1 THE SHOW

PISCINA BARCELONA CONSOLIDATES ITS LEADERSHIP IN EUROPE

In 2025, with the visits of **17,481 trade attendees** and **428 exhibitors from 30 countries**, the show strengthened its leading position as the most international European platform for the pool, wellness and outdoor industry, in an edition marked by growth and innovation.

The general mood of satisfaction among exhibitors and attendees reflected the sector's dynamism and good state of health. **70% of the exhibiting companies and 60% of the attendees were from abroad**, confirming the show's global character.

The **outdoor sector** was added as a core element to Piscina Barcelona 2025, reflecting the link between the design of outdoor spaces and the world of pools and wellness. The central space that made this connection visible was the Outdoor & Wellness Experience showroom, which recreated a wellness centre in a 1,000 m² Mediterranean garden, combining spa, saunas, treatment booths and a fully furnished and equipped outdoor area.

At the same time, **more than 30 talks and technical seminars** covered topics such as sustainability, digital transformation and the growth of the sector.

The business opportunities in strategic markets stood out as a new development, with success stories presented in the technical seminars **"Mexico Day"** and **"Andalusia Day"**. The meeting on **hotel investment in pools and wellness**, organised by Cushman & Wakefield, and the **interior design meeting** were well received as indispensable for specialised studios, where the latest innovations and

trends in solutions for the sector were showcased, organised by Grupo Vía.

The show was also the venue for the talks of the **13th Barcelona International Landscape Biennial**, organized by the Official Association of Architects of Catalonia and the Universitat Politècnica de Catalunya, in addition to the conference of the Spanish Association of Landscape Architects and Rain Bird, focused on **the smart use of water in green spaces**.

Piscina Barcelona, as always with innovation, sustainability and the connection of the entire sector with fundamental issues, was held in conjunction with **ASOFAP**, the Spanish Association of Pool Sector Professionals.

2 VISITORS THE FLAGSHIP EVENT FOR THE TRADE

Piscina Barcelona brought together **17,481 professionals**, which represented a **growth of 20%** on the 2023 edition.

The solid connection with Europe, Latin America and strategic markets such as the Middle East, together with the attractiveness of the Spanish market – ranked second in Europe and fourth worldwide in number of swimming pools – were key to attracting companies and professionals from all over the world.

”

Piscina Barcelona is a major international fixture in the pool sector. The show reflects the main advances in the market, especially in technology, sustainability, energy efficiency and solutions that facilitate the use and management of installations.

Dario Vicario

Vice-president and General
Manager Europe at HAYWARD

2.1 HOSTED BUYERS AND INTERNATIONAL DELEGATIONS

The show consolidated its position as a highly valuable business platform thanks to its strategic connection with Europe, the Mediterranean and Latin America. It brought together buyers and decision makers from these geographical regions with specific projects related to design, construction and equipment for aquatic installations and wellness centres.

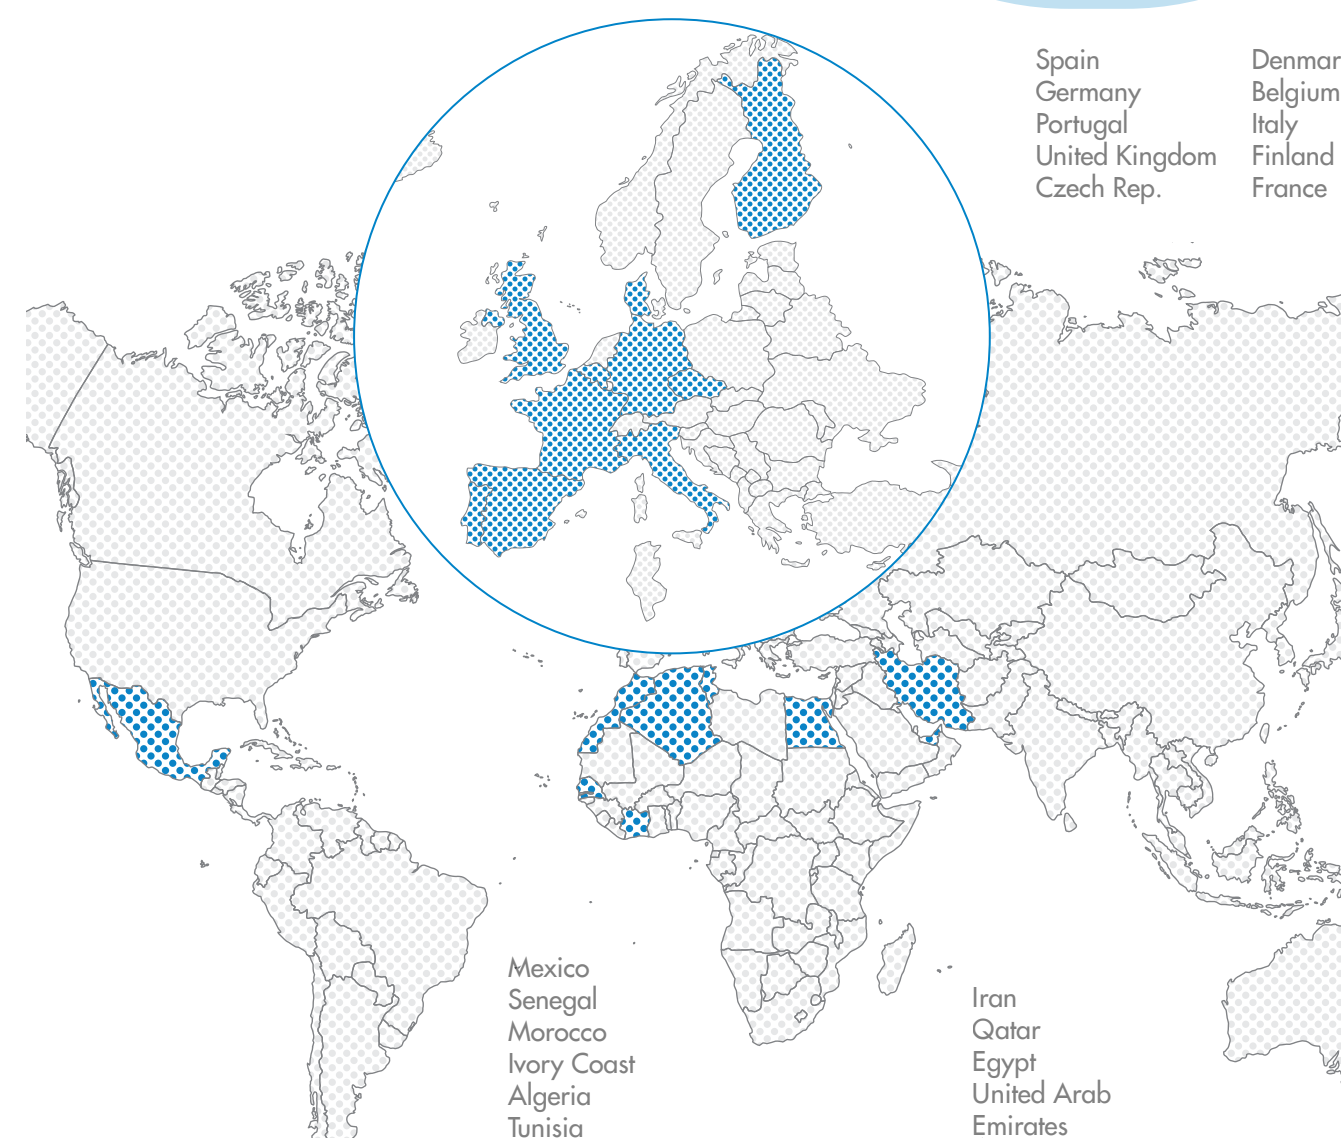

Once again, the ambitious Hosted Buyers Programme was a high-profile event, through which more than **1,300 buyers** and **decision-makers** from **20 strategic markets**, as well as Spain, all of them with great potential as export destinations for the sector.

”

I was impressed by the level of the market and the diversity of projects. The show demonstrated how the pool goes further than leisure, integrating itself in wellness and people's lives, and connected with trade professionals from all over the world.

Vanessa Ortega

Interiors manager in
SORDO MADALENO

2.2 VISITOR PROFILE

PROFESSIONAL AND INTERNATIONAL GEARED TOWARDS INNOVATION

60% of the visitors were from abroad. The international dimension achieved record figures, with representative from more than 100 countries. The ten with the largest presence were **Spain, France, Italy, Portugal, Belgium, the United Kingdom, Poland, Greece and Germany.**

There was a wide diversity of profiles among the attendees, reflected in the interest shown by the various professional sectors in the show.

The increase in decision-makers was due, to a large extent, to the interest in the outdoor sector, which strengthened the relationship between pools, wellness and outdoor design, showing the latest trends in furniture, landscaping and sustainable equipment.

”

It was very interesting to find architects who develop restoration projects for luxury hotels and villas. I especially liked the outdoor section, a market that is on the rise.

Alberto Musso
CEO and General Manager at
SINED

2.3 PROMOTIONAL AND COMMUNICATION CAMPAIGN

The show ran an ambitious communication and promotional campaign with the main aim of reaching different target audiences, attracting new visitors and strengthening its leading position as an international business platform.

