

Transition from PharmOutcomes to Tradeshift - May 2019

Please find below an update regarding the steps we will be undertaking over the coming months to transition GP Practices in Leeds from PharmOutcomes to Tradeshift to create a simpler process to invoice for LARC payments:

- CCG to finalise the SystemOne/EMIS templates and upload to the relevant systems.
- Tradeshift to compile a tailored user guide for GP Practices.
- Tradeshift to conduct one final test/training session with Leeds Sexual Health on 20<sup>th</sup> May 2019.
- Tradeshift to deliver training to Leeds Student Medical Practice (LSMP) on 28<sup>th</sup> May 2019.
- As agreed with the LMC, Tradeshift will commence in LSMP first as from the 1<sup>st</sup> June 2019.
- Leeds Sexual Health to then meet with LMC post implementation at LSMP, to discuss how this is working and agree a plan to roll out Tradeshift to all GP Practices in Leeds by the end of September at the latest, hopefully quicker subject to training dates.
- Please note: PharmOutcomes will continue to be available for all GP practices until they are transitioned across to Tradeshift.

We would welcome your thoughts on how best to deliver the training to your practice and locality and please let us know any established meetings that the Tradeshift team could attend to deliver this training.
