					<p>isolation guidelines and not attend the coaching session. If symptoms develop on SCC premises, report immediately to the Appointed Leader and that person must leave the premises having minimal contact with others. The Appointed Leader is to contact a parent or guardian to come to collect a player if they are under age.</p> <p>The Club House welfare facilities must not be used. Toilets must not be used. Players are to use their own toilets prior to coming for the one hour session. Players must bring their own water and food.</p> <p>Hand sanitisers will be provided by the SCC. Players are also encouraged to bring their own hand sanitisers.</p> <p>Report any issues to Appointed Leader ASAP.</p> <p>Signs reminding people of 2 metre social distancing should be on display around the training areas.</p> <p>Rear entrance to SCC is only means of access and egress. Main entrance is closed.</p> <p><b><u>Running net sessions</u></b>            Maintain social distancing requirements and remain 2 metres away from each other and coaching staff members at all times.</p> <p>Net sessions must be a maximum of 4 players and must be supervised by an additional Appointed Leader.</p> <p>Players must follow the Appointed Leaders instructions at all times. Only 1 player in the net at any time. Players must wait in the marked out boxes. Players must stop every 15 minutes to wash hands using hand sanitiser.</p> <p>Players must use their own equipment in nets.</p> <p>After 50 minutes players must stop and clean their own equipment including balls. Once session is over players are to leave the premises and are not permitted to wait around for other players.</p>

## Sunderland Cricket Club Covid-19 Risk Assessment

### APPENDIX 1. INSTRUCTIONS FOR USE

1. Each hazard must be assessed and qualified for the likelihood of harm occurring and the severity of any injury or illness so caused. The numeric assessments are then multiplied to achieve a risk rating for each of the hazards identified.
2. Likelihood of Harm (L): Unlikely = 1; May happen = 2; Likely = 3; Very likely = 4; Certain = 5
3. Severity of Harm (S): First aid injury or illness = 1; Minor injury or illness = 2; 3-day injury or illness = 3; Major injury or illness = 4; Fatality, disabling injury, etc. = 5
4. With a Likelihood of Harm rating of 5 and an Initial Risk Rating of over 4 then controls should be implemented to reduce the degree of risk. A Post Control Risk Rating of 12 or over will result in an immediate cessation of work until the risk is reduced.
5. If operations are likely to affect pedestrians or the safe operation of a public transport, the control measures must reduce the likelihood of significant harm to the level that existed before our work commenced.

**Risk Rating Matrix**

Likelihood of Harm (L)	Certain	5	5	10	15	20	25
	Very Likely	4	4	8	12	16	20
	Likely	3	3	6	9	12	15
	May Happen	2	2	4	6	8	10
	Unlikely	1	1	2	3	4	5
			1	2	3	4	5
			First Aid Injury or Illness	Minor injury or Illness	3-day Injury or Illness	Major Injury or Illness	Fatality, disabling injury, etc.
			Severity of Harm (S)				

**Risk Rating Table**

Score	Priority	Action
1-4	LOW	This represents a low risk although the control measures must be maintained
5-10	MEDIUM	Action required soon to control the risks. Interim measures may be necessary in the short term.
12-25	HIGH	Action required urgently to control the risks. Further resources may be needed

#### Hierarchy of Controls

1. Eliminate
2. Substitute
3. Engineering Controls
4. Administrative Controls
5. Personal Protective Equipment
