

## How the Alliance\* can support Primary care Networks

### A Practical Event

Tuesday 19<sup>th</sup> November 2019  
Monks Yard, Ilminster, TA19 9PT  
7-9 pm  
(food available from 6.30p.m.)

Please come and join us for an evening together at Monks Yard.

#### Our hopes for the evening are that you will:

- Find out about how the Alliance is planning to work differently to support PCNs
- Find out about new projects that could help you achieve your network service specifications.
- Leave feeling that you have clear offers of practical support and know who to contact
- Have a chance to meet the teams (or representatives) working in your areas

#### The evening will be scheduled as follows:

6.30 pm onwards      Refreshments available

7-8 pm                      Short 10 minute presentations:

- First contact practitioners
- How can the Alliance support the employment of staff for PCNs?
- Care home work
- Mental Health – new ways of working
- How to share our data/ideas/work together?
- The Ubuntu Project

8-9 pm                      your chance to visit the tables

Around the room will be representation from many of the teams working across the Alliance, for example – community nursing, our neighbourhood development managers, integrated reablement teams. YDH will also be represented. This is a chance to follow up from the talks, share ideas with others and meet some of your local representatives.

I really hope you will find the evening a useful one, perhaps saving time by making contact with lots of people in one fell swoop and stimulating constructive ideas for working together. Many thanks and hope to see you on the night

Andrea Trill,  
GP, Interim Chief Medical Officer

Please could you RSVP to help with catering. [Nicki.johns@tst.nhs.uk](mailto:Nicki.johns@tst.nhs.uk)