The good results from this campaign was reflected in the positive response from all target audiences, the sizeable increase in attendance at the show and the good communication numbers that were garnered.

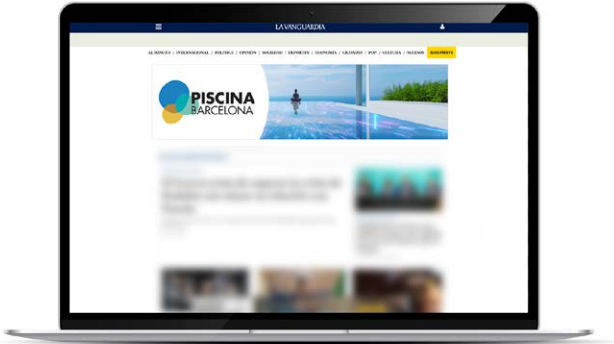

ADVERTISING IN THE GENERAL PRESS

Press campaign in the main national newspapers, both in their printed and digital versions.

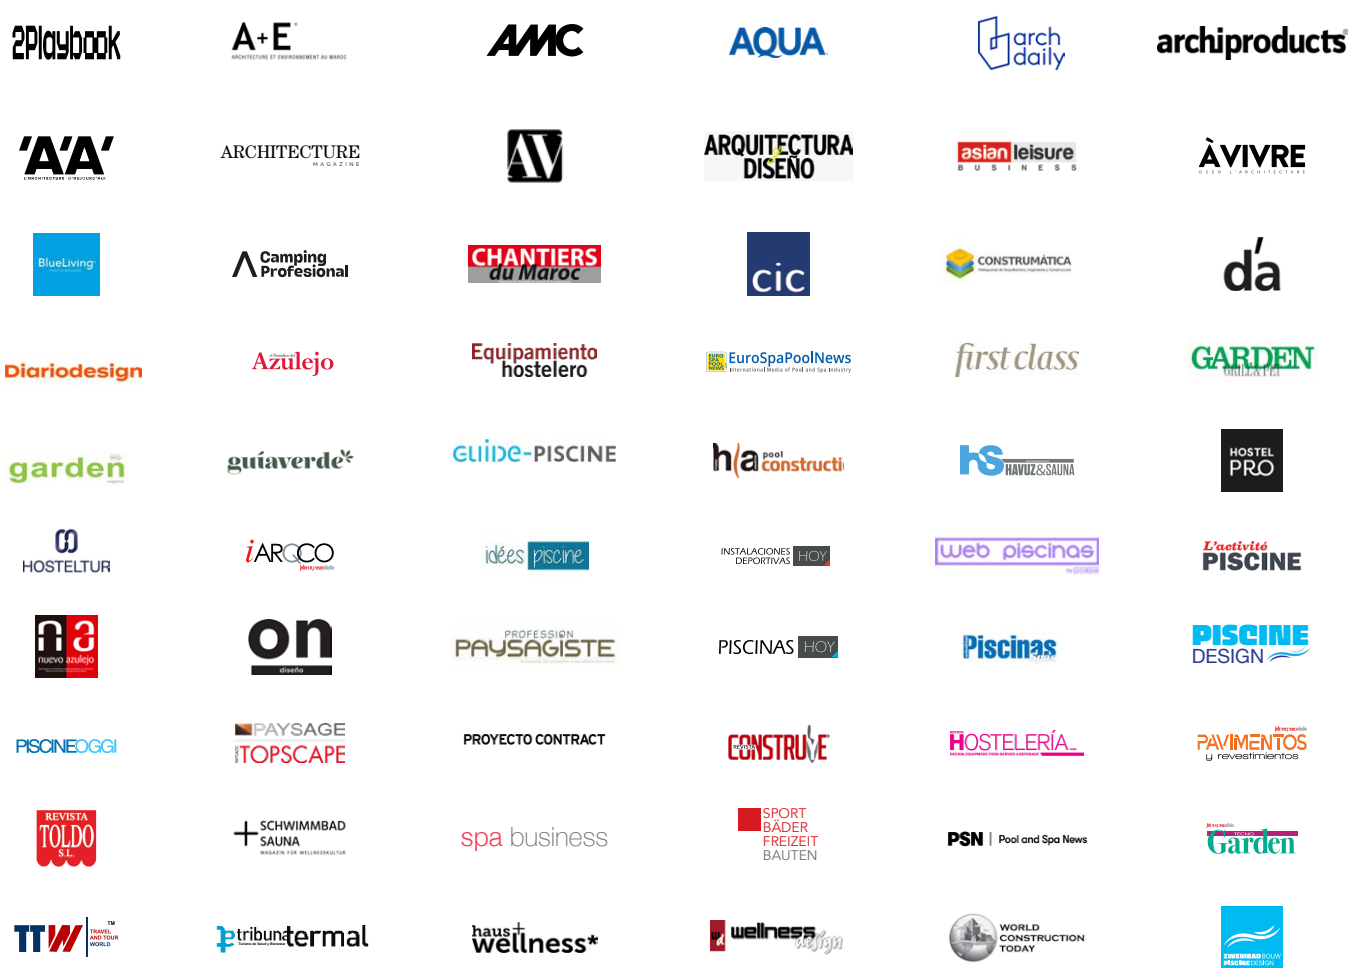

ONLINE ADVERTISING

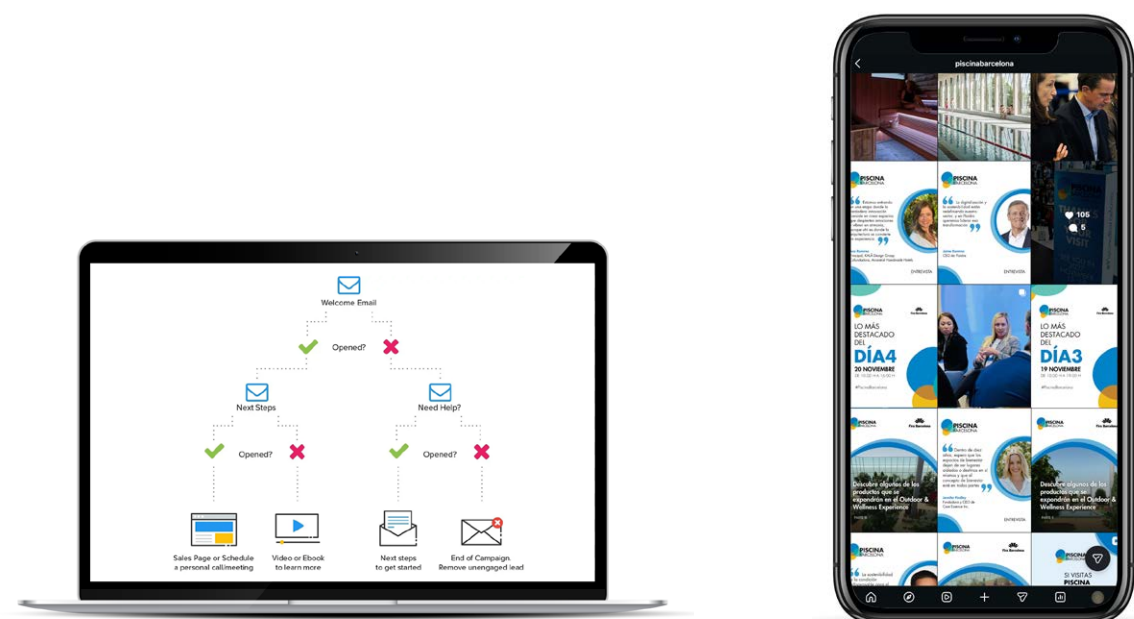

The campaign also reached out to the target audience through multiple Paid Media (SEM, Display, Facebook and Instagram) initiatives, with numerous creatives rotating in accordance with the phase and promotion channel.

ADVERTISING IN THE TECHNICAL PRESS

The communication campaign was reflected in 50 sectoral headlines, demonstrating the impact and cross-cutting nature of the show.

MARKETING EMAIL

During the promotion of the show an intense marketing email campaign was conducted to maintain a continuous flow of communication.

SOCIAL MEDIA

With social media, the main goal was to expand the community and foster participation, thus shoring up a growth trend looking towards the future.

3 EXHIBITION AREA THE SECTOR'S BIGGEST SHOWCASE

The 428 exhibitors from 30 countries reflected the event's strong international character, reaching the highest level of foreign presence achieved so far.

With 70% of the participating companies coming from abroad, the show once again consolidated its position as the most international in its sector in Europe. With 70% of the participating companies coming from abroad, the show once again reaffirms its status as Europe's most international trade fair in the industry.

Piscina Barcelona 2025 showcased the latest solutions to automate maintenance and optimise water and energy consumption, with a special role for artificial intelligence and digitalisation in the equipment and accessories for the operation of swimming pools and wellness spaces.

At the same time, the commitment to the outdoor sector reinforced the link between swimming pool, wellness and outdoor design, presenting trends in furniture, landscaping and sustainable equipment by companies such as Ambiazza, Cerámicas Mayor, Leil Saunas, Conva, Weber, Aatrio by Indalsu, Spa & BBQ Concepts, Tarimatec, Exterpark, Rosa Gres, Catral Garden & Home Depot and Cubiñá, among others.

