

### Additional Suppliers of PPE – Local Feedback

One of the most common queries the LMC is dealing with currently is concerns from practices about inadequate supplies of PPE and cleaning equipment. While we are all aware of the official escalation plans for ordering, we continue to see PPE raised as an issue on the daily SITREPS in all areas and know it is incredibly worrying for practices.

We are aware some colleagues have been able to source PPE supplies in innovative ways, from volunteers or local businesses for example, and we want to collate these ideas to share across the area.

As well as ordering from **Amazon** and **eBay**, local practices have also used the following suppliers:

<b>Name of Company</b>	<b>Type of PPE Available</b>	<b>Contact Details</b>
