring educational content to life and allow students to view and interact with exciting 3D models. Students can see their normal surroundings, but when they look at special QR codes on our worksheets or posters, the content comes to life! This allows them to get up close and personal with content, such as a beating heart, spitfire, triceratops, planets and other exciting educational resources.

## Headsets, Storage and Charging Case

Inclusive ClassVR includes four 'standalone' headsets that deliver fully immersive experiences. Unlike other VR headsets, Inclusive ClassVR does not require any additional devices, such as phones. Headsets come in a rugged storage and charging case providing maximum security and ensures all headsets are charged safely and swiftly whilst being portable between classrooms. Premium version available.

## Inclusive Experiences

Inclusive ClassVR gives access to a wide range of 360° videos and resources including:

**Sensory Experiences** - a selection of videos that provide engaging multi-sensory stimulation including landscapes, environments and scenes.

**Physical Development** - parachute, scuba dive with turtles, ski and surf. Providing some students with the opportunity to experience things they may not be able to physically access.

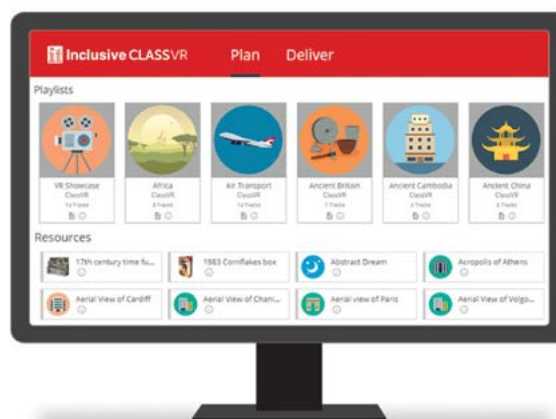

## Curriculum Activities

**Curriculum Activities** - search hundreds of readymade resources to build your own lesson. There are currently over 500 pre-made activities covering a huge range of topics and curriculum subject areas aligned to UK National Curriculum and US State Standards.

**Personalised Content** - with a 360° camera, teachers can create personalised content and teach important life skills activities that can help, educate and ready students to live. The possibilities are endless.

## ClassVR Portal & CPD Training

Plan lessons in just a few simple steps and deliver a defined playlist of resources to multiple headsets simultaneously. Monitor what students are seeing and guide them through the experience, highlighting points of interest. Teachers also have access to ClassVR Online CPD Training which includes comprehensive, bite-sized lectures, videos and quizzes. Designed to help you get the most from your new investment.

# Healthcare Products

## Aids to support and assist

We supply Headmaster Collars, Drinkup Drinking systems, arm supports and speech amplifiers. Please get in touch if you'd like to purchase healthcare products we don't currently supply.

For more information see:

[www.inclusive.com/hardware/healthcare-products.html](http://www.inclusive.com/hardware/healthcare-products.html)

The Headmaster Collar is an industry leading neck immobilisation support collar, designed to prevent over-extension of the neck and promote optimal healing with regards to straightness. The collar bends to adjust for neck flexion or extension, is designed to allow access to a tracheal tube enabling easy access in the case of medical emergencies, comes in multiple sizes and is available for all ages.

## Headmaster Collar

A comfortable cervical spine support.

Originally designed for people suffering from arthritis, but has been found to be appropriate and of great benefit to people suffering from many other disabilities including: Progressive neurological conditions such as motor neurone disease, congenital conditions such as cerebral palsy, whiplash, head and spinal cord injury and burns. Constructed from surgical rubber tubing around a malleable core, the tubing is

covered with a brushed nylon material that allows the VELCRO® attachments to adhere anywhere. Each collar is supplied pre-assembled and ready to use - just bend it to the desired fit by hand. Fitting Instructions are enclosed with the collar. Extension Pads, Neck Pads, spare Chin Pads, Spare Neck straps and Anterior Support is available.

**Please note:** this product is non-returnable. Collar to be fitted by a professional, contains latex.

Available in non-latex.

See [www.inclusive.com](http://www.inclusive.com) for all options.

- Bend and mould to a comfortable fit.
- Non-returnable.

5258	Neck Strap - Large/Medium	£23
5261	Neck Strap - Child/Infant	£23
5270	Neck Strap - Small/Junior	£23

## Drinkup21 Drinking System

A completely 'hands-free' drinking system, specifically designed for those who cannot use their hands or have limited mobility. 1 Litre bottle supplied. Accepts vessels max 92mm diameter. Supplied with an anti-siphon, non-return bite valve, reducing the effort required to suck. May also be used in a 'safe-siphon' mode by those who cannot suck fluids. For cold or warm drinks, nutritional mixes and thickened fluids. Free-standing and self-supporting on flat surfaces. Weighted base, Dycem® non-slip feet. Use from a chair or bed (due to adjustment) and reach 700-750mm approx. Completely washable with removable parts (drinking tubes and bite valves being washable and reusable or disposable). Non-returnable. Drinkup Consumables Parts Pack available.

9830 Drinkup21 Hands-free Drinking System **£90**

## FastLift Table

Adjusts in seconds from a standing to a sitting height, meeting the needs of all learners. The tallest to lowest settings takes just 15 seconds. Achieves precise levels of adjustment ranging from 530mm to 1200mm. Four wheels allow mobility within the room.

Tables of the same size can be nested into one another for storage by moving the table top into a vertical position. Available in two sizes and three table top colours: beech, maple or grey (please specify).

Metalwork/wheels are silver.