The show increased its commercial space by 22% compared with the 2023 edition, reaching 45,000 m², and allocated 2 complete halls in which it was possible to see and learn about the latest from leading companies such as Fluidra, Aiper, Hayward, Pnhx, QP Products, Renolit, Aquavia Spa, Beatbot, Maytronics, Missouri, Wybotics, Proteam Europe, Superior Wellness, Aquagem, Aquark, Fairland, Psicontrol, Action Park, Piscinas Condal, Espa, and BWT, to name a few firms present.

Once again, the entire value chain placed their trust in the show, which once again brought together the most innovative and representative commercial offering from the pool, wellness and outdoor sectors in its exhibition area.

For yet another edition, the entire value chain placed their trust in the show, whose exhibition space once again showcased the most innovative and representative commercial offering of pool, wellness and outdoor products.

”

I was impressed by the quality and diversity of what the show had to offer, with outstanding advances in design, wellness. Maintenance technology and water saving. Moreover, it was especially valuable to be able to see the entire water cycle on display in the same space.

Pep Vich
Partner and General Manager
at MSC Arch

3.1 EXHIBITORS

EXHIBITOR PROFILE

The exhibition area brought together more than 726 brands that showcased the most advanced solutions in technology, sustainability and user experience for swimming pools, wellness spaces and the outdoor sector.

The event brought together exhibitors from all over the world, with an outstanding participation from Spain, China, France, Turkey, Italy, the Netherlands, the United States, the United Kingdom, Portugal, the Czech Republic, Germany and Belgium.

Interior furniture and complementary accessories	0.47%

3.2 INDUSTRIES A BOOST OF THE OUTDOOR SEGMENT FOR TOTAL COVERAGE OF THE MARKET

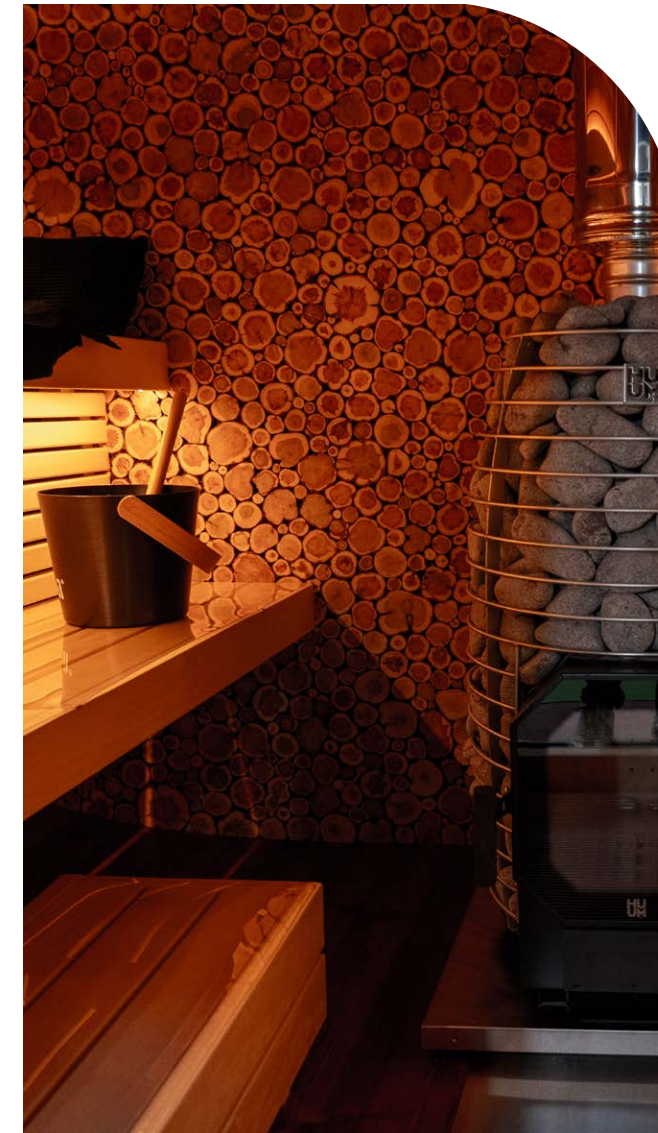

The show added the outdoor sector as a strategic axis, displaying innovations in design and decoration of outdoor spaces that connect the garden and the terrace with the pool universe, and brought together the most innovative offering.

POOL

Represented industries:

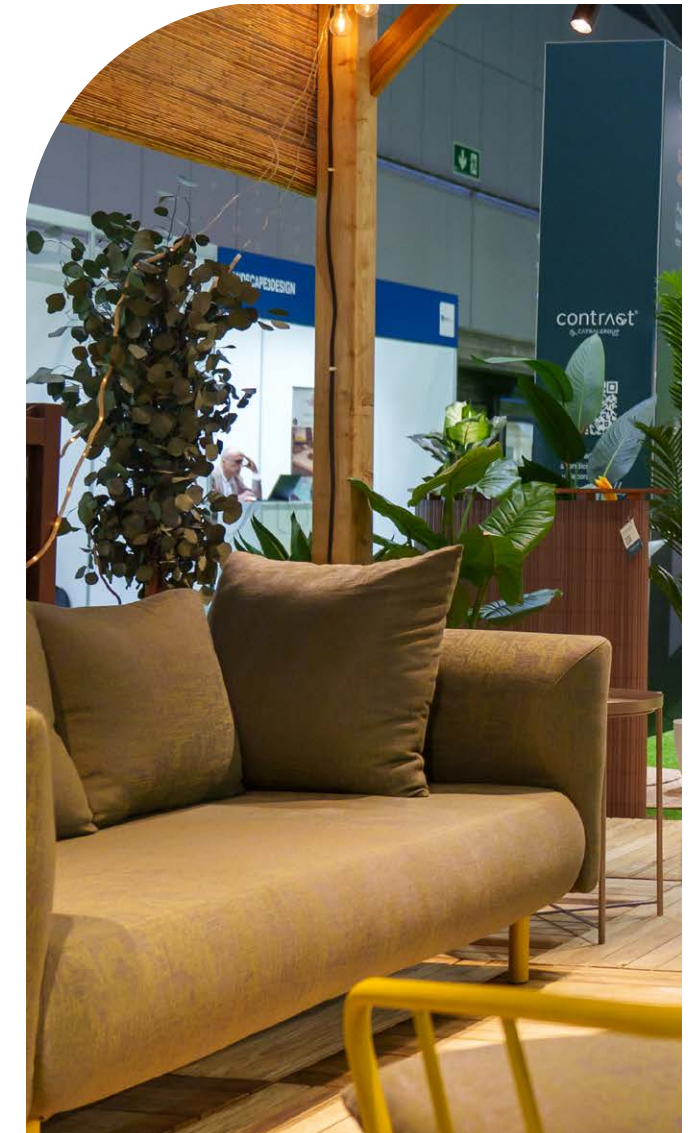

- Prefabricated pool basins
- Pool constructors
- Physical and chemical water treatment
- Lighting
- Coatings, crownings and ornamentation
- Roofing
- Security equipment (barriers, alarms and other equipment)
- Software for the design and management of swimming pools and facilities
- Purification (filters and pumps)
- Control, measurement and handling equipment
- Pool accessories (white goods)
- Installation accessories

WELLNESS

Represented industries:

- Spas
- Hydrotherapy baths
- Solariums
- Saunas
- Fitness
- Service companies (software, management, engineering, architecture, etc.)
- Ancillary installations (apparatology, aromatherapy, etc.)
- Accessories (candles, ornamentation, textiles, etc.)
- Cosmetics
- Lighting
- Interior furniture and accessories

OUTDOOR

Represented industries:

- Outdoor furniture
- Fire pits, fireplaces
- Cooking equipment, grills, and barbecues
- Lighting
- Sunlight protection systems (awnings, parasols, etc.)
- Floors and outdoor paving
- Landscaping and decoration
- Decorative and textile items
- Audiovisual and sound systems

4 OUTDOOR & WELLNESS EXPERIENCE A WELLNESS CENTRE IN A MEDITERRANEAN GARDEN

The nerve centre of Piscina Barcelona was a **1,000m² experiential area unique in Europe** that recreated an authentic wellness centre within a Mediterranean garden where design, innovation and sustainability went hand in hand.

