Richard Fuller, Corporate Affairs Director

Fuller Smith & Turner PLC

Fuller, Smith & Turner's Griffin Brewery in Chiswick has stood on the same site for more than 350 years. From the original brewery in the gardens of Bedford House on Chiswick Mall, the business expanded and thrived until the early part of the nineteenth century when it hit difficult times. The then owners, Douglas and Henry Thompson and Philip Wood, approached renowned businessman John Fuller, of Neston Park, Wiltshire to see if he would inject the required amount of money. In 1829 he joined the enterprise, but the partnership proved difficult, indeed Douglas Thompson fled to France, ending the partnership.

It soon became apparent that it was impossible for one man with no brewing experience to run a brewery of Fuller's size alone, so in 1845 John Fuller's son, John Bird Fuller, was joined by Henry Smith from the Romford Brewery and his brother-in-law and his Head Brewer John Turner, thereby forming Fuller, Smith & Turner as it is still known today. Since that date the Griffin Brewery and Fuller, Smith & Turner has gone from strength to strength acquiring the Beehive Brewery of Brentford in 1910. Then in 1929, 100 years after the first Fuller had come to Chiswick, the partnership became today's Public Limited Company. Descendants of those first partners are still heavily involved in the day to day running of the company.

In November 2005, Fuller's announced the largest deal in the history of the Company acquiring George Gale & Co. (Gales), of Horndean, Hampshire. The Gales deal added 111 houses to the estate (including the famous Bat & Ball at Hambledon, birthplace of the modern game of cricket). It also meant that another great beer brand, HSB, was added to the ale portfolio.

Over the years Fuller's has built up a reputation for running great pubs and brewing outstanding, premium beers. London Pride, ESB and Chiswick Bitter have all been named Champion Beer of Britain, a feat unmatched by any other Brewery. Cornish Orchards, Fuller's cider farm in Duloe, Cornwall (acquired in 2013) has also been internationally recognised as producers of outstanding craft ciders by winning a Gold and a Bronze medal in the International Cider Awards.

As well as this Fuller's has continued to invest in both its brands and its pub estate and has recently added a number of iconic London pubs to its portfolio as well as launching an exciting new range of Seasonal Ales like Quintessential British Pale Ale and new permanent additions to the range like Frontier and Oliver's Island.

Fuller's is glad to be continuing its association with the Surrey County League.

Cricket embodies many of the characteristics Fuller's aims to achieve in all its products and nothing better accompanies a good game of cricket than a great pint of Fuller's beer.

CHAIRMAN'S INTRODUCTION

It is difficult writing a cricket related piece in the middle of February, when the warm days of summer seem so far off – but then the sun came out for a while this morning, and I started to look forward to the season.

And we do have good things to look forward to:

Fuller's have agreed to renew their generous sponsorship, so we can continue to be grateful for their largesse. Please do drink as much as you can on their behalf (not necessarily alcohol of course...).

I am very excited about the joint regional 3rd XI structure. Not only do I believe that this will help to increase interest in 3rd XI cricket by reducing travelling, it also signals a new spirit of co-operation between the FBSCCL and the Surrey Championship, which can only be in the best interest of all Surrey cricketers. And on that subject, I would like to welcome all the SC 3rd XIs that will be playing at our clubs' grounds this year and hope you enjoy the experience.

Those of you who attend any of the management meetings will know that we have a significant surplus of funds. Please be aware that we are prepared to use these funds for small grants, or, preferably (to make it go further) interest free loans to our member clubs to enable them to make improvements to their facilities for the benefit of all.

And now the appeal. Although we have managed to fill some of the committee positions, we still have no Secretary and no Treasurer. As I am sure you appreciate, we cannot function as an organisation without these roles being filled. There are different ways of doing this – for example, we can split the Secretary's jobs into multiple functions in order to share the workload, but we have to have the volunteers to enable us to do this.

I appreciate this is an ongoing challenge for clubs as well, but what applies to a club applies just as much to a league – its future is totally dependent on people holding up their hands and giving up a few hours here and there to put something back into the game they have enjoyed to ensure that future generations can take the same pleasure we have all done.

Rant over – have a great summer of cricket and enjoy the companionship that only cricket brings.

There shall be a Third Division each competition consisting of 9 sides.

In every case a club plays each other twice in each season on a home and away basis with one game played as a time match and the other played as a limited overs match.

The Fuller's/Surrey Championship 3rd XI Regional League

The 3rd XI competition run in conjunction with the Surrey Championship will consist of 31 sides divided into three regional divisions, 'Central', 'East' and 'West'. Two divisions will consist of 10 sides and one division, West, will consist of 11 sides. The divisions of 10 teams will play each other twice on a home and away basis with one game played as a time match and the other as a limited overs match. In the West division each team will play each other once and then play six or seven other teams a second time, as set out in the Fixtures List. Teams playing each other twice will play one time match and one limited overs match. The allocation of each club to a division will be at the sole discretion of the Executive Committee.

The winner of each regional division will be promoted into the Surrey Championship 3rd XI Division 2, from which three clubs will be relegated. The regional make-up will be revised on an annual basis depending on the overall mix after promotion / relegation.

PENALTY RUNS

7. Except in the case of penalty runs pursuant to Law 2.6 of the Laws of Cricket (player returning without permission), Law 41.2 (fielding the ball) or Law 41.3 (protective helmets belonging to the fielding side), the awarding of penalty runs in the circumstances described within the Laws of Cricket shall not apply in any match played under the auspices of the League.