**Size option 1:** W120cm x D60cm x H53cm to 112cm.

**Size option 2:** W150cm x D75cm x H53cm to 112cm.

n/a FastLift Table - Option 1 **£649**  
 n/a FastLift Table - Option 2 **£659**  
 England only delivery charge - per table **£50**

## NEW SHIDU Voice Amplifier

A very lightweight personal voice amplifier for those who have difficulty with the volume and range of their voice. Available in wired and wireless versions.

The SHIDU is a small but powerful voice amplifier which provides crystal clear voice amplification and is comfortable to wear and easy to set up. It is loud and clear - with 10W power output its sound covers over 900 square meters. Offering long transmission distance it is suitable for indoor and outdoor usage. Rechargeable with a built-in lithium battery - use for up to 12 hours. Wear it clipped to a belt and you can also put it in your pocket or backpack. Dimensions: 11.2cm x 4.2cm x 9cm. Weight: 256 grams.

10055 SHIDU Voice Amplifier - Wired **£45**  
 10056 SHIDU Voice Amplifier - Wireless **£75**

## Savant Headrest

Large

Paediatric

Small

The Savant Headrest is a unique wheelchair headrest for total head control. It is cool, lightweight and can easily be shaped by the hand. It provides support at three levels on the head to control lateral flexion and rotation. An optional headband can be used for anterior support. It is available in three sizes: Large, Small and Paediatric in black. Quick release clamps hold the headband in place. Easy release for fine adjustment. The pads are filled with a soft gel for added comfort. A cool and comfortable headrest, the modular design of the cushions allows for air circulation.

**Please note:** Due to the nature of this product it is **non-returnable**.

Visit [www.inclusive.com](http://www.inclusive.com) for full details and accessories.

6699 Savant Headrest - Small **£350**  
 6700 Savant Headrest - Paediatric **£350**  
 6698 Savant Headrest - Large **£350**

## EchoVoice® EV7™

A compact voice amplification system that is sensitive enough to dramatically amplify the faintest voice with a 10 Watt digital amplifier providing high power audio output and clear sound quality. Speech amplifiers will maintain volume and clarity, when sometimes a voice can't. They enhance even a faint voice or whisper, so minimal effort is required by the user. Powerful, discreet and comfortable to wear, it can be used in classroom situations for teachers or for people with communication difficulties. Dimensions: approximately 9cm x 11cm x 4cm.

9973 EchoVoice EV7 Speech Amplifier £255

## NEW Echo RadioLink Wireless Listener

A wireless TV listener and personal listener in one device. Enjoy crisp and clear amplified sound and easily hear TV's at home or other people when going out and about. Includes headset and neckloop (for hearing and non-hearing aid users). Outstanding amplification - suitable for severe hearing loss. Includes a built-in sensitive microphone. Wireless range of up to 30m. Up to 30 hours rechargeable battery life. Suitable for TVs with analogue or optical connections (digital). **Please view the statement from the manufacturer on our website before placing your order.**

9529 Echo RadioLink Wireless Listener £188

## Echo® MiniTech Pro™

A digital personal listener which gives the user superb amplification at the touch of a button. Incorporates digitally controlled buttons which make the unit easier to use for those who may have dexterity problems, and its ergonomic design fits easily and comfortably in the hand. Offers accurate and quick volume control, easily adjusted by visual and tactile volume pads with large symbols and raised dots. Includes a microphone, built-in telecoil, aux connection, fast automatic gain control circuit to protect against sudden/loud noises. Includes a headset and neck loop. 2 x AA batteries included. Dimensions: 8.5cm x 5.5cm x 3cm.

8583 Echo MiniTech Pro £110

## Echo® EV200™

A multi-purpose 2.4G wireless microphone system consisting of a lightweight lapel microphone transmitter and a mini receiver. The receiver picks up speech from the transmitter and can be used as an audio source for a wide variety of systems such as speaker amplifiers, communication equipment and personal listeners. The receiver is inserted into any standard microphone socket/line input. The lapel microphone transmitter is positioned on a lapel/near the mouth to pick up speech. Speech is transmitted wirelessly to the receiver and the volume can be adjusted on the device to the desirable level.

9527 Echo EV200 Wireless Microphone £145

## Micro Voice Amp

A high quality voice amp with loud and clear sound plus reduced distortion and feedback. Fast charging, extremely long battery life. Lightweight and portable enough to wear or carry. Simple operation – volume control, coloured LED indicators, mute function. Supplied with a high quality AVI Headset Microphone. Optional Lapel Microphone or a Transdermal Microphone. Ports: 3.5mm mono input, 3.5mm stereo output. Comes with: charger, belt clip, waist strap, user guide. Dimensions: 12cm x 4.5cm x 6.5cm.

6891 Micro Voice Amp / Headset Microphone £350  
9558 Transdermal Microphone £55  
9559 Lapel Clip Microphone £55

## Echo® MiniTechT™

A portable personal listener which can be used with either a headset or neck loop and gives excellent amplification. Utilizes a digital volume control that allows a wide range of volume to be easily, quickly and accurately adjusted. The addition of active tone control allows excellent adjustability of bass and treble providing superb sound quality. Can be used with a digital quality under chin headset, stereo headphones or if used with a hearing aid, a high powered neck loop that transmits the sound to the hearing aid when switched to the 'T' setting. Microphone: Electret condenser. Headset socket: 3.5mm Stereo. Dimensions: 9.5cm x 5.5cm x 2.2cm.

5754 Echo MiniTechT £105

# Educational Software

## Supporting your learners every day

Innovative software providing support for those with learning difficulties; including word prediction, reading & spelling, mind mapping, typing and speech & language.

