## PRESIDENT'S INTRODUCTION

The 2024 season will have a new feel to it. New sponsors and new teams, but before I talk about that I want to look back at the 2023 season. Heysham have been the nearly men for a while, challenging both Carnforth and Westgate in recent years. They were unbeaten in the League which they finally won for the first time since 1961 and their first team will play in the Palace Shield in 2024. Phil Bovis was a shrewd signing, and Jamie Cassidy's late decision not to transfer to Morecambe a bonus. Heysham go with our best wishes as they seek a higher level of competition. Adam Richardson beat the Division 1 highest score previously held by a diminutive all-rounder with 195* from 139 balls with 31 fours and 3 sixes. The same diminutive all-rounder is also no longer the last player to do the double of 1000 runs and 50 wickets in Division 1 and cup games, with Ethan Elwood taking that mantle.

In Division 2, Silverdale won the League by a canter and will be welcomed back into Division 1. Division 3 was a herculean tussle between Ingleton, Burneside 2nds and Trimpell; and Leven Valley and Windermere. Windermere were pipped on the last day on number of games won. In Division 4, we welcomed Appleby Eden 3rds, Heysham 3rds and Shireshead 4ths into the League and welcomed back Burneside 3rds. Morecambe 4ths beat Ulverston 3rds in the Play-off final.
Our Cup finals were disrupted by the weather. Congratulations to Burneside who retained the Hackney \& Leigh Trophy, Shireshead 2nds who did the same with the British Rose Cricket Trophy, Ingleton who won the Kendal Sports Trophies Cup and Morecambe 4 ths who were again winners of the Moon \& Coxhill Cup. Thanks are due to our sponsors and to the grounds who hosted the finals - Netherfield, Warton, Heysham and Westgate.

Off the field it was a very sad year as we lost a large number of people who are real legends of the game. An XI picked from Paul Antcliffe (Heysham), Stuart Lord (Holme), Tony Jones (Warton), Steve Parkinson (Shireshead), Ronnie Boyd (Warton), David Rucastle (Warton), Ken Shepherd (Arnside), Brian Gudgeon (Lancaster), David Oates (Burneside), Graham Barnes (Holme), Gordon Howarth (Arnside), Joe Tomlinson (Kirkby Lonsdale),
would take some beating. Perhaps a bit light on batting but with that bowling attack l'd back them to defend almost any score and enjoy reflecting at length on the game in the clubhouse later. We continue to post John Glaister's tributes on the WCL Pitchero site and on the Facebook site https://www.facebook.com/ WestmorlandCricketLeague/ where we update news throughout the year. We awarded Tony Jones Life Membership of the League last year as recognition for his long service as a highly respected umpire and as a member of the Management Committee. At the AGM we announced that Derrick Hackney, a long-term sponsor of the League's main cup competition and former player and current umpire had been awarded Life Membership.
The rule changes brought in for 2023 remain in place including the right of clubs to request later start times than the default 1 pm . Fixtures in the handbook and on Play Cricket indicate the start time so please do check. There are fewer rule changes this season, but there are changes to who pays umpires' expenses in Division 2 games and the pool player system.
We have ten new teams in 2024. Appleby Eden (firsts and seconds), Kirkby Stephen (firsts and seconds), Lindal Moor (firsts \& seconds), Millom (thirds), Penrith (seconds), Settle (seconds and thirds). To accommodate teams at the right level and to recognise the changes that Pyramid structures in Cumbria and Lancashire bring we have changed the rules about promotion.
At the end of the 2024 season, the top 2 in the WCL can opt to move to the Palace Shield (with the third and/or fourth place team getting the choice if one or both of the top two decline the choice). We are expecting the option of transfer to the Cumbria League to remain in place but at the time of writing that hasn't been confirmed. We have accommodated the new teams in the division that we believe best fits with their playing standard. One sided games benefit no one. This means a 14 team Division 1, 16 teams in Division 2 and 14 teams in Division 3. It has been a nightmare to do the fixtures and we will revert to 12 teams or as near as we can get for 2025.
This means that if two teams move to the Palace Shield at the end of this season, then two teams will be relegated to Division 2 , as long as the top two teams in the Division are eligible for
promotion (at the end of the 2024 season there is no relegation from the Palace Shield, because they are contributing teams to the restructure of the Northern League).
This means that a minimum of 5 teams will be relegated from the 16 team Division 2 (it could be up to 7 if no teams opts to leave the League).
It has been agreed that only the winners of Division 3 will have the option of promotion. This is because with so many teams being relegated into Division 3 that it would be too big a jump otherwise. There is the possibility of more teams in 2025 and if so we will accommodate them at the right level in the structure.
I want to reiterate the importance of all of our clubs. Not just those who have ambitions to play at a higher level. Cricket is a social game at the heart of our communities, and it is vitally important that we all do what we can so that the game can move from survival to flourishing in villages where the challenges of smaller resident populations have to be recognised. It is 130 years this year since the WCL was formed with Gatebeck the champions of the new 8 team League. Gatebeck CC is long gone, but their competitors in that season included 5 clubs still very much in evidence - Arnside, Holme, Milnthorpe, Netherfield and Sedgwick. It is also 100 years this year since the WCL reformed after World War 1 when Kirkby Lonsdale CC joined for the first time at their new ground at Lunefield Park. Windermere the pre-war champions couldn't raise a team and Burneside were the first team to win the League in the inter-war period with Holme runners-up. George Hall (Holme) topped the batting averages with 266 runs at 26.18 whilst Jack Barnes won the bowling with 26 wickets at 2.65 . Fourth in the bowling was Holme's Tommy Hunter. Any relation to Stuart and Kieran? The point of this paragraph is to emphasise the rich legacy and historical continuity and the central point that our game played in the leisure time of so many generations of our forefathers.

