

RULES OF ACCESS TO THE TRADE SHOW

Alimentaria FoodTech is the machinery, technology, and ingredients trade fair for the integrated food and beverages processing and preservation chain. It is an industry-wide trade fair tailored for the food and beverages production industry, from raw materials to commercial distribution.

In order to ensure an optimal professional relationship between those attending Alimentaria FoodTech, the attendees must be able to prove that they currently perform roles for commercial entities which buy, distribute, sell, or offer services to this industry.

For this reason, **Alimentaria FoodTech** will put in place an attendee screening process (both for registered professionals and guests); through this, the organization will be able to request the accreditation of the attendees' commercial activity. The purpose is to ensure that all attendees work and support this professional environment and comply with that set forth in these Rules of Access.

Registration badge for **Alimentaria FoodTech** implies the automatic acceptance of these rules of access and the cancellations and refunds policy of Fira de Barcelona:

- **Access to the Alimentaria FoodTech** trade fair is exclusively for professionals from machinery, technology, processing, and conservation of the food and beverage industry and its ancillary services.
- **Visitors under 18 years of age** (alone or accompanied) are not permitted.
- Notwithstanding the above, **professional exhibitor workers who are under 18 may enter the trade fair** in order to carry out their professional activity. However, the sale and consumption of alcohol to minors under the age of 18 is strictly prohibited.
- Exceptionally, and only while the event is being held, the organisation will allow the **access of breastfeeding women with babies of up to one (1) year of age**, in order to facilitate the work-life balance of women working in the sector.
- **Badges and Access Control.** The badge is individual and non-transferable for all attendees to access the venue. It will be obligatory to have the badge/entrance always available. In the event it is lost, the professional visitor/exhibitor must go to the registration front desk (with the corresponding identification) to have their visitor badge reprinted/resend. This visitor badge may also be reprinted on the Trade Show's official website, in the "Registered Users" section.
- **Alimentaria FoodTech** has an access control system with Anti-Passback technology, which prevents a badge from being used on more than one occasion to access the trade show venue without having previously left it. Any attempt of fraud shall result in the withdrawal of the said badge by the Organisers.

- **Verification of attendees' professional activity:**

- **Official identification.** For security reasons, attendees must always carry their official identification document with a photo (National ID Card or Passport), as well as the corresponding badge for the trade show.

At any time, the organization may carry out identity checks and will be able to request both visitors and exhibitors to show their required official identification. These checks may be carried out, among other cases, at the time of collecting the official badge, at the access controls to the fairground, and even inside the venue both during the assembly and dismantling phase and during the trade show days. If, after the relevant checks, the identity of the holder of the official badge does not match their identity document, the organisation reserves the right to withdraw the badge, and the said person must therefore leave the trade show venue immediately.

- **Professional activity.** The Organisation may at any time request documentation to demonstrate that professional visitors to the trade fair carry on their professional activity from machinery, technology, processing, and conservation of the food and beverage industry and its ancillary services. For this purpose, professional visitors may prove their commercial/professional activity using the following items, such as, but not limited to:
 - Business cards.
 - The company's Tax Identification Number (NIF) or their intra-community VAT number.
 - The Tax on Economic Activities, document accrediting the constitution of the company, and/or any other document demonstrating the activity within the sector.

- **Health & Safety Measures.** According to the recommendations and standards established by the World Health Organization and/or by the national authorities for the control of diseases with an infection risk, including epidemics and/or pandemics, all attendees agree to strictly comply with the protocols always implemented by the Organiser for the health and safety guarantee at its events. The protocols are accessible on the event's website as well as Fira de Barcelona: www.firabarcelona.com.

- **Miscellaneous**

- **Right of Admission.** The Organization reserves the right of admission of participants and may withdraw their accreditation for non-compliance with the Rules of Participation and the Rules of Access to the trade show, without reimbursement of the amounts paid for the badge purchase.
- **Street vending and distribution of unauthorised advertising** is not permitted. In the event of non-compliance, the Organisation may withdraw the badge, and the person affected must therefore leave the venue.
- **Access with animals is not permitted**, except as provided by law. The same applies to bicycles, skateboards, scooters, or similar.
- **Smoking is prohibited** inside the halls and in enclosed areas.

- **Limited capacity.** Access to the venue is conditioned according to visitor-capacity limits.

The processing of your personal data by Alimentaria Exhibitions S.L.U., as the organiser of Alimentaria FoodTech, will be carried out in strict compliance with the provisions of GDPR 679/2016 of 27th April and the Organic Law on the Protection of Personal Data and Guarantees of Digital Rights 3/2018 of 5th December.