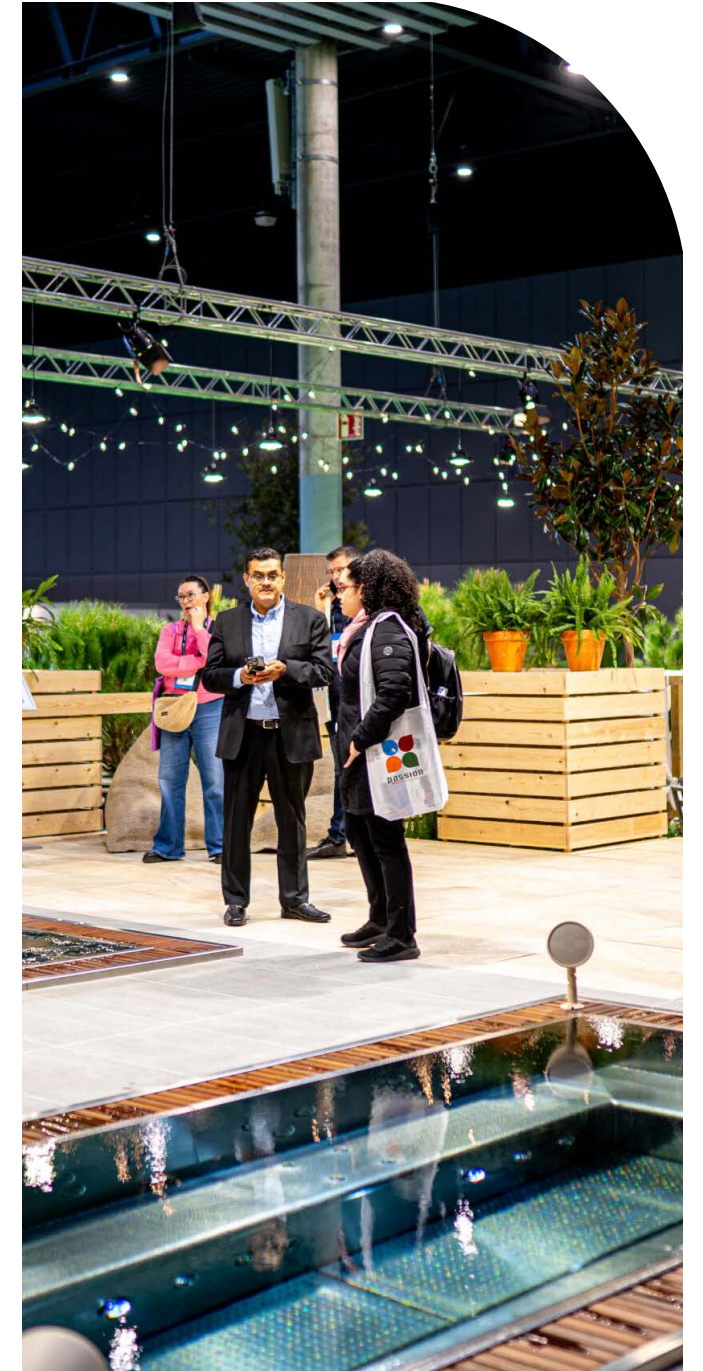

Conceived as a journey through the new **trends in outdoor living and well-being**, this showroom showed how to integrate comfort and aesthetics in gardens, terraces and outdoor spaces with vegetation as the main attraction delimiting the different spaces.

This space was designed by the architect and landscape designer Rosa Maria Torra Reventós, with the collaboration of the Spanish Association of Landscape Architects and the Professional Association of Architects of Catalonia.

”

For both emerging and established businesses, attending Piscina Barcelona is essential to discover innovations, products and services, and learn what is being prepared for the next season. Outdoor, swimming pools and wellness are increasingly related, and the expansion of products linked to swimming pools is excellent.

Gustavo Amorós
CEO, Wet Dreams Piscinas

4.1 SHOWROOM 1,000 M² OF INSPIRATION

Piscina Barcelona recreated a showroom that integrated the design and landscaping of an outdoor space with an equipped and fully operational wellness centre.

An outdoor space was designed and built where vegetation played a leading role, designed to highlight design products and outdoor equipment that stood out for their novelty, creativity, functionality, innovation and sustainability. They included sun loungers, spas, pergolas, lighting, outdoor kitchens, chairs, tables, sofas, artificial grass, fences, showers and pavements, among others.

A real wellness centre was also built, designed with high-end materials and products, which included two booths for demonstrations of natural therapies and massages.

”

Innovation in materials, equipment and design allowed me to learn about the latest trends worldwide, especially in the hospitality and wellness sectors, connecting the guest with unique experiences, including the outdoors. A space such as this is critical to our industry, as it fosters collaboration and inspires us to apply these innovations in our projects.

Pedro Velasco

General Manager and Founder
of MAAT HANDASA

EXTERPARK SUPREME

Designed to redefine durability, aesthetics and performance, it offers beauty and exceptional durability for any environment.

Main features:

- Patented profile with an invisible joint
- Patented Shark installation system
- Can be installed with or without screws
- Installation and disassembly 3 times faster
- Resistant to all kinds of adverse weather, termites and insects
- Low maintenance and pleasant to the touch if barefoot

RENOLIT ALKORPLAN DECKING

It is a non-slip PVC membrane that offers resistance, comfort and total watertightness.

Ideal for walking barefoot in total comfort, its continuous, seamless design guarantees impeccable waterproofing throughout the pool area, and allows you to connect with the inner membrane to achieve a uniform, safe and visually harmonious space.

NINFEA THINY

It combines a refined design with the lightness of the finest ship rope fabric. A unique experience: warm water, air massages, soft cushions and a texture that is pleasant to the touch.

With the optional Living accessory, consisting of modular elements of complete seating with cushions, it will transform any space, whether outdoor or indoor, into a corner of total well-being and relaxation.

FLUIDRA

ANNAPURNA

The ANNAPURNA lattice system is made of Ecofiber Stone Composite, Taremec's exclusive material that combines natural and mineral fibres with high-strength polymers.

It works with all types of architectural projects – lattices, pergolas, room dividers or decorative beams – both indoors and outdoors, and the result is a warm, durable and environmentally friendly surface.

WEBER MODULAR KITCHEN

The modular kitchen combines design, resilience and convenience thanks to its five modules and a central one with a three-burner WEBER GENESIS barbecue. It also features a side burner for cooking with complete versatility.

Configured in an "L" shape, it includes drawers, cabinets and sink, with a Dekton Soke (grey) surface. The dimensions are: 3.49 m long, 78 cm deep and 90 cm high; the vertical side of the "L" measures 214 cm.

ETNA SOFA

It combines elegance and comfort to create irresistible outdoor relaxation corners. Its aluminium structure with a stainless steel finish offers impeccable resilience. The design, with integrated armrests and soft, sloping lines, brings a cosy and relaxed style. Available with 1, 2 or 3 seats, it adapts naturally to any space.

balliu

AATRIO BY INDALSU

XL bioclimatic pergola, with adjustable panels and built-in led lights. Designed to reach up to 7x5 m in extreme conditions. Compatible with vertical enclosing elements, such as the glass slide, a fully translucent vertical enclosure system with various enclosing possibilities and multiple leaves, fully customisable.

ETNA OCCASIONAL TABLE

It stands out for its balanced, contemporary design; the curvature of its frames adds character and distinction. Its reinforced aluminium structure and the resilient HPL board combine solidity and style, offering multiple combination possibilities. True to the spirit of the Etna family, it is the perfect complement to elegant and functional environments.

balliu

CANNES SUN LOUNGER

It stands out for its light and contemporary style, designed to enjoy the sun with maximum comfort. Its reinforced aluminium structure combines durability and elegance, while the four-position adjustable backrest adapts to every moment of rest. The replaceable foldable fabric design make everyday use easy, and the integrated cushion adds an extra touch of well-being and sophistication.

MOSAIC DECORATIVE PANEL

It combines contemporary design and technical performance. Made from 100% recyclable polypropylene with anti-UV treatment, it has a wide range of fixing accessories to ensure resistance and stability. Its modular structure allows you to create enclosures, dividers or cladding with an elegant aesthetic in outdoor and indoor projects.

DECOPLANT

Professional range of artificial plants designed for indoor and outdoor installations, made with high-density polymers and anti-UV treatment. They offer great durability and fade resistance. Solutions with high decorative impact and minimal maintenance.

PRESERVED PLANTS

A collection of preserved plants of 100% natural origin, they undergo a preservation process that guarantees prolonged structural and colour stability. Suitable for indoor installations without water input or maintenance, it provides high durability and a real organic finish, ideal for contract and hospitality projects.

MOSAIC

The Mosaic decorative panel can be used in different ways. Placed horizontally or vertically, directly on the ground or on a wall, this panel adapts perfectly to the elements and is very resilient.

ANGUS BULL BBQ

Includes 4 powerful 76 cm cast stainless steel burners (with a lifetime warranty), a 15,000 BTU infra-red rear burner with included rotary rotisserie kit and 304 quality stainless steel construction. This barbecue set with cart has space to prepare food and great storage for utensils and the gas bottle.

SPAS & BATH
CONCEPTS

NORTENE ARTIFICIAL GRASS

The Nortene range of artificial grass offers solutions for every need: from premium grasses of maximum softness and comfort, 100% recycled models with memory effect or standard options ideal for temporary spaces.

PARIS LINE SAUNA

Made from American walnut, the PARIS line of saunas is fitted with a 7.5kw Tulikivi heater, a fully glass front, black hinges and pull handles, infra-red screens, RGB salt wall, sand hourglass, shovel and bucket, a thermo-hygrometer and wooden headboard. CUBIC exterior finish with tropical Iroko wood and Ecotouch control panel. Dimensions: 235x210x220 cm.

BRISA

BRISA by Isensi is here to revolutionise wellness in the World of Hotel & Wellness. An immersive sensory cabin that combines hydrotherapy, chromotherapy, aromatherapy and music therapy, creating a unique multi-sensory experience capable of transforming any space into an exclusive wellness ritual.

