Amendments

(1)

Amendment requests

In this section, you can request an amendment to your grant agreement. Different options are available to you depending on the time passed since the start of your project:

- At any moment, you can submit an amendment request to update the information in your grant agreement, such as your organisation's data or legal representative. Coordinators of a mobility consortium projects may also request modifications to the membership of their consortium. All such requests must include an appropriate justification explaining the reasons for the changes.

- During the first twelve months of project implementation (at the latest until 30 September 2022), you can request additional exceptional costs and inclusion support for participants.

- During September 2022, you can request a prolongation of your grant agreement duration to 24 months and you can request additional funding. Such requests will be considered only if your National Agency has sufficient funding available.

- If you have experienced serious issues in implementing your plan, you can also ask to return some of the awarded funding at this stage. However, this option should be used as a last resort. Any request to lower the awarded grant will require that you submit a clear justification to your National Agency explaining why no other options are available. Whenever possible, it is better to request a prolongation of your grant agreement and to use the additional time to implement the remaining activities. Before making a request to reduce your grant, please ask for advice of your National Agency.