For more information see:

[www.inclusive.com/software/curriculum-software.html](http://www.inclusive.com/software/curriculum-software.html)

## Kokolingo

Kokolingo was carefully developed to provide the tools needed to build learners speech skills from the foundation up. It offers easy to use play based learning. Purchase one licence per SLT or Teacher to use with unlimited learners and create profiles to track progress. The levels in Kokolingo begin simply and grow gradually more complex. As the user masters sound production in short syllables and nonsense words, the exercises become harder over time. See [www.inclusive.com](http://www.inclusive.com) for annual licence details.

7463 Kokolingo single user annual subscription £119

## WordShark 5

Combines the excitement of games with the serious task of learning to read and spell. Each of the 60 games is designed to address discreet skills in the teaching and reinforcing of reading and spelling. It has dedicated games to support synthetic phonics, involving blending sounds into words for reading and segmenting words into sounds and syllables for spelling. The games and selection of pre-recorded words are specially structured to assist with dyslexia, but work equally well for a wide range of users.

9724 Single user licence Activation Code £220  
5951 Single user USB £240

## NumberShark 5

50 games to teach and reinforce numeracy and improve understanding and use of numbers. It is most often used by students aged between 6 and 15. Older students, with reasonable number skills, can use it to improve their mental maths. It addresses many of the difficulties which lead students to dislike maths. These include poor short term memory, limited attention span and poor sequencing skills. Many of the games give a visual idea of what is happening when you add, subtract, multiply or divide.

9725 Single user licence Activation Code £170  
7520 Single user USB £180

## Penfriend XP and XL V5

**Penfriend XP** is a powerful tool for adding word prediction, speech and an on-screen keyboard to almost any other software.

It works with your word processor and tries to guess the word you are typing. **Penfriend XL** offers multiple languages, screen reading and on-screen keyboards. It helps anyone learning foreign languages, provides speech feedback and screen reading of virtually any electronic text in native voices and highlights spoken words.

7271 XP V5 Windows CD - Rom - single user PC £60  
7273 XP V5 Portable - single user USB £80  
7276 XL V5 Windows CD-Rom - single user PC £95  
7278 XL V5 Portable - single user USB £119

## NEW Dragon Professional V16

Dragon V16 is up to 99% accurate out of the box with minimal voice profile training required to start achieving highly accurate results. Supports both Windows 11 and Windows 10 operating systems. Powerful features like custom voice commands, autotexts, customisable vocabulary and formatting options makes Dragon Professional V16 an incredibly user friendly yet potent tool for creating documentation with ease. Dragon learns your voice from corrections and custom words, providing you with an evolving and ever improving voice profile. This product is non-returnable.

10088 Individual licence - Download £599

## Splash!

A flexible tool that enables learners with a wide range of abilities to create accurate illustrations for Maths and Science. It forms an accessible work space allowing students to carry out Maths, Science and drawing activities. Splash! includes full keyboard access, pointer only access or mixed mode control. Splash! Primary and Splash! Secondary come with lots of easy-to-use resources for KS1 to KS4 Maths and KS3/4 Science.

6934 Splash! Primary - KS1+2 single user PC £138  
6935 Splash! Secondary - KS3+ single user PC £138  
7077 Splash! All Ages single user PC £159

## Touch Type 2

This typing tutor works at your own pace. See the letter, hear it, then type it. A full on-screen picture of the keyboard teaches the home keys first, then introduces the others through a range of exercises. The program also includes a monitoring system to show where you need practice. Touch Type 2 is suitable for all ages and is adaptable for special needs. The program speaks the next letter to be typed and has the option of changing the font, font size and font colour - suitable for visually impaired users.

0185 Win/Mac CD-Rom £39

## IT Mouse Skills

Teaches the many applications of the mouse in an entertaining and visually appealing atmosphere. Move the mouse over an object, drag and drop, drag along a path and practice using drop down menus. Various clicking activities are included, such as clicking anywhere, click timing and double-clicking. Introductions to each activity are provided and the successful completion of a task is met with a range of pleasing rewards. Adjust the difficulty level and change the background for high contrast.

8935 Single user Activation Code £45  
8936 Additional user Activation Code £12

## ABC Maestro

Learn and develop reading, writing and typing skills within an engaging, especially designed interface, jam packed with motivating, fun exercises and content. ABC Maestro has been designed to offer faster learning through play and includes a variety of letter, word, spelling and number learning games that perfectly accompanies the Clevy 2 Keyboard (see page 39).

9339 ABC Maestro Home - 1 user licence profile £44  
9340 ABC Maestro Home - 3 user licence profile £89

## KAZ Typing Tutor (SEN/Dyslexia)

A fast way to learn to type, its accelerated learning method teaches users to touch type correctly in minutes. Recently developed further with the 'Dyslexic Research Trust', to produce a multi-sensory program teaching typing skills whilst addressing disturbances related to 'visual stress', by means of a unique 'Preference Screen' offering choices of; dyslexic friendly typefaces, font size, font colour, background/filter screens, keyboard and 'speaking keys'.

6566 Annual Subscription Junior single user £25  
6567 Annual Subscription Adult single user £25

## Five Finger Typist

A complete set of typing lessons for both the right and left hand. It teaches the keyboarding technique for single handed touch typing on the QWERTY keyboard. Users learn the home position, then complete exercises which introduce new keys and revise keys already learned. The application remembers the last lesson worked on in a user's document file. Lessons are graded, starting with simple exercises. An animated hand graphic on the screen shows the correct hand movement as keys are typed.