FAILURE TO FULFIL FIXTURES

- 8.1 In the event of a side not being able to fulfil a fixture, the defaulting Member Club shall be fined £75, which sum shall be paid to the opposing club as compensation towards losses and expenses incurred.
- 8.2 Any Member Club failing to fulfil a fixture shall submit a written explanation to the Secretary within seven days of the cancelled game. Any Member Club failing to comply with this rule shall be fined £25 in addition to any penalty imposed under Playing Condition 8.1.

- 8.3 If any side of any Member Club is forced during the course of one season to cancel three matches other than for reasons of inclement weather, that side shall be withdrawn from its respective league and its record will be expunged from the relevant league table. The Executive Committee shall have an overriding discretion to waive or suspend this penalty due to exceptional circumstances affecting such Member Club in default and the exercise or not of such discretion shall be final and not subject to appeal.

Team precedence and numbers

- 8.4 In the event of a Member Club being unable to fulfil all its fixtures on any day, the playing of the 1st XI fixture shall take precedence over the playing of the 2nd XI fixture which shall in turn take precedence over the playing of the 3rd XI fixture (if any). For the purpose of this paragraph the League and the Surrey Championship shall be regarded as one league.
- 8.5 Any Member Club repeatedly failing to field full sides during the season shall have its membership of the League reviewed at the conclusion of that season.

POSITION IN THE LEAGUE TABLE

- 9.1 The order of sides shall be determined by the total number of points obtained. If there are two or more sides with the same number of points, preference shall be given firstly to the side with the most wins or, if still equal, to the side with the most Match Points and, if then still equal, to the side that has taken the most wickets in the season and finally, if the sides are still equal the matter will be decided by the drawing of lots.
- 9.2 In the West Division of the Fuller's/Surrey Championship 3rd XI Regional League, the order of sides shall be determined by the average number of points obtained, rather than the total, because of the unequal number of games played.
- 9.2.1 This playing condition will apply in the West Division of the 3rd XI League, and will be in force when there are more than 10 teams in this division.
- 9.2.2 Match points and bonus points will be awarded as in Playing Conditions 5 and 6, and average points per game for each team will be calculated by dividing the total points it has gained by the number of fixtures it has, or should have, played. Averages will be calculated to two places of decimals, pursuant to 9.2.3 and 9.2.4.
- 9.2.3 For the avoidance of doubt, points will be awarded as in Playing Condition 5 for matches either abandoned or conceded by one team to another, and those matches will be included as fixtures in calculating average points per game. However, should a team be excluded from the Division as a result of conceding excessive numbers of games or voluntarily withdrawing from the division as a result of the closure of the club, in expunging that team's results from the league table, the points gained by other teams from fixtures with that team and the fixtures themselves will both be excluded from the calculation of average points.
- 9.2.4 The final positions in the Division will be decided as follows. Positions will be determined by the average number of points calculated as in 9.2.2 above. In a case where two or more sides finish with the same average points having had the same numbers of fixtures, they will have the same total points and the method of determining league positions will be exactly as in Playing Condition 9.1. Where sides which have had different numbers of fixtures finish with the same average points when calculated to two decimal places the calculation will be extended to additional decimal places if that enables the league positions to be established. Where teams still cannot be separated, the approach set out in Playing Condition 9.1 for separating sides with the same total points will apply, with the words "average number of points" substituted for "total number of points".

PROMOTION/RELEGATION

Between the Surrey Championship and the Surrey County League

- 10.1 At the end of each season the two sides finishing with the least number of points in the lowest divisions of the 1st XI and 2nd XI leagues and the three sides finishing bottom in Division 2 of the 3rd XI league of the Surrey Championship shall be relegated respectively to the Premier Division of the relevant 1st XI and 2nd XI leagues and the three divisions of the Fuller's/Surrey Championship 3rd XI Regional League and the sides finishing first in each of the Premier Divisions of the 1st XI and 2nd XI leagues and the three sides finishing first in each of the divisions of the Fuller's/Surrey Championship 3rd XI Regional League shall be promoted respectively to the lowest divisions of the 1st XI and 2nd XI leagues and Division 2 of the 3rd XI league of the Surrey Championship.

The two sides finishing with the most number of points in their respective division shall be promoted to the next highest division of their respective league.
- 10.4 In the event of a club withdrawing a side from the League before the league fixtures for the next season have been set, preference may be given to the promotion of the side placed next highest after promoted sides in the league table in the next lowest division of the relevant league in lieu of staying the relegation of a side from the division in which the withdrawal took place. Such decision will remain at the sole discretion of the Executive Committee and be notified to all clubs as soon as it is made. Such decision will remain in force even if such withdrawal has taken place from within the Surrey Championship.
- 10.5 In the event that the expulsion, suspension or withdrawal of a club(s) from the League causes an imbalance in the number of teams competing in any divisions the Executive Committee shall have power to equalise the number of teams playing in each division in such manner as it shall in its absolute discretion think fit.

- 15.1 Member Clubs are required to provide amenities and facilities in accordance with the guidelines published from time to time by the League. Clubs seeking entry into the League shall be required to meet the same criteria.
- 15.2 The Executive Committee shall be responsible for monitoring facilities and visiting grounds, to advise on improvements or in the investigation of sub-standard facilities, either of its own volition or following a complaint by another Member Club. Any such complaint received will be dealt with by the Executive Committee at the next Executive Committee Meeting and its report, findings and suggested action shall be advised to the complaining and offending clubs and, if considered appropriate, to the following Management Committee Meeting and/or published on the League website.