Finally I am delighted to be able to announce that we have a new League sponsor. For the next three years we will be the ICS Accounting Westmorland League. We also have new sponsors in the junior section.

Thereafter, the maximum number of overs available shall be reduced at the rate of two for every full seven minutes time lost. Note - that means overs are reduced after 22 minutes time is lost.
Time lost is cumulative - after the first 15 minutes has been discounted, the total time lost is divided by 7 to determine the numbers of overs lost Umpires are responsible for keeping a record of time lost. They must inform captains of the revised number of overs before the resumption of play after any interruption.

Conditions shall not be regarded as either dangerous or unreasonable merely because they are not ideal. The fact that the grass and ball are wet does not warrant the ground conditions being regarded as dangerous or unreasonable.
h i In Divisions $1 \& 2$ the batting side will be awarded 5 penalty runs for each over that is not started by the bowling side in 2 hours 45 minutes. This will include one drinks break. If overs are added to the second innings, the time allowed shall be increased by $31 / 2$ minutes per over. If overs are reduced due to weather in either innings, the time allowed shall be reduced by $31 / 2$ minutes per over. Umpires MUST keep each other and the captains informed of their progress at 1 and 2 hours, and inform of any alterations to times and shall make allowances for any unforeseen circumstances, and also warn and subsequently award penalty runs against the batting side if they are deemed to be wasting time as per MCC laws
ii At the call of time for the 1st innings both teams will be informed of the start of time of the 2nd innings by the umpires. If either team are not ready to commence play at this time the umpires will impose penalties as appropriate under Law 41.
i In Divisions 1 and 2, two semi-circles shall be drawn on the field of play. The semi-circles shall have as their centre the middle stump at either end of the pitch. The radius of each of the semicircles shall be 30 yards. The semi-circles shall be linked by two parallel straight lines drawn on the field. The fielding restriction areas should be marked by continuous painted white lines or 'dots' at 5 yard intervals, each 'dot' to be covered by a white plastic or rubber (but not metal) disc measuring 7 inches ( 18 cm ) in diameter. At the instant of delivery no more than five fielders shall be permitted outside this fielding restriction area. If this rule is broken, then either umpire should immediately call no ball. This should be treated the same as other no balls as set out in Law 21.

