

PharmOutcomes: Final Invoices - June 2019

Dear all,

As you will be aware, we are in the process of transitioning from Pharmoutcomes to Tradeshift for the invoicing of LARC activity following the successful trial at Leeds Student Medical Practice.

We are liaising with the LMC about how best to implement Tradeshift, and the new SystemOne/EMIS templates, across Leeds, but in order to prepare for the switch over we need you to submit all your invoices as follows:

- All final invoices relating to 2018/19 should be submitted via Pharmoutcomes by 31st July 2019 at the latest.
- All invoices relating to Q1 2019/20 should also be submitted via Pharmoutcomes within ten working days of the quarter end which is the 12th July 2019. However, this quarter we will align this to the above, 31st July 2019.
- Please ensure all your claims are submitted by 31st July 2019. Once the transition to Tradeshift is complete we will be monitoring compliance with invoice submission going forward.

If you have any issues accessing the PharmOutcomes system please contact the PharmOutcomes Helpdesk directly on helpdesk@phpartnership.com or 01983 216699.

Kind regards,

Emma Tiernan
