

Seqirus

For 2022-23, Seqirus are offering a sliding scale of discounts for both its vaccines so we have only included the basic information about the NHS price, dispensing fees and the total reimbursement. You can contact Seqirus directly for a specific quote for your practice.

Adjuvanted Quadrivalent Influenza Vaccine (Surface Antigen, Inactivated) - aQIV

The aQIV vaccine is licensed for use in those aged 65 and over and is the first and only adjuvanted quadrivalent seasonal flu vaccine available in the UK.

- Presentation: Pre-filled syringe (PFS) of one dose (0.5 ml) with a milky white appearance with pre-attached 1-inch needle.
- Packaging: Available in packs of ten

NHS Price	£13.50
Dispensing fee*	£2.029
VAT (20%)	£2.70
Total NHS Reimbursement	£18.23

**The dispensing fee illustrated is for guidance purposes only and is based on a non-dispensing practice dispensing up to 456 items per month under rules applying from 1st October 2021*

Cell-based Quadrivalent Influenza Vaccine (Surface Antigen, Inactivated) - QIVc

The QIVc vaccine is indicated for prophylaxis of influenza in adults and children from 2 years of age.