14a Method of scoring-
The points awarded for League Championship matches shall be:
(Note - Figures in brackets are for matches in Divisions 3 and 4.)
15 points for a win by a side batting first or second;
6 points in a drawn game to the side batting first PLUS an additional 1 point to the side batting first in a drawn game where the side batting second fails to achieve

50\% of the first innings score.
1 point in a drawn game to the side batting second who attain $50 \%$ of the first innings score
5 points to each side in the event of a tie plus bonus points gained where the scores are equal and the side batting second has been bowled out.
5 points to each side when a game is declared void. In a match declared void after it has started, then any batting or bowling points will be retained

Batting bonus points for the side batting first:
1 point for scoring 135 (120) runs; 2 points for scoring 158 (140) runs; 3 points for scoring 180 (160) runs.
In a reduced over game batting bonus points for the side batting first shall be calculated as follows: 1 point for reaching the scoring rate of 3 runs per over* 2 points for reaching the scoring rate of 3.5 runs per over* 3 points for reaching the scoring rate of 4 runs per over*
(*These calculations must not be rounded up. The scoring rate shall be calculated by dividing the number of runs scored by the actual number of overs bowled or part thereof)

Batting bonus points for the side batting second:
1 point for scoring $70 \%$ of the target score 2 points for scoring $80 \%$ of the target score 3 points for scoring $90 \%$ of the target score

Bowling Bonus Points for the side bowling first:
Bowling bonus points shall be calculated on the number of wickets taken: 1 point for 5 wickets 2 points for 7 wickets 3 points for 9 wickets.

Bowling Bonus Points for the side bowling second
Bowling bonus points shall be calculated on the number of wickets taken: 1 point for 5 wickets 2 points for 7 wickets 3 points for 9 wickets.
In a reduced over game the number of wickets required for bonus points shall be calculated as follows: number of overs of the reduced game divided by 45 (40) then multiplied by 5, 7 or 9 For example: If the reduced number of overs is 36 the bonus points are: $36 / 45 \times 5=4$ thus 4 wickets are required to obtain 1 bonus point $38 / 45 \times 7=5.91$ thus 6 wickets are required to obtain 2 bonus points $40 / 45$ $x 9=8$ thus 8 wickets are required to obtain 3 bonus points.

Bonus points shall NOT be awarded to the winning side. They shall only be awarded in a drawn game including a weather void, a tied game or to the losing side. In all calculations, unless stated otherwise, any calculations resulting in decimal points follow the general convention of being rounded up from .5 , and down from 4

14b Target Score Adjustment (Divisions 1 and 2 only)
Where after the start of the game rain affects play during either the 1st or 2nd - innings such that the number of overs to be received by the batting side is reduced then the Target score for the team batting second is adjusted using the Duckworth/Lewis/Stern module of the Play Cricket.com scorer app. The revised Target score calculated by Duckworth/Lewis (Standard) from information provided by the umpires is the number of runs the team batting second require
to win the game and merely replaces the first innings score +1 .
The Target score will also be used in the calculation of batting bonus points for the team batting second. It should be noted that Duckworth/Lewis/Stern will be used solely to calculate the revised Target in circumstances where rain has interrupted the game after it has started such that the number of overs to be received by either side is reduced from that expected at the start of their innings and does not impact the rules regarding draw or tie detailed in 14 (above). This means that the"par score" calculation contained within Duckworth/Lewis/Stern is irrelevant in deciding the outcome of the match. Where the team batting second is expected to receive more than their allotted overs at the start of the game due to either a declaration or a side being dismissed in the first innings, then the Duckworth/Lewis/Stern calculation will be based on the number of overs they were expected to receive at the start of the game.
If the team batting second does not receive 20 overs, the match shall be declared void and each team shall be awarded 5 points, unless the new Target score is reached before the 20 overs have been bowled or the team batting second has been bowled out. The revised Target should be agreed after each interruption by the Umpires, Captains and Scorers. Even if the team batting is second has exceeded the 20 over target, they shall only be declared the winner if play is able to resume, even if it is to enable a single ball to be bowled. The umpires are the sole adjudicators of whether it is fit to resume after a break.
Where the umpires determine that it fit to resume but there is insufficient time for 20 overs to be bowled either side shall have the option of resuming play to try to force a result in less than 20 overs. Where the team batting second chooses to play to chase a revised target set under DLS, if they fail to reach the target then the result is a winning draw for the team who has batted first i.e. the team batting second receives 1 point for a losing draw (if they have reached $50 \%$ of the DLS target) plus any bonus points. Where the bowling team chooses to resume and fails to bowl out the other team in less than 20 overs, then the game remains a rain draw.