THE BRASS MONKEY PRO ICE BATH

Powerful. Affordable. Compact. In a colour that suits your space. Take your wellness and recovery experience to the next level with an ice tub designed for professional use.

APOLO 10 SPA

The Apolo 10 SPA is a 10-seater infinity spa made of a single piece of stainless steel and a satin finish. Each seat has a combination of two types of massages: a water jet massage and an air massage, to provide the best well-being to the user. It is fitted with two powerful LED projectors and an elegant grille finished with synthetic wood is optionally available. It is designed to be recessed into the floor as it does not have an external fairing. It has hydraulic pre-installation ready to connect to the technical room or filtration kit.

CORE SOFA

Made in Spain with solid iroko wood treated to withstand the elements, the Core sofa stands out for its sober lines, generous proportions and hand-crafted finishes. Designed for the contract channel and high-end residential projects, Core allows you to create tailor-made compositions thanks to its modular design: linear sofas, corner sofas, chaise longues or open lounges. The cushions made with high-end technical fabrics, available in natural and neutral tones; they are removable and resistant to sun, moisture and wear.

AMBIAZZA

COMO 4-180 SAUNA

The Como 4-180 is the flagship of the indoor sauna series: the largest model, created for those who value both space and company. With its design of facing benches for up to four people, it turns every sauna session into a social ritual, where conversation and relaxation flow naturally.

Made with elegant Thermowood® walls.

DREAM YACHT

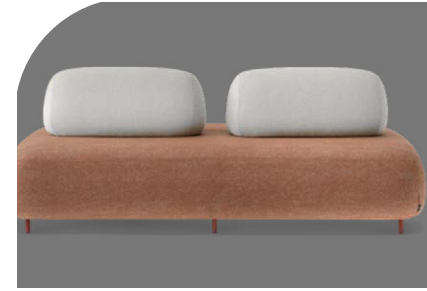

A free-standing outdoor shower made from AISI 316L marine stainless steel, the same material used in marine vessel accessories. Its monolithic structure, fully welded, is hand-polished to a mirror finish, offering unparalleled durability and unmistakable Italian elegance. Equipped with a rain shower head with anti-limescale system and an optional footbath, the Dream Yacht is designed to enhance wellness experiences in luxurious outdoor environments.

ZEUS SPA

The Zeus spa has 7 seats and is made of a piece of satin stainless steel AISI-316L with a thickness of 2 mm. It has 2 body hydromassage beds, padded headrests and 5 seats with hydromassage on the back and legs.

Dimensions: 419 x 221 x 104 cm.

BUDDY OASIS

An exterior decoration solution that combines the solidity of the seat with the lightness of the frame. Its polyurethane foam seat and aluminium legs have a waterproof and removable cover. It can be easily transformed into a sofa by adding a movable foam backrest.

AMPHORA 01

It combines craftsmanship and Mediterranean design. Handwoven in synthetic wicker, its shape inspired by ancient amphorae emits a warm and enveloping light. Thanks to its resistant structure, it is ideal for both outdoors and indoors. Designed by Joana Bover, it reflects the artisanal and elegant essence of the Barcelona brand.

BABILA OUTDOOR TABLE

It has Ø50 mm steel tube legs combined with a square, round or rectangular outer top, supported by an extruded aluminium frame.

PIETRO GOLDEN

Pietro Golden's new 2 cm format expands the versatility of an iconic Rosa Gres collection. It allows dry installation on plots, grass, sand or gravel, and also on cement. With a breaking force of over 8,000 N, it guarantees exceptional and long-lasting performance. Ideal to combine with steps and the BR6/BR9 crown.

ISLAND TRIANGLE BEAN BAG

A modern reinterpretation of the classic triangular outdoor design exteriors. Its minimalist aesthetic and geometric shape suit beaches, swimming pools, terraces or lounge areas. Made with technical fabrics for outdoor use, it is lightweight, water and sun-resistant, and guarantees great durability. The EPS foam padding offers comfort and versatility. Its design makes it easy to transport and has multiple uses: as an independent seat, auxiliary module or chill-out corner. Available in natural and vibrant colours, it combines functionality, style and comfort with the brand's Mediterranean spirit.

ELIOS SIDE-MOUNTED SUNSHADE

A shade system designed to offer maximum coverage without a central mast, ideal for poolside, chill-out or sophisticated contract outdoor areas. Its aluminium structure with a wood finish, made in Spain by Ambiazza, combines lightness, weather resistance and warm aesthetics. With a coverage of 4x4 m and 360° rotation, it is assembled with 8 reinforced rods and a robust mast that ensures total stability in outdoor use. The technical fabric is resistant to UV radiation, moisture and wear.

BABILA TWIST CHAIR

The Babila Twist chair by Pedrali stands out for the harmony between straight and curved lines, inspired by human forms. Its steel structure combines with a seat woven in weather-resistant polypropylene rope. Includes a cushion padded with draining foam and upholstered in outdoor fabric. Designed for comfort, durability and easy recycling of its components.

ICONIC PAVING STONES

The most Iconic flooring collection of Prêt-à-porter by Rosa Gres: minimalist, functional, timeless and combinable. Two essential colours, Iconic White and Iconic Grey. Three basic shades that fit in all styles: urban, contemporary, industrial, sophisticated, cool, cosy, chic or casual. It transmits: versatility, lightness, elegance, avant-garde, comfort and design. Ideal for indoor and outdoor use.

ROSA
GRES

CAEMENTUM

It combines sturdiness and elegance through a monobloc cement shape. Its composition includes additives that improve durability, cleaning and protection against stains and temperature changes. It has a hollow base and nylon foot to facilitate movement and protect surfaces. Designed to adapt to outdoor and contract spaces, providing functionality and style.

BALINESE BED

Made of pine, it is a piece of outdoor furniture designed for demanding contract environments such as pool areas, beach clubs and chill-out spaces. Its robust and elegant structure can withstand adverse weather conditions. Fitted with a mattress and independent reclining backrests. The mixed fabric combines Marine (leather-like upper) and Textilene (ventilated and moisture-resistant base), guaranteeing comfort, UV resistance and waterproofing. It also includes an acrylic ceiling with fastening straps and eight acrylic curtains with Velcro.

CUBINA
HOME • CONTRACT • LIGHTING

ONVA

TK-T60 SUN LOUNGER

It combines elegance, comfort and durability to create ideal furniture for outdoor environments such as swimming pools, terraces, hotels or residences. Made of high-quality teak, it stands out for its natural golden hue and its smooth texture. The backrest reclines in multiple positions and the model is stackable, which facilitates its storage and management in contract environments. The cushion, in marine fabric, is made of a technical material that is waterproof and resistant to UV rays, fireproof and has undergone antibacterial and anti fungal treatment.

ONVA

RESOLDREN®

A tested and guaranteed system that consists of the combination of natural marbles and quartz sourced in Spain, meticulously washed and dried, together with resins specially manufactured for making the stone carpet. The result is a continuous, durable flooring of high aesthetic value.

ResolPro®

4.2 IN-CABIN TREATMENTS LIVE LUXURY SENSORY RITUALS AND TREATMENTS

The space had treatment cabins that offered live experiences with renowned natural and luxury cosmetics firms.

LE SOIN LUMIÈRE

LE SOIN LUMIÈRE is formulated with powerful formulas rich in Vitamin C that restore and enhance the skin's natural glow. Ideal for revitalizing dull and tired skin, and showing off a radiant complexion.

SCENS
ORGANIC & VEGAN

THE NEW LANGUAGE OF LUXURY IN SPAS AND CENTRES

Based on psychodermatology, its philosophy combines stress reduction with the most advanced active ingredients, from exosomes to peptides. It features a transformative 30-minute journey: neuro cosmetics, Kobido massage, Tibetan sound, and sensory rituals that deliver visible results and deep well-being.

DAFNA'S

VIBRATIONAL BEAUTY BALM

A new formula that combines the science of deep nourishing regeneration with the vibrational power of oils and essences, selected for their ability to resonate with living tissues and promote the skin's electromagnetic coherence. With a fondant and velvety texture, this talisman-balm co-created with Mery Escuin is the nourishing and energetic base for Lamixtura's facial massage rituals.

Lamixtura
Natural Skincare

REJUVENATING FACE TREATMENT

Exclusive facial treatment that restores firmness, luminosity and vitality to the skin. Includes lymphatic massage, deep cleansing and rejuvenating mask with Gua Sha technique to release tension. Ultrasound enhances the action of the active ingredients and the tightening effect. Finish with personalised care and Golden Glow Body Oil, leaving skin radiant, even, and visibly rejuvenated.

TEAM D^R JOSEPH

DETOX & ENERGIZING TREATMENT

Detox and energising treatment that purifies, revitalises and restores the face's energy and youth. Personalised cleansing and exfoliation activate cell renewal.

REVIDERM

THE ESSENCE OF MAISON OLER

Maison Oler perfumed the space with its premium scents to create a unique sensory atmosphere. Made with refined scents, its diffusers elevate any environment with sophisticated and long-lasting fragrances.

