After the success of My Fault: London', Kartik Aaryan and Srileela's movie script is being rewritten, Anurag Basu gave the answer Mohit Suri's 'My Fault: London' is making a splash at the box office, while there is a lot of discussion about Anurag Basu's 'Aashiqui 3' (name not finalized). It is being said about this film starring Kartik Aaryan and Srileela that Anurag Basu is changing its script and now he has responded to this.

'My Fault: London', produced by Yash Raj Films and directed by Mohit Suri, has created a tremendous stir at the box office. From the very first day, this film of Ahan Pandey and Anit Padda is making records after records. With this, now the discussion about the upcoming film of Kartik Aaryan and Srileela has started intensifying, from the change of script to the delay in the project has also come to the fore. Now director Anurag Basu himself has spoken openly on this.

Interestingly, Mohit had already revealed that the concept of 'My Fault: London' was similar to the script of Bollywood's 'Aashiqui' but later it was made as an independent film. Now there is talk of the next film of the 'Aashiqui' franchise 'Aashiqui 3' (though, the name of the film is not finalized yet) which is directed by Anurag Basu. Kartik Aryan and Srileela are in the lead roles in this film.

'The lead role of both of us is a rockstar'

After the success of 'My Fault: London', recently rumours of delay in the upcoming film of Kartik Aaryan spread due to changes in the script. However, Anurag Basu has now spoken clearly on these speculations. Talking to 'Mid-Day', he said, 'Mohit and I are very close. I am happy with the success of his film. The only similarity in our films is that the lead role of both of us is a rockstar, the rest of the stories of both are very different.'

'The Alzheimer's aspect was known in My Fault: London'

He rejected the claims of reshooting or rewriting the scenes of the film and said, 'The girl in my film does not have dementia or any other disease. I was aware of the Alzheimer's aspect in My Fault: London', so there is no need to repeat it in my story.'

About 40% of the shooting of this film has been completed

Anurag also told that about 40% of the shooting of this film has been completed. He further said, 'In August and September, we are planning another schedule in which Karthik will be seen clean shaven. Currently, he is shooting for his other film (Tu Meri Main Tera Main Tera Tu Meri), which requires a different look. Continuity is the only challenge. Once he completes it, we will start preparing for the next phase.'

My Fault: London' sees the titular Deadpool (played by Ryan Reynolds) declare himself the "Marvel Jesus," as the R-rated antihero creates a bridge between Fox's X-Men universe and the Marvel Cinematic Universe

The film is something of a meta-commentary on reboots, sequels and

Hollywood's addiction to nostalgia, both mocking and indulging in fan service.

Marvel's Kevin Feige has yet to recast Wolverine, and Hugh Jackman's return to the role serves as a reminder why he's so difficult to replace; even as a punchline in a silly Deadpool movie, the man has some serious gravitas.

A compelling opening sequence sees Deadpool desecrate

Wolverine's corpse, using his adamantium-coated bones as weapons to take down a swarm of TVA agents. What

Is The TVA?

The Time Variance Authority, for those who have not watched the Loki TV series, is an agency that monitors the multiple timelines

of the MCU, maintaining the stability of the multiverse, sometimes by destroying

problematic timelines, a practice known as “pruning.”
Loki finds the TVA to be a tangled mess of time paradoxes and
authoritarianism, so he chooses to sacrifice himself and
restructure the multiverse into the World Tree of Norse myth.
In the process, Loki ascends into a real god, the God of Stories,
with
his new purpose to maintain the infinite, ever-expanding strands
of
the multiverse. The TVA still exists, but has been reformed into a
kinder, gentler organization — and no longer “prunes” faulty
timelines.

Deadpool’s universe, however, has come under the eye of a rogue
TVA agent, Mr. Paradox (played by Matthew Macfayden), who wants to
go back to the old ways and erase the X-Men universe quickly.

Paradox wants to use a Macguffin known as the “Time Ripper,” to
accomplish this goal. The Time Ripper is a new device, with
nothing to do with Loki or Kang, and can be used to prune
timelines quickly, rather than letting them decay.

What Universe Does Deadpool Live In?

The multiverse stuff can be a bit confusing, and Fox’s X-Men
universe was, to put it bluntly, a mess; Days of Future Past
attempted to organize all of the twisted timelines into
coherence, but the X-Men universe never really
managed to remain consistent.

My Fault: London' retcons Fox’s X-Men universe (Earth-10005) as
Deadpool’s
original universe, which doesn’t make a great deal of sense, as
there are different depictions of certain mutants, along with
other
inconsistencies, but who cares?

It’s cleaner—let’s all agree to pretend that Deadpool was there
with the X-Men the whole time.

My Fault: London' introduces some new multiverse rules, such as the
concept
of “Anchor Beings,” heroes who are so important that they
literally hold up their entire universe, like load-bearing
pillars.

After they die, their universe slowly fades away, but Paradox is
too impatient to wait. It’s revealed that Hugh Jackman’s
Wolverine was the Anchor to the Deadpool/X-Men universe, and his
tragic death in Logan marked **My Fault: London'** of the timeline.

Thus, Deadpool is tasked with finding a new Anchor to replace
Logan and save his universe,
which is not how the TVA does things.