The following rules shall apply to games played in all Cup competitions:
15 a The Management Committee shall be responsible for all arrangements regarding Cup competitions including the setting of fixed dates and play by dates.
b Rules specific to each Cup shall be published in the handbook.
c Any disagreements between clubs as to the date on which a Cup match will be played must be referred to the Fixtures Secretary.

If agreement cannot be reached the fixture must be referred to the Fixtures Secretary immediately.
e In all cup competitions, the umpires will apply a strict interpretation to the law relating to wides; in particular, any ball that passes both the batsman and the wickets on the leg side shall be called wide as per the generic ECB rules published for recreational t20 competitions - a link will be available on the WCL website.To assist the consistent interpretation of wides an additional line, a"Wide Guideline"
shall be marked in-between the bowling crease and popping crease and shall be parallel to the return crease. The outside edge of the wide guideline shall be marked 43.18 cm ( 17 inches) from the inside edge of the return crease.

f In Under 19, 16 and 13 junior matches, if the last pair is at the crease, no retirements will occur, The game will continue until either

In a game less than 20 overs per innings the limitation on the number of overs per bowler shall remain the same as in matches of full length. If a match is curtailed for any reason it shall be regarded as "abandoned" even if the team batting second have
completed more than 12 overs.
21 a Points shall be awarded as follows:
i Four points for a win.
ii Two points for a tie.
iii Two points for a match which is abandoned or un-played due to rain
b In the event of scores being equal in a league match after 20 overs (or after the agreed number of overs) the result will be a tie irrespective of the number of wickets that have fallen.
c. In the event of scores being equal in a Cup match, the team with the fewer wickets down will be declared the winner. If scores and wicket are equal the match will be replayed (venue reversed).

Where a club do not have junior teams, but which do have playing members under 19 years of age. In such a case, the young player can take part in Junior cricket elsewhere and play for the senior team of his own club. Under 19's may, therefore join another team in the League for the purpose of playing junior cricket. When a Junior Club does not have a senior team in the Westmorland League, Junior members of that club can not play for another Westmorland Club's senior teams, unless granted permission by the Management Committee. Under 19's may then, therefore join another team in the League for the purpose of playing senior cricket.

d Players are not eligible to represent junior teams in the League if they also play for a different club with a junior team in another league, unless they have been granted permission by the Management Committee.
e When a junior player is transferred under senior rule 10, he must also then only play his junior cricket for the club he has transferred to, providing that club have a junior section.

On the second occasion, a final warning by email advising that on the next occasion a 1 point deduction will be applied. On the third, and each subsequent, failure, a further 1 point deduction will be applied.
b In Division 1 League matches both umpires will be appointed by the Umpires Secretary. Each club shall be responsible for payment of the fee to cover expenses of $£ 50$ to one umpire before the toss and this should be made at the same time as handing the teams cards and match balls to the umpires.
In Division 2, clubs are invited to submit requests to the Umpires Secretary for appointments to be made for all or some of their fixtures. These appointments will be filled on a "first come" basis and on the understanding that in the event of a shortage for Division 1, an umpire may be withdrawn from a Division 2 match. Each Division 2 club provided with an umpire by the Umpires Secretary shall be responsible for its own payment to the said umpire.
c In Division 2, for 2024 clubs are required to arrange for a club umpire to stand in their home games. Where panel umpires are available, the Umpires Appointments Secretary will appoint a second umpire. invited to submit requests to the Umpires Secretary for appointments to be made for all or some of their fixtures. These appointments will be filled on a "first come" basis and on the understanding that in the event of a shortage for Division 1, an umpire may be withdrawn from a Division 2 match. On a first occasion where a home team fails to have a club umpire (and has not been able to arrange for a panel umpire to cover) the team shall receive a first and final warning that subsequent breaches will lead to a 2 point deduction on each occasion. In Division 2 League matches the umpires for the away teams will be appointed by the Umpires'Secretary. The away club shall be responsible for payment of the umpire before the toss and this should be made at the same time as handing the teams cards and match balls to the umpires. e Each club, other than those in Divisions $1 \& 2$, shall provide its own umpires for League matches, one for each team. If only one umpire is available he shall have the right to officiate at both ends if he so wishes.
f Where required each club shall provide an umpire, up to the semi-final stage, in each Cup competition. Where possible an umpire listed in the Handbook or other qualified umpire must be used
g The Management Committee/Umpires' Secretary shall appoint neutral umpires for all semi-finals and finals. If an umpire is used for any other match who is not listed in the Handbook it will be the Club's responsibility to make sure that that umpire meets the current "Safe Hands-Welfare of Young People in Cricket" regulations including being DBS checked and approved
h Umpires appointed by the Management Committee/Umpires Secretary shall be paid a fee of $£ 50$. Fees for the subsequent season shall be decided at the AGM and each competing club shall be responsible for payment of one umpire's fee.