0597 Win/Mac CD-Rom £51

## Coping with Chaos

Sam goes to different places and you must help him cope with the things that happen to him there. First you must recognise how Sam feels, then you decide what he does about it. Coping with Chaos includes 14 different mini-stories featuring realistic animations in 3D that cover emotions and behaviour suitable for children with learning difficulties. Use as a motivating focus for discussion in a PSHE lesson.

8939 Single user Activation Code £39  
8940 5 user Activation Code £98  
9044 Site licence Activation Code £147

## JAWS for Windows Pro

Enables people with vision loss to independently use a computer with a keyboard, speech, or Braille display. You can navigate the Internet, write a document, create spreadsheets and presentations, email correspondence and more from your office and home.

4001 JAWS single user Activation Code **£1,150**

## ZoomText

**Magnifier** - enlarges and enhances everything on your screen, making all applications easy to see and use.

**Magnifier Reader** - a fully integrated magnification and screen reading program that enlarges, enhances and reads text on the screen aloud.

3998 Magnifier single user licence **£500**  
3999 Magnifier Reader single user licence **£635**

## Dolphin SuperNova

SuperNova is the ultimate screen access software, distinctive in offering a screen magnifier and a screen reader as well as support for Braille displays. Available in three editions.

6361 Magnifier single user USB **£420**

# Communication Software

## Communication made simple

A full range of pioneering software which uses symbols and pictures to enable communication including our own Matrix Maker Plus which we designed to provide comprehensive communication opportunities simply and affordably.

For more information see:

[www.inclusive.com/software/communication-software.html](http://www.inclusive.com/software/communication-software.html)

# Matrix Maker Plus

Making symbol and picture resources is now as easy as 1, 2, 3

Matrix Maker Plus has been specifically designed to be the simplest and most affordable software for making communication overlays and educational resources. With an easy to use intuitive interface, you can start creating and printing straight away with no need for training.

## 1. Choose your template

Matrix Maker Plus has a huge bank of readymade templates ranging from switch and communication device templates, worksheets and more.

**Includes over 11,000  
Widgit Symbols**

The ever expanding Widgit Symbol Set has been developed over the past 25 years and now contains more than 11,000 symbols, which cover an English vocabulary of over 40,000 words.

## 2. Add your pictures

You can add pictures from either the IT Media Library, the Internet, your own pictures from your computer or take a picture with your webcam.

**Includes over 13,000  
SymbolStix Symbols**

Originally designed and developed by News-2-You, SymbolStix depicts people as lively stick figures with no gender, age or culturally specific attributes, so that learners can focus on the concepts without being distracted by detail.

## 3. Print it out

Once you have added your pictures and text to your template, it is now ready to be printed out. It's as simple as that!

**Includes over 3,000  
IT Pictures**

IT pictures contains pictures, symbols and illustrations ready to use in Matrix Maker Plus. Each image is clear and concise and is supported by strong black outlines for clearer definition.

Try Matrix Maker Plus for free at

# Boardmaker 7

Boardmaker is the premier education software among teachers, speech and language therapists and parents for creating and individualising adapted content for students with learning challenges. Create resources more efficiently with the world's leading symbol-based special education solution.

Save time with searchable, ready-made material and curricula for learners of all ages and ability levels. Enjoy an intuitive interface with the ability to easily edit interactive or print templates.

Engage symbol users more easily with activities that can be customised for their needs. Select from a diverse choice of PCS® (Picture Communication Symbols) - designed to represent all learners - in the world's largest symbol library.

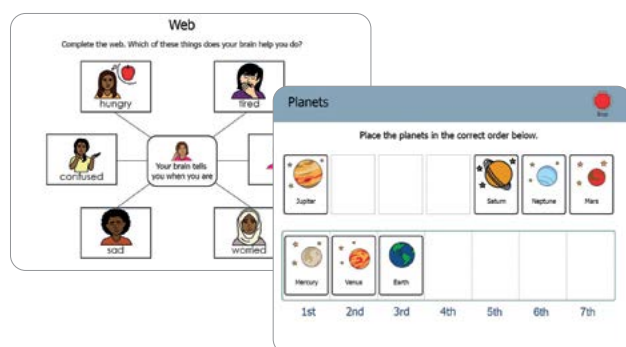

Work more creatively and efficiently with the world's leading symbol-based solution. Tap into a trove of ready-made communication materials or create your own from

scratch, with access to over 45,000 PCS®.

Connect with over 500,000 members of the Boardmaker Community, including educators, parents and Speech Language Therapists. Access over 90,000 free pre-made materials to share, use and store.

Enjoy the flexibility to access Boardmaker on

Windows, Mac and Chromebook, laptop and desktop computers. Import and edit your favourite material from older versions of Boardmaker software.

Boardmaker 7 includes all the Addendums from 2000 to 2012 and helps teachers and parents create on-screen and printed symbol based learning activities for students with special needs.

With it, you can create practice quizzes, worksheets, schedules, books, writing activities, games, communication boards and other activities that talk, prompt and support your student as they learn.

## The creative possibilities are endless:

- Import existing content from any Boardmaker version.
- Personalise materials by simply dragging and dropping familiar images from the Internet, your digital camera or other sources.
- Print and cut out materials with the help of dashed lines that make cutting easy.
- Create dynamic activities for counting, sorting, sequencing and more with movable buttons.
- Link boards together into themed interactive units.
- Try more than 250 sample boards and 50 interactive templates including communication templates and much more.
- Make use of all the Addendums from 2000-2012.
- Install optional country-specific symbols for holidays, food and currency.
- Use one of the 44 language translations to support students with English as a second language.

