S (7 1/2), L (9), XL (9 1/2), XXL (10 1/2), L/18 = 46 cm. (9), LH (9)

Description

The Weldas **COMFOflex**® 10-2000 is a robust MIG/MAG and MMA welding glove designed for reliable heat protection and durability in demanding industrial environments. Made from premium high-quality split cow leather, the glove offers

strong resistance to heat, sparks and mechanical wear during heavy welding tasks. The shape “BUCKTAN WIDE BODY” enables easy and quick removal of the glove.

A **COMFOflex**® lining provides additional thermal insulation and wearer comfort while maintaining sufficient flexibility for controlled welding operations. The glove is sewn with heat-resistant **KEVLAR**® stitching and has reinforced thumb area, extending service life in high-stress zones commonly exposed during MIG/MAG and MMA welding.

The 10-2000 is a dependable, comfortable solution for professional welders who prioritize protection, durability and comfort over fine dexterity.

Features

- Designed for MIG/MAG and MMA welding applications
- Class A split cow leather used for durability and heat resistance
- **COMFOflex**® lining for added thermal comfort
- 4 and 5 ply **KEVLAR**® stitching for high heat and wear resistance
- Reinforced thumb for increased durability in high-wear areas
- Suitable for professional and industrial welding environments
- 95% welting for stitch protection
- Lining sewn into the fingers for improved comfort and easy donning
- Additionally available as Left Hand only (a pair of 2 left hand gloves size L)
- Also available in 46 cm length (size L).