Failure to do so in League matches will result in a penalty of 2 points on the first occasion and five points on any subsequent occasion during the same season. A team shall not be allowed to commence a cup final without providing a designated (non player) scorer.
The home team is responsible for making sure that at least one scorer is using a scorebook as opposed to electronic scoring. If the away scorer is using a book it is fine for the home team to use Play Cricket only. Scorers should ideally sit together; if they choose not to then they should confer regularly to ensure that they agree as to the score. This is particularly the case if one team has a player scorer and the other a designated scorer.
Deduction of points restricted to Divs 1 \& 2 where umpires can report. Or any division if a league official is in attendance, Different players can be used throughout the innings.

## Pool Player - System for 2024

## Aims and Objectives

The Ultimate aim of the Pool Player process is to reduce the number of games forfeited and to encourage participation of more players.
The process is in place to enable clubs struggling to fulfil fixtures to have access to approved players from other clubs who potentially aren't playing that weekend.
It also allows players who aren't getting regular cricket at their parent club to help other clubs in need of players.

## Summary of changes

Following a mid season and a further end of season review, the following are the proposed rules for the 2024.

The main changes are,

- In line with the ECB, junior cricketers are classed as under 18's (previously under 16's)
- New players can be registered onto the pool list up to 72 hours prior to game being played.
- Categorisation of players has been removed and some simple rules to be followed

a. They must be registered with their parent club or the WCL.
b. The Individual requests they are placed on the pool, and provides all details incl DOB/Contact
c. Players can be registered no later than 72 Hours prior to playing (midday Wednesday).

b. Pool Players can only play for the same club on 4 occasions in any season.
c. Players can not pool for a club in their own division, with the exception of Division 4.

As with Transfers and Dual Registrations, Pool Player process closes on Aug 1st, after that date no new requests will be accepted.

All of the above should help clubs struggling with player availability to fulfil fixtures. It should also help to maintain the integrity of our league and each division.

## Disciplinary Procedures - a copy will be emailed to captains and club secretaries before the start of the season. They are available on the websites or on request from the League Secretary <br> CUP COMPETITIONS 2024

## Introduction

1. Existing league rules apply regarding eligibility of players to play in competitions. (see rules 15 and 16).
2. The Divisional Cup competitions will all be played as round robins in 2024, with the exception of Division 4 which is a straight knockout.
3. In the round robins, the top two teams qualify for the quarter-finals. Group winners will qualify for a home quarter-final. In group games, teams earn two points for a win. In tied games, a super over will be played to determine the result, unless the umpires determine that because of light that it is not safe. In the event of no super over then both teams will earn 1 point. Where two or three teams have the same points after the two group games, then net run rate will be the sole determinant of final placings. In the event of net run rate being the same then the teams involved will play off in an additional fixture.
4. Divisional Cup semi-finals and the final will be played on a single day. A reserve day has been set in the event of the weather not allowing a result to be determined.
5. Clubs have been given six days during which the game must be played. The home team must offer their visitors two dates during the six days. The same will apply for the quarter-finals. If a match is rained off, then the two teams should find an alternative date at least seven days before the dates scheduled for the quarter-finals. If this is not possible then the home team should contact the Fixtures Secretary as soon as possible.
6. In Division 1 and 2 cup competitions the Umpire Appointments secretary will appoint two umpires for each game. In Divisions 3 and 4, he will appoint one umpire with the home club responsible for arranging the other. In these occasions the away team is responsible for paying the panel umpire a $£ 25$ match fee. In all other games, each side is responsible for paying one umpire. In the semi-finals and finals, the League will pay for umpires.
7. In all cup games, red balls will be used. The batting side provides the ball for the other team to bowl with. At the loss umpires should ensure the balls are of similar quality.
8. Scores for all cup matches, including those cancelled by weather, shall be posted by the winning team on Play Cricket not later than midnight on the day of the match and the full and accurate scorecard within 48 hours of the match. The result should also be texted to 07855719402 and 07879458324 within one hour of the game finishing.
9. Winning clubs must send a representative to the annual dinner to be formally presented with the Trophy.
10. Fixtures for all cup matches are on Play Cricket.