- 21.2 No Member Club in any match shall allow any player under the age of 19 on 31 August in the preceding year to bowl more overs in a spell or in a match than is allowed by the most recent fast bowling directives published by the England and Wales Cricket Board (ECB) and otherwise in conformity to these guidelines.

Bowlers Age	Maximum overs per spell	Maximum overs per day
Up to 13	5	10
U14 and U15	6	12
U16, U17, U18 and U19	7	18

Detailed guidelines can be found at:

<https://www.ecb.co.uk/ecb/regulations/ecb-fast-bowling-directives>

- 21.3 The captain shall ensure compliance with the most recent guidance and regulations published by ECB relating to the wearing of helmets by young players up to the age of 18 namely that it is required that a helmet is worn by young players when batting and when standing up to the stumps when keeping wicket in matches and in practice.
- 21.4 The captains shall also ensure compliance with the most recent fielding regulations published by ECB namely that:
- (i) No young player in the under 15 age group or younger shall be allowed to field closer than 8 yards from the middle stump, except behind the wicket on the off side until the batsman has played the ball. (For players in the under 13 age group and below the distance is 11 yards). These minimum distances apply even if the player is wearing a helmet.
 - (ii) In addition any young player in the under 16 to under 18 age groups who has not reached the age of 18 must wear a helmet and for boys an abdominal protector (box) when fielding within 6 yards of the bat except behind the wicket on the off side.
- 21.5 Age groups are based on the age of the player at midnight on 31 August in the year preceding the current season.
- 21.6 Clubs are required to comply with the 'ECB Guidelines for junior players in open age cricket' published in December 2009, and specifically with the following requirement that any player in the Under 13 age group (or below) must have explicit written consent from a parent or guardian before participating in open age cricket. Clubs must ensure that their player registration procedures ensure that consent is obtained.

Revised and/or approved January 2016

Fuller's Brewery Surrey County League

Section D - Match Regulations - Time Games

GENERAL

1. These regulations must be read in conjunction with Section C – General Playing Conditions.

MATCH BALLS

2. The first new ball shall be taken at the beginning of the match and the second new ball at or any time after the commencement of the innings of the side batting second at the option of the side bowling second.

TIME

- 3.1 Each match shall commence at 1.00pm save for matches starting on or after 18 August when the starting time shall be 12.30pm.
- 3.2 In the event of a match starting late for reasons other than inclement weather or finishing late (that is after 7.45pm) for whatever reason, the circumstances should be noted and reported to the Secretary who, in conjunction with the Chairman of the Disciplinary Committee, shall take such action as they think fit.
- 3.3 No match shall commence after 3.40pm.

DURATION OF MATCHES

- 4.1 Except where a match is affected by weather, matches will last for a minimum of 95 overs ('the minimum overs') or until 7.00pm whichever is the later.

Duration of First Innings

- 4.2 The side batting first will be entitled to bat for a maximum of 50 overs save where Regulation 4.5 applies.

Duration of Second Innings

- 4.3 Upon completion of the innings of the side batting first, the minimum number of overs the side batting second may receive shall be recalculated in accordance with Table 1 by calculating the time remaining from the anticipated start time of the innings of the side batting second to the notional close of play at 7.00pm and substituting such number of overs if this exceeds the minimum.
- 4.4 Unless varied by delay or interruptions as described in Regulations 4.5, 4.6 or 4.7, the side batting second shall be entitled to receive a minimum of 43 overs.

Delays and Interruptions

- 4.5 If the commencement of a match is delayed for more than 10 minutes for any reason other than the default of one side, or, if after a match has started, there are one or more interruptions due to inclement weather during the innings of the side batting first, the minimum overs shall be reduced by two for each complete period of 7 minutes of delay or interruption(s) (cumulatively) and the number of overs available to each side when batting shall in consequence be reduced by one over for each such complete period of 7 minutes of delay or interruption(s) (cumulatively).
- 4.6 If, after the start of the innings of the side batting second there are one or more interruptions due to inclement weather, the minimum number of overs available to the side batting second shall be reduced by one over for each complete period of 3½ minutes of delay or interruption(s) (cumulatively). If the minimum number of overs available to the side batting second shall be reduced to fewer than 20 overs the match shall be treated as abandoned, provided always that in the opinion of the umpire(s) or failing this, the captains, there is no prospect of a further result.
- 4.7 Subject always to the provisions of Regulations 4.5 and 4.6, should one side not be ready to commence a match by 1.10pm then that side shall forfeit the toss (whether or not a toss has already taken place) and shall have deducted one over for every complete 3½ minutes delay from the overs it would have received from the original start time of 1.00pm irrespective of whether it be batting first or second. For the purposes of this paragraph a side must have at least seven players present and ready to begin play.

Table 1: Over rate calculator based on minimum of 17 overs per hour

To be used as a basis to calculate the minimum number of overs a side batting second will receive at the commencement of its innings.

Time available	Overs to be bowled (in minutes)	Time available	Overs to be bowled
1-3	1	32-35	10
4-7	2	36-38	11
8-10	3	39-42	12
11-14	4	43-45	13
15-17	5	46-49	14
18-21	6	50-52	15
22-24	7	53-56	16
25-28	8	57-60	17
29-31	9		

and so on for each hour

Worked Examples

Example 1: Side A bats until 3.45pm, when its innings is closed after receiving 52 overs. Side B will commence its innings at 4.10pm (after tea). The minimum overs it receives is calculated from the notional finish time of 7.00pm. This is 2 hours and 50 minutes. Using Table 1, Side B will therefore receive a minimum number of $17+17+15=49$ overs batting second (in lieu of the original minimum of 43 overs).