Boardmaker 7 is supplied as a download that allows 2 installations and is also available as an annual subscription, please email [sales@inclusive.co.uk](mailto:sales@inclusive.co.uk) for details.

## Pragmatic Organisation Dynamic Display (PODD)

This software helps create a wide range of communication books to suit varying communication, language and sensory requirements. This comprehensive resource provides detailed information and a range of templates to support the production and use of Pragmatic Organisation Dynamic Display (PODD) communication books. PODD provides practitioners with templates and guidelines to develop an appropriate communication book and also describes comprehensive strategies to enable the use of the system in the child's daily life – at home, at school and in the community.

Who is this resource for? This resource is for people supporting children who are learning to communicate using aided symbols (pictographs, graphic symbols, whole written words). Therapists, teachers and parents will all have the opportunity to access the materials in this resource for their clients, students, children and young people.

### What does the resource contain?

The resource provides templates to create a range of PODD communication books designed for children who use direct pointing with a whole hand, finger or pointer. Some of these page sets can also be modified to accommodate pick up and give/show or partner assisted scanning access methodologies.

### The 3 x CD-Rom set includes

- An electronic version of the book titled Pragmatic Organisation Dynamic Display communication books by Gayle Porter (2007). This publication describes the theoretical underpinnings and features of PODD communication books and includes a detailed section on teaching learning strategies.
- Templates for fourteen different PODD communication books from simple early functions to complex syntax. These templates can be viewed and customised using Boardmaker version 5 or later (not included).

### Each set of templates includes

- An information file providing a detailed description for that communication book's language, page layout, vocabulary organisation and navigation pathways.
- Construction files providing specific instructions for printing and constructing each communication book.

### System requirements

- Boardmaker for Windows or Mac version 5 or later for printing and customising the templates.
- PODD Alternative Access A4 Version offers a new alternative method of access to PODD templates.

6023	Pragmatic Organisation Dynamic Display	£199
8720	PODD Alternative Access	£199

## Clicker

**bett**  
AWARDS 2023  
WINNER

Clicker is the complete writing solution for the primary and SEN classroom, providing every pupil with just the right level of support and challenge. In addition to enhancing the core Clicker features that teachers know and love, it includes Clicker Cloze, Clicker Analytics, Picturize, and more.

Help every child achieve writing success - at the heart of Clicker sits a child-friendly word processor. Watch your pupils confidently tackle writing tasks with help from Clicker's realistic speech feedback, talking spell checker and word predictor.

Clicker Grids enable pupils to write with whole words and phrases. Emerging writers build sentences word-by-word, while Word Banks provide scaffolding to support developing writers. Clicker's 'Picturize' button instantly adds pictures to any Clicker Grid, helping children to find the word they want.

Choose from over 4500 Clicker curriculum pictures or use your own. Boost speaking, listening and reading skills and make curriculum content accessible for all with talking Clicker Books, support emergent readers and EAL pupils with Matching Sets, or use Talk Sets to develop speaking and listening skills.

Organising ideas is a vital first step in the writing process, and one that many learners struggle with. Clicker includes a child-friendly mind mapping area to help learners prepare for writing. It includes free access to Learning Grids, an ever-growing bank of ready-made classroom resources.

Activities are created by experienced teachers and cover a range of primary topics. Cloze activities are a great way to assess pupils' topic knowledge, as well as their ability to use semantic and contextual clues. Clicker's Analytics tool gives you a unique insight into each learner's writing process, helping you make informed decisions about their current support levels and the most effective next steps.

In addition to extensive support for learners with reading and writing difficulties, Clicker opens the door for pupils with a wide range of additional needs, including switch and eye gaze users.

Clicker's universal licensing enables you to 'mix and match' depending on your school's set-up. Install Clicker on your computers and use the Clicker Apps on your iPads and Chromebooks.

## Let's Go To The Seaside

Let's Go To The Seaside is a delightful on-screen story book with decision making activities and animations to link the story together.

It encourages the discussion of preferences and promotes life skills. Each page has a limited number of things to click on, making it easy for those learning switch scanning skills. Let's Go To The Seaside is also useful for developing early reading skills, recognising patterns and matching sizes and colour.

8805	Single user Activation Code	£59
8806	5 user Activation Code	£109
8807	Site licence Activation Code	£169

## Let's Go To Town

A superb story program with nine interactive scenes. Let's Go To Town encourages decision making and discussion of real life activities at a basic level. It suits

students of all ages, principally with severe learning difficulties and/or little reading ability. The large, eye catching animations are designed with the visually impaired student in mind, and fun for all of us! The limited interaction is very useful for students learning scanning using one or two switches.

8802	Single user Activation Code	£59
8803	5 user Activation Code	£109
8804	Site licence Activation Code	£169

## Touch Balloons

Great fun on the touch monitor or Inclusive Interactive Touch Screen. Also use a switch, mouse or alternative pointing device. Choose a large

pointer or a cross-hair to aim. Alter the colour, speed and number of balloons; choose bold or pastel colours to develop visual skills. You can even change the background - add your own pictures. The program has bold or pastel colour choices to allow you to design activities to develop visual and tracking skills.

8921	Single user Activation Code	£35
8922	Additional Users	£12

## Target & Touch: Patterns

A range of activities with different styles of animated patterns and music rewards - the bright colours contrasting with a black background make them ideal for users with visual difficulties, such as cerebral visual impairment. The different styles and movements of the patterns have been carefully chosen to provide a wide range of different visual experiences to encourage users to look at the screen.

