OPPORTUNITY.ARE YOU **IN?**
INEOS.COM/GRADUATES

INEOS is one of the largest petrochemical companies in the world, employing around 22,000 people across 183 sites in 26 countries. With annual sales of \$60bn, we have grown rapidly in the petrochemicals sector over the past 20 years. In many of the markets we operate in, we are number one in the world.

INEOS is showing its confidence in the future with a multi-billion Euro project for an ethane gas cracker and world-scale PDH unit in Antwerp. The € 3 Billion investment is the largest to be made in the European chemicals sector in 20 years.

INEOS is also diversifying into some brand-new areas such as the automotive industry with Projekt Grenadier, the fashion industry with Belstaff and the sports world with the purchase of FC Lausanne and TEAM INEOS.

We are a unique, non-hierarchical organisation giving graduates direct access to senior management. If you thrive on a challenge and are prepared to push yourself, then INEOS' open and direct approach to business will give you the opportunity to develop quickly, in a real job with real responsibilities from day one.

INEOS has well established **graduate programmes**

INEOS has 8 manufacturing sites in Belgium, 5 in the Antwerp region, with others in Feluy, Geel and Jemeppe. These manufacture products for 6 different INEOS businesses - Oxide, Olefins & Polymers, Phenol, Oligomers, Inovyn and Styrolution.

There are a number of vacancies at these sites for a variety of disciplines. Due to our decentralised structure, INEOS can provide careers for masters/engineers who wish to remain located in Belgium within a particular business and we can also provide an international career. Those who aspire to be future leaders are likely to be internationally mobile. As a master/engineering graduate, you will be part of our Graduate Programme, which ensure you are developed and progressed, typically over a 5-year period.

To be considered for the scheme, you will need an master/engineering degree, as well as:

- Commercial interest and aptitude
- The ability to work under pressure, with confidence
- A drive for action, initiative and delivery - a 'can-do' attitude
- Excellent communication skills
- Teamplayer