Example 2: Side A bats until 4.15pm, when its innings is closed after receiving 52 overs. Side B will commence its innings at 4.40pm (after tea). The minimum overs it receives is calculated from the notional finish time of 7.00pm. This is 2 hours and 20 minutes. Using Table 1, Side B would therefore only receive a minimum number of $17+17+6=40$ overs if this calculation is used. However Side B is entitled to receive a minimum of 43 overs. Therefore the previous calculation is disregarded and Side B receives a minimum of 43 overs.

Example 3: (To be used as a model only where an interruption in progress continues beyond the end of the innings of the side batting first and extends into the time allocated for the side batting second). The match starts on time but there is an interruption towards the end of the innings of Side A batting first of 75 minutes in total (after deducting a tea interval of 25 minutes) which commences at 3.45pm after Side A has received 47 overs. The minimum overs for the entire match is therefore reduced by 20 overs (75 minutes divided by 7 minutes $=10 \times 2=20$ overs lost from the original minimum of 95 overs to be bowled) to 75 overs. In a 75 over match, Side A, batting first, would only be entitled to receive 42 overs. As Side A has already exceeded this allowance, the innings of Side A batting first is automatically closed and Side B batting second (allowing for the tea interval of 25 minutes) will start batting at 5.25pm and receive a minimum of 33 overs in return. (If Table 1 above was used the minimum number of overs Side B would receive would be only be $17+10=27$ overs as playing time left from the notional finish time of 7.00pm is 1 hour and 35 minutes. As the previous calculation produces more overs this calculation is disregarded).

OVER RATES AND CALCULATIONS

- 5.1 All calculations are based on a minimum over rate of 17 overs per hour. Calculations shall be the responsibility of the Appointed Match Umpires in association with the captains. Should there be no Appointed Match Umpires then the captains shall agree on timings and decisions in this respect.

Uncompleted overs

- 5.2 In the event of the closure of the innings of the side batting first during an over in progress, for whatever reason, that over shall not be counted within the minimum overs for the purposes of this Regulation 5.
- 5.3 For the purpose of calculating run rates pursuant to Regulation 4 the number of runs scored shall be divided by the number of legal deliveries received in an innings. A completed over shall be deemed to have contained six legal deliveries irrespective of the number of deliveries actually received.

TEA

- 6.1 A tea interval of 25 minutes shall be taken between innings save where Regulations 6.2 or 6.3 apply.
- 6.2 In the event that the side batting first is dismissed or declares its innings closed before 3.15pm then tea shall be taken at 4.15pm. In the event of an interruption occurring before 4.15pm after the side batting second has commenced its innings, tea shall be taken immediately.
- 6.3 With the agreement of both captains in conjunction with the Appointed Match Umpires, tea may be taken as part of an ongoing interruption.
- 6.4 If tea is taken otherwise than between the innings the interval between innings shall be 10 minutes and this period shall be ignored for the purposes of calculating the minimum number of overs that the side batting second is entitled to receive.
- 6.5 For the purposes of recalculating the remaining overs after an interruption, if tea is taken during an interruption, the duration of the interruption shall be reduced by 25 minutes.

DRINKS

7. A drinks interval may not be taken after the commencement of the final scheduled 20 overs of that side's innings.

Section E - Match Regulations - Limited Overs and League Cup Games

GENERAL

1. The Laws of Cricket shall apply except as provided for in these Match Regulations Limited Overs and League Cup Games.

TIME OF MATCHES

- 2 All matches shall commence at 1.00pm save for matches starting on or after 18 August when the starting time shall be 12.30pm.

DURATION OF INNINGS

- 3.1 The maximum length of an innings shall be 45 overs.
- 3.2 If the side fielding first shall not have bowled 45 overs within the allotted time of three hours (180 minutes) the umpires shall indicate to the fielding side how many overs have been completed at the expiration of the allotted time (adding the current over if in progress) and this will be the number of overs the team batting second shall receive. The innings of the side batting first shall continue until the maximum allowance of 45 overs has been bowled or the team dismissed.