# Playing Conditions for Cup Matches 

Playing Conditions - $\mathbf{2 0}$ overs per side

The Laws of Cricket (2022) shall apply with the following exceptions:
1 Duration
1 innings per side, each limited to a maximum of 20 overs.

## 2 Hours of Play

2.1 Start times, close of play and additional time are to be agreed by teams or directed by the competition organiser.
2.2 All sides are expected to be in position to bowl the first ball of the last of their 20 overs within 1 hours 15 minutes playing time.
2.3 Interval should be no longer than 15 minutes.
2.4 In the event of an interruption or delay during the 1 st innings, the calculation of the number of overs to be bowled shall be based upon one over for every 3 minutes 45 seconds in the total time available for play up to the scheduled close of play. In the 2nd innings of the match, overs shall be reduced at a rate of one over for every full 3 minutes 45 seconds lost, unless the 1 st innings has finished early or the 2nd innings started early, in which case no overs are lost until the time that has been gained is subsequently lost.

3 Rearrangement of overs due to inclement weather
The objective of rearranging overs is to give the greatest opportunity for a match of equal overs.

## 4 Over rate penalties

4.1 All sides are expected to be in position to bowl the first ball of the last of their 20 overs within 1 hour 15 minutes playing time. In the event of them failing to do so, the full quota of overs will be completed, one fewer fielder shall be permitted outside the fielding restriction area in $5.1,5.2$ \& 5.3 than would normally be the case in the over(s) in progress at the time. All penalties in this regard will be imposed immediately the ball first becomes dead after the scheduled or re-scheduled cessation time for the innings.
4.2 The Umpire shall inform the fielding team Captain when taking the field for the first time and on every subsequent occasion if play is interrupted by the weather, the scheduled cessation time for that innings. The Umpire at the bowler's end will inform the fielding Captain, the batsman and his fellow Umpire of any time allowances as and when they arise. (This matter will not be subject to retrospective negotiation). In addition, in all reduced overs matches, the fielding team will be given one overs leeway. For the avoidance of doubt, one over's leeway means that the fielding side must be in position to bowl the first ball of the penultimate over by the scheduled or rescheduled cut off time
4.3 If the innings is terminated before the scheduled or re-scheduled cut-off time, no over rate penalty shall apply. If the innings is interrupted, the over-rate penalty will apply based on the re-scheduled cessation time for that innings. Over-rate penalties apply only to innings of 10 overs or more duration unless a penalty has been applied before 10 overs have been bowled. In innings of less than 10 overs duration, Umpires shall apply the penalty run Laws for time wasting especially strictly.
4.4 Umpires are instructed to apply a strict interpretation of time wasting by the batsman ( 5 run penalties) specifically; batters are expected to be ready for the start of a new over as soon as the bowler is ready.
$5 \quad$ Fielding restrictions
At the instant of delivery, there may not be more than 5 fielders on the leg side.
5.1 For the first 6 overs of each innings only two fielders are permitted to be outside the fielding circle at the instant of delivery.
5.2 For the remaining overs of each innings only five* fielders are permitted to be outside the fielding circle at the instant of delivery.
5.3 In circumstances when the number of overs of the batting team is reduced, the number of Fielding Restriction Overs shall be reduced in accordance with the table below. For the sake of clarity, it should be noted that the table shall apply to both the 1st and 2nd innings of the match.

