

To all practices Surrey & Sussex LMCs

24th June 2020

Dear Colleagues

Green Practices

I am writing to highlight to practices the recent GPC Report supporting 'Green' practices and describing ways in which colleagues might support sustainable and environmentally friendly General Practice.

There is also a link to 'Green Impact for Health' <https://www.greenimpact.org.uk/giforhealth> which provides a toolkit to assist GP practices reduce their environmental impact, and support efforts to combat climate change, which is recognised as a threat to the health of people across the planet.

One of the few positive impacts of the Covid19 pandemic has been an increase in environmentally sustainable working practices; so hopefully this guidance is a timely opportunity for colleagues to consider other ways to produce environmentally friendly practices and I hope all practice teams will find it helpful.

With best wishes

A handwritten signature in blue ink, which appears to read "Julius".