INTERRUPTIONS

- 4.1 Except where Regulation 4.2 applies, in the event of a delay in commencement of a match for any reason, the maximum length of each innings shall be reduced by deducting one over from each innings for each 8 minutes or part thereof lost.
- 4.2 In the event of a delayed start of a match of not more than 30 minutes in total, Regulation 4.1 shall not apply.
- 4.3 If a match is reduced in accordance with Regulation 4.1, the maximum number of overs a bowler may bowl shall be reduced proportionately, as directed by the umpires before play begins. The minimum number of overs in an innings required to constitute a match shall be twenty overs per side, with no bowler bowling more than four overs. The time limits to bowl the revised number of overs as provided for in Regulation 3 will also be reduced in proportion accordingly.
- 4.4 In the event of inclement weather interrupting the match once it has started, the innings of the side batting first shall remain at the maximum length of 45 overs (or any lesser number of overs calculated in accordance with Regulation 4.1) and the maximum number of overs the side batting second may face shall be reduced by one over for every 4 minutes or part thereof lost due to the interruption. If the aggregate maximum number of overs available to the side batting second is less than 20 overs, the match shall be treated as abandoned unless the side batting second elects to continue the match in accordance with Regulation 4.6.
- 4.5 In the event of the reduction of the maximum number of overs to be bowled in the innings of the side batting second in accordance with Regulation 4.4, the target of the side batting second shall be determined as follows: -
 - 4.5.1 The "2nd innings run rate" shall be determined immediately prior to the start of the innings of the team batting second using the following formula:-
$$(100 + \{d \times 1.2\}) \times (1st \text{ innings run rate}) \times (1 / 100)$$
Where d = difference in overs to be played at the commencement of the innings of the team batting second.
$$1st \text{ innings run rate} = (1st \text{ innings score}) \div (\text{number of overs allocated to the team batting first})$$
 - 4.5.2 The run rate of both the first and second innings shall be calculated to two decimal places.
 - 4.5.3 The run rate shall be agreed by both captains and umpires prior to the start of the innings and once agreed shall be final.
 - 4.5.4 Once the run rate for the second innings has been calculated it shall remain as the run rate for that innings even though a later interruption may reduce the number of overs the team batting second can receive.
 - 4.5.6 If the second innings commences with the same number of overs as allocated to the team batting first the run rate shall remain as the first innings run rate even though a later interruption may reduce the number of overs the team batting second can receive.

- 4.5.7 The target score shall be then calculated by multiplying the run rate with the lowest reduced number of overs that the team batting second shall be entitled to receive after making allowance for time lost after the commencement of the match.
- 4.5.8 If the score of team batting second surpasses the target score at any time prior to the conclusion of its innings then the match shall be won by the team batting second but if bowled out earlier the match shall be won by the team batting first. When less than 20 overs have been bowled in the 2nd innings play must be in progress for a revised target score to become effective and for a result to be achieved using this revised target score.
- 4.6 In the event that the side batting second elects to continue the match in accordance with Regulation 4.4 the maximum number of overs then available to be bowled shall be calculated in accordance with Regulation 4.4 but the target shall remain set at the total number of runs required as if the maximum number of overs available was twenty and calculated in accordance with Regulation 4.5. Once the side batting second has made an election to continue the game this will be treated as irrevocable, save in the event of further interruption to play.

TEA

5. A tea interval of 25 minutes will be taken between innings with the exception that if the innings of the side batting first is completed in fewer than 30 overs there shall be an interval of 10 minutes and tea shall be taken at such time as agreed between the captains or failing agreement as determined by the Umpires.

MATCH BALLS

6. A new ball shall be used at the start of each innings.

BOWLING LIMITS

- 7.1 No bowler may bowl more than nine overs in any match.
- 7.2 If the duration of a match is reduced in accordance with Regulation 4.4 above following an interruption after the commencement of the match, the maximum number of overs that any one bowler may deliver shall be reduced by one over for each complete set of five overs lost due to interruption(s).
- 7.3 In the event that a bowler is unable to complete an over due to injury, the remaining balls shall be bowled by another bowler eligible to bowl under the Laws of Cricket, the ECB Directive regarding young bowlers and these Match Regulations. Such part of an over will count as a full over in respect of the bowling limit for each bowler.

WIDES AND NO BALLS

- 8.1 The umpires are required to interpret strictly the Law on wide bowling.
- 8.2 A batsman shall not be able to turn an otherwise legitimate ball into a wide by moving to either the off or leg side. Any ball which would have struck the batsman, had he not moved, shall not be called a wide. This interpretation shall apply even if the batsman takes guard outside the line of either the off or leg stump.
- 8.3 Any ball passing over the batsman's head when taking normal guard shall be called 'No Ball' by the bowler's end umpire.

FIELDING RESTRICTIONS

9. The following fielding restrictions shall apply to all Premier Division (1st and 2nd XI) limited overs league matches and the League Cup Final and 20/20 Finals Day matches irrespective of the divisions in which the participating sides play.
- 9.1 Two semi-circles shall be drawn on the field of play. The semi-circles shall have as their centre the middle stump at either end of the pitch. The radius of each of the semi-circles shall be 30 yards. The ends of each semi-circle shall be joined to the other by a straight line drawn on the field on the same side of the pitch. The field restriction area should be marked by white plastic or rubber (but not metal) discs.
- 9.2 At the instant of delivery, there may not be more than five fielders on the leg side.
- 9.3 During the whole of each innings, no more than five fielders shall be permitted outside the field restriction area referred to in 9.1 above at the instant of delivery.

- 9.4 In the event of an infringement of any of the above fielding restrictions, the Umpire at the striker's end shall call and signal 'No Ball'.
- 9.5 In the event of the striker's end umpire failing to call and signal 'No Ball' when the fielding restrictions in this Regulation have been breached or when Law 41.5 has been breached (at the point of delivery, not more than two fielders other than the wicketkeeper shall be behind the popping crease on the on side), immediately the ball becomes dead the striker may draw the matter to that umpire's attention. If the striker's end umpire is able to verify the breach, he shall call and signal 'No Ball'. If the striker's end umpire is unable to verify the breach then he shall confirm that the events of the delivery shall be unchanged.