| Total Overs | No. of overs fielding restrictions apply |
| :---: | :---: |
| $5-6$ | 1 |
| $7-9$ | 2 |
| $10-13$ | 3 |
| $14-16$ | 4 |
| $17-19$ | 5 |

## $6 \quad$ Overs per bowler

6.1 No bowler may bowl more than one-fifth of the amount of overs scheduled for the innings. However, in a delayed start, or interrupted match, where the overs are reduced for both sides, or for the side bowling second, no bowler may bowl more than one-fifth of the total overs allowed (unless such a number has been exceeded before the interruption), except that where the total overs are not divisible by five, an additional over shall be allowed to the minimum number of bowlers necessary to make up the balance - e.g. after 8 overs, rain interrupts play and the innings is reduced to 12 overs. Both opening bowlers have bowled 4 overs. Two bowlers can bowl 3 overs and three bowlers can bowl 2 overs. Bowlers 1 and 2 have already exceeded this limit.

They count as the two bowlers who were allowed the extra over (4 as opposed to 3 ) and so any other bowlers are limited to 2 overs.
6.2 For innings of rescheduled length of between 5 and 9 overs, no bowler may bowl more than two overs. In these circumstances, the one-fifth limit does not apply.
6.3 When an interruption occurs mid-over and on resumption the bowler has exceeded the new maximum allocation, they will be allowed to finish the incomplete over.
6.4 In the event of a bowler breaking down and being unable to complete an over, another bowler will bowl the remaining balls. Such part of an over will count as a full over only in so far as each bowler's limit is concerned.
6.5 The allocation of overs per bowler will not be reduced as a result of the deduction of any penalty overs.

## $7 \quad$ The Result

7.1 Where there is no interruption after play has commenced and when both sides have completed their innings, the side with the highest actual score or recalculated Duckworth Lewis Stern score shall be delcared the winner. In the event of a tie a super over shall be played, subject to 8.2 below.
7.2 For all matches if, due to the suspension of play after the start of the match, the number of overs in the innings of either team has to be revised to a lesser number than that originally allocated (minimum 5 overs), then a revised target score should be set for the number of overs which the team batting second will have the opportunity of facing, this revised method being calculated by the Duckworth/Lewis method (version of DL shall be The Ducksworth/ Lewis Stern Tool on the Play Cricket Scorer App). A par score will be set for the second innings. If this is exceeded a win for the team batting second shall result. If the par score is equalled then the scores are tied.
7.3 For all matches, if a match is abandoned before it had been played to a conclusion and before the team batting second has received its allocated number of overs (providing that it has received not less than 5 overs), the result shall be decided by the Duckworth/Lewis method.
7.4 In the event of the scores being tied in a match when the Duckworth/Lewis method has been used, no account shall be taken of wickets lost and a Super Over shall be used to find a winner.

## 8 <br> Super Over

8.1 The teams shall compete in a Super Over to determine the winner. The following procedure will apply should the provision for a Super Over be adopted in any match.
8.2 Subject to weather conditions the Super Over will take place at a time to be determined by the umpires. In normal circumstances it shall commence 10 minutes after the conclusion of the match.
8.3 The Super Over will take place on the pitch allocated for the match (the designated pitch) unless otherwise determined by the umpires in consultation with the ground authority.
8.4 The umpires shall stand at the same end as that in which they finished the match.
8.5 In both innings of the Super Over, the fielding side shall choose from which end to bowl.
8.6 Only nominated players in the main match may participate in the Super Over. Should any player (including the batters and bowler) be unable to continue to participate in the Super Over due to injury, illness or other wholly acceptable reason, the relevant Laws and Playing Conditions as they apply in the main match shall also apply in the Super Over.
8.7 Any penalty time being served in the main match shall be carried forward to the Super Over.
8.8 Each team's over is played with the same fielding restrictions as apply for a non-Field Restriction Over in a normal match.
8.9 The team batting second in the match will bat first in the Super Over.
8.10 The Umpires shall select a ball from the box of spare balls which shall be used for both overs of the Super Over. The ball to be used shall not be a new ball.
8.11 The loss of two wickets in the over ends the team's one over innings.
8.12 In the event of the teams having the same score after the Super Over has been completed, the team whose batters hit the most number of boundaries in the Super Over shall be the winner.
8.13 If still equal, a count-back from the final ball of the Super Over. The team with the higher scoring delivery shall be the winner. If a team loses two wickets during its over, then any unbowled deliveries will be counted as dot balls. Note that for this purpose, the runs scored from a delivery is defined as the total team runs scored since the completion of the previous legitimate ball, i.e including any runs resulting from wides, no ball or penalty runs.

