Enhance the level of data quality around End of Life Care by:

- Structuring and Standardising - ensure everyone is recording the correct information in the right way, to enable sharing when possible
- Making it easy, so it is convenient and quick to record the right information
- Making it accessible, by building easy reporting tools to help clinicians work together part of a multi-disciplinary team and enhance patient's care.

- 1 Save time and improve efficiencies with the updated Gold Standards Framework (GSF) Meeting Tools
- 2 Streamline communication using the GSF Report and new EPaCCS Template
- 3 Automate administration for your GSF/MDT Meetings