20/20 LEAGUE CUP PLAYING REGULATIONS

GENERAL

1. The Laws of Cricket shall apply except as provided for in these 20/20 League Cup Playing Regulations.

TIME OF MATCHES

- 2.1 Unless subject to a late start as a result of inclement weather, all evening group matches' play shall commence at 5.45pm with the first innings ending no later than 7.05pm. The second innings shall commence no later than 7.15pm and be completed by 8.35pm.
- 2.2 In the event that one side is not ready to commence play by 5.45pm, for every complete four minutes delay from the original start time that side shall have deducted one over from the overs it would have received whether it be batting first or second.
- 2.3 In the event of matches arranged at times other than in the evening the conditions regarding the duration of matches as prescribed in clauses 2.1 and 2.2 above shall apply with times adjusted to suit the designated commencement of play.

DURATION OF INNINGS

- 3.1 The maximum length of each innings shall be 20 overs.
- 3.2 Save in the case of interruptions in play due to inclement weather, serious injury, frequent lost balls or any other cause, in the opinion of the umpires beyond the control of the fielding side:
- 3.2.1 If the side fielding first shall not have bowled 20 overs within the allotted time of one hour 20 minutes (80 minutes) playing time as prescribed in Playing Regulation 2 above, the umpires shall indicate to the fielding side how many overs have been completed at the expiration of the allotted time (adding the current over if in progress) and this will be the number of overs the team batting second shall receive. The innings of the side batting first shall continue until the maximum allowance of 20 overs has been bowled or the team dismissed.
- 3.2.2 In the event of the side fielding second failing to have bowled 20 overs within the allotted time of one hour 20 minutes (80 minutes) the umpires, allowing for the current over in progress at the expiration

of the allotted time, will add to the score of the batting side second six penalty runs for each over(s) not started. This penalty will be added immediately to the score of the side batting second. Should the total score of the side batting second at that stage exceed the total score of the side that batted first, then the match will be at an end.

- 3.3 The umpires shall have sole discretion as to the interpretation and implementation of this Playing Regulation 3.

INTERRUPTIONS

- 4.1 In the event of a delay in commencement of a match owing to inclement weather, the maximum length of each innings shall be reduced by deducting one over from each innings for each eight minutes or part thereof lost.
- 4.2 If a match is reduced in accordance with Playing Regulation 4.1, the maximum number of overs a bowler may bowl shall be reduced proportionately, as directed by the umpires before play begins. The minimum number of overs in an innings required to constitute a match shall be ten overs per side, with no bowler bowling more than two overs. The time limits to bowl the revised number of overs as provided for in Playing Regulation 3 above will also be reduced in proportion accordingly.
- 4.3 In the event of inclement weather interrupting the match once it has started, the innings of the side batting first shall remain at the maximum length of 20 overs (or any lesser number of overs calculated in accordance with Playing Regulation 4.1) and the maximum number of overs the side batting second may face shall be reduced by one over for every complete four minutes lost due to the interruption(s), subject to the provisions of Playing Regulation 4.2 regarding the minimum number of overs required to constitute an innings. Playing Regulation 6.1 below shall apply in these circumstances.
- 4.4 In the event of the reduction of the maximum number of overs to be bowled in the innings of the side batting second in accordance with Playing Regulation 4.3, the target of the side batting second shall be determined by dividing the number of runs scored by the side batting first by 20 overs (or any lesser number of overs calculated in accordance with Playing Regulation 4.1) and multiplying the product by the number of overs the side batting second may receive, rounding up the resultant figure to the nearest whole run.

MATCH BALLS

- 5.1 Matches in the group stages of the Competition must be played with two new balls of the same make and colour provided by the home club, with a new ball being used at the start of each innings.
- 5.2 The balls for Finals Day shall be provided by the League at its own expense which shall be used as prescribed in Playing Regulation 5.1 above.

BOWLING LIMITS

- 6.1 No bowler may bowl more than four overs in any match. If the duration of a match is reduced in accordance with Playing Regulation 4.3 above, the maximum number of overs that a bowler may deliver remains unaltered.
- 6.2 In the event that a bowler is unable to complete an over due to injury, the remaining balls shall be bowled by another bowler eligible to bowl under the Laws of Cricket. Such part of an over will count as a full over in respect of the bowling limit for each bowler.

WIDES AND NO BALLS

- 7.1 The umpires are required to interpret strictly the Law on wide bowling.
- 7.2 A batsman shall not be able to turn an otherwise legitimate ball into a wide by moving to either the off or leg side. Any ball which would have struck the batsman, had he not moved, shall not be called a wide. This interpretation shall apply even if the batsman takes guard outside the line of either the off or leg stump.
- 7.3 Any ball passing over the batsman's head when taking normal guard shall be called 'No Ball' by the bowler's end umpire.

TIMED OUT

8. The incoming batsman must be in a position to take guard or for his partner to be ready to receive the next delivery within 1 ½ minutes of the fall of the previous wicket or if not upon appeal the incoming batsman will be 'Timed Out' in accordance with the Laws of Cricket.

RESULT

Group Matches

- 9.1 Subject to the provisions of Playing Regulation 4.4 above, the side that scores the most runs in a match shall be the winner of that match.
- 9.2 In group matches, group table points will be awarded as follows:
- | | |
|-----------|----------|
| Win | 4 points |
| Tie | 2 points |
| Loss | 0 points |
| Abandoned | 1 point |

A tie will be awarded when the side batting second equals the score of the side batting first irrespective of the number of wickets lost by both sides.

- 9.3 The order of sides in the group tables shall be determined by the total number of points obtained. If there are two or more sides with the same number of points, preference shall be given firstly to the side with the superior average run rate per over in all group matches. For the purpose of calculation, if a side has been dismissed before it has received its full allocation, then its run rate in that innings will be calculated as if it had received its full allocation in that innings. If still equal, preference shall be given to the side which had the better result in the match between the sides in question. If still equal the final order of the group table shall be determined by the drawings of lots carried out by the Secretary.