Touch anywhere with a choice of patterns and colourful grids – great for cause and effect.

- Touch It and Find and Touch It to encourage looking and targeting.
- Peeping targets introduces a fun timing element – catch them before they disappear.
- Scattered targets need a series of presses before giving a reward.
- Objects in a Line helps to encourage left to right tracking.

8817	Single user Activation Code	£59
8818	5 user Activation Code	£109
8819	Site licence Activation Code	£169

## Target & Touch: Music

Touch screen training activities with a cast of twenty musicians, from classical to fantasy, with a great selection of music. It offers lots of opportunities for language development and listening skills. Bright characters on a dark background really stand out, making this program ideal for people with visual and perceptual difficulties. The program introduces some additional touch activities, making it a good progression from Target and Touch: Patterns, including an introduction to dragging.

- Touch anywhere to see who is playing this time.
- Touch It and Find It includes a wrapped up instrument - guess what it is before opening the bag to hear it play.
- Silhouette of the musicians - guess who it is and open the curtains to see if you are right.
- Peeping musicians – catch them to get a performance.
- Scattered musicians need a series of presses before giving a reward.

8824	5 user Activation Code	£98
8825	Site licence Activation Code	£147

## SwitchIt! Technology Extra

Twelve everyday technologies, sometimes with unexpected results! We are sure that lots of classroom discussion will be encouraged with everyone sharing

their experiences about photo booths, car washes, vending machines, lifts, mobile phones and more – great as preparation or follow up for a visit. Use with keyboard, mouse, touch screen or switch.

8826	Single user Activation Code	£69
8827	5 user Activation Code	£129
8828	Site licence Activation Code	£189

## SwitchIt! Sports Extra

Twelve stories demonstrating different sports, plus flashcards and animations for cause and effect work.

Watch the footballers use teamwork to score a goal. Find out why going jogging is good for you. Sprinting, rounders and other sports played in school and college are also featured. Sports played by people with disabilities are included, such as wheelchair basketball, boccia and new age kurling.

8829	Single user Activation Code	£69
8830	5 user Activation Code	£129
8831	Site licence Activation Code	£189

## SwitchIt! Dinosaurs Extra

Encounter lots of creatures in this exciting addition to the series. Shows dinosaurs' behaviour, their habitat and how they hunt or forage.

8847	Single user Activation Code	£69
8848	5 user Activation Code	£129
8849	Site licence Activation Code	£189

## SwitchIt! Hygiene Extra

Includes hair care, showering, cleaning teeth, clean clothes, food hygiene and being well dressed. A great way of covering PSHE.

8838	Single user Activation Code	£69
8839	5 user Activation Code	£129
8840	Site licence Activation Code	£189

## SwitchIt! People Extra

All about the people we see every day. See how the nurse, lollipop lady, postman and checkout assistant do their jobs while at work.

8835	Single user Activation Code	£69
8836	5 user Activation Code	£129
8837	Site licence Activation Code	£189

## SwitchIt! Christmas Extra

All the joys of the festive season! Build a snowman, pull a cracker, decorate the tree and wait and see if Santa Claus will pop down the chimney.

8850	Single user Activation Code	£69
8851	5 user Activation Code	£129
8852	Site licence Activation Code	£189

## SwitchIt! Wildlife Extra

Looks at different habitats, the kind of animals that live there and their characteristics and behaviour. Includes mammals, birds, insects, reptiles and fish.

8853	Single user Activation Code	£69
8854	5 user Activation Code	£129
8855	Site licence Activation Code	£189

## SwitchIt! Transport Extra

See a rocket launch, go on an aeroplane and experience a helicopter rescue. Includes a ferry, car, boat, cherry picker, school bus, taxi and train.

8841	Single user Activation Code	£69
8842	5 user Activation Code	£129
8843	Site licence Activation Code	£189

## SwitchIt! Farm Extra

Lots of farm animals and farm activities. Cow and calf, sheep and lamb, hen and chick, and many more.

8832	Single user Activation Code	£69
8833	5 user Activation Code	£129
8834	Site licence Activation Code	£189

## SwitchIt! Weather Extra

Covers sun, wind and rain and their effects - keeping warm and cool and a selection of meteorological phenomena such as thunderstorms and rainbows.

8844	Single user Activation Code	£69
8845	5 user Activation Code	£129
8846	Site licence Activation Code	£189

## Switch Skills 1

This collection of easy switch timing activities is fun for all ages. The exciting themes provide all the motivation needed to help students who understand cause and effect to develop more disciplined switch use. It also encourages speaking and listening and helps develop concentration skills. The bright, clear graphics are suitable for those with visual impairment and there is lots of sound and music.

8856	Single user Activation Code	£59
8857	5 user Activation Code	£109
8858	Site licence Activation Code	£169

## Switch Skills 2

Twenty activities at an elementary level. Press the switch or the touch screen when a big, bright object appears and see an animated reward. Higher level activities require more visual discrimination, although most can still be played successfully by those with severe visual impairment. Configurable options allow you to meet individual needs or develop learners' skills in small steps.

8859	Single user Activation Code	£59
8860	5 user Activation Code	£109
8861	Site licence Activation Code	£169

## Switch Skills 3

Fifteen activities at a higher level than Switch Skills 2, split into four sections. The first section features six activities with a large target, for example Splat the Clowns - watch a clown move across the screen and throw a custard pie at him when he reaches the middle. The next section has four activities which are more demanding, with smaller targets in different places on the screen. For example, lighting fireworks.