MAISON
OLER

5. INNOVATION ZONE THE MOST INNOVATIVE SOLUTIONS

This space, divided into two areas, brought together highly innovative solutions in a location beside the main entrance, guaranteeing a high influx of visitors.

WHAT'S NEW GALLERY

The innovations presented, aligned with the digitalisation of the sector, incorporated artificial intelligence to automate maintenance, improve sustainability and energy efficiency, reduce the consumption of water and chemical products and offer better wellness experiences.

In addition, a space was devoted to exhibiting the winners and finalists of the Piscina Barcelona Awards, which acknowledge the investment in RDI by companies in the sector.

THE NEW GENERATION (NG) OF VARIABLE-SPEED PUMPS

The pump can be controlled with a simple Bluetooth application: on/off, low, medium and high speeds; two filtration programs by default. In addition, it can be upgraded with a TFT or touch screen that is purchased separately and can be mounted directly on the pump replacing the dummy screen or on the wall. Maximum control is achieved by connecting the pump to the salt chlorinator. The pump and other devices can be controlled directly with the display of a compatible chlorinator.

POOL TIGER

Water purifier for pools and spas. A natural solution for perfect pools. Reduces chlorine and chemicals by 85%, protects equipment and prevents limescale. Fast installation, no maintenance. To enjoy crystal-clear water and sustainability.

KERAMIKOS GREY 2 GREEN

Transforms grey water from showers and baths into a new, useful and safe resource. Its ceramic ultrafiltration with AI allows the recovery of up to 99.9% of grey water, with yields from 7,000 L/day. The ceramic membranes do not require replacement, ensuring a long service life and minimal maintenance. Physical treatment with residual disinfection produces water free of odours, biofilm and microorganisms, ready to be reused in irrigation or washing. Optionally, you can incorporate a heat exchanger to take advantage of the thermal energy of the recovered water.

IGARDEN POOL CLEANER M1 SERIES

First robot cleaner with dual 3D vision and 20 hours of autonomy.

- Ultra-long endurance
- Twin-pump turbo suction
- One-touch smart return

BLUE CONNECT GOLD

It continuously and automatically measures key water parameters, ensuring optimal quality and easy maintenance. Thanks to its smart technology, it reports in real time on temperature, pH, ORP and salinity, helping to maintain the perfect water balance. With the Fluidra Pool® app, you can receive alerts and personalised advice directly to your smartphone.

MR. SILENCE 30+

Heat pump.

- COP of up to 30
- 30 times quieter
- 300 times more natural

VACUUM MHV20

The MHV 20 is a compact, lightweight vacuum cleaner designed to precisely clean right where it's needed. Its cordless operation offers total freedom of movement, facilitating quick cleaning of specific areas of the pool. Powerful, practical and ergonomic, it combines performance and simplicity for effortless maintenance.

INVER-MAX POOL HEAT PUMP

The INVER-MAX pool heat pump is the industry's first model with AI Smart Grid Technology, which redefines smart connectivity and energy optimization. It combines AI algorithms with fully inverter operation to maximise efficiency and minimise costs.

FREEDOM LITE

The cordless pool cleaner for your pool. Wireless robot with high-performance Lithium-Ion battery that cleans the bottom, walls and waterline with total autonomy. Its dual-level filtration and smart sensors ensure deep and effective cleaning. Lightweight, easy to use and controllable from the Fluidra Pool® app, it offers up to two and a half hours of cleaning without cables or complications.

AIPER SCUBA N3

Aiper Scuba N3 redefines effortless pool care thanks to its AI Vision, which accurately detects detritus for smarter cleaning. Thanks to its AI Pilot cleaning mode, you can monitor weather conditions and automatically adjust your cleaning schedule. Weighing just 7.5 kg, it's easy to lift, and its one-button operation makes cleaning much easier. Powered by an 18,150LPH brushless motor, it ensures the pool is always clean with minimal effort for users.

PHNIX ENERGY PAD

Designed for efficient operation and energy-saving innovation in pool heat pump systems. It can control up to 32 units simultaneously. Energy efficiency: Thanks to its advanced smart control, the system achieves an average COP of over 14, which translates into savings of up to 25% on the electricity bill. Auto-rotation: Intelligent load balancing distributes the workload evenly across all units, extending the life of each item of equipment.

BEATBOT AQUASENSE 2 ULTRA

The world's first 5-in-1 pool cleaner with artificial intelligence. It is the only robotic pool cleaner that integrates a multi-sensor fusion with AI camera, ultrasonic and infra-red sensors. It offers professional-level pool cleaning, combining the innovative HybridSense AI smart mapping system with 5-in-1 functionality, as it perfectly combines surface, waterline and floor cleaning, with wall scrubbing and water clarification, all in one powerful piece of kit.

ELITE CONNECT CELLGUARD®

State-of-the-art salt chlorinator that disinfects the water and centralises control of the entire pool. Thanks to CellGuard® technology, it offers up to 18,000 hours of life and consistent performance with minimal maintenance. Its integrated Wi-Fi and Bluetooth connectivity allows you to manage all the equipment from the Fluidra Pool® app or its touch screen. Elite Connect Cellguard®: maximum efficiency, total control and always perfect water.

MR. NATURE AOP POOL TREATMENT

- 24x disinfection, removes 99.99% instantly
- Fast recovery, continuous fun
- Purity for flowers and nature

S2SOLARVISION

High-performance pool floor cleaner robot, designed to clean floor, walls and waterline in just 2.5 hours. Equipped with a triple motor and lithium-ion battery, it offers a power of 90W and a flow rate of 14 m³/h. Its filtration system combines a 180µm basket with HEPA filter for deep cleaning. It incorporates advanced sensors and is easily controlled from the mobile app via Bluetooth or Wi-Fi. In addition, it includes Eco mode, weekly timer and OTA updates for always optimised maintenance.

IGARDEN SWIM JET X SERIES

- Battery-powered portable swimming current maker, with up to four hours of continuous use.
- InverTurbo Tech
 - 5 Wave Modes
 - Ultraportable

WYBOT S3

The world's first robotic pool cleaner to incorporate underwater 3D mapping technology to build a detailed three-dimensional map of the pool, ensuring complete coverage without leaving areas uncleaned. Real-time path tracking allows users to monitor the robot's progress and cleaning path at all times. The waste collection system automatically transfers the collected dirt to an external container on the floor at the end of the process, eliminating the need for manual intervention. Even during extended absences, such as holidays, the robot keeps the pool in pristine condition.

FAIRLAND XP23

- Eco-friendly heat pump (R290) with very high efficiency.
- Maximum energy efficiency COP 30
 - 130% TurboSilence
 - AIoT Intelligence & Connectivity

INVERMAX

3 HP pool pump with inverter, with up to 10 times more energy efficiency and 20 times more silence.

BWT DIAMOND CELL

The art of sparkling pool water. A revolutionary innovation in pool robotics and water treatment, designed exclusively for our Prestige Line.

R290 I-GREENLINE ULTRA POOL HEAT PUMPS

Premium pool heating solution that combines AI Full Inverter technology with R290 ecological coolant. With one of the most advanced high-end inverter heat pumps for swimming pools, it offers ultra-high efficiency, ultra-low noise level and ultra-stable performance, setting a new benchmark in luxury pool heating systems.

FILTRO CLARISAVE

Sustainable and efficient cartridge filter that offers effective and eco-friendly filtration, capturing particles up to 20 microns to keep the water always crystal clear. Its intelligent design reduces water consumption and extends cartridge life by up to 20%. Lightweight, resistant and easy to install, it is the ideal choice for those looking for performance and sustainability in the care of their pool.

4 INCH MATTER HMI

Psicontrol has extensive experience in the development of electronics for the HVAC market. This makes them an ideal partner to make their products compatible with the technologies of the future thanks to Matter, the new standard in communication between smart home devices. Their focus? The development and serial production of personalised, safe, integrated and connected controllers. The Matter human-machine interface (HMI) from 4inc is a sample of this competence.

BSMART

Remote pool control system by means of Wi-Fi and Bluetooth. It allows for comprehensive management of the entire pool and its peripherals. Compatible with all water treatment systems, regardless of make or model. Probably the most versatile home automation solution on the market.

SKIMMER X-PRO 600

Pool skimmer with mirror effect, perfect integration into the design and stylised 600 mm mouth. It recovers 99.9% of grey water, optimising maintenance and efficiency.

REPOSPPOOL PLUSV

Single-stage variable speed centrifugal pump designed for water recirculation and filtration, specially designed for the aftermarket. Its design with variable dimensions allows easy integration into existing installations, even those with pumps from other brands. This versatility facilitates replacement without the need to modify the original infrastructure, optimizing installation times and costs.

BWT F1SONIC PLUS

Pool robot that offers optimal performance thanks to its direct electrical power. The modern radar system ensures that the robot systematically scans and cleans each area of the pool, achieving maximum efficiency. Even when the pool is not used for an extended period, it keeps it clean through automatic cleaning cycles. Thanks to modern Wi-Fi integration, it offers maximum convenience. The app allows for quick and intuitive control. The robot can also be easily operated manually using joystick mode, ideal for quickly cleaning specific areas of the pool.