Finals Day

- 9.4 On Finals Day, in the event of a tie, the winner shall be determined by a bowl out supervised by the Umpires and bowled in accordance with the Laws of Cricket. Five players shall be nominated and each shall bowl two balls at a full set of unguarded stumps. In the event that, on completion of this process, the stumps have been broken an identical number of times by both sides, further players must be selected to bowl on a 'sudden death' format.

Section H - Disciplinary Code

INTRODUCTION

This code has been developed using the model code of conduct and disciplinary procedures published by ECB. The code incorporates the Spirit of Cricket, as set out below. It applies to all matches played under the auspices of the League.

It is intended that any breach in the first instance be dealt with by the player's club which must take initial action in respect of a complaint within seven days of notice of complaint or breach and shall notify the League Secretary of the result of any action taken against its player within that time.

The guidance for penalties set out in ECB Premier League Disciplinary Regulations 2014 (*see Table on page 93*) shall be strictly adhered to save in exceptional circumstances approved by the Chairman of the Disciplinary Committee. If a suspension from playing is imposed the decision of the Disciplinary Committee, or the Club in consultation with the Chairman of the Disciplinary Committee, as the case may be, shall specify the dates of the matches for which the suspension is to apply, which dates shall run consecutively from the league fixture next to take place for the side in which the offender shall ordinarily play.

The following is an extract from the 2000 Code of the Laws of Cricket (2003 changes):

'THE PREAMBLE -THE SPIRIT OF CRICKET'

Cricket is a game that owes much of its unique appeal to the fact that it should be played not only within its Laws, but also within the Spirit of the Game. Any action which is seen to abuse this spirit causes injury to the game itself. The major responsibility for ensuring the spirit of fair play rests with the Captains.

1. There are two Laws which place the responsibility for the team's conduct firmly on the Captain.

Responsibility of the Captain

- 1.1 Captains are responsible at all times for ensuring that play is conducted within the Spirit of the Game as well as within the Laws.

Fair & Unfair Play

- 1.3 According to the Laws, the umpires are the sole judges of fair and unfair play. The umpires may intervene at any time, and it is the responsibility of the Captains to take action where required.

 - 1.5.2 Your own captain and team
 - 1.5.3 The role of the umpires
 - 1.5.4 The game's traditional values
- 1.6 It is against the Spirit of the Game:
 - 1.6.1 To dispute an umpire's decision by word, action or gesture

 - (i) appeal knowing the batsman is not out
 - (ii) advance towards an umpire in an aggressive manner when appealing

- (iii) seek to distract an opponent either verbally or by harassment with persistent clapping or unnecessary noise under the guise of enthusiasm and motivation of one's own side.

Violence

- 1.7 There is no place for any act of violence on the field of play.

Player's Responsibility

- 1.8 Captains and umpires together set the tone for the conduct of a cricket match. Every player is expected to make an important contribution to this.'

- 1.9 Failure to comply with any of the above provisions may lead to disciplinary action irrespective of an alleged breach being related to a match not under the jurisdiction of the League.

CODE OF CONDUCT

- 2.1 The League is committed to maintaining the highest standards of behaviour and conduct.
- 2.2 Captains are responsible at all times for ensuring that play is conducted within the Spirit of Cricket as well as within the Laws of Cricket and the Playing Conditions and this Code of Conduct.

Clubs must operate an active open door membership policy whilst respecting player qualification regulations and welcome players/members irrespective of ethnic origin.

- 2.8 Member Clubs must take adequate steps to ensure the good behaviour of their members and supporters towards players team officials and spectators from opposing clubs and umpires.

Additional Code of Conduct

- 2.9 Notwithstanding the provisions of the Playing Conditions and this Code of Conduct, it shall be a disciplinary offence for any player in the course of or in connection with a match or in the conduct of League business to misconduct himself or to act at any time in a manner calculated to prejudice the good name or interests of the League or the continued support of the sponsors of the League.

Fuller's Brewery Surrey County League

Ground and Facility Standards for Member Clubs and Applicants

INTRODUCTION

The criteria below form the basis of marking grounds for those clubs already in the League and those clubs seeking to join the League. Members of the Executive Committee will visit clubs from time to time to assess facilities and standards as necessary. In addition, clubs must demonstrate sufficient security of tenure and control over their ground to enable League matches to be played on the dates stipulated by the League from season to season. As a guide, failure to secure a score of 75% overall in any section may prejudice the chance of promotion into the Surrey Championship should the opportunity arise. Marks under 60% in any section will result in the League requiring urgent action to rectify the shortcomings. The result of any assessment should not be taken as a guarantee of acceptance by the Surrey Championship who will undertake their own assessment of clubs qualifying for promotion as appropriate at the time. Assessments apply to club's main ground and facilities only.

The Square

The square must show evidence of good maintenance throughout the year, show a good growth of high quality grass, be free of weeds and undue amounts of thatch and other growth detrimental to true performance, be flat and show evidence of regular rolling, and, for match days, be properly prepared, and marked in accordance with the current laws of cricket. Assessors will look for consistent bounce and equitable performance characteristics. Artificial pitches are not allowed for League matches, but where they are built into a square that is being used they must be well maintained especially at their borders with the main square. The square must be large enough to accommodate all League fixtures concerned and used strips must be adequately repaired. The pitch markings should be repainted between innings and a roller should be available for use during a match according to the laws. Attention should be given to the whole square on match days and its borders with the outfield should be even.