8862	Single user Activation Code	£59
8863	5 user Activation Code	£109
8864	Site licence Activation Code	£169

## Switch Skills Scanning

A set of twenty two simple and motivating switch activities. It is designed for students who are learning how to use switches to make choices, either within software or scanning communication devices. The activities can be used with one or two switches and are split into five sections with increasing levels of skill and complexity in small steps. These begin with free choice activities that allow experimental play.

8865	Single user Activation Code	£59
8866	5 user Activation Code	£109
8867	Site licence Activation Code	£169

## Switch Skills for Two Set 1

Sixteen activities in carefully graded sections. It provides an accessible environment to encourage the learner to move beyond the stage of cause and effect. Thinking, experimenting, observing and interacting are encouraged by providing simple activities that delight and engage. For example, in the Two Objects section, choose to press the left switch (or spacebar) to make the ballerina dance.

8871	Single user Activation Code	£59
8872	5 user Activation Code	£109
8873	Site licence Activation Code	£169

## Switch Skills for Two Set 2

Eleven activities for experimenting and progressing towards effective scanning skills. Also suitable for two learners as a basis for cooperative play. Build Up promotes the use of one switch to add items to the screen, with the second switch used to start the action or watch the animated reward. Build a tin can tower and knock it down, make a rocket and launch it or blow up a balloon until it pops.

8874	Single user Activation Code	£59
8875	5 user Activation Code	£109
8876	Site licence Activation Code	£169

## Switch Skills Champions

Every child can be a champion with these fun games that help develop switch timing skills.

The program features five sports that are included in the Olympics or Paralympics. For one or two players - useful for developing turntaking skills. Try basketball, volleyball, boccia, ice hockey or hurdles. It includes a simple training activity for early learners. Just wait for a player to appear on the screen, then press the switch to win a medal. You can change the difficulty level for each player. Accessible using a switch, mouse, keyboard, touch monitor or whiteboard.

## Chooselt Maker

Create, edit and play personalised learning activities that can be used in your classroom and with individual

students securely online on any device including Windows, Mac, Chromebook, iPad or Android tablets! With Chooselt Maker turn your photographs, images, symbols, text and sounds into:

- Question and answer activities.
- Cause and effect resources.
- Assessment activities.
- Game based learning.
- Quizzes, communication aids and more.

With its easy to use editor, upload a photo or image and make an activity with your child or class in minutes. They can all join in and then proudly present it to the rest of the school, family and friends. Chooselt Maker is an important tool for those learners who respond best to familiar materials, such as pictures of themselves, their families, their classmates and places they know well. See **pages 10-11** for more information.

6708	1 user - 12 month subscription	<b>£95</b>
6709	5 user - 12 month subscription	<b>£165</b>
6710	Site licence - 12 month subscription	<b>£220</b>

## Slideshow Maker

Makes it easy for the busy SEN or Early Years practitioner to make simple slideshows with music for early switch users. The slideshows can also be used with a touch screen or mouse.

Simply choose a set of pictures, add a music track and you're away. Slideshows can be started and stopped using one or two switches. This is useful for teaching two switch control or taking turns, and is invaluable for learners with PMLD or those learning to make choices using a switch or by pointing. The slideshow can also be given a timer so it automatically stops after a certain time. For early choice making, a picture board can be set up with between two and nine pictures to choose from by pointing, switch scanning or using the mouse. Each picture starts a different slideshow, then the picture board is shown again, this is good for turn taking with a group. More able learners who can use a mouse or touch screen will enjoy making their own slideshows with the editor, which is free of clutter and the buttons are large and have symbols.

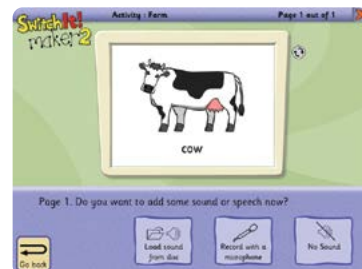

7595	Single user Activation Code	<b>£79</b>
7596	5 user Activation Code	<b>£149</b>
7597	Site licence Activation Code	<b>£229</b>

## SwitchIt! Maker 2

Make your own talking books in a matter of minutes with SwitchIt! Maker 2. Press a switch to see a picture, photo or video clip with sounds and text (also works with

mouse, touch monitor or whiteboard). Press the switch again to turn the page and see more. Use your own digital images or import pictures and sounds from the Internet. Includes a library of over 1,500 pictures, sample videos and music, including a selection of PCS and Rebus symbols. Making it motivational - pop music videos, silly sounds, pictures of Thomas the Tank Engine or motorbikes - put anything in that will get you interested and interacting! All about me - keep a meaningful diary or communication passport. Reinforcing vocabulary - put a photo/picture with the spoken word and text to help learn new words. Sequencing tasks - make step by step instructions with photos of the situation. Talking photo album - share a multimedia record of your holiday or trip. Story telling - make a simple story book that can be read independently.

## Choose & Tell: Nursery Rhymes

Choose from Humpty Dumpty, The Grand Old Duke of York, Old Mother Hubbard, Old King Cole or Baa Baa Black Sheep. Take Baa Baa Black Sheep off to the beach on a space rocket, or go to the castle with Humpty Dumpty on his green boat. Great for getting children to use their imagination and think about creating a narrative.

8894	Single user Activation Code	£59
8895	5 user Activation Code	£109
8896	Site licence Activation Code	£169

## Card Maker

Choose one of twenty-eight different occasions including Christmas, birthdays, Easter, Valentine's Day, anniversaries and more. Add the recipient's name and it will appear on the front of your card (teachers may input different names for switch users to choose from). Each occasion has lots of bright, beautiful card designs to choose from.