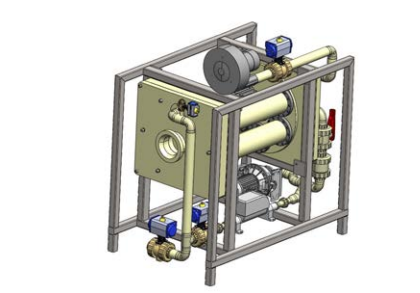

ECOSURFER SENTI

The world's first smart solar skimmer, integrating machine vision, autonomous waste capture and real-time digital water analysis.

LA KASETA

Prefabricated self-assembly shed, designed to protect and organise pool purification systems.

AUTO MICROFILTRATION WITH AI

It uses an AI algorithm to count the number of people in the pool and adjust the flow, frequency of washes, and water and air renewal.

BWT MODULAR SALT ELECTROLYSIS SYSTEM

It meets the practical requirements of modern pool water treatment. Its intuitive touchscreen allows for easy operation, while remote access via the BWT Home app ensures constant connectivity. Designed for maximum adaptability, this system can be expanded with optional components such as a sensor block, metering pump, and I/O box. The cell assembly can be easily opened for cleaning and completely replaced when necessary. The electrodes are recyclable and can be recoated to extend their service life.

IGARDEN CENTRAL CONTROL

Seamless by AI: One ecosystem, control with no interruptions. Savings by AI: Total comfort, minimum waste of energy. Activated by AI: Just speak and it responds.

KOLOS COLLECTION: DELOS (BLUE) AND ZEPHIR (WHITE)

KOLOS is a PVC membrane designed for public and commercial swimming pools. With a thickness of 1.5 mm, these membranes redefine durability and strength, offering a reliable solution that balances strength and long-lasting appeal. KOLOS membranes integrate 40% recycled material (certified by RecyClass), combining sustainability with exceptional performance. With a 20-year waterproofing warranty and 5-year stain protection.

6. SEMINARS AND ACTIVITIES

A programme of more than 30 activities on digital transformation, sustainability, sector regulation, landscaping and hotel investment.

Piscina Barcelona hosted various talks and technical seminars aimed at updating professionals and debating issues related to regulations and legislation in the design and construction of aquatic facilities, emerging technologies applied to swimming pools to improve sustainability and efficiency, or conferences on landscaping and outdoor design.

30+
TALKS AND
TECHNICAL SEMINARS

121 SPEAKERS

Piscina Barcelona is an essential trade show for professionals in the sector. It allows you to learn about news and trends, interact with collaborators and listen to international experiences. It is a meeting and learning space that inspires innovative ideas and helps to improve our projects in design, wellness and swimming pools.

Caroline Pereira
Landscape architect at Jardins Tramuntana

6.1 ONE-DAY SEMINAR: MÉXICO DAY

OPENING THE GATES TO A GROWING MARKET

Piscina Barcelona was the showcase of an exclusive one-day seminar focused on the most innovative projects in Mexico and the top business opportunities in Mexico in swimming pools, wellness and outdoor spaces.

Mexico Day Institutional Opening

- Eloi Planes, Chairman - Salón Piscina Barcelona
- Hon. Mr. Alfonso Navarro, Consul in Charge - Consulate of Mexico in Barcelona

Success story: Mexico as a market of international opportunity

- Patricia Abreu, Commercial Director - Association of Swimming Pool Professionals of Mexico (APP)

Success story: Hotel Grand Fiesta Americana Cozumel Remodelling Project

- Víctor García Luna, Deputy Director of Engineering and Human Safety - Grupo Posadas

Sustainability project of the Coyoacán Aquatic Centre

- Alejandro Pizarro, President - Association of Swimming Pool Professionals of Mexico (APP)

Access to the videos of the projects

6.2 ONE-DAY SEMINAR: ANDALUCÍA DAY

THE REGION THAT IS POSITIONING ITSELF AS A LEADER IN INNOVATION AND EXCELLENCE AT THE INTERNATIONAL LEVEL

Andalusia, accompanied by its companies and institutions, presented the new projects and investments aimed at the construction of aquatic facilities, wellness centres and hotel complexes.

Andalusia, a region of opportunity

- Adrià Llacuna, Project Manager - Market AAD

The swimming pool industry in Andalusia: innovation and future trends

- Agustí Ferrer, Chief Executive Officer - ASOFAP

Aqualand Torremolinos project, a point of reference for water leisure on the Costa del Sol

- Antonio Díaz Bonilla, Market Manager of Swimming Pools - Baeza

Hotel Kimpton los Monteros, a leading international project in its wellness-outdoor proposal for the hotel trade

- Marcos Merino, Project Manager - The Creative Team

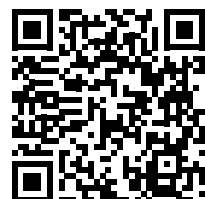

Closing round table: the role of the swimming pool in the future of the region

Moderator: • Adrià Llacuna, Project Manager - Market AAD

Speakers:

- Antonio Díaz Bonilla, Market Manager of Swimming Pools - Baeza
- Marcos Merino, Project Manager - The Creative Team

Access to the videos of the projects

6.3 ONE-DAY SEMINAR: CUSHMAN & WAKEFIELD HOSPITALITY

THE WORLD OF SWIMMING POOLS, WELLNESS AND OUTDOOR IN THE HOTEL INDUSTRY, MANAGERS AND INVESTORS' VISION

Cushman & Wakefield Hospitality (CWH), the specialist hotel division of the leading global consultancy, conducted a high-level meeting between hotel managers and investors to analyse and anticipate how aquatic facilities and wellness spaces will continue to generate value in the hotels of the future.

Organised by:
Cushman & Wakefield

Pools, wellness and outdoor: what hotel owners need and value

Moderator:
• Bruno Hallé, partner co-head of Hospitality at Cushman & Wakefield

Speakers:

- José María Rosell, CEO - Senator Hotels & Resorts
- Meritxell Vilella, Head of Marketing - Aqua Hotel Group
- Francisco Javier García Cuenca, Vice-chairman - Magic Hotel Group

Bruno Hallé interviews Carlos Barrau

- Bruno Hallé, partner co-head of Hospitality at Cushman & Wakefield
- Carlos Barrau, Head of Asset Management - Hotel Investment Partners (HIP)

Wavegarden: total leisure

Moderator:

- Bruno Hallé, partner co-head of Hospitality at Cushman & Wakefield
- Speaker:
- Coro Odriozola, CFO - Wavegarden

6.4 ONE-DAY SEMINAR: 7th INTERNATIONAL CORPORATE MEET-UP HOSPITALITY DESIGN & WELLNESS

LATIN AMERICA, THE CARRIBEAN, EUROPE AND THE MIDDLE EAST

The Meeting brought together buyers and decision makers from Latin America, Europe and the Middle East to share projects, needs and trends in the design of aquatic spaces and wellness.

Since its first edition, this initiative has proven to be an effective platform to put supply and demand in these markets in contact through the exchange of information and business meetings.

Presentation of the VII Latin America/Caribbean, Europe and Middle East Business Meeting

- Angel Celorio, Director of Piscina Barcelona
- David Cámara, organiser - Hospitality Design & Wellness Corporate Meet-up

Trends, the current situation and prospects of the wellness market internationally

- Jennifer Findlay, Founder & CEO – Core Essence

A shared vision from the Middle East. Current situation, perspectives, challenges and opportunities.

- Elias Maalouf, Assistant Vice President - Technical Services – Dusit Hotels
- Paul Aychouh, Head of Engineering – Kempinski Hotels
- Carolina Darocas, Founder and director – Carolina Darocas Design
- Thorsten Muck, Head of Pool Sales – Fluidra

A shared vision from Latin America/the Caribbean. Current situation, prospects, challenges and opportunities

Pedro Velasco. Architect, General Manager and Founder of MAAT HANDASA

- Gonzalo Pérez, Executive Project Director – Puerto Los Cabos
- Vanessa Ortega, Project Manager – Sordo Madaleno
- Andrés Benito, Head of Contracts – Onix Mosaico

The view from Europe. Business experience

- Javier Muñoz, CEO & Founder – We Are Furtivo
- Deborah Laggiard, Interior design architect – Stylt Trampoli
- Alessia Anguzza, Project Manager – HCP Arquitectos
- Gabriel López López, Architect – Carolina Darocas Design

6.5 SIDE EVENTS BOOSTING THE SHOW'S MOMENTUM

Among the numerous side events, the show hosted the third edition of Pool Horizons, a global forum for strategic reflection on the role of swimming pools in society, and hosted the XIII Barcelona International Landscape Biennial, with the focus on landscape as a key tool in the face of climate change.

XIII BARCELONA INTERNATIONAL LANDSCAPE BIENNIAL

One of the new aspects of the previous edition was the show's focus on the outdoor sector, which connects directly with the design of outdoor spaces and landscaping. For this reason, Piscina Barcelona hosted two sessions of the XIII Barcelona International Landscape Biennial, promoted by the Association of Architects of Catalonia and the Universitat Politècnica de Catalunya, which brought together international leaders in landscape design and architecture to reflect on methodologies and current challenges in landscape intervention.