Clubs are encouraged to have adequate covers to protect at least the pitch in use in inclement weather. Full roll on roll off covers protecting the pitch and the bowlers run-ups, and efficiently drain the water collected, are preferred.

The Outfield

The outfield must be well maintained and, for match days, closely mown to provide the best possible fielding surface and ensure free ball movement. It should be kept free of stones, holes and wide cracks, animal excrement and other hazards. All grass cuttings should be removed. Persistent bare patches should be repaired. Every attempt should be made to ensure drainage is effective and uniform. The boundary should be defined by a continuous mark be it a structure, white line, or preferably a rope; intermittent markers at approximately 18 metre (20 yard) intervals are required where they indicate the location of a white line or rope but are not deemed sufficient by themselves. The boundary line, however marked, should be as straight and uniform as possible. For the purposes of player safety, the boundary line should, where feasible, be kept 2 metres (2 yards) short of walls, fences or other permanent structures.

Spectators and watching players should be able to walk around the playing area without encroaching on it.

A minimum distance of at least 41 metres (45 yards) from wicket to boundary is considered desirable.

Ground Equipment

Clubs should own or have access to efficient ground maintenance equipment that can be inspected and kept in a lockable shed where appropriate. Where this work is outsourced, assessors will require details of equipment used and frequency of use.

Sightscreens of adequate dimension, in good condition and painted or faced in an even pale colour, should be positioned at each end of the ground. They should be in position at the start of play and capable of being easily moved as required. It is preferable for sightscreens to be positioned outside the normal field of play. If they are not, a temporary boundary line, or rope and markers must be used to re-define the boundary around the sightscreens. Additional sightscreens of sufficient size and number to avoid constant movement during play are encouraged.

A good quality set of stumps should be used and be in position before the start of play. Bails, bowling markers and umpires coats should be available; sufficient replacements for these items should be on hand. Sawdust and towels should be available in sufficient amounts in the event of inclement weather.

A scoreboard that clearly shows the running total of the batting side, wickets fallen, first innings total and overs bowled/to be bowled must be prominently displayed close to the boundary edge and clearly visible to all players and officials. All numerals must be capable of being altered without delay. Scorers should sit together where they can be easily identified by the umpires during the match. A scorebox providing at least the same information as a scoreboard, is preferred and must be of adequate size, tidy, and fitted with sufficient tables and chairs. Electronic style scoreboards which are remotely operated are an acceptable alternative provided the scorers are familiar with the operation of such equipment.

An accurate working clock either permanently positioned or capable of being fixed in a suitable position, must be easily visible to players, officials and scorers throughout the match.

The provision of practice nets is encouraged and, where provided, these must be kept in good and safe condition. They should be available for use by both teams before the match.

It is recommended that a bell is available to signal the start and resumption of play.

Pavilion & Bar

The pavilion should be adjacent to the field of play, be clean and have adequate facilities for players, supporters, and families, including tables and chairs. For the benefit of players and supporters, an external seating area is encouraged. The bar must be kept clean and tidy throughout the day and empty glasses regularly cleared to a safe place. Toilets provided for non-playing personnel should be suitably signposted and are best separated from the changing and shower areas. Disabled access and suitable toilets for the disabled are encouraged.

Clubs employing bar or catering staff should display a current 'Employers' Liability Certificate of Insurance.' Clubs should also hold Public Liability Insurance for a realistic figure.

Changing Rooms, Showers, Toilets

Changing rooms should be of an adequate size of approximately 20 sq m (215 sq ft) in area, and be clean with adequate seating, clothes pegs, and space for bags, and a mirror. Each team should be able to lock their individual changing room and retain the key during the hours of play.

Every attempt should be made to provide umpires with a separate lockable changing room and shower facilities.

The shower area must be clean with a non-slip floor and a minimum of four showerheads providing temperature-adjustable hot water in an area that conforms to Health and Safety Regulations. Numbers of showerheads over and above the minimum stated above are desirable with separate dedicated showering facilities for home and visiting sides preferable.

Toilets must be clean, well stocked with toilet requisites, and with an adjacent wash-basin, soap and towel/hand-dryer; they must be well separated from the shower area and there must be separate ladies facilities.

Catering

Any kitchen and kitchen equipment should comply with Health and Safety Regulations. Clean crockery and cutlery in sufficient amounts should be set out on clean tables with sufficient seating for players, umpires, scorers and other officials. Food should be of reasonable quality and provided in adequate amounts; it should be fresh and not allowed to stand in the open, without cover, for any length of time. There must be the facility to serve cold drinks to players during hot weather.

Cold drinks should be made available as well as tea. The provision of refreshment to scorers and supporters during play is encouraged.

Other Matters

A well-stocked First Aid Kit must be available at all times and its location known and identified by signs. Clubs are encouraged to ensure that a number of their membership become trained in basic First Aid skills.

Clubs should have a Notice Board in a prominent position where League results, and notices should be posted together with directions to local hospitals. A public telephone should be available and its position signposted.

Clubs must appoint a Welfare Officer who will be DBS (Disclosure and Barring System) cleared to deal with issues involving young people. All coaches must be DBS cleared for similar purposes.

Adequate off road car parking is important and this should be provided within the confines of the ground wherever possible.

Clubs should ensure that their ground is well signposted if possible from the nearest main road to assist visitors to the ground.