Example:

| Runs scored from | Team 1 | Team 2 |
| :---: | :---: | :---: |
| Ball 6 | 1 | 1 |
| Ball 5 | 4 | 4 |
| Ball 4 | 2 | 1 |
| Ball 3 | 6 | 2 |
| Ball 2 | 0 | 1 |
| Ball 2 | 2 | 6 |

In this example both teams scored an equal number of runs from the 6th and 5 th ball of their innings. However team 1 scored 2 runs from its 4 th ball while team 2 scored a single so team 1 is the winner.
8.14 If still equal, then another Super Over shall be played.

## 9 Wide Ball - Judging a Wide

Umpires are instructed to apply a very strict and consistent interpretation in
regard to this Law in order to prevent negative bowling wide of the wicket. Any offside or legside delivery which in the opinion of the umpire does not give the batsman a reasonable opportunity to score shall be called a wide. For guidance purposes, in adult cricket a legside wide shall be called if, irrespective of where the ball pitches, it passes outside the line of the batsman and the leg stump, despite his movement.

## 10 No Ball

10.1 Law 41.6 (Bowling of dangerous and unfair short pitched deliveries) shall apply with the following additions:
10.1.1 Regardless of how wide of the striker a delivery is, there shall be no more than one delivery per over that after pitching pass or would have passed clearly over shoulder height of the striker standing upright at the popping crease.
10.1.2 The umpire shall make it clear to the bowler (and any bowler called upon to complete an over) and the batsmen at the wicket when a delivery within the limit in 10.1.1 has been bowled. It is unfair if the limit is exceeded and the umpire shall call and signal No ball on each such occasion and consider it as part of the warning sequence in Laws 41.6.3 and 41.6.4.
10.1.3 A different signal shall be used to signify a fast short pitched "No Ball". The Umpire shall call and signal "No Ball" then raise the other arm across the chest. If the bowler exceeds his limit of short pitched deliveries in an over not only must the Umpire call "No Ball" but he must invoke the procedures of Law 41.6 .3 in regard to cautioning the bowler. If a bowler is "No Balled" a second time in the innings for the same offence the Umpire is to invoke Law 41.6.4 and the bowler shall be removed forthwith and shall not be allowed to bowl again in that innings.
Note: For the avoidance of doubt the warnings detailed in Laws 41.6.1, 41.6.2 and those above in 10.1.1 and 10.1.2 are cumulative.
10.2 Law 41.7 (Bowling of dangerous and unfair non-pitching deliveries) shall apply.

### 10.3 Free Hit after a No Ball

10.3.1 The delivery following a no ball shall be a free hit for whichever batsman is facing it.
Note: this applies to all modes of No ball with the exception of a short-pitched delivery that passes or would have passed clearly over head-height of the striker standing upright at the popping crease.
10.3.2 If the delivery for the free hit is not a legitimate delivery (any kind of no ball or a wide ball), then the next delivery shall become a free hit for whichever batsman is facing it.
10.3.3 For any free hit, the striker can be dismissed only under the circumstances that apply for a no ball, even if the delivery for the free hit is called wide ball.
10.3.4 Field changes are not permitted for free hit deliveries unless there is a change of striker or the No Ball was the result of a field restriction breach in which case the field may be changed to the extent of correcting the breach. However, in all circumstances, any fielder within 15 yards of the striker may retreat to a position on the same line no more than 15 yards from the striker.
10.3.5 The umpires shall signal a free hit by (after the normal no ball signal) extending one arm straight upwards and moving it in a circular motion.
