HEAD COACH

It's great to welcome everyone back to Motspur Park for another FA Women's National League fixture.

WE'VE made a good start to life in the league, remaining unbeaten through our opening four games, but the most pleasing thing has been watching the group settle into this level and understand what's required of them. Every game has presented us with a different challenge and, so far, the players have responded really well.

We know there are no easy games in this league and Exeter City will provide another tough test. They have depth and quality throughout their squad, with players who can cause problems in different areas of the pitch, so we need to be switched

on from the start and make sure we play the game on our terms.

The important thing for us is to keep taking each game as it comes. We want to continue improving, keep learning and keep putting ourselves in a position to pick up points. Our start has given us a good foundation, but there's a long way to go and plenty more for this group to achieve.

A warm welcome to everyone from Exeter who has travelled to support their team. We hope you enjoy the afternoon with us.

And to our own supporters, thank you again for your fantastic backing. It means a lot to the players and staff, and we really appreciate you coming along to support us.

After the game, please remember to scan the QR code and vote for your Legend of the Match.👤

Thanks for being here and enjoy the game. COYW!