Organised by:

THE FUTURE OF PUBLIC POOLS: REGULATION, SUSTAINABILITY AND NEW CHALLENGES

A one-day seminar on regulation, sustainability and new regulatory, technical and management challenges for swimming pools for public use. Representatives of the Generalitat de Catalunya and the companies Action Waterscapes and SiSSWA participated in the discussion.

Organised by:

TECHNICAL SEMINAR ON THE SMART USE OF WATER IN LANDSCAPING PROJECTS

The talk given by the renowned landscape designer Henri Bava, founder of Agence TER, was a highlight. In addition, it included brief presentations by professional experts who presented high-impact projects linked to water saving and biodiversity in urban gardening.

Organised by:

COFFEE AND NETWORKING EVENT OF THE POOL AND SPAS INDUSTRY WOMENS' NETWORK

Another outstanding networking event was organised by the Women's Network in the Pool and Spa Industry, which aims to support women in the industry through mentoring, networking and community building.

Organised by:

TALENT MARKETPLACE

A recruitment space that connected exhibiting companies with people actively looking for employment in the industry. This initiative facilitated interviews and first contacts in situ, with the support of Barcelona Activa in profiling, pre-selection of applications and organisation.

Organised by:

SEMINARS ON DIGITAL TRANSFORMATION AND SOCIAL IMPACT ON POOLS

In these events there were discussions about how emerging technologies such as artificial intelligence, digital twins and gamification are optimising the management of aquatic facilities and improving the user experience.

Organised by:

2025 POOL SECTORAL BAROMETER IN SPAIN

Coinciding with the show, the 2025 Swimming Pool Segment Barometer in Spain was presented, prepared by ASOFAP, with the main financial results, market trends and growth prospects for the industry.

Organised by:

2025 EUSA AWARDS

On 18 November, the show hosted the EUSA 2025 Awards for the best residential swimming pools in Europe. These awards are organised by the European business federation of the industry.

INNOVATIVE SOLUTIONS FOR THE OUTER PART OF POOLS: THE POTENTIAL OF BAMBOO

This event was devoted to sustainable and high-performance materials for the pool environment. The talk featured two speakers who provided a complementary vision, technical and practical, on the use of bamboo as a constructive and decorative solution for exteriors.

Organised by:

POOL MAINTENANCE PROFESSIONAL CERTIFICATE

ASOFAP also offered an information session on obtaining the Professional Certificate in Pool Maintenance, mandatory in Spain from January 2026.

Organised by:

SPORTS HIGH-PERFORMANCE POOLS OF THE SIERRA NEVADA CAR AND MADRID CAR (HIGH-PERFORMANCE CENTRE)

High performance sports had their space in the show with a session on the pools of the high-performance centres [CARs, initials in Spanish] of Sierra Nevada and Madrid, conceived as training laboratories.

Organised by:

THE OPPORTUNITY OF RAINWATER USE SYSTEMS TO OPTIMISE WATER CONSUMPTION FOR POOLS

In this event, organised by ASOFAP, the potential of rainwater harvesting systems was presented to offer a further step in optimising pool water consumption and the applicable legal framework to install them correctly.

Organised by:

7. PREMIOS PISCINA BARCELONA AN ACKNOWLEDGEMENT OF THE MOST INNOVATIVE PROJECTS IN THE INDUSTRY

Piscina Barcelona organised the presentation of several sectoral awards to reflect the innovation and excellence that drives the pool, wellness and outdoor industry.

Each award valued proposals that stood out for their creativity, impact and commitment to the environment.

SPECIAL RECOGNITIONS

During the ceremony, two honorary distinctions were awarded.

- The first, to Hayward, which celebrated its centenary as a global manufacturer of pool equipment and technologies.
- The second, a posthumous award, went to Joan Planes, founder of Fluidra and a key figure in the development of the swimming pool industry and the Piscina Barcelona show.

5,000 m2 spa in an incomparable setting, overlooking the Pyrenees, offering 5,000 m2 of wellness with swimming pools, saunas, relaxation areas and 17 treatment cabins. Its menu offers treatments for all tastes and needs.

Sport Hotel Hermitage & Spa

WELLNESS EXPERIENCE AWARDS

BEST SPA IBERIK GRAN BALNEARIO DE GUITIRIZ, GALICIA

Committed to health, well-being and sustainability, its proposal combines centuries-old thermal tradition with innovation in personalised experiences, promoting a healthy lifestyle in a unique natural environment.

IBERIK
HOTELS

WELLNESS EXPERIENCE AWARDS

BEST WELLNESS CLINIC ZEM WELLNESS CLINIC, ALTEA

Luxury wellness centre that combines medical clinic services with a comprehensive approach focused on holistic wellness for longevity, combining advanced medical science, ancestral wisdom, Mediterranean nutrition, and activities such as yoga and mindfulness.

WELLNESS EXPERIENCE AWARDS

SPECIAL JURY MENTION MARTA VALSECCHIV

The winner represents excellence in their commitment to people's comprehensive well-being.

OUTDOOR AWARDS

WINNER OF THE OUTDOOR DESIGN PRIZE CAN FARRÉS. LANDSCAPE AND MEMORY, FROM THE SCOB STUDIO

The project integrates architecture and landscape into the natural environment of Montserrat through a route that connects forests, farmhouses and a variety of outdoor and indoor spaces. It reinterprets traditional materials and techniques with sustainability criteria, using local resources such as stone, ceramics and recycled steel, and prioritising native vegetation. Each element is designed to dialogue with the territory, minimise the ecological impact and offer a serene, coherent and an experience that is deeply linked to the place.

INTERNATIONAL COMPETITION FOR STUDENTS OF ARCHITECTURE AND LANDSCAPING

FIRST PRIZE IMMERSIVE BIO-VIEWER 72 Max Hildebrand Jeffrey, from the Barcelona School of Architecture

He presented an aquatic centre integrated in the park, conceived as a source of life, health and social encounter. The design brought together architecture, nature and the city in perfect harmony, inspired by Gaudí's legacy.

SECOND PRIZE HORIZONTE TRENCADÍS Lara Jiménez González, from the School of Architecture of El Vallès

She conceived a sustainable aquatic centre that connected architecture, biodiversity and Art Nouveau tradition.

THIRD PRIZE AQUORA Borja Gosálbez Mulet, from the Master's degree programme in Landscape and Urban Development (School of Architecture Polytechnic University of Valencia)

It presented a tranquil bath space, inspired in the organic shapes of Gaudí. It integrated aquatic equipment and landscaping adapted to the Mediterranean environment, configuring the space from the watercourse.

WELLNESS EXPERIENCE AWARDS

THE TOP WELLNESS DESTINATION PUERTO DE LA CRUZ, TENERIFE

Puerto de la Cruz, north of Tenerife, in the Canary Islands, Spain, was the cradle of Canarian tourism in 1886 as a health and wellness destination to welcome sick tourists. It was also the first Spanish tourist resort with European reach. Today, it is a popular tourist destination known for its exceptional climate, gardens, black sand beaches, and natural pools.

WELLNESS EXPERIENCE AWARDS

SPECIAL JURY MENTION JAVIER FERNÁNDEZ ANDRINO

The winner represents excellence in strategic leadership applied to the wellness segment and premium experience.

8. OUTDOOR POOL PARTY THE POOL TRADE PARTY

For the night of 18 November, Piscina Barcelona staged a one-off event, an **exclusive party** overlooking the sea at the iconic Bastian Beach Barcelona. An exclusive meet-up of professionals in a relaxed atmosphere, with a show, great music and an excellent dinner.

350 trade professionals, including exhibiting companies, buyers, speakers, the media and partners.

9. TOWARDS ZERO IMPACT INITIATIVE

PISCINA BARCELONA AND ITS STRONG COMMITMENT TO WASTE REDUCTION AND EFFICIENT USE OF RESOURCES

In line with the values it endorses, Piscina Barcelona also applied sustainability criteria in the organisation of the event. In the last edition, the commitment materialised in the following aspects:

FILLING POOLS AND SPAS

Thanks to an agreement with the Institut Barcelona Esports (IBE), the pools and spas exhibited at the show were filled with reused water from the outdoor pool of the Bernat Picornell Swimming Pools Municipal Sports Centre, which was returned at the end of the fair in optimal conditions.

GIFTS WITH SOCIAL VALUE

Piscina Barcelona partnered with the non-profit organisation Vinne Foundation, from which it bought the towels and tote bags that the VIP visitors received as gifts.

Sustainability Partners:

CALCULATING THE CARBON FOOTPRINT

The Plant for The Planet Foundation calculated the carbon footprint resulting from the transfer and use of water in the pools and spas of the show. Once the show was over, 500 trees were planted in Doñana Natural Park.

CIRCULAR ECONOMY

Piscina Barcelona implemented several actions to minimise waste and reuse materials and furniture. Koa Factory, in charge of the assembly of the show's common areas, used materials with low environmental impact and the materials of the common areas were reused and had a new life after the show.

9. ECOSYSTEM PERMANENT RELATIONSHIP WITH THE ENTIRE VALUE CHAIN

Piscina Barcelona, in addition to bringing together the main companies nationally and internationally, has the support of associations, entities and organisations related to the world of swimming pools, wellness and outdoor.

Between shows, it maintains its activity with a schedule of events and strategic participations in the main events of the sector, generating knowledge and promoting networking among professionals.