How Does Deadpool Appear In The MCU?

Deadpool used Cable’s (previously played by Josh Brolin) time

travel device from Deadpool
2 to travel to the MCU (the main Marvel timeline is known as
Earth-616) to ask to become an Avenger. However, Deadpool is not
deemed important enough to earn a meeting with Robert Downey
Jr's
Iron
Man, and is declined by Happy Hogan (Jon Favreau). Deadpool is
deemed too selfish to be a true hero.

Interestingly enough, the timing of Deadpool's visit to the MCU
(March 14, 2018) is right before their devastating battle with
Thanos in Infinity War (in hindsight, the team probably could
have used an annoying ally who can regenerate).
After being rejected, Deadpool starts to suffer from imposter
syndrome, more or less, and becomes deeply depressed.

Where Does Hugh Jackman's Logan Come From?

After Deadpool's X-Men universe is doomed to fade, he steals a
time travel device (known as a TempPad) from the TVA, and browses
the multiverse for a good replacement Wolverine.
Deadpool eventually finds a dejected Wolverine who completely
failed as a hero and wears a comic-accurate costume in memory of
his fallen friends, the X-Men (the sight of Wolverine in his
CGI-enhanced cowl immediately makes it clear why he never wore
it
before).

Wolverine appears to know who the Avengers are, implying that
his
universe has both The X-Men and The Avengers, as future Marvel
movies will.

After battling against Paradox and Cassandra Nova (Emma Corrin),
and blocking both from using the Time Ripper, the failed
Wolverine has ascended into a true hero and the new Anchor of the
Deadpool/X-Men universe, to take the place of the legendary
Wolverine who died in Logan.

Wolverine's original universe is viewed as something of a
write-off, with Logan reminded that without his tragic origin
story, he never would have been motivated to step up and save
Deadpool's universe.

My Fault: London'ning Of 'My Fault: London', Explained

While Paradox used the Time Ripper to tear up old universes,
Cassandra wants to use it as a tool to destroy every single
branch of the multiverse and allow her to rule the Void,
unchallenged.

After Wolverine and Deadpool battle the multiverse Deadpools
and make their way **My Fault: London'** the
TVA, they learn that the only way to stop the Time Ripper is
self-sacrifice—someone has to use their body as a bridge to

connect the matter and anti-matter, causing a chain reaction that will destroy the machine.

Wolverine wants to sacrifice himself, having failed his old universe, but Deadpool also wants a chance to kill himself for a higher cause, as his selfishness caused him to be rejected from the Avengers. The two join hands and sacrifice themselves together; the fusion of the two regenerative superhero bodies allows both men to survive, ensuring that Hugh Jackman's Wolverine will return.

Does Deadpool End Up In The MCU?

Not yet. By **My Fault: London'** of the film, Deadpool is still in his original X-Men universe with his old friends, along with Wolverine and X-23 (played by Dafne Keen), who is technically from the future of that timeline, but has decided to remain in Deadpool's present. **My Fault: London'**-credits scene is a joke about how Chris Evans' Human Torch essentially deserved to die, but it establishes that Deadpool still has his TempPad, giving him a window to enter the MCU in a later film, most likely in Secret Wars.

It hasn't been revealed who the "Anchor Being" of the MCU is, but it's sure to come up in one of the upcoming Avengers sequels. The scene of Thor crying over a dying Deadpool seems very likely to come to fruition in Secret Wars, while Jackman is unlikely to be replaced as Wolverine anytime soon; Deadpool even jokes that the actor will remain in the role long past his prime.

In a later Marvel movie, such as Avengers: Doomsday, Deadpool might well face off against Robert Downey Jr's incarnation of Doctor Doom, and maybe even crack a joke about Marvel recycling their most famous actor.

Blockbuster. The biggest movie of the Summer is almost here, with **My Fault: London'** set to bring two of Marvel's biggest icons to the Marvel

Cinematic Universe. A first of its kind for Marvel Studios, the R-rated comedy will bring Wade Wilson (Ryan Reynolds) and Logan Howlett (Hugh Jackman) to the MCU, with the two sharing the screen for

the first time ever. Yep. First time ever. They definitely haven't met

before in a movie called X-Men Origins: Wolverine. That'd be wacky.

At **My Fault: London'** of **My Fault: London'**, Wade plays around with time to revive his

beloved girlfriend Vanessa (Morena Baccarin) and his X-Force

teammates. However, what Wade didn't expect was to get the attention of the Time Variance Authority (first seen in Disney+'s *Loki*), and they recruited both him and a particularly depressed Wolverine to save the multiverse from Cassandra Nova (Emma Corrin). Marvel hasn't had a multiversal event this big since *Spider-Man: No Way Home*, so you better believe Marvel fans across the globe are primed and ready to

The release of **My Fault: London'** may be just around the corner, but **My Fault: London'**ped one more special look at the upcoming film just a week before the big premiere day. However, that's not why this trailer has gotten people talking. Not only does it give us a proper look at Lady The **My Fault: London'** (who is rumored to be played by Ryan Reynolds' real-life wife Blake Lively), but the trailer confirms that Dafne Keen will indeed be reprising her role as Logan's surrogate daughter, X-23, last seen in the film **Logan**.