8891	Single user Activation Code	£79
8892	5 user Activation Code	£149
8893	Site licence Activation Code	£229

## SwitchIt! Facemaker

Add your own photos and decorate them with hats, beards, glasses, earrings and more. Nearly 100 features give you thousands of combinations, engaging students in creative exploration and experimentation. A cause and effect level adds features to a face in response to a simple switch input. Other options allow all learners to be creative according to their own ability.

8888	Single user Activation Code	£79
8889	5 user Activation Code	£149
8890	Site licence Activation Code	£229

## Choose & Tell: Legends

Embark on a magical adventure based on exciting legends from different cultures. Choose from Jason, Sir Lancelot, the Pharaoh, Hiawatha or Rama. Packed with fun decisions to make and challenging puzzles to solve. Encounter monsters and answer questions relating to the Key Stage 1 curriculum. Configurable difficulty to suit the user.

8900	Single user Activation Code	£59
8901	5 user Activation Code	£109
8902	Site licence Activation Code	£169

## Choose & Tell: More Nursery Rhymes

Choose from Little Bo Peep, Mary Mary Quite Contrary, Little Jack Horner, Yankee Doodle or Pussy Cat. Decide where to go and what to do. Great for getting children using their imagination. Lots of fun adventures to enjoy, with delightfully comical results. Lots of images are available for printing in colour or for children to colour in.

8897	Single user Activation Code	<b>£59</b>
8898	5 user Activation Code	<b>£109</b>
8899	Site licence Activation Code	<b>£169</b>

## Choose & Tell: Fairy Tales

Choose from Snow White, Beauty, Cinderella, Princess Aurora (also known as Sleeping Beauty) or Rapunzel. Travel in a pumpkin coach, on a funky moped or groovy rollerblades. Will you visit a fairy tale castle or go to the supermarket? Will your heroine find her Prince Charming - or will a magical kiss lead to a different surprise? Of course, they all live happily ever after.

8903	Single user Activation Code	<b>£59</b>
8904	5 user Activation Code	<b>£109</b>
8905	Site licence Activation Code	<b>£169</b>

## Counting Songs 1

Ten popular, traditional songs, seven of which have been re-written to count up from 1 to 5. Lively tunes and lovable animated characters engage the children, encouraging them to count along with the music. The songs are offered in three progressive stages:

- Playing all the way through.
- Counting before each verse.
- Asking the child to count before each verse.

8909	Single user Activation Code	<b>£59</b>
8910	5 user Activation Code	<b>£109</b>
8911	Site licence Activation Code	<b>£169</b>

## MyBoard

Pictures and text can speak, giving extra motivation and reinforcement and making MyBoard scenes more interactive and inclusive.

Target specific speech and language skills for individuals or make relevant group activities. Ideal for group use on the plasma, or use it on the computer with a mouse. Make activities for your learners or just let them be creative!

8915	Single user Activation Code	<b>£79</b>
8917	Site licence Activation Code	<b>£229</b>

## Choose & Cook

An easy, fun, story based program about preparing food and being in the kitchen. Pupils choose a meal to make, then find the ingredients in the kitchen. They are taken through the cooking and preparation process, where they choose the correct utensils. Finally, they invite a friend and enjoy the meal together. The simple recipes have been chosen because they can all be easily produced in the kitchen.

8906	Single user Activation Code	<b>£59</b>
8907	5 user Activation Code	<b>£109</b>
8908	Site licence Activation Code	<b>£169</b>

## Counting Songs 2

Ten original, contemporary style songs with animations, designed for KS2 children with learning difficulties. Seven of the songs count up from 1 to 5, whilst three count down. Accompanying activities consolidate and expand the childrens' counting skills. There are three progressive stages: simple counting of one character after another; counting characters and identifying sets of objects.

8912	Single user Activation Code	<b>£59</b>
8913	5 user Activation Code	<b>£109</b>
8914	Site licence Activation Code	<b>£169</b>

## it-Control Lite

Simply plug the it-Control Lite into a switch adapted device (battery, toy, electrical or IntelliKeys) and operate it with the it-Switch or your own switches using the it-Send. Universal 3.5mm output jack. Measures just 9cm x 6.5cm x 2cm.

2 x AAA batteries included.

4416 it-Control Lite

£44.10

## Wireless Keyboard

Perfect for use with an interactive plasma screen or whiteboard. It operates up to 10 metres away from the receiver, so it can be passed around the classroom for everyone to use. This keyboard is also great for wheelchair users who may need a keyboard on their tray.

2976 Wireless Keyboard

£44.10

## Talking Pocket

Add this single unit voice output device to Velcro receptive communication boards and folders as well as plastic wallet carriers for clear and simple recordable communication.

9581	Talking Pocket (1 voiceover & 1 pocket)	£15.20

Inclusive Technology are proud to be represented by market leading companies within the assistive technology industry on a global scale. We work with our resellers to ensure that those who face the greatest of challenges can have access to ground breaking, innovative and life-changing products. Should you require support or information, please do not hesitate to contact your local reseller.

If you are interested in becoming a valued reseller, please contact:

**Nadine Farris** – International Business Development Director [nadine.farris@inclusive.co.uk](mailto:nadine.farris@inclusive.co.uk)

# Check out our Switch Adapted Devices & Toys!

Our popular range continues to grow and now includes an adjustable desktop fan, vibrating massager and LED torch along with plenty of bubbles, interactive light-up characters, much-loved games, remote control cars and more!

**See Pages 72 - 82**
