

SWWGL Team Sheets and Fixtures

Team Sheets

In the 2022-23 season we will be using COMET for all competitive and non-competitive matches from U7 through to Women so you can find the relevant [match day guide here](#) so all team sheets will be on this system.

*In all matches coaches are reminded to check their opposition team sheet which must be emailed to them from COMET **before** the match starts. This also ensures that your team sheet is sent to the League to avoid fines.*

Backup electronic team sheets are available for all [age groups here](#). These can be used if COMET is down.

Fixtures

Particularly during the December to February period we are prone to lose fixtures due to the weather making pitches unplayable. The problem is increased by various councils calling pitches off on Thu, Fri or Sat. ***Our Supplementary rule 4 requires you to contact the appropriate League Fixture Secretary immediately so as to consider an alternate venue or fixture before any team postpones the match.***

It will still be essential for all clubs to make every effort to work together and with the League to attempt to get fixtures played wherever possible. *All age groups should consider reversing the fixture or contact the relevant Fixture Secretary to see if an alternate fixture can be arranged.*

Clubs should also consider use of 3G/4G, Astroturf or indoor facilities depending on the age group involved. It is only if we all work together that the season will complete without a backlog of fixtures to be played after the various Cup Finals by some teams.
