153	Gary Widdecombe	1		160	Steven Croker	0

The Q School 2025 Ranking List has been calculated by awarding 1 point for every frame won. All players who received a bye into Round 2 have been awarded 4 points for round 1. Players who have won the same number of frames are then ranked based on frames won in the 1st event and then frames won in the 2nd event. If still equal, players will be ranked based on the lowest number of frames lost over both events, and if still equal, based on the lowest number of frames lost in the 1st event and then the 2nd event. If still equal, players will be ranked based on the furthest round reached in the 1st event and then the furthest round reached in the second event, and if still equal by frame scores working backwards in the 1st event and then by frame scores working backwards in the 2nd event. This countback method has been applied to the first 65 players in the above ranking list and will be done on a case by case basis where necessary if the Top Up list is needed to determine further positions.
